SPECLAL NOTICE to customers desiring Seeds by Mail. All seeds from this catalogue ofiered in packets, ounces and 1-4 lbs. will be mailed free; but in quantities of $1-2 \mathrm{Ib}$. and upwavd, of one variety, postage, at the rate of 8 cts . per ponnd, must be added to the catalogue prices.

To Peas and Beans add at the rate of 15 ets. per quart, and to Corn, 10 cts. per quart. we have been obliged THE LARGE PRLNTED ORDER SHEEX that we sent out with ow catalogue last year, will, however, send to omit this season on account of this catalogue being so crest on application to all who desire them.
one or more copies of our printed order sheets for '93 on application to all who desire them.

HIS, the 1893 or Columbian Edition of our Catalogue of "Everything for the Garden," will be found to contain, perhaps, a greater number of new, interesting and valuable features than any one of its predecessors. These new features and changes are so numerous that we shall not attempt to detail them. In fact, we retain year after year such a large percentage of our old customers, to whom we naturally look for the great bulk of our trade, that it would be a needless task to point out the innovations. There are, however, two or three matters to which we desire to call special attention. The first is that in this Catalogue we have held to the same systematic arrangement of the departments as in previous issues; also our Index (second page of cover) is more complete than ever, so that by its aid, large as our Catalogue is, any article offered can be quickly found. The third is, and we request our old friends and patrons not to lose sight of it, that the prices for almost everything here offered are LOWER than at any time since this business was established, and want of space in this page prevents us giving the reasons that have brought about such a reduction in prices, but we shall be glad if every one, either an old patron or possibly new hands into which this Catalogue falls, will turn to page 2, and before making up their order read what we have to say about Lower Prices.

## America's Great Jubilee Year,

## Because of the universal celebration of the Four Hundredth Anpiversary of its Discovery.

Beginning in New York in October last, its celebration here, and since then in other cities of our land, has been conducted on lines broad, lofty and patriotic, and there is every reason to expect that our era of glorification will attain its supreme culmination in May, 1893, when Chicago throws her doors wide open and welcomes all mankind to the Wdorlo's Columbian Exposition.

Whilst the products of many other lands will there be seen, the World's Fair of 1893 will, after all, stand and be everywhere accepted as a grand epitome of the civilization and progress of the United States in this, the twilight of the nineteenth century.

In such an aggregation Peter Henderson \& Co. could scarcely be omitted, and by referring to the outline map on page 4 it will be seen that we have no less than seven distinct exhibits. When we state that for two years past we have been preparing for our exhibits, our friends who visit Chicago may reasonably expect to see a series of displays creditable to us from a business standpoint and not altogether unworthy, we trust, of the name and fame of PETER HENDERSON.

# When and How Peter Henderson \& Co. Fill Orders, Ship, etc. 

## WHEN WE EXECUTE ORDERS.

EVERY ORDER IS FILLED IMMEDIATELY on arrival, or is acknowl edged if, under rare circumstances, its shipment is likely to be delayed for a day or two. If goods, notification of shipment or acknowledgment of order is not received by the customer after a reasonable lapse of time, it may be assumed that the order has miscarried, or that the name or address was omitted from the order. We will, where notified of such a case, use our best efforts to trace it without delay.
We fill orders of all values from 10 cts . to $\$ 5,000$, and all, whether large or small, receive the same careful and prompt attention.

## WE MAIL SEEDS AND PLANTS.

We pay the postage on all seeds in packets, ounces and quarter-pounds purchased from this catalogue.
We only charge postage on bulk quantities, viz: : Customers will please add at the rate of 8 cts . per lb. to the catalogue prices for seeds purchased in quantities of $1 / 2 \mathrm{lb}$. and upward of one variety, and to the catalogue price of Peas and Beans add at the rate of 15 cts. per quart, and to Corn at the rate of 10 cts . per quart, to pay postage. We are obliged to require postage on the bulk quantities just mentioned, for we not only have an enormous counter trade, but a large proportion of our customers have their goods shipped by freight or express, consequently we could not, in equity, base our prices to include postage.

Plants by mail. All plants (with exceptions noted below) purchased from this catalogue and ordered to be sent by mail, will be sent post-paid, but in the absence of such instructions we invariably send them by express. A few plants cannot be sent by mail because they are too large, notably the larger sizes of Palms, Pandanus and other decorative plants offered on page 140, first size Roses of all kinds, large Rhododendrons and Magnolias, etc., etc.

About Packing and Shipping and No Charge Made.
We make no charge for packing, cases, baskets, packages or barrels, and pack as lightly as possible, consistent with safety, so as to reduce the cost of carriage. In fact, we assume extra expense in supplying light, strong cases, and, where possible, we pack in baskets covered with waterproof canvas, which greatly reduces weight.

Cloth bags only we charge for, and these at cost, viz. : 1 peck, $10 c . ; 1 / 2$ bush., $12 c . ; 1$ bush., $15 c . ; 2$ bush., 20c. All grass seed bags, excepting bags for Timothy and Clover, are furnished free. special packing of sceds for foreign shipments. We pack seeds, when necessary, in tin-lined cases or double sacks and charge for them at cost.

We make no charge for cartage or delivery of goods to any railroad station, steamship line or express office in New York City.
The safe arrival is guaranteed of all goods sent by express to any part of the United States or Canada. We ship plants at all seasons of the year, even in the coldest weather.
The advantage that we possess in shipping from New York is pronounced on account of the many different routes by which we can ship, and the consequent competition in speed and transportation rates, thereby securing for our customers quick delivery at the lowest cost. In most instances customers can get their goods more quickly and cheaply from us than when ordered nearer home.

## HAVE YOUR PLANTS SENT BY EXPRESS.

We urgently advise that plants be sent by express, because they arrive in better condition, and we can send larger plants. We pack very light to reduce the expressage to the minimum, and to encourage customers to have plants sent by express we will add enough plants gratis, of our selection, to generally more than equal the amount of expressage that the purchaser pays.

Correspondence, Advice, etc. We are always glad to give any information in our power to our customers on any subject pertaining to our business, but, to avoid error', this should always be written on separate paper to that used for orders.

All orders and letters on business should be addressed to the firm, Peter Henderson \& Co., 35 and 37 Cortlandt Street, New York. If the special attention of any member of our establishment is desired, by so stating in your letter or order we shall be pleased to refer it to the party mentioned. Envelopes andressed to special persons are frequently the cause of long delays, on account of absence or sickness.

Gardeners' and Farmers' Situations. We have at all times a number of good gardeners' and head-farmers' names on our books who are in want of situations. If parties desiring help of this kind will write to us we shall be glad to put them in communication. We make no charge for this service, either to employer or employee. Beware of Fraudulent Traveling Agents. Every season we have complaints from Retail buyers in different sections of the country of parties who solicit orders for seeds, plants, etc., in our name. We would here state that we employ no traveling

Practically all of our seeds are now put up in elegantly lithographed packets, showing the vegetable or flower represented in natural colors. The designs were painted true from nature by our own artist; the lithographing has been executed in the finest manner, each packet being really a work of art, as much superior to the colored packets usually sent out as are the seeds they contain. A full description and cultural directions are printed on the back of each.

## We Buy Novelties in Seeds.

It frequently happens that new or improved varieties are produced by accidental hybridization or long selection. Should any of our customers have something which they consider new or especially good in Vegetable, Farm or Flower Seeds, we shall be glad to have a few seeds for trial. When it proves to be new or of special merit we are always glad to purchase.

## OUR RED TRADE-MARK LABELL.

Every package, large or small, of vegetable seeds sent from our establishment is sealed with our Red Trade-Mark Label (copyrighted), and as our jobbing trade is supplied with our seeds sealed in this manner, you will consequently be perfectly justified in refusiag any packages of seed not bearing this trade-mark. We have been reluctantly forced to adopt this method for our mutual protection, as every season we have cases where unscrupulous dealers foist a cheap and inferior article on purchasers under the name of "Henderson's Seeds." Insist that erery package you buy bears our Red Trade-Mark Label, which we here illustrate.

Special Notice.- While we exercise the greatest care to have all Seeds, Plants and Bulbs pure and reliable, we do not give any warranty, express or implied. If the purchaser does not accept the goods on these conditions they must be returned at once, and the money that has been paid for same will be refunded.-P. $\boldsymbol{H}$ \& Co.

OUR CATALOGUES ARE MALLED FREE to all customers, without request, as soon as they are issued, and should be in our customers' hands not later than the following dates, viz. : Manual of Everything for the Garden (this book), - Jan. 15th. Farıners' Manual (Agricultural Seeds, Grass, Grain, etc.), Mar. 15th. Midsummer Catalogue (Strawberry, Celery and Cabbage

Plants, Seasonable Seeds, etc.),
), and Plants for Winter utumn Bulb Catalogue (Bulbs and Plants for Winter and Spring Flowering),

Sept. 15 th.
Upon notice from a registered customer of the non-receipt of any issue after the above dates, we shall be pleased to mail a duplicate, as catalogues are sometimes lost in transit.

trial groünos.
The central view shows our outside trial grounds. Here all the varieties of vegetable and flower seeds are grown to perfection, and progress of each sample is watched by experts day by day, and the slightest inferiorities in any of our atocks are thus at once detected. We believe that by this sys-
tem we throw more safeguards around our customthe trade, yet, despite all care,
crops will fail and seeds will crops will fail and seeds will
fail to germinate, from causes to guarantee seeds to invari. ably produce a perfect crop is while we arejustified quackery. and believing that the seeds we offer are unsurpassed in quality, still, for the reasons above given, we do not (and our em-
ployees also have strict orders never to do so), under any circumstances, guarantee or warrant seeds.

IF you wish to grow Vegetables for Sale, read Gardening for Profit. The personal success of its author during his long career as a market gardener, and the success of thousands from the time he first made his cultural methods known up to the present day, shows the popular estimation of the value set upon this great work. All over the land it opened up the market gardening interest, for it should be always remembered that this was the first work ever written on market gardening in this country. To the South alone its value is almost beyond computation, for the enormous trucking interests already there, and which are constantly on the increase, owe their birth entirely to, and subsequent development mainly to the teachings of Gardening for Profit. Written particularly for the Market Gardener and Truck Farmer, yet it is of equal value for large private gardens. The first edition of Gardening for Profit was published in 1866 ; it has been revised twice since, and its sale has been so large that up to this time 43 editions have been printed. The present edition was revised and greatly enlarged in the summer of 1886. Its scope has been greatly extended since the earlier editions were published. The varieties in vegetables recommended for market culture have also been carefully revised; so that what is now advised to plant are kinds in general use at this time.

# ERACICATIORICLTURE 

## By PETER HENDERSON.

IF you wish to become a Commercial Florist, then of all books you should procure Practical Floriculture. We have any number of complimentary letters from people who actually knew nothing of the florists' business, but who followed the instructions in this work and are now "full-fledged florists." And although written especially for the Commercial Florist, it is equally valuable to the amateur and all having conservatories, greenhouses, window gardens, etc. Practical Floriculture was first issued in 1868, has gone through many editions and had an enormous sale, and is admitted to be the leading American authority on this subject. This present edition of Practical Floriculture was greatly enlarged by Mr. Henderson in 1887, and revised to keep abreast of the times, as there are now many superior methods of propagation and culture of flowers and plants-and many improved varieties of plants-all of which have been fully treated in this new edition.

## CONTENTS

## (and

## By PETER HENDERSON.

THE original Handbook of Plants was issued in 1881; in this new edition all the new genera of importance are added. All botanical terms are given, and also a very full list of popular names, and all the generic names are accentuated. The natural system of arrangement is adopted in the descriptions instead of the Linnæan or artificial system; and a carefully compiled glossary of the technical terms used in describing plants. A monthly calendar of operations for the greenhouse and window garden, flower, fruit and kitchen garden, will undoubtedly render this edition valuable as a book of reference. Very full instructions are given for the culture and forcing of all Fruits, Flowers and Vegetables of importance; in short, there is sufficient matter given on all gardening subjects to allow this book to be termed The American Gardener's Dictionary. And it will be better adapted to the wants of American horticulturists than any of the more costly foreign works on gardening; for, though from a foreign standpoint these are all they claim to be, yet for our American climate much of the information, and especially the gardening instructions, are not only useless, but actually misleading.

About 5,000 genera of plants, alphabetically arranged, with their descriptions, individual histories, usefulness, hardiness, requirements, etc., and, where their importance justifies it, cultural instructions are given-Local, Popular or Common Names-Correct Pronunciation-Cultivation of principal Vegetables, Fruits and Flowers-Winter Forcing of Roses, Bulbs and other Plants used for Cut FlowersWinter Forcing of Vegetables and Fruits-Monthly Calendar of Garden Operations.

Annuals, Bedding and Borders, Bouquets, Budding, Cold Frames and Pits, Color in Flowers, Conservatory, Designs, Draining, Fertilizers, Fountains, Frozen Plants, in Flowers, Conservatory, Designs, Draining, Fertizers, Fountains, Frozen Plants, Gass and Glazing, Gratting, Grasses, Greenhouse, Hanging Baskets, Heating,

# HENDERSONS SUCCESSION CABBBCE 

## THE FINEST CABBAGE IN EXISTENCE!

## Whether for Medium Early, Main Crop, or Winter Use.

PERFECT IN EVERY RESPECT!

On the plate opposite we display what we consider one of our most valuable contributions to horticulture, the Succession Cabbage. It would be classed as a second early variety, coming in a few days later than Early Summer, but it is immeasurably superior to that variety ; it is of nearly double the size and is absolutely true to its type under all conditions. In addition to this, it has no tendency whatever to run to seed. We can say without exaggeration that it is the finest cabbage in existence to-day; whether for medium early, main crop or late use, it has no equal. It is so finely bred and so true to type that in a field of twenty acres every head appears alike. We can recommend it either for the market gardever, trucker or private planter, as it is a perfect cabbage in every respect, not only being of the largest size but of handsome color
and of the finest quality. It is probably the safest variety for an amateur to plant as it does well at all seasons, and one is sure of getting a crop no matter when it is planted. Our stocks of cabbage of all varieties have for years been the acknowledged standard of excellence in this country, and when we state that we consider Succession to be the most valuable variety that we have ever introduced, our opinion of its great merit will be apparent to all. We could fill many pages of our catalogue with unsolicited flattering testimonials that we have received from all sections of the country in regard to its great excellence, but space only permits us to give a few of them below. Price, 10c. per pkt., 40c. per oz., $\$ 1.25$ per $1 / 4$ lb., $\$ 4.00$ per lb.
$I$ sowed Henderson's Succession Cabbage seed between the 10th and 15th of July, planted out about Aug. 15, had one good rain after plurting and had no other rain to amount to any/fing till November; we had one of the worst droughts Iever experienced. Harvested a good crop about the 25 th November, while my neighbors who planted before me did not get one dozen heads from two acres.Jacob Clark, Cedar Hill Gardener, Newark, O., Feb. 4, 1892.

This peerless variety, although only recently introduced, is becoming so well known and so much sought after that dealers everywhere are offering the "Succession Cabbage." We desire to warn our customers against all such, unless the seed is in our original packages and are sealed with our red trade-mark label. This is of vital importance, as many inferior stocks of Cabbage are being offered under the name of "Succession" or "Henderson's Succession."

Please send me one-half pound of Hender. son's Succession Cabbage seed-the finest Cabbage, in my humble opinion, in the world; they surpassed everything on my place this spring; nearly every plant made a beautiful head and as early as your famed Early Summer.-A. Lemony, Mobile, Ala.

The Succession Cabbage is very fine. I took the first premium at our county feir with the ones I exhibited there.-GEO. B. Roberts, Rider, Md.

Iplunt mostly Cabbage, and find Succession superior to all others for this country.-W. R. Woolfe, La Grange, Fla

Your Succession Cabbage is by far the best cabbage I ever raised. I have six varieties from as many seedsmen, but none of them compare urith the Succession.-Dwight Herrick, Wholesale Gardener, Rockfor:I, III. $\$ 1.251 / 4 \mathrm{lb} ., \$ 4.00 \mathrm{lb}$.

# Henderson's Heroine Per. 

(Illustrcted on the opposile plate.)
"We Much Prefer the Heroine." "The Choice of all Large-Podded, Wrinkled Peas." "Peas large, Often 10 to a pod and Very Prolific."
"Heroine Pea is a Clarvel-Fairly Melting in Your Mouth for Sweetness."
IThe above ure extracts from letters we have rrceived about the Heroine Pia.)

There have been so many new varietios of Peas offered by scedsmen in the last few years that planters have become somewhat skeptical of the merits of new aspirants for public favor, but the Heroine has been a conspicuous ex eption. In fact, no new pea since the introduction of "American Wonder" has created such a sensation. Every one who sees it wants it-seedsman, market gardener and amateur; in fact, we refused orders from dealers for hundreds of bushels last fall in order to have enough stock for our own retail trade this spring. It is as far superior to all other varieties of Peas as the Pouderosa Tomato is to all other

Tomatoes, as it combines quantity and quality in a degree possessed by no other variety. The Heroine is a medium early, green wrinkled Pea, grows uniformly ahout two and one-half fret high and is literally covered with its long, heavy, pointed podsin pact, so striking and distinct is this variety that it wrould be picked out at once in a field of one hundred other varieties. On the opposite plate we show the size and form of the peas. which come eight to nine in a pod. The quality of this pea is simply per-fection-that rich, buttery, marrow-like flavor for which the peas grown in the gardens of Old England are celebrated.

## li peter henderson \& CO., New York.-VEGETHBLE SEED NOVELTIES.

Tie cut gives a good idea of the shape of this valuable variety. It will be noticed that it is inclined to taper off at the stem end, and is generally a little pointed at the other end also. This is the most desirable shape for pickles. At the pickling stage the Cucumbers are straight, long, even and slim, and until they reach their full size they are of a very dark green color, so dark that it might be almost called "black." The peculiar feature of this variety is the knobs or protuberances, upon which the spines are placed, are prominent at all stages of growth, giving the Cucumber a very attractive appearance. This variety is the earliest and most prolific of all pickling Cucumbers, and is certain to become a standard sort. While primarily a pickling variety, it is also most useful for slicing, the Cucumbers, when fully matured, being of good size and exceedingly tender and cris ${ }_{\mathrm{i}}$. (See cut.) 15c. per pkt., 8 pkts. for $\$ 1.00$

## Red Winningstadt Cabbage.

The name tells exactly what this is. It is identical in size and form with the old favorite Wimningstadt Cabbage, but it is deep blood-red in color, equaling in this respect the best stocks of late Flat Red Cabbages. The advantages possessed by the Red Winningstadt are its earliness and short outer leaves, which enable it to be planted very cluse together. There is no question but that it will produce a greater weight of crop per acre than any of the large, leafy, flat varieties, and hence is more profitable to the grower. (See cut.) 20 c. per pkt., 6 pkts. for $\$ 1.00$.

## New dapanese Glimbing Gucumber.

While all Cucumbers are running vines, jet this variety is much more creeping or climbing in its habit, so much so that it quickly climbs on poles or trellises in the same manner as the Pole Lima Bean. It is entirely distinct, being much more rugged in its constitution and less susceptible to disease than the ordinary Cucumbers, and is immensely more prolific, each vine producing from 25 to 30 spleudid Cucumbers, even on poor soil. The quality is splendid, and is pronounced by comnoisseurs to be superior to the ordinary varieties of Cucumbers. It is well adapted for pickling as well as slicing for salads. Like many of our most valuable horticultural products it comes to us from Japan.
Having only secured the stock of this variety last fall, we have not had an opportunity of testing it yet ourselves, but the description given alove is furnished us by a most reliable seed house, and we have no doubt that it is correct in every particular. The great akantage of having a Cucumber which can be trained on a pole or a fence will be apparent to all. (See cut.) 15c, per pkt., 8 pkts. for $\$ 1.00$.

## New Lettuce, <br> "BIG BOSTON." <br> This variety is identical in color, shape and general appearance with the famous Boston Market Lettuce, but is double the size. It is aboutone week later in maturing, but its solidity and greater size of head will make it a most valuable sort. A most desirable variety either for foreing in cold frames or open ground planting. The "Big Boston" is sure to be wanted by market gardeners and truckers, because it always produces large, solid, salable heads, and it will commend itself to amateurs because it heads up well at all seasons of the year and is of crisp, tender quality. (See cut.) <br> Price, 10c. per plt., 35 c . per oz, $\$ 1.00$ per $1 / 4 \mathrm{lb}$., $\$ 3.50$ per lb.

## New Water Melon,

## "COLE'S EARLY."

In the introduction of this new variety, we feel confident that we are placing before our customers a watermelon which will invariably mature in any of the States where the season is as long as that of New York.
Cole's Early is the finest every-day melon for the amateur that we have ever seen. It is very hardy, a sure cropper, and extremely delicate in texture of flesh, which is of a dark red color; the rind is thin, and the quality of the flesh is sustained clear to the rind. It is, however, exceedingly brittle, hence not desirable for shipping purposes, but, possessing all the other most desirable features, we can highly recommend it for home use. The melons are of medium size, nearly round in shape, rind green striped with lighter shades. We feel sure that Cole's Early will become popular. (See cut.)
Price, 15c. per pkt., 8 pkts. for $\$ 1.00$.

## Neu Musk Melon,

## "PERFECTED DELMONICO."

This is a selection of the well-knorm Delmonico Musk Melon which we introduced. This improved type is almost a perlect globe in shape; the skin is a peculiar grayish green until ripe, when it changes to a bright yellow. The rihs of this Melon are wide and covered thickly with a prominent netting. The Melons average about six inches in diameter, have a very small seed cavity, and are exceedingly thick and heary for their size. The flesh is a deep, rich orange yellow color, and is of very fine grain, without the slightest stringiness. This variety produces Melons of uniformly high quality and is likely to displace all other red or vellow fleshed sorts. It is a strong, hardy grower and very prolific. We can recommend it either to the market gardener or amateur. (See cut.) 15c. Der pkt., 8 pkts. for $\$ 1.00$.

## 16 PETER HENDERSON \& CO., NEW YORK.-VEGETABLE SEED NOVELTIES.

Irom all sections of the country we hitre had good reports of this variety, Which we introduced last season. It is undoubtedly the best of all this class of Peppers, being thicier in flesh than any other sort and enormously productive. Peppers of this "hom" shape, as a rule, are hot and biting, but the Cotnty Fair is particularly sweet and mild. We try to be moderate both in engravings and descriptions of norelties that we introduce, but we must say that in this case we have gone to the other extreme and have failed to portray by our engraving the handsome appearance of this great acquisition.
This variety has been grown on a large scale for years by one of the most practical and intelligent of New Jersey's farmers, and although he has tried all others he has found nothing to equal in quality and productiveness the "County Fair." It is of strikingly handsome appearance that at once arrests the eye, whether in the market or on the exhibition stand of an agricultural fair. The peppers are of medium size, but are very solid and "meaty," and of sweet, sprightly flavor, entirely free from any biting or burning taste. (See cut.) 10.e. per plt., 50 c . per oz., $\$ 1.75$ per $1 / 4 \mathrm{lb}$.

## New Pea, "Juno."

## A GRAND ACQUISITION.

This Pea first came under our notice about four years ago, when it strongly impressed us as being of a desirable and fixed type. We have closely watched it in the interval, both in our trial grounds and under field culture, and we have no hesitation in saying that it is by far the best mrinkled Pea of its class to-day. It differs from the Heroine in that it has a more robust rine and has stout, stratget pods, usually borne in pairs. It is noticeable that the nodsare very thick, broad-backed all the way up and filled from the stem to the tips With seven to nine sweet, delicious darr green Peas of immense size. Its height is two feet, and its season from medium early to main crop. Altogether, we are satisfied it is a Pea that is destined to become a standard variety, and we strongly advise all to try it. (See cut.) 15c. per is pt., 30e. per pto, 50 c. per $q$ t.

## Long Islund White Bush Squash.

A few years ago, one of the most prominent Long Island market gardeners brought into our store specimens of a Squash which he had been growing for several years, and which he found would sell in the New York markets at higher prices than any other sort It was a selection of the old White Bush Scallop, and a vast improvement, haviug less prominent ridges and being much deeper, so that a single Squash would actually contain nearly twice as much weight as the old sort. In addition to this, it is of finer quality and very prolific. We can strongly recommend this variety both for the market gardener and the amateur. (See cut.) 15c. per pit., 2 plts. for 25 c ., 10 pkts. for $\$ 1.00$.

PETER HENDERSON \& CO., NEW YORK.-VEGETABLE SEED NOVELTIES. 17

# HENDERSOONS AUTUMN KIIC CBBBBCE. 

The Finest of all Winter Cabbaoes.

THERE is no vegetable that is harder to introduce into general cultivation than a new variety of Cabbage, for the reason that it is probably the most important of all garden crops, so that planters are always slow to take hold of a new variety, preferring to use the old standard sorts on which they have depended for years. Hence it is that this peerless variety, which we introduced four yeurs ago, is just now coming into general use. We would say without hesitation that it is the finest late Cabbage in this country to-day, occupying the same position among late Cabbages as the Jersey Wakefield and Succession do in their respective classes. The Autumn King is an entirely distinct variety, and the best keeperwe have ever seen; it produces enormous, solid heads of that dark shade of green that is most desirable in a Cabbage, and has such small outer leaves that it can be planted much closer together than the ordinary late sorts, and can be relied upon to produce a greater weight of crop per acre than anyother variety, from the fact of its producing so few outer leaves and going all to head. A distinctive feature of the Autumn King is the peculiarly crimped leaves, which not only add to its appearance, but enable it to be distinguished anywhere. We are soryy to find that some other seedsmen are offering this same stock of Cabbage under the name of "World Beater." In our Trial Grounds last season, we had samples of the Actumn King and the "World Beater" side by side, and they proved to be identical. As we sent the Autumn King out four years ago and the "World Beater" was only offered last year, we claim the credit of the introduction of this, the grandest of all winter Cillmges. The engraving gives a good idea of its appearance.

Irice, 10 c. pkt., $40 \mathrm{c} .0 \mathrm{z} ., \$ 1.251 / 4 \mathrm{lb}, \$ 1.00 \mathrm{lb}$.

HENDERSONS
Autumn King.

WHAT THOSE WHO H.EIE GRONVN IT MIIVIE TU S.IV

From your Autumn King Cabbage Seed I .have raised the finest Cabbages that I ever sarb. Some of the heads (after cleared off ready for -market) weighed 19 lbs. in September. It is very tender and of fine flavor.-J.S. Borne, Ritchie, Va.

I hare just sent a specimen of your Autumn King Cabbage to the Sioux City Corn Palace. It weighed $271 / 4$ pounds, and I rill vager $\$ 100$ that I cun raise more pounds to the 100 heads than any other grower can with any other variety. I have sold 200 heads to one man, that averaged $221 \frac{1}{2}$ lbs, to the head.-J. W. Kelly, Sanborn, Iowa.

I raised upwards of 5,000 heads of Cubbuge ! this season but found none that ure equal to Henderson's Autume King.-C. S. Brack. Traverse City, Minn.

Although the following is unsolicited by you, yet it is a pleasure for me to state that in my Cabbage fipld this year I put out nine different largies, but your Autumn King produred the is the Autumn King variety, from Peter Henterlargest, soundest heads, and I consider it far son \& Co., 35 and 3 T Cortlandt Street, N. F. superior in every particular to any Cubbage I. Lots of 36 and 40 circumferences and from 18 to superior in every particular to any crouge haved.-F. Halford, Honeove en pounders. Respectfully, F. M. HCFFMas, Falls, N. J.
artion and welghs z, potiras. This

## A Big Preston Co. Cabbage.

Editors Post:-We see in the Post of the 10th inst., notice of a lurge cabbuge measuring 3 feet in circumference. I this day measured what we think is our largest, und it is just $t^{7}$ inchas, clean, solid goorls, and weighs 2fi pounds. This Marquess, W

## 18 PETER HENDERSON \& CO., NEW YORK.-VEGETABLE SEED NOVELTIES.

No norelty that has ever been sent out has received as wide distribution, in so short a time, as Henderson's Bush Lima. A few years go the entire stock of this variety was growing on an obscure plantation in Virginia; to-day it will be found in almost every garden on this continent. This has been due to its great merit, which the public were quick to recognize. One of the most valuable characteristics of Henderson's Bush Lima is its extreme earliness, as it comes in from two to three weeks ahead of any of the other climbing or Bush Limas, thus supplying us with a delicious vegetable at a time when the garden is somewhat bare, filling in, as it does, the gap beiween Peas and the Pole Limas. The small size of Henderson's Bush Lima, which at first was urged as an objection to it, has proved one of the strongest points in its favor, as the public, rightly enough, prefer small beans, always associating great size in beans or peaz with coarser quality. Henderson's Bush Lima is enormously productive, bearing continuously throughout the summer until billed by the frost. Its greatest merit, of course, lies in the fact that it is a true bush variety, requiring no support from stakes or poles, iut. at the same time, the experience of all who have grown it has been that it excels as well in quality, quantity and earliness. (See cut.)

## THE ORIGIN OF HENDERSON'S BUSH LIMA BEAN.

We have been frequently asked where the Bush Lima Bean came from, and as the history of the origin of such novelties is interesting to many people, we will five briefly the story of this great novelty
It seems that, some twenty years ago, an aged colored man, passing along a road near the Peaks of Otter, in the vicinity of Lynchburgh, Virginia, noticed a single plant of this Bean growing by the roadside. Having a little garden of his own around his humble cabin, he gathered the beans from this single plant and took them home rith him. From these few beans he raised a small stock which be kept in his possession for several years. From him it passed into the hands of a large market gardener near Lynchburgh, who grew this variety for many years, it proving very proftable to him from the fact of its great earliness. About 1885 information of
this wonderful new Bean reached a seedsman of Richmond, Firginia, who at once took steps to secure all of the stock, which he succeeded in doing. Although the quantity he secured was very small, yet he soon increased the quantity, and then brought the great novelty to our attention. We purchased the entire stock from him in the fall of 1887 , and offered it to the pablic in the spring of 1889 . When the two bush forms of the Large Lima Beans appeared it was thought by some that they would displace this small variety. Such, howerer, has not proved to be the case, as the Henderson Lima, from its earliness, productiveness and grand quality, still stands pre-eminent. Our assertion, in 1888 , that it was the " prandestregetable novelty of the nineteenth century," still holds good. It has stood the test of time.

Notes from "Popular Gardening" Trial Grounds, La Salle-on-the-Niagara, N. Y.
Henderson's Bush Lima we can hardly speak too highly of. The growth is vigorous and prase prod in . o is nothing that can surpass this variety-there is a richness and deficacy about them acily mel with in amy other bern. Hrnderson's Bushl Lima is just the sort to be planted The Bush Lima Beans I got of you are what you say about them, for I think they are $t$ and most prolific bean I cver saw, -A. D. Brown, Hiawatha, Kas.
$\qquad$ Itried Burpee's Bush Lima Bean. -Vow I wish to say that Henderson's Bush Lima
rpoy Kancas.

WILLIAM FALCONER, in "American Gardening," September, 1892.
hemderson s Bush Lima. - It has come to stay. and es a splendid addution to summer egetables; to me it is indispensable. After July 15 th we cannot expect good peas-the mildew ruins them. But about July 20th, from a warm, sandy piece of land, I begin to pick Henderson's Bush Lima Beans. We sow them in rows as we do ordinary map-beans, using only one-fourth as much seed. They grow well woithout any trouble, never run, and bear enormous crops. After large white pole Limas come, about August 10th or 15 th we stop picking the dwarf ones. Again. in fall. Henderson's Bush Limas are very useful. We have them sorun close in rows, so as to cover them with frames and sashes from september to November, and in this way get fresh green Limas long afier the frost has killed the pole-beans.
We ate Bush Lima Beans to-day groun from sred bought from you in the spring and found them to cexced even your description.-C. S. Norte, Raymond, Miss.
The Bush Lima Beans I received from you last year were a great success. I found themto be veryproductive, of fine flavor and very tender.-A. M. Bringman, Upper Sandusky, O.

PRICE, HENDERSON'S NEW BUSH LIMA BEAN,

## PETER HENDERSON \＆CO．，NEW YORK．－VEGETABLE SEED NOVELTIES． 19

## BURPEE＇S BLSH LIMA．

This is a bush form of the well－known Large White Lima Bean．It is very fixed in its bush character，growing to a uniform height of about twenty inches．While not so early as Henderson＇s Bush Lima，its larger size will commend it to many．The pods are of the exact size of the Large Pole Limas and contain as many beans of the same delirious quality．（See cut． Price，10c．pkt．， $35 \mathrm{c}, 1 / 2$ pint， 60 c ．pint，$\$ 1.00$ quart，$\$ 7.00$ peck．

## SPECIAL OFFER．

1 packet of each of the three Brinh Limas，Mender－ son＇s，Burpee＇s and Dreer＇s，for 25 cents，ince by mail．

## DREER＇S BUSH LIMA．

Dreer＇s Improved Pole Lima，or，as it is sometimes called，＂Potato＂Lima，has been grown for years，the beans growing close together in the pods，and being very thick，sweet and succulent，and generally considered of finer quality than the Large Pole Lima．The bush form is entirely fixed in its character，growing from one and one－half to two feet in height and of vigorous bush habit．This variety， from its abundant foliage，always succeeds better in a dry than in a wet season，and we would advise，if possible，in planting to plant it at least two feet apart and on light，sandy soil，if practicable．（See cut．）Price，10c．pkt．，35c．1／2 pint，60c， pint，$\$ 1.00$ quart，$\$ 7.00$ peck．

## The Ponderosa Tomato Contest of 1892.

IT has long been customary for seedsmen to offer prizes for the finest specimens of vegetables grown from their seeds，but never before in the history of the trade has a contest assumed such magnitude or interest as was developed in the PONDEROSA TOMATO competition last season．This was due not alone to the liberal cash prizes which we offered， but more particularly because of the wonderful specimens of this variety that had been produced in the previous season．The number of prize entries we received approached three thousand（ 3,000 ），and in many cases competitors sent in great boxes of magnificent specimens．These were received by us all through the summer and fall months up to the 15 th of October last， and many of them were placed on exhibition in front of our stores，and the great masses of enormous scarlet fruits attracted the greatest attention on that crowded thoroughfare，Cortlandt Street．A record of specimens received was kept most care－ fully，all being weighed on arrival，and notification of the weight being at once sent to the sender．In arriving at our decision， we complied carefully with the conditions of the offer，that is，that perfection of form as well as weight was considered， and while we received many specimens that were heavier than some of those to whom the prizes were awarded，yet，owing to irregularities in shape，they were debarred．Almost without exception，the prize－winners were absolutely perfect in form and truly a sight to behold．Owing to the dry weather，however，that prevailed during the summer and fall of last year in most parts of the country，Tomatoes generally were not as large in size as usual，and the prize specimens did not run as large as we expected．

In instances where the Tomatoes were of the same weight，preference was given to the most perfect specimens．

## THE PRIZES WERE AWARDED IN THE FOLLOWING ORDER：

FIRST PRIZE，\＄150．00．－Miss L．L．Baiter，Brandom，Tt． Weight of specimen， 3 lbs ．
SECOND PRIZE，\＄100．00，－Wm．H．Ball，Spuyten Duyvil，N．Y． Weight of specimen， 2 lbs ． $141 \frac{1}{2}$ ozs．
THIRD PRIZE，$\$ 75.00$ ，D．W．Plattiner，Plimpton，Ohio． Weight of specimen， 2 lbs .14 ozs ．
FOURTH PRIZE，$\$ 50.00$－I．（ $:$ ．Ifalstsock，Spring Valloy，（）． Weight of specimen， 2 lbs．17t．$\frac{1}{2}$ ozs．
FIFTH PRIZE，$\$ 35.00$－İ．F．Johnimen，Watme Valles，Mim． Weight of specimen， 2 lbs． 12 ozs ．
 Weight of specimen， 217 s .9 ozs.
SEVENTH PRIZE，\＄25．00．R．Menss，Parkilale，（＇andatio． Weight of specimen， 2 llos． 8 ozs ．
EIGHTH PRIZE，\＄20．00．－R．M．UtZMAN，Raleigh，N．C Weidht uf specimen， 2 lbs． 8 ozs．

We have a limited quantity of seed saved from the PRIZE FRUITS sent in last season that we can supply at 20 cts．per packet
Price of Ponderosa Tomato（of our regular stock）， 10 cts．per pkt．， 75 cts．per $02 ., \$ 2.50$ per 1

# Henderson's Ponceriosa Tomato. 

(See plate opposite.)

The PONDEROSA TOMATO has probably created a greater furor than any vegetable norelty that has been offered in the last decade, and, in the opinion of many experts, it will prove not only one of the most valuable of our introductions, but the forerunner of a new race of Tomatoes that will entirely supersede the seedy, acid sorts now in use. The liberal prizes that we offered last season for the ten heaviest fruits of this variety induced very lively competition, thousands of beautiful specimens being sent in from all sections of the country; all were carefully weighed and recorded on arrival, a full detail of which will be found on page 19.

The PONDEROSA possesses every good quality to be found in a tomato. The vines are strong and vigorous and easily carry their enormous weight of fruit. Its massive or ponderous fruits are almost perfect in form, and so free from ridges or corrugations as to seem nearly as smooth as glass; and when we come to size, weight and solidity, no other Tomato begins to approach it. The skin is exceedingly firm, which will cause it to be largely grown for shipping purposes. On the opposite plate we have tried to portray the color of the PONDEROSA. Excellent as the work is, it does not dojustice to the rich crimson of the original, which permeates the fruit from circumference to centre, so that when sliced for the table its rare beauty never fails to elicit general admiration. Its remarkable solidity is happily expressed in one of our testimonials, which says "that it is nearly as firm as an apple." A marked peculiarity of this variety is that it is almost seedless, and

#### Abstract

while this characteristic commends its use to delicate persons, this same peculiarity makes us pay five times as much to have the seed grown as that of any other sort. Large fruits or vegetables are usually obtained at the expense of earliness, but here the PONDEROSA again steps in and floors our preconceived ideas on this point by demonstrating that it is as early as most of the older sorts whose only merit is that they are early. Que patron writes. that he had splendid tomatoes of the PONDEROSA in 100 days from sowing the seed. Its flavor is deljcious, whether used raw or cooked. A canner who grew it last year says it is going to be a grand sort for him, because the tomatoes are so large and smooth that there is no waste in handling.

We exhibited this Tomato in front of our seed stores and it. elicited the admiration of thousands. A frequent comment passed upon it there was: "Why, one is enough for a meal." And so it was. We feel that we have told the leading merits of this glorious Tomato, but if the unsolicited testimonials on page 19 are read, still further praise of PONDEROSA will be found.

> WARNING. - The great demand that is certain to be madefor the PONDEROSA Tomato this season will induce many seedsmen and dealers to offer this variety. Beware of all such seed, as the PONDEROSA requires constant selection to keep it at its present high standard, and you are liable to get an inferior article. Rejpct all seed unless in our original packages, sealed with our red trade-mark label.

Price, Seed saved from Prize Fruits, 20c, pkt. Seed of our regular stock, 10c. plt., 75c. oz., $\$ 2.501 / 4 \mathrm{lb}$.

# NEW SWEET CORN, <br> " Country Gentleman." 

(See plate opposite.)

There is no vegctable that comes upon the table that is more delicious when it is good, or more unpalatable when it is not just right, than Sweet Corn. The "Country Gentleman" is the finest of all Sweet Corns, and will delight the most fastidious epicure, retaining its delicate tenderness and flavor even when a little old. While the ears are smaller and less showy than the coarser varieties, for private family use, where quality is the first consideration, it has no equal.
The Ne, Plus Ultra Corn, which we have offered for the past three seasons, has given more satisfaction for private family use than any other sort. Its only weak point was its small size. To remedy this we have, by careful selection, obtained a variety which pro-
duces ears of good size and of the same delicious quality as the original, and we offer with confid•nce the "Country Gentleman" as the finest Sweet Corn for private use. The ears are not only of good size, but are produced in great abundance, frequently bearing four good ears, while the average is three ears to a stalk. When we consider that ordinary Sweet Corn produces only one or two good ears to a stalk, the superiority of this variety will be quickly setn. The cob is very small, giving great depth to the kernels, which are of pearly whiteness. But the great merit of the "Country (Fflltleman" Corn is its delicious quality; it is, without doubt, the sweetest and most tender of all Sweet Corn, and at the same time with ears of good size.

Price, 15c. $\frac{1}{2}$ pt., 25c. pt., 40c. qt., $\$ 2.50 \mathrm{pk}$.

## Henderson's Delicata Squash.

## See plate opposite.)

This beautiful variety we have given a place on the colored plate opposite. The ground color is orange yellow, splashed and striped with very dark green. The quality is splendid, being rich and dry, similar in this respect to the well-known Forthook Squash. The Delicata is the earliest of any vine Squash that we have ever tested, and is so prolific that last season from twelve hills of two plants each 352 perfect Squashes were gathered. Although of small size, this variety is wonderfully solid and heary, the seed carities being very small. For private use particularly we can recommend this Squash, as i' far surpasses in richness of

#### Abstract

flavor any of the large, old-fashioned sorts. In our trial grounds last season, we probably had 100 varieties and stocks of Squashes under test, but of all this number not one produced as many Squashes as the Delicata. As before stated, the great distinctive feature of this Squash is its extreme earliness; it matures about the same time as the Summer Squashes, and for early use will doubtless supplant this watery, tasteless class, while its extreme solidity renders it fully as good a keeper as any of the winter varieties. The Delica'a is an "all seasons" Squash in a remarkable degree. We can highly recommend it.

## 22 PETER HENDERSON \& CO., NEW YORK.-VEGETABLE SEED COLLECTIONS.

# Henderson's Coullections 联VEGETABLE SEEDS. 

For the City Garden, Suburban Garden and Country Gentleman's Home.

The frequent request from customers for an assortment of garden seeds for a garden of small, medium, or large dimensions, that will save them the trouble of selecting, has induced us to offer the collections detailed below. Our long experience in selecting for thousands of customers enables us to make up these collections so accurately of the best standard sorts as to be suited to the majority of people who do not wish novelties

The seeds we put in are of our very best standard sorts, and the quantities are proportioned to meet the requirements of such gardens as the titles indicate. As we make up these collections in quantity before the busy season opens we are thereby enabled to sell

## THE "CITY GGRIJEN" COLLECTION.

Price, \$1.00, or Free by Mail for $\$ 1.25$. Contains 20 Distinct Varieties in All, viz
Beet, round red, 1 phtt. Beans (none of whith require staking;, Dwarf, string, green pod, $3 t$, pt.; Dwarf, string, yellow waxpod, 12 pt.; Bush Limas, 1 pkt. Cabbage, Early
Wakeefield, 1 pht. Carrot, Early Half-long scarlet, 1 pkt. Corn, Early Sugar, $1 / 2$ pt, Cucumber, for slicing, etc., 1 pkt. $\mathbf{E g g}$ Plant, 1 pkt. Iettuce, Best summer Heading, 1 pkt. Onion, Early White For sicing, 1 pht., Large Red for Uoiling. 1 pkt Parsiey, doubue curtea, 1 ptw Peas (none of whrch require staking), Earriest Dwarf, Round Red, 1 ipht. Squash, White Scalloped Bush, 1 pkt. Tomato, Early Smooth Scarlet, 1 pltt. Turnip, Round White Table, 1 pht.

## THE "SLBUURBAV GARDEX" COLLECTION.

Price, \$2.50. Weight Packed for Shipment, 12 lbs .
Carriage to be paid by Customer. Contains 37 Distinct Varieties in All, viz. Beans, Dwarf, string green pod, 1 ql.; Disarf, string yellow or waxpod. 1 qt.; Dwarf and Lite, each 1 pht. Carrot, Early long scarlet, 1 pht. Celery, Self-blanching. $l_{1, k t}$ Cucumber, for slicing, 1 pht.; for pickles, 1 pkit Corn, Sugar, Early and Late, each ${ }^{1 /}$ pt. Egg Plant, 1 pht. Endive, or White Chirory, for salads, 1 pkt. Melons, slusk, Sweet green-feshted, 1 plet.; Water, Early, 1 pht. Onions, Early
 Pepper, lurge for Mangoes, 1 phll. Pumpkin, lest for pies, 1 pkt. Radish, Round R. Squash for sumer Sull Fallify, Whute pho spinach, Best summer. ${ }^{1}$ ${ }_{p k t}$ T. Turnip, Round White Table, 1 pkt.
them for fully 25 per cent. less than they would cost if the articles were selected separately; so if two or three varieties included should be of no use to you, you will still be getting the remainder for less than catalogue rates. We can allow no alterations.

With each collection we enclose a pamphlet on the cultivation of vegetables.

## THE "COUNTRY GENTLENAN'" COLLECTION.

Price, $\$ 5.00$. Weight Packed for Shipment, 28 lbs . Carriage to be paid by Customer. Contains 60 Distinct Varieties in All, viz Beans, Dwarf, Snap, green pod, 2 qts.; Dwarf, Snap, wax or yellno por, 1 qt; Dwarf Limas. '2 pt;' LargeLimas, 1 pi,; Pole. Snap, 1 pt. Beets, Early and Late round red, each 1 oz. Cabbage, Eztra Early, Medium and Late, each 1 pht, Celery, ${ }_{2}$ oz. Corn, Sugar, extra early. 1 pl; Sugar, melium early, 1 qt.i Sugar. main crop, 1 qt. Cucumber, for slicing. 1 oz; for pickles, 1 oz. Egg Plant, 1 pkt. Fndive, or White Chicory, for saluds. 1 pht. Kohl Rabi, white. 1 plit. Kale, Dwarf curled, I pht. Irottuce, Early head, 1 pkt.; B, st Summer Head, Water Early, 1 plet, IV asturtinm, for pickles, 1 pht. 1 pit.; Main Crop, 1 oz, Onions, small white for slicing, 1 pkt.; Large White for boiling, 1 for Winter, 1 oz. Parsnip, Long White, 1 oz. Parsley, double curled, for garnishing. 1 pht. Pepper, Lirge for Mangoes, 1 pht. Peas, Extra Eurly, Mfidium and Late, each ${ }^{2}$ qis. Pumpkin, for pies, 1 pht. Eadish, Early round red, 1 oz.; Early oz for Winler, 1 oz. Tomato, Extra early scarlet, 1 pht.; Large scarlet, 1 pkt Turnip, Exira early, white flesh, 1 uz.; Yellow flesh, 1 oz. Sage, 1 plt. Thyme, 1 pht.

## GIVE YOUR BOY A GARDEN. <br> Provide a means of healthy exercise and delightful recreation, and plant in their young minds

 the love for nature. What health and what lessons in care, order and patience in their playwork, what enthusiasm, is aroused by the wondrous revelations from the sowing of a seed to the plucking of the fruit.To encourage Gardening for the young, we offer at reduced rates the collections detailed below, composed of varieties sure to please and at the same time most likely to succeed with indifferent care. With each collection we give full cultural instructions.

BOY'S SET. Cast-steel, durable, and of real use. ConTainsSpade ( 30 in. long, blade 5 in, wide). Hoe ( 48 in. long, blade $51 /$ Excelsior Hand weeder ( 10 incles long). Trowel ( 0 -in. blade.) Excelsior Hand Weeder ( 10 inches long). (See cut.) Carriage to be paid by customer. Price, for the entire Boy's Set of 5 pieces, 81.00. Weight for shipping, 5 多 1 b .

Half pounds supplied at pound rates; half pecks at peck rates; half bushels at bushel rates. Market Gardeners or other large planters requiring larger quantities of seeds than are here offered are invited to write to us for special prices, particularly purchasers of PEAS, BEANS, CORN, ONION, SPINACH, CABBAGE and TURNIP

POSTAGE must be added to Catalogue prices at the rate of 8 cts . per lb., when seeds are ordered in quantities of haif lb. and upward. Add postage for Beans and Peas at the rate of 15 c . per quart, and to Corn 10 cts. per quart, to Catalogue prices.

Varieties in heavy type are such as we have found to be the best for general cultivation.

## $+\cong$ ASPARAGUS.

German, Spargel.-French, Asperge.-Spanish, Esparragos. 1 oz. for 60 feet of drill.
A convenient bed is alout six feet wide, with a path two feet on each side. This will require six rows one foot apart, and a bed of that width fifty feet loug will be ample for an ordinary family, requiring about one pound of seed. It will require about three years from the time of sowing until the bed is in full bearing, but once established is good for twenty years. It should be sown in drills one foot apart, and when the plants are fonr or five inches high they should be thinned out so that the choke up and destroy the young seedling Asparagus. The deeper the soil and greater abundance of manure that is used the greater will be the crop.
THE PALMETTO. Until we found this new Palmetto Asparagus, Conover's Colossal was the leading sort, and justly so; but the Palmetto is not only much earlier, but is also a better yielder, and is more even and regular in its growth and must eventually sup-
plant the old favorite. Arerage bunches, containing fifteen shoots, measure 131 inches in circumference, and weigh about two pounds. The Palmetto has now been planted in all parts of the country, and the re ports we have indicate that it is equally well adapted for all sections North and South. Its quality is unequaled. (See cut.)
10c. per pkt., 25 c . per oz., 75 c per $1 / 4 \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$. Colossal. The standard variety. The shoots are of the largest size ; very productive and of the best quality. 5 cts. per pkt., 10c. per oz., 20c. per $1 / 4$ lb., 50 c . per lb.

## $\propto$ ASPARAGUS ROOTS.D

If to be sent by mail add 40 cts. per 100 to the prices.
A saving of one to two years is effected by planting roots. Those oftered below are strong two-yesr-old roots. For pri vate use or $10 r$ marketing on a small scale, beds should be formed five feet wide with three rows planted in each, one in the middle and one on each side a foot from the edge; distance between the plants in the rows, nine inches,
THE PALMETTO. Splendid roots. (See cut.) $\$ 1.50$ per 100 , $\$ 12.00$ per 1,000 . ( 50 roonts at 100 rate; 500 at 1,000 rate.) Colossal. Fine two-year-old roots at $\$ 1.00$ per 100, $\$ 7.00$ per 1,000 . ( 50 roots at 100 rate; 500 at 1,000 rate.)

Our Prices this Season are lower than ever. Read what we say on this subject on pages 1 and 2.

## BEAKS Dwarf or Bush

WAX POD OR BUTTER VARIETIES.
German, Bohne.-French, Haricot.Spanish, Frijorenano.

1 quart to 100 feet in drills; 2 bushels to the acre, in drills.
A succession of sowings can be made from the first week in May urtil September. These dates are for the latitude of New York; further south the sowing must be done earlier, further north later. Plant in drills about two inches deep, and from eighteen inches to two feet spart, according to the richness of the soil; the poorer the soil the closer they can be plasted. The seeds should be dropped about two inches apart.

Add 15c. per quart extra if to be sent by mail.
GOLDEN WAX. A strong growing, distinct rariety, at least a week earlier than the Black Wax. The pods are long, brittle and entirely stringless. As a snap bean it perhaps excels all others in tenderness and richness of flavor. Seeds when ripe, purple and white. 10c. 1/2 pt., $20 \mathrm{c} . \mathrm{pt}, 35 \mathrm{c} . q \mathrm{t} ., \$ 2.25$ peck, $\$ 8.00$ bushel.
WARDWELL'S DWARF KID. NEY WAX. This variety is very hardy, and both pod and plants are more robust than usual for a Wax Bean. The shape of the beans is distinct from all other Wax varieties, being of a perfect kidney shape. It produces a heavy crop of purely Wax pods, which are very long, flat, showy, and not liable to rust or blister. Very early. 15c. $1 / 2$ pt., 25c. pt., 40 c. qt., $\$ 2.00$ peck, $\$ 7.00$ bushel.
GOLDEN-EYED WAX. This is an early and vigorous growing variety, yielding a great profusion of tender pods of a beautiful waxy appearance. The vine grows about one and a half feet high, holding the pods well off the ground, thus keeping them clean and attractive. It is singularly free from blight and rust; in this respect it stood the test well in our trial grounds last year. The pods are flat and large. $10 \mathrm{c}, 1 / 2 \mathrm{pt} ., 20 \mathrm{c}$. pt., $30 \mathrm{c}, \mathrm{qt}$., $\$ 1.75$ peck, $\$ 6.00$ bushel.
CYLINDER BLACK WAX. This is an improved stock of Black Wax, so superior to the ordinary strains as to be worthy of a new name. By a comparative test in our trial grounds, we proved beyond question that it was earlier than any other stock, was perfectly round podded, and of an even rich golden color, Enormously productive. $15 \mathrm{c} .1 / 2 \mathrm{pt},. 25 \mathrm{c} . \mathrm{pt}, 40 \mathrm{c} . \mathrm{qt.} \$$,2.00 peck, $\$ 7.00$ bushel. White Seeded Wax. A variety with wax-like pods, similar to the Black Wax, except in the color of the seed. $10 \mathrm{c} .1 / 2$ pt., 20 c. pt., $35 \mathrm{c} . \mathrm{qt},. \$ 2.00$ peck, $\$ 6.50$ bushel.
IMPROVED GOIDEN WAX. In the Improved Golden Wax which we now offer we have a bean that possesses all the good points of the old Golden Wax, but is larger in pod and much more prolific. This improved stock is one of the handsomest beans we have ever seen, being of dark rich golden yellow color and of perfect shape. It is of grand quality, showing no string or coarseness even when past its best, but is of tender, melting flavor at all stages of its growth. For market gardeners or private families, no better bush bean can be planted. (See cut.) $15 \mathrm{e} .1 / 2 \mathrm{pt},. 30 \mathrm{c} . \mathrm{pt} ., 50 \mathrm{c} . \mathrm{qt},. \$ 2.25 \mathrm{peck}, \$ 8.00 \mathrm{bush}$.
REFUGEE WAX. A true refugee, with round yellow wax pods, very early and enormously productive, highly recommended for early and Iate planting, and a very desirable variety for market gardening purposes. 10c. ${ }^{1}, ~ p t ., 20 \mathrm{c} . \mathrm{pt}, 30 \mathrm{c} . \mathrm{qt}$., $\$ 2.25 \mathrm{peck}, \$ 8.00 \mathrm{bushel}$.
FLAGEOLET WAX. This is really one of the most valuable varieties for either private or market garden purposes. It is as early as either the Black or Golden Wax sorts, and has a peculiar value in the fact that it is nearly always exempt from rust. The pods are of very large size, often a foot in length, exceedingly succulent and tender. It is an enormously productive variety. $15 \mathrm{c} .1 / 2 \mathrm{pt} ., 25 \mathrm{c} . \mathrm{pt} ., 40 \mathrm{c} . \mathrm{qt.} \$$, peck, $\$ 7.00$ bushel.
YOSEMITE MAMMOTH WAX. Regarded by many eminent authorities as being second only in distinctiveness and value to the Bush Lima. The pods frequently attain a length of ten to fourteen inches, with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small when the pods are fit for use. The pods are a rich golden color, and are absolutely stringless, cooking tender and delicious. This is the coming Wax Bean for family or market purposes. It is enormously productive, as many as 50 of its monster pods having been counted on one bush. The plant is so large and vigorous, and the pods are so solid and pulpy, that they require a great deal of light and air to perfect them. We would again all atention to the necessity of planting this grand variety nearly twice as wide apart as ordinary bush beans. (See cut.) $20 \mathrm{c} .1 / 2 \mathrm{pt} .30 \mathrm{c} . \mathrm{pt} ., 50 \mathrm{c}$. qt., $\$ 3.50$ peck.
BLACK WAX. When ripe the pods are yellow, averaging 7 inches in length, very tender and of the best quality. Seeds when ripe glossy black. 10 c. $1 / 2$ pt., 20 c. pt., 30 c. qt., $\$ 1.75$ peck, $\$ 6.00$ bushel.

The coming Wax Bean for eitherfamily ormarket purposes.
 pt., 15 c. pt., 25 c . qt., $\$ 1.25$ peck, $\$ 4.2 \overline{5}$ bush.

EXTRA EARLY REFUGEE. It is similar in every respect to the ordinary Refugee, but is nearly two weeks earlier. It is enormously prolific, and from its earliness is almost certain to produce a crop, no matter how unfavorable the season. The Extra Early Refugee is rapidly becoming the favorite sort with Southern truckers and planters as it matures equally early with the Red Valentine, and has that beautiful silvery green color in the pods that is so much desired. In quality it is unexcelled, being free from string, and meltingly tender at all stages of its growth. Our stock of this variety has been specially selected and improved, and we recommend it. 10c. $1 / 2$ pt., $20 \mathrm{c} . \mathrm{pt} ., 30 \mathrm{c}$. qt., $\$ 1.50$ peck, $\$ 5.00$ bush.
EARLY MOHAWK. Very early and will stand more cold than most of the bush varieties. This variety is largely grown in the Southern States for Northern markets. The pods are from five to six inches long; the seeds, when ripe, drab with purple spots. $10 \mathrm{c} .1 / 2$ pt., 15 c. pt., $25 \mathrm{c} . \mathrm{qt}_{\mathrm{o}}, \$ 1.25$ peck, $\$ 4.25$ bush.
EMPEROR WILLIAM. This is not only the largest podded of all the bush varieties, but it is also the earliest. It produces a great profusion of large, flat pods, and is worthy of a place in all private and market gardens, for in addition to these good points, it can also be used as a dry white shell bean. 10c. $1 / 2$ pt., 15 c . pt., 25 c . qt., $\$ 1.25$ peck, $\$ 4.25$ bush.

EARLY WARWICK. This is a variety that came under our notice three years ago, and which has proven itself to be one of the earliest, if not the earliest Green Bush Bean that we have. The pods may be said to be stringless until they reach a stage at which they are past maturity for marketing. As this Bean is so remarkably early and likewise suitable for shipping long distances, we believe it will be found to be a valuable acquisition, especially to the Southern trucker, to whom it is of the utmost importance that he get something that will come in ahead of existing sorts.
It is a heavy cropper, producing an abundance of pods which average about $5 \frac{1}{2}$ inches in length. $15 \mathrm{c} .12 \mathrm{pt}, 30 \mathrm{c}$. pt., 50 c . qt. $\$ 2.25$ peck, $\$ 7.00$ bush.
HENDERSON'S NEW BUSH LIMA. (See full description on page 18.) 10c. pkt., $15 \mathrm{c} .1 / \mathrm{pt}$., 30 c . pt., 50 c . qt., $\$ 3.50$ peck. DREER'S AND BURPEE'S BUSH' LIMAS. (See Nourlties page 19.) 10c. pkt., 35c. 将 pt., 60c. pt., $\$ 1.00$ qt., $\$ 7.00$ peek.

We can also supply the following standard varieties of Beans which are too well known to need description, at the uniform price of $10 \mathrm{c} .1 / 2 \mathrm{pt}$., 15 c . pt., 25 c . qt., $\$ 1.25$ peck, $\$ 4.25$ bush.
Best of All, White Valentine, Large White Kidney,
Early China, White Marrow.

## Pole or Running.

German, Stangen-Bohnen.-French, Haricot à Rames.-Spanish, Judias. 1 qt. to 150 hills; 10 to 12 qts. to the acre in drills.

#### Abstract

These are more tonder and require rather more care in culture than the Bush Beans, and should be sown two weeks later. They succeed best in sandyloam, whicb should be liberally enriched with short manure in the hills, which are formed, according to the variety, from three to four feet apart; from five to six seeds are planted in each hill, about two inches deep. As the matured bean is used mostly, the season is too short for succession crops in the North, though it is advantageous to plant succession crops in the Southern States, where the season of growth is often from March to November. Rough cedar or similar poles about seven or eight feetlong should be used for Lima Beans to climb on, or, what is better still, White's Garden Trellis, described in another portion of this catalogne. They should be set in the ground at least 18 inches, so as to prevent being blown over.

Add 15c. per qt. extra if to be sent by mail.
EARLY GOLDEN CLUSTER WAX. Begins to bear early in July and continues until frost. The pods are six to eight inches long, are most freely produced, and are of a beautiful golden yellow; the flavor is most delicious. Can be used either shelled or as a string bean. $15 c .1 / 2$ pt. 30 c. pt., $45 \mathrm{c} . \mathrm{qt},. \$ 3.00 \mathrm{pk}$. Horticultural or Speckled Cranberry. Popular either in the green state or shelled. 10c. $1 / 2$ pt., 20c. pt., $35 \mathrm{c} . \mathrm{qt.}, \mathrm{S2.00} \mathrm{pk}$. SCARIET RUNNER. A great favorite, both ornamental and useful. Height, ten feet, presenting dazzling searlet flowers from July to October. Used both as a string bean and shelled. Seeds, when ripe, lilac, mottled black. $15 \mathrm{c} .1 / 2$ pt., 25c. pt. 40 c . qt., $\$ 2.25 \mathrm{pk}$.
White Dutch Runner. Similar to the preceding, excepting seeds and flower, which are white. 15̌. $1 / 2$ pt., 25 c . pt., 40 c. qt., $\$ 2.25 \mathrm{pk}$.
German Wax Pole. One of the best varieties either for snaps or shelled in the green state. $10 \mathrm{c} .1 / \frac{1}{2}$ pt., 20c. pt., 35c. qt.. $\$ 2.00 \mathrm{pk}$.

This we regard as far ahead of any other green Pole Bean. In our trial grounds last summer it was fit for the table on August 1st, which was at least ten days earlier than any other green sort. It is enormously productive, the pods hanging in great clusters from top to bottom of the pole. It is entirely stringless, and the pods are a silvery green color, resembling the popular Refugee Bush Bean. The pods, though large, cook tender and melting, and we can recommend it as the best green Pole Bean. (See cut.) 15c. 1/2 pt., $30 \mathrm{c} . \mathrm{pt}$., 50 c . qt., 83.50 pk .

## POLE LIMA BEANS

SMALL LIMA OR SIEVA. A variety of the large White Lima. The pods, however, are much smaller, usually about three inches long. It is a little earlier and more hardy. The seeds also are smaller, but of the same color as the Large White Lima L5e. $1 / 2$ pt., $25 \mathrm{c} . \mathrm{pt}, 40 \mathrm{e} . \mathrm{qt} ., \$ 2.75 \mathrm{pk}$.
LARGE WHITE LIMA. With nearly every one the seeds, either green or ripe,
of this variety, are considered the most tender and delicious of all the bean family, and it is therefore universally grown both for market and family use. The ripe seeds are flattish kidney shape, and have a dull white color. $15 \mathrm{c}, 1 / 2 \mathrm{pt}$., 25 c . pt., 40 c . qt., $\$ 2.75 \mathrm{pk}$.

## "GOLDEN CHAMPION."

This is certain to be the leading Early Wax Pole Bean, as it is fully two weeks earlier than the Golden Cluster Wax Pole, being fit to pick on July 24th of last year. The pods are enormous, resembling the Yosemite Wax in size and form ; color light yellow. They are absolutely stringless and cook tender. The Golden Champion was the only Wax Pole Bean that did not rust or spot badly in our trial grounds last summer. Every garden should contain the Golden Champion and "Old Homestead." (Sce cut.) 15c. 1/2 pt., $30 \mathrm{c} . \mathrm{pt} ., 50 \mathrm{c}$. qt., $\$ 3.50 \mathrm{pk}$.

## POLE LIMA BEANS

JERSEY EXTRA EARLY LIMA. In our experience with it from year to year, we have found it invariably ten days to two weeks earlier than any other Pole Lima. The pods of it have been large enough to pick July 24th, and have been sold in the New York markets a week later. The beans are a trille smaller than those of the Large White Lima, but are all the better on that account, as small beans are always considered preferable, being more tender and delicious. Every one desiring a Pole Lina Bean should plant the Jersey Extra Early, as it combines, better than any other, quantity, quality and earliness. (See cut.) $15 \mathrm{c} .1 / \frac{1}{2} \mathrm{pt} ., 30 \mathrm{c} . \mathrm{pt}_{\mathrm{o}}, 50 \mathrm{c} .4 \mathrm{t}_{\text {., }}$ $\$ 3.50 \mathrm{pk}$.

## German, Rumiel Rube.-French, Betterave.-Spanish, Betteraga.

1 oz. to 50 ft . of drill; 5 to 6 lbs . to the acre in drills.
The soil which is best suited is that which is rather light and thoroughly enriched with manure. For an early supply sow in spring, as soon as the ground becomes fit to work, in drills about one foot apart and two inches deep. For main crop sow the first week in May, and for winter use sow in June.

If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of 8 c . per $l$ lb.
EGYPTIAN TURNIP. A standard sort, being from ten to twelve days earlier than the old Blood Turnip. The roots are large in size, and of a rich, deep crimson color. From the smallness of the tops of the Egyptian at least one-fourth more can be grown on the same space than any other variety. (See cut.) 5c. pkt., 10 c. oz., $20 \mathrm{c} .1 / 4 \mathrm{lb} ., 55 \mathrm{c} . \mathrm{lb}$.
IMPROVED ARLINGTON. Of medium size and a dark rich blood-red color. One of the strongest points in favor of this varicty is the fact that it does not get bitter and stringy when it is a little old as is the case with many other rarieties, but is sweet and tender at all times. Its grand quality, uniform shape and beautiful color leave nothing to be desired in this grand beet. 10 c . per pkt., 20 c . per oz., 40 c . per $1 / 4 \mathrm{~b} ., \$ 1.25$ per 1 b .
ECLIPsE. This variety is a great acquisition, has become exceedingly popular and is one of the best early sorts. It possesses all the qualities requisite in a first-class beet, and is of a uniform globular shape. The roots are a bright glossy red, fine-grained and drlicious, with none of that earthy flavor so objectionable in many varieties. (See cul.) 5e. perplit., 10 c . per oz., 20 c . per $1 / 4 \mathrm{lb}, 50 \mathrm{c}$. per 1 b .

EARLY BLOOD TURNIP. A well-known standari warly varicty, following the above in earliness; it is of a rich, deep blood-red color, and of excellent quality. 5c. pkt., 10c. oz., 20c. 1/4 1b., 45 c .1 b .
EDMANDS. While not strictly a first early beet it follows very closely and is the most uniform of all Turmip Beets, with very small tops and short foliage of a rich red. The roots are haudsome and round, very smooth; of good marketable size, and for table use no variety can excel it in fine quality. The skin is deep blood-red; the flesh also is dark red and exceedingly swert and tender. 5c. per pkto, 10 c . per oz., 21 c . per $1 / 41 \mathrm{lb}$., 60 c . per 1 b . DEWING'S IMPROVED BLOOD TURNIP. An improved variety of the Early Blood Turnip, of deep blood-red color, fine form and flavor; an excellent market sort. (See cut.) 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb}$., 50 c . 1b.
LONG SMOOTH BLOOD-RE great improvement on the common Long Blood. (See cut.) 5c, pkt., 10c. oz., $20 \mathrm{c} .1 / 4 \mathrm{lb} ., 45 \mathrm{c} .1 \mathrm{~b}$.
SWISS CHARD, SILVER OR SEA-KALE BEET. This variety is grown for its leaves only; the middle of the leat is cooked and served like Asparagus; the other portions of the leaf are used like Spinach. It is grown largely in many European countries, considered there indispensable, and should have more extended culture here. 5c. plt., 10c. oz., 20c. $1 / 4 \mathrm{lb}$., 60 c .1 lb .

REINE DES NOIRES (Quen of Blucks.) A unique and beautiful variety, desirable both for its table qualities and ornamental foliage. 10 c . per pkt., 15 c . per $n z ., 40 \mathrm{c}$. per $1 \frac{1}{4} \mathrm{lb}$., $\$ 1.00$ per 1b. HENDERSON'S HALF LONG. The engraving well portrays the shape and general appearance of this grand table beet, but a colored eketch is really necessary to give any idea of its rich, tempting appearance. It is entirely distinet, and is the darkest blood-red color kwown, never producing a "pale " or light colored beet, and is of tender, sweet quality at all stages of its growth. A remarkable feature of Henderson's Half Long Beet is that it never grows larse and coarse eren when allowed to remain in the ground late in the fall. It comes in just after the early Turnip varieties, and is also one of the hest beeping winter beets we have ever tried. (See cut.) 10c. per pkt., 20c. per oz., 40c. per $1 / 4 \mathrm{lb} ., \$ 1.25$ per lb .
beiet. Sugar and Mangel. See Furm Sefd Depurtment, puge is.

Our Prices this Season are lower than ever. Read what we say on this subject on pages 1 and 2.

## 28 PETER HENDERSON \& CO., NEW YORK.-VEGETABLE SEEDS.

 Brocoli.-Spanish, Broculi. Cultivation same as Cauliflower.
If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of 8 c . per $l \mathrm{lb}$.
WHITE CAPE. Heads medium size, close, compact, of creamy white color, one of the most certain to head. (See cut.) 15c. pkt., 60c. oz. $\$ 2.001 / 4 \mathrm{lb}$.
PURPLE CAPE. Differs from the preceding only $\$ 2.00 \frac{1}{4} \mathrm{lb}$. oz., $70 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$.
in color. 10c. pkt., 40 c . oz., $\$ 1.25 \frac{1}{4} \mathrm{lb}$.
WALCHEREN. A valuable sort, with large, firm heads. 15c. pkt., 60c. oz.,

## BRUTSSELSS SPROUTS.

German, Kopfkohl Grüner.-French, Chou de Bruxelles.
Cultivation same as Cabbage.
If by mail in quantities of $1 / 2 l b$. and upward, postage must be added at the rate of $8 c$. per $l b$. TALL FRENCH. Veryfine. 5c. pkt., 20c.
DWARF IMPROVED. A variety producing compact sprouts of excellent quality. 10 c . pkt., 25 c . oz., $80 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 3.00 \mathrm{lb}$.
DALKEITH. It is astonishing how much more extensively Brussels Sprouts are grown and used in recent years than in the

## CHERVIL.

German, Gartenkerbel.-French, Cerfeuil. If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of 8 c . per lb . Curled. An aromatic herb. The young leaves are used in soups and salads. Sow thinly in May, in drills half an inch deep, one foot apart. (See cut.) 5c. plt., 20c. oz., $60 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.00 \mathrm{lb}$
Tuberous Rooted. Sow in March or April; after treatment, same as Carrot. 10c, pkt., 30 c . oz., $\$ 1.001 / 4 \mathrm{lb}$.

CHERVIL, OURLEII OR DOUBLF

CORN SALAD, LARGE LEAVED

Our Prices this Season are lower than ever. Read what we say on this subject on pages 1 ana 2.

## $\rightarrow$ CAULIFLOWER.

German, Blumen-Kohl.-French, Choufleur.-Spanish, Coliflor, 1 oz. for 1,000 plants.
Any soil that will grow Cabbage will grow Caulifower; extra manuring and preparation of the soil will be well repaid. The seeds may be sown in September and wintered over in the same manner as described for early Cabbage. Where this is not practicable it may be had just as well by sowing the seeds in the hot-bed in January or February, and transplanting the plants at two or three inches apart in boxes or in the soil of another hot-bed until such time as they are safe to be planted in the open ground, which in this latitude is usually from the 15th of March to the luth of April. If properly hardened off they are seldom injured by planting out too early. For second early and late crop sow at the same date as given in the directions for Cabbage crop. For further information, if for private use, see our work "Gardening for Pleasure"; if for market, see the new edition of "Gardening for Profit.

If by mail in quantities of 敫lb. and upward, postage must be added at the rate of 8 cts . per $7 b$.

# Henderson's Early Snowball Cauliflower. 

the Earliest.<br>the surest header.<br>THE MOST PROFITABLE.

THE BEST YARIETY FOR EITHER MARIEET OR FAMILY GARDENS.

SNOWBALL CAULIFLOWER.-It is hardly necessary for us to describe this variety at all, as its name has now become a household word wherever this delicious vegetable is grown. SNOWBALL CAULIFLOWER is the standard everywhere for quality with the seedsman, the market sardener, and the amatcur. While originally recommended and used as an early variety, it has not only supplanted all other sorts for early spring planting, but it is rapidly driving out the large late sorts for fall use, being much finer in quality, and the only Cauliflower that is absolutely certain to head when the conditions are right.

WHETHER intended for private use or to be grown for market, Henderson's Early Snowball Canliflower is superior to all others. First, because it is the earliest or all Cauliffowers, as has been conclusively shown season after season, since we first made its merits known; second, because under the conditions of an ordinarily favorable season, nearly every plant will form a perfect snow-white head, averaging nine inches in diameter; third, for the reason that its close-growing, compact
habit enables one-third more to be planted on the same space of ground than can be done with any other variety. For forcing under glass during winter and spring, this Early Snowlall variety is peculiarly well adapted, from its dwarf growth and short outer leaves, and for this purpose no other Cauliflower is now so largely grown. It also does equally well for late planting. (See cut.) 25c. pkt., $\$ 4.00$ oz., $\$ 14.00$ 治 lb .

EXTRA EARLY PARIS. The leaves being large, it is not so desirable for forcing, but is valuable for outdoor culture. 5c. pkt., 75 c . oz., $\$ 2.501 / 4 \mathrm{lb}$.
IAARGE LATE ALGIERS. This is ne of the best late varipties. It is largely grown for fall use, never failing to produce large, fine heads. Very popular with market gardeners and canners. 10c. pkt., 75c. oz., $\$ 2.50 \frac{1}{4} \mathrm{lb}$.

EXTRA EARLY DWARF ERFURT. Until the introduction of our Early Snowball this was considered the best early variety, It is fine for forcing and equally valuable in the open ground. The plants are dwarf and compact and seldom fail to form a good-sized head. 20c. pkt., $\$ 3.50$ oz., $\$ 12.001 / 4 \mathrm{lb}$.
VEITCE'S AUTUMN GIANT. A large sort that succeeds well in the Southern States. 5c. pkt., 60c. oz., $\$ 1.75 \frac{1}{4} \mathrm{lb}$.

[^0]German, Kopfkohl.-French, Chou Pomme.-Spanish, Repollu.

1 oz. will produce 1,500 plants; 1/2 lb. of seed in beds to transplant for an acre.
$0 \leq$ the esrly varieties of Cabbage, in latitudes where the thermometer never indicates 20 degrees below the freezing point, seed may be sown in the open border in October awi transplanted on the first opening of spring: but in our Northern Stales they must either be sown in hot-beds in February, or wintered over in coid frames

The charlestok, or Large Type of Wakefield. the largest and best "FIRSt early" cabbage.
For some years past customers have requested us to procure for them, if possible, a Cabbage which had all the characteristics of the Early Jersey Wakefield, but of a greater size. With this in view, we carefnlly selected from one of our best stocks of Wakefield a larger type, which is now so fixed in its character that we can offer it with confidence to those desiring
 for this purpose the seed is sown from the 10th to the 20th of September. Attention to date is important; if too soon the plants might run to seed, and four or five weeks from the time of sowing they will be fit to transplant into the cold frames. In planting, it is very importart with Cabbage or Caulifower, that the plant is set down to the first leaf, so that the stem is all under ground, for, if exposed, it will be split by the action of the frost, and will be injured in consequence. The plants are usmally set out from the middle of March to the middle of April, in rows abuut two feet apart, and eighteen inches between tae plants in rows. This earliest crop matures in Jnne. For second eart the early kinds shuald be sown first week in April and planted out in May. This crop should mature in July and August The late varieties are usually sown in the early part of May and the hants are set in July at distances of three feet between the rows, and tro feet between the plants. This crop matures September, October Norem'ler. If to be gromu for market purposes, for complete details see the new edition of our bool上, "Gardening for Profit"

## FIRST EARLV CABBAGES. henderson's selected early jersey wakefield Original stock.

The merits and characteristics of the Early Jersey Wakefield Cabbage are now so well known as to hardly need repeating here; still, as our catalogue annually falls into the hands of thousands who have not before seen it, we may state that it is universally considered the best early Cabbage in cultivation. Among its merits may be mentioned its large size of head for an early sort, small outside foliage, and its uniformity in producing a crop. The heads are pyramidal in shape, having a blunted or rounded peak. This variety was first brought into gereral notice by the late Mr. Peter Henderson, in his book, "Gardening for Profit," when it was first published twenty-five years ago. 5c. pkt., 30c. oz., $\$ 1.00 \frac{1}{4} \mathrm{Ib}, \$ 3.00 \mathrm{lb}$.
EXPRESS. Fire years' trials of this superior Cabbage have proved it to be the earliest in cultiva ion, and in this class cannot be excelled. While not so large as Jersey Wakefield, it is four or five days earlier. The heads are uniform in size and shape, exceedingly solid and firm, and of a fine, mild flavor. Though the heads are small, large crops may be obtained, for they have but few outside leaves and may therefore be planted very close
(See cut.) 5c. pkt., 20c. oz., 60c. $1 / 4 \mathrm{lb} ., \$ 2.00 \mathrm{lb}$. a Cahbage of this kind. This selection will average about 50 per cent. larger in size than the old type of Wakefield, and is only two or three days later. (Stock limited.) (See cut.) 10c. pkt., 50c. oz., $\$ 1.50 \frac{1}{4} \mathrm{lb}$., $\$ 5.00 \mathrm{lb}$.

## SECOND EARLT CABBAGES.

HENDERSON'S EARLY SUMMER. This peerless Cabbage was named and first offered for sale ly us in 1874, and every year since we have used the utmost care in the selection of heads for seed purposes, and have so improved the variety that to-day we are selling a far better strain of the Early Summer than we sent out in the year of its introduction. This variety is about ten days later than the Jersey Wakefield, but being of over douthle the size, it may be classed as the best large eurly Cabbage. (See cut.) 5c. plt., $25 \mathrm{c}, 0 \mathrm{z}, 8$ ve., $1 / 4 \mathrm{lb}$. S 3.00 lh ,
HENDERSON'S SUCCESSION. (See illusiration, page 12 , and see full description, page 13.) 10c. pkt., 40 c . oz., $\$ 1.25$ $1 / \mathrm{lb}$., $\$ 400 \mathrm{lb}$
EARLY WINNINGSTADT. A variety coming in about three weeks later than the early varieties. 5c. pkt., $25 \mathrm{c} . \mathrm{oz}^{2}, 75 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$. FOTTLER'S IMPROVED BRUNSWICK. One of the very best. Heads large, flat, solid and of good quality: Sicme remarkably shert, a sure header, and will stand long without cracking. 5 c . pkt., 20 c . oz, 60 c .14 ll ., $\$ 2.25 \mathrm{lb}$.
ST. JOHNS DAY EARLY DRUMHEAD. ST. JOHNS DAY EARLY DRUMHEAD. An early as early as the Winningstadt. 5c. pkt., 20e. oz., 60c. $1 / 41 \mathrm{l}$. $\$ 2.0011$

## Our Prices this Season are lower than ever.

HENDERGON'S EARLI GUMMER.

## CABBAGE-Continued.

## Late or Winter Cabbages.

EENDERSON'S SELECTED LATE FLAT DUTCH. This will be found one of the most satisfactory stocks of late Cabbage. We have for years been selecting and improving this old favorite, and for this purpose we have, each year, carefully selected the largest and best heads, and now we consider it superior to any other strain of this deservedly popular Cabbage. (See cut.) Price, 5 c . pkt., 20 c. oz., $70 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$. REMIUM FLAT DUTCH. An excellent standard late variety, developing rather earlier in the fall than most late sorts, and for that reason not quite so well adapted for winter use. It is largely grown as an early fall sort; is very tender, and of superior flavor. 5c. plt., 20 c. oz., $60 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.00 \mathrm{lb}$.
EENDERSON'S AUTUMN KING. We would say without hesitation that it is the finest late Cabbage in this country to-day, occupying the same position among late Cabbages that the Jerser Wakefield and Succession do in their respective classes. The Autumn King is an entirely distinctvariety, and the best keeper we have ever seen; it produces enormous, solid heads of that dark shade of green that is most desirable in a Cabbage, and has such small outer leares that it can be planted much closer together than the ordinary late sorts, and can be relied upon to produce a greater weight of crop per acre than any other rariety, from the fact of its producing so few outer leaves and going all to head. A distinctive feature of the AUTUMN King is the peculiarly crimped leaves, which not only add to its appearance, but enable it to be listinguished anywhere. We are sorry to find that some other seedsmen are offering this same stock of Cabbage under the name of "World Beater." In cur Trial Grounds last season, we had samples of the Autumn King and the "World Beater" side by side, and they proved to be identical. As we sent the Autumn King out four years ago and the "World Beater" was only offered last year, we claim the credit of the introduction of this, the grandest of all winter Cabbages. The engraving gives a good idea of its appearance. (See large cut and testimonials on page 17.) 10 c, pkt. $40 \mathrm{c}, ~ 02 ., \$ 1.25 \frac{1}{4} 11 \mathrm{H} ., \$ 4.00 \mathrm{lb}$.

mamoth rofe red cabbige
-

## Savoy Cabbage.

We desire to call special attention to this clase, all of the varieties enumerated below being of much finer flavor and quality thau the best of other Cabbages. They are particularly adapted for private use, where quality rather than quantity is desired. Grown in fall and allowed to be touched by frost, it is one of the most delicious of all regetables
NETTED SAVOY. This is the finest of the Saroy class, and as general faverite. Ifeads larme, rery solid and compact, of is vellowish green color, and, like all other of the savoy vartetios is of excellent flavor, far surpassing that of any other late
 MIDSUMMER SAVOY. Very distinet, being but little later than the Dwarf Ulin Savoy, and producing heads of double the beautifully netted, ami of a delicatelight greon. $\overline{5}$ e. pkt
 Early Dwarf Ulm Savoy. A very carly and superior dwart AMERICAN DRUMHEAD SAVOY. The largest healine
 (11., .....50 11),

Wre can also supply the following standard varieties of Cal, hage, which are too wall known to need description, at the uniform price of $5 \mathrm{c} . \mathrm{pkt}, 20 \mathrm{c} .0 \mathrm{z}, 60 \mathrm{c}$. $1 / 1 \mathrm{lb}$., 82.10 lb . Early French Oxheart. Early York.

## CARROT.

## German, Möhre.-French, Carotte.-Spanish, Zanahoria.

The Carrot, lize other root crops, delights in a sands loam, richly tilled. For early crops sow in spring as soon as the ground is in good working order; for later crops they may be sown any time until the middie of June. Sow in rows about 15 inches apart, thinning out to three or four inches between the plants. In field culture, when grown for horses or catille, the rows should be two feat apart, so that the crop can be worked by the Horse Cultivator. As carrot seed is slow to germinate, all precautions must be taken. If by mail in quantities of $\frac{1}{2} \mathrm{~Tb}$. and upuard, postage must be added at the rate of 8 c . per lb .
HENDERSON'S INTERMEDIATE. A most excellent variety for either field or garden culture, large, symmetrical roots of a deep orange red; in size between the Half Long and Long Orange varieties. They are smooth and straight, and free from roughness. The tops are small, considering the size of the roots. (See cut.) 10c. per pkt., 20c. per oz., 40c. per 14 lb ., $\$ 1.25$ per lb.
CHANTENAY HALF LONG SCARLET. A stump-rooted variety, somewhat resembling the well-known Nantes Carrot, but having a

## FONGOBANGI

OXHEART OR GUERANDE. A French variety of recent introduction and a decided acquisition. It is intermediate between Half Long and Horn varieties and perfectly distinct. The shape is nearly oval and the color and quality all that can be desired. (See cut.) 5c. pkt., 10c. oz., $25 \mathrm{c} .1 / 4 \mathrm{lb}$., $90 \mathrm{c} . \mathrm{lb}$.
EARLY FRENCH FORCING. The earliest variety and one largely grown for forcing purposes. It makes a small, almost globe-shaped root of an orange-red color. (See cut.) 5c. pkt., $15 \mathrm{c} .0 \mathrm{z} ., 40 \mathrm{c} .1 / 4 \mathrm{lb} . . \$ 1.25 \mathrm{lb}$.
EARLYSCARLET HORN. Favorite for early crop, but not large. Sold largely in New York markets bunched. It matures 8 to 10 days earlier than the Long Orange, and is sometimes used for forcing. (See cutt.) 5c. pkt., 10c. oz., 30c. 1/4 b., $\$ 1.00 \mathrm{lb}$.

EARLY HALF LONG SCARLET CARENTAN. The skin is smooth, flesh red. and without any core or heart. It is excellent for forcing, and for fine quality and perfect shape can hardly be surpassed. 5c. pkt., 10c. oz., 30c. $1 / 4 \mathrm{lb}$., 90 c . 1b.
HALF LONG RED. (Stump-rooted.) In size and time of maturity it is between the Early Scarlet Horn and the Long Orange. (See cut.) 5 c. pkt., $10 \mathrm{c} .0 \mathrm{z} ., 30 \mathrm{c} .1 \frac{1}{4} 1 \mathrm{~b},, 90 \mathrm{c} .1 \mathrm{~b}$.
EARLY HALF LONG SCARLET. (Pointed-rooted.) Differing from the preceding variety only in having a pointed instead of a stump or blunted root. 5c. pki., 10c, oz., 30c. $1 / 4 \mathrm{lb} ., 90 \mathrm{c} .1 \mathrm{~b}$.
LONG ORANGD IMPROVED. One of the most desiraine fon either gamen or find culture. It grows to a large size fair sperimens averaqing twelve inches in length, and three inches diameter at the top. All who have cattle should raise a surphas of this carrot for feeding milch cows during winter. It increases the flow of milk and imparts to the butter a delicious flavor and a rich golden color. (See cut.) 5c. pkt., 15c. oz., 40c. $\$ 1.00 \mathrm{lb}$
DANVERS. A handsome eylindrical-shaped Carrot ôt good size and stump-rooted. It is of a rich dark orange color, grows to a large size, is smooth and the flesh very close in texture, with little core. It is a first-class carrot for all soils, and it is claimed That under good cultivation it will yield the greatest weight per acre with the smallest length of root of any now grown. (See cut.) $5 \mathrm{c} . \mathrm{pkt} ., 10 \mathrm{c}$. oz., $25 \mathrm{c} .1 / 4 \mathrm{lb} ., 80 \mathrm{c}$. 1b.

LARGE WHITE BELGIAN. The lower part of the root is white; that growing and exposed above ground, green. It is exclusively grown for stock. 5 c . pkt., 10 c. oz., $25 \mathrm{c} .14 \mathrm{lb}, 60 \mathrm{c} . \mathrm{lb}$. YELLOW BELGIAN. When young, the roots are mild and delicate: and when full grown, valuable for stock. 5c. pkt., 10 c. oz., 25c. $1 / 4 \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{~b}$.

## CELERY CULTURE

German, Scleri.-French, Celeri.-Spanish, Apis. 1 oz. for 2,000 plants.
Sow in the open ground as soon as it is fit to work in April. In June and July, plant in rows 3 feet apart for the dwarf varieties, and 4 to 5 feet for the larger sorts, and set 6 inches apart in rows. About the middie of August we begin the "earting up necessary for the blenching. For further details on Celery culture please refer to the new edition of Peter Henderson's bools, "Gardening for Profit."
 at the rate of 8 cts. per lb. For cultural directions, see bottom of page 32.

## HENDERSON'S PERFECTED WHITE PLUME.

## The Only True Self-Blanching Celery.

Introduced by us years ago; time has proved it to be one of our most valuable contributions to horticulture. It is now more popular and more largely grown than all other varieties of celery combined. People who never grew celery before have no more trouble in growing and blanching Henderson's White Plume Celery ready for the table than in growing ordinary garden vegetables, for no "banking up" is necessary. The peculiarity of this variety is that the stalk, portions of inner leaves and heart are white, naturally, so that by simply tying the plant together, or by drawing the soil against it, pressing it with the hands and then repeating the operation to hold the soil already placed against the plant in position, the work of blanching is completed. Henderson's White Plume Celery presents a highly ornamental appearance on the dinner table, and its crisp, succulent stalks and delicious nutty flavor is unequaled by any vegetable grown. Unfortunately the variety has always had a tendency to revert to the old green type, and it has always produced a proportion of green plants, but persevering selection for years enables us now to offer an almost absolutely pure stock, so superior that we feel justified in calling it "Henderson's Perfected White Plume." (See cut.) Price. 5c. per plat, 30 e. per oz., $\$ 1.00$ per $1 / 4 \mathrm{lb}$., $\$ 2.75$ per lb . GIANT PASCAL. Is of a fine nutty flavor, being entirely free from any bitter taste. It grows about two feet high; the stalks are very broad, thick and crisp, and entirely stringle:ss. $10 \mathrm{c} \cdot \mathrm{pkt}$, OOC. oz, $\$ 1.00 \mathrm{t} / \mathrm{lb}, \$ 3.50 \mathrm{lb}$. GOLDEN SELF BLANCHING. A most valuable variety which partakes somewhat of the character of the celebrated "White Plume," inasmuch as it simply needs a slight earthing up nr "handling." It is of a beautiful waxy golden enlor, very solid
and of a rich nutty flavor. 10 c. pkt., $40 \mathrm{c} . \mathrm{oz} ., \$ 1.251 / 4 \mathrm{lb} ., \$ 4.00 \mathrm{lb}$. GOLDEN DWARF. In the great Celery-growing districts this variety is planted to the exclusion of almost all others. When blanched the heart is of a waxy golden yellow, rendering it a most attractive and showy variety; entirely solid, of excellent flavor, and one of the best keepers during winter. 5c. pkt., 25 c . oz., 75c. $1 / 4 \mathrm{lb}$., $\$ 2.50 \mathrm{lb}$.

HENDFRSON'S HALF DWARF. Entirely solid, flavor rich, growth vigorous, surpassing most of the large-growing sorts in weight of bunch. 5 c . plat., 20 c . oz., $60 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$. HENDERSON'S NEW ROSE. Without doubt the finest of its class. The color is a beautiful shade of rose, of exceptionally fine flavor, solid, crisp and entirely free from stringiness. A splendid variety for late use, keeping well. 5c. pkt., $30 \mathrm{c} . \mathrm{oz}$., $\$ 1.001 / 4 \mathrm{lb} ., \$ 3.50 \mathrm{lb}$.
Soup Celery. (Old Seed.) Excellent for flavoring. 30c. 1b.

#  

German, Welchkorn.-French, Mais.-Spanish, Maiz. 1 qi. for 200 hills; 8 to 10 qts. in hills for an acre.
All varieties of Sweet or Sugar Corn may be either sown in rows four and one-half feet apart, and the seeds placed about eightinches apartin the rows, or planted in hills at distances of three or four feet each way, accoraing to the variety grown or the richness of the soil in which itisplanted. The taller the variety, or the richer the soil, the greater should be the distance apart. We make our first plantings in this vicinity about the middle of May, and continue successive plantings every two or three weeks until the last week in July. In pore southerly latitudes planting is begun a month earlier and continued a month later.

Add 10 cents per quart extra if to be sent by mail.

## EARLY VARIETIES.

CORY EARLY. The Cory is undoubtedly the earliest of all and the very best extra early Sireet Corn. We have proved it to be five days earlier than the Marblehead, which hitherto has always taken the lead. Those desiring a first early variety can make no mistake in planting the Cory. (See cut.) $10 \mathrm{c} .1 / 2 \mathrm{pt}$., 15 c . pt .

EARLY MINNESOTA. Very early and desirable alike in the market or family garden. Height not over 41/2 feet; ears of fair size and good quality. 10 c. $1 / 2 \mathrm{pt} ., 15 \mathrm{c}$. pt., $25 \mathrm{c} . \mathrm{qt} ., \$ 1.25 \mathrm{pk} .$, $\$ 1.00$ bush.
CROSBY'S EARLY. Early and a great favorite. Rather small ears, but productive and of excellent quality. (See cut.) 10c. $1 / 2$ pt., $15 \mathrm{c} . \mathrm{pt}^{2}, 25 \mathrm{c} . \mathrm{qt}^{2}, \$ 1.25 \mathrm{pk} ., \$ 4.00$ bush.

## MEDIUM EARLY VARIETIES.

THE "COUNTRY GENTLEMAN." (See Novelties, page 20.) $15 \mathrm{c} .1 / \mathrm{pt} ., 25 \mathrm{c} . \mathrm{pt} ., 40 \mathrm{c} . \mathrm{qt} ., \$ 2.50 \mathrm{pk}$.
NE PLUS ULTRA. Very sweet and tender. The ears are short, but the cob is very small, and the kernels of extraordinary depth, pearly whiteness, and are irregularly crowded together on the cob. $10 \mathrm{c}, 1 / 2 \mathrm{pt} ., 20 \mathrm{c}$. pt., $30 \mathrm{c} . \mathrm{qt},, \$ 1.50 \mathrm{pk}$.
STABLER'S EARLY. A valuable second early corn, remarkably large for so early a ripener, closely following the well-known Marblehead. Yields an abundant crop, is desirable for family use and one of the most profitable for market or canning. (See cut.) $10 \mathrm{c} .1 / 2 \mathrm{pt} ., 15 \mathrm{c} . \mathrm{pt} ., 25 \mathrm{c} . \mathrm{qt} ., \$ 1.25 \mathrm{pk}$., $\$ 4.00$ bush.
ROSLYN HYBRID. Is a very large-growing sort, which ripens ten or twelve days later than Stabler's Early, and the quality of which is said to be finer than Stowell's Evergreen. 10c. 16 pt., 15c. pt., 25 c. qt., $\$ 1.25 \mathrm{pk} ., \$ 4.00$ bush.
Moore's Early Concord. Ears large and well filled; early and unsurpassed for richmess and delicacy of flavor. $10 \mathrm{c} .1 / 2 \mathrm{pt} ., 15 \mathrm{c}$. nt., $25 \mathrm{c}, \mathrm{qt} ., \$ 1.25 \mathrm{pk}$., $\$ 4.00$ bush.
PERRY'S HYBRID. An early twelve-rowed variety, growing only four to five feet high, with ears set very low on the stalk. Kernels white, large, swect and very tender. 10c. $1 / \frac{\mathrm{pt}}{\mathrm{pt}}, 15 \mathrm{c}$. pt., 25̃c. gt., $\$ 1.25 \mathrm{pk}$., $\$ 4.00$ bush.
SQUANTUM. One of the Sweetest varieties, and is largely used for market and canning, It is a general favorite and is wonderqully productive. The Squantum is the variety used almost exclusively at the famous R. I. clambakes, which is sufficient eridence of its quality. $10 \mathrm{c} .1 / 2 \mathrm{pt}$., 15 c c. pt., 25 c . qt., $\$ 1.25 \mathrm{pk} ., \$ 4.00 \mathrm{bu}$.

## LATE or MAIN CROP VARIETIES.

## HENDERSON'S NEW RED COB EVERGREEN. This variety

 is a sport from Stowell's Evergreen. It is a week or ten days earlier than that variety, and produces three or four ears to a stalk. The ears are set low on the stalks, are very thick and regular in size, and are 16 rowed, very deep and of delicious qualitr. $10 \mathrm{c} .1 / 2$ pt., 20 c. pt., $30 \mathrm{c} . \mathrm{qt}$., $\$ 1.50 \mathrm{pk}$.THE "HENDERSON." In the green condition when ready for the table it is alwars pure white, and of a remarkably sweet and rich flavor. The Henderson ripens about ten days earlier than Stowell's Evergreen. It is one of the most valuable sorts for canning purposes or for market. (See cut.) 10e. $1 / 2$ pt., 15. c . pt., 25 s . qt., $\$ 1.25 \mathrm{pk} ., \mathrm{g} 4.50$ bush.
EGYPTIAN. Ears of large size; the flavor peculiarly rich and sweet. It is grown in large quantities for both canning and for selling in the green state. Like all other large varieties, it matures late. $10 \mathrm{c} .1 / 2 \mathrm{pt} ., 15 \mathrm{c} . \mathrm{pt} ., 25 \mathrm{c} . \mathrm{qt} ., \$ 1.25 \mathrm{pk} ., \$ 4.00$ bush.
MAMMOTH. A late variety, producing ears of very large size and fine flavor. It is unusually productive. (See cut.) 10c. $1_{2}$

STOWELL'S EVERGREEN. Now recognized everywhere as a standard variety, both for home use and market, and is the general favorite. The ears are of a large size, grains deep, exceptionally tender and sugary, and has the advantage of remaining longer in the green state than any other. Our stock has been carefully grown and selected to avoid the tendency to a shorter grain and deterioration in the evergreen character of this best of all late sorts. (See cut.) $10 \mathrm{c} .1 / 2 \mathrm{pt}$., $15 \mathrm{c} . \mathrm{pt}$., $25 \mathrm{c} . \mathrm{qt} ., \$ 1.25 \mathrm{pk} ., \$ 4.00$ bush.

[^1]
## CUCUMIBER.

German, Gurke.-French, Concombre.-Spanish, Cohombro.
1 oz . for 50 hills; 2 to 3 lbs . in hills for an acre.
Cucumbers succeed best in warm, rich, sandy loam. They should not be planted in the open air until there is a prospect of settled warm weather, in the vicinity of New York about the middle of May. Plant in hills about four feet apart each way. The hills should be previously prepared by mixing thoroughly with the Boil of each a shovelful of well-rotted manure. When all danger from insects is passed, thin out the plants, leaving three or four of the strongest to cach hill. The fruit should be gathered wheu large enough, whether required for use or not, as, if left to ripen on the vines, it destroys their productiveness.

If by mail in quantities of $1 / 2 l b$. and upward, posfage must be added at the rate of 8 c . per $l b$.
COOL AND CRISP. 15c. pkt., 8 pkts. $\$ 1.00$. (See Novelties, page 14.)
JAPANESE CLIMBING. 15c. pkt., 8 pkts. $\$ 1.00$. (See Novelties, page 14. ) WHITE PERFECTION. A most distinct and valuable variety. It is of a pure waxen white from the time the fruit is first set until it has matured. It is very prolific and likely to be valuable both for forcing and garden cultivation. (See cut No. 4.) 15c. pkt., 50c. oz., $\$ 1.501 / 4 \mathrm{lb}$. EXTRA EARLY GREEN PROLIFIC. Shape and yield same as a good stock of Green Prolific Cucumber, but from ton days to two weeks earlier. Those who wish an early strain of the Green Prolific, or those who grow exclusively for pickling purposes, will find in this something that they have long desired. (See cut No. 5.) 5c. pkt., 10c. oz., 30c. $1 / 4 \mathrm{lb} ., 90 \mathrm{c} .1 \mathrm{~b}$.
IMPROVED EARLY WHITF: SPINE. One of the most popular varieties both for marketing and table use. Vines vigorous, fruiting early and abundantly, fruit uniformly straight and handsome, light green with a few white spines, flesh crisp and of fine flavor. Largely grown for forcing and extensively grown in the South for shipping to the Northern markets early in the season. (See cut No.6.) 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 80 \mathrm{c} .1 \mathrm{~b}$.
LIVINGSTON'S EVERGREEN. This new variety is proving of great value. It is very hardy and probably the most prolific of all varieties. In addition to being so wonderfully prolific, it is very early, and the cucumbers retain their beautiful green color longer than any other sort. It is one of the very best varieties for slicing, as it is very crisp and of good quality, and as it produces fruits of medium size it is likely to be of much value for pickling purposes. 5c. per pkt., 10c. per oz., 25c. per $1 / 4 \mathrm{lb} ., 80 \mathrm{c}$. per 1 b .
NEW EVERBEARING. The peculiar merit of this variety lies in the fact that the vines flower and produce fruit continuously until killed by frost. They exhibit at the same time cucumbers in every stage of growth, but invariably of perfect form even when very small. The cucumbers are of a fine green color, and are desirable for pickling. 5c. per pkt., 10e. per oz., 25c. per $1 / 4 \mathrm{lb} ., 80 \mathrm{c}$ per lb.
NICHOL'S MEDIUM GREEN. We consider this a most valuable variety, being useful and desirable for all purposes alike. As a pickle sort, it will be found unequaled, and for early forcing or slicing there is no better. It is exceedingly productive, of medium size, and always straight and smooth, and if only one variety be grown and is wanted to serve all purposes, this should be that one. (See cut No.3.) 5c. pkt., 10c. oz., 25e. 1/41b., 80e. lb.
JERSEY PICKIING. A good all-round sort. 5c. pkt., 10c. oz. $25 \mathrm{c} .1 / 4 \mathrm{lb}, 88 \mathrm{c} . \mathrm{lb}$.
LONG GREEN. Long fruit of excellent quality, dark green, firm and erisp. 5c.plit., 10c. oz., 25e. $1 / 4 \mathrm{lb}$., 80 c .1 b
SHORT GREEN, OR GHERKIN. Similar to Early Frame good for pickling. 5c. pkt., 10c. oz., 25e. 1́4 lb., 80c. lb.
Tailby's Hybrid. One of the best for family use. 5e. pkt., 10 ( oz., 25c. $1 / 4 \mathrm{lb} ., 80 \mathrm{c} .1 \mathrm{~b}$.
EXTRA LONG WHITE SPINE. Largely used for forcing. 5c. pkt., 10c. oz., 25c. $1_{4}^{1} \mathrm{lb} ., 80 \mathrm{c}, 1 \mathrm{~b}$.
West Indian Gherkin, or Burr. This variety is used exclusively for pickling. (See cut No. 1.) 5c. pkt., $15 \mathrm{c} .0 \mathrm{z}, 35 \mathrm{c} .1 / 4 \mathrm{lb} ., 81.25 \mathrm{lb}$

## English Frame or Forcing Varieties.

Telegraph
Pkt. 25 Duke of Edinburgh . Pkl. 25 Lord Kenyon's Favorite " 25 Cuthill's Black Spine

We can also supply the foilowing standard varieties of Cucumbers, which are too well known to need description, at the uniform price of 5c. pkt, 10e. oz., 25e. ${ }^{1}$, 1 l . $80 \mathrm{c} .1 \mathrm{~b} .:$

## CRESS, OR PEPPER GRASS. <br> German, Kresse.-French, Cresson.-Spanish, Mastruco.

A well-known pungent salad. Requires to be sown thickly and covered very slightly at frequent interrals, to keep up a succession, as it soon runs to seed.

If by mail in quantities of $1 / 2 l$. and uproard, postage must be added at the rate of 8 c . per $l \mathrm{lb}$.
EXTRA CURLED. Very fine; may be cut two or three times. Jo. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 60 \mathrm{c} . \mathrm{lb}$
AMERICAN, OR LAND. Eaten as Water Cress in winter. 5c. pkt, 15c. oz., 35c. $1 / 4$ UPLAND CRESS. (Barbarea Vulgaris.) Grown as Spinach and of easy culture. It so much resembles Water Cress in taste that the difference is scarcely discernible. It is a perennial plant, and can be grown easily for two years without resowing, and it yields enormous crops. The seed should be sown in April (latitude of New York), in rows 12 to 15 inches apart. 10 c. pkt., $\$ 1.50 \mathrm{oz}$.
AUSTRALIAN. Fine, piquant flavor. 5c. plt., 15c. oz., $35 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.00 \mathrm{lb}$.

German, Eierpflanze.-French, Aubergine.-Spanish, Berengena. 1 oz. for 1,000 plants.
The Egg Plant will thrive well in any good garden soil, but will repay good treatment. The seeds should be sown in hot-beds or warm greenhouse in March or April, and when about an inch high pot in two-inch pots. Plant out about June 1 st, two and a half feet apart. If no hot- bed is at hand, they can be grown in anf light roomw where the temperature will average 75 degrees.

If by mail in quantities of $1 / 2$ Tb. and upward, postage must be added at the rate of 8 c . per $l \mathrm{lb}$. IMPROVED NEW YORK SPINELESS. The New York Improved Egg Plant has been the standard variety for years, but this selection is vastly superior in every respect. The habit of the plant is low and branching, and is quite free from spines both on the plant and calyx of the Egg. The Eggs are of largest size and perfect form and from eight to ten are produced on a plant. Another most valuable feature of this Egg Plant is its extreme earliness, maturing its fruit at least two weeks ahead of the old variety. The splendid quality and great productiveness of this selection will greatly increase the popularity of this delicious vegetable. (Seecut.) 10c. pkt., 50 c . oz.

## EARLY LONG PURPLE.

 Differs in shape from the following. Color sometimes deep purple, and again pale, with white or yellowish stripes. Early, productive and of easy culture. $5 \mathrm{c} . \mathrm{pkt} ., 30 \mathrm{c} .0 \mathrm{z} ., 80 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$. NEW YORK IMPROVED. This is the leading market variety. Plant is robust, the leaves and stems being thickly set with spines. 5 c. pkt., $40 \mathrm{c} . \mathrm{oz}$., $\$ 1.251 / 4 \mathrm{lb}$., $\$ 4.50 \mathrm{lb}$.

## BLACK PEKIN.

The fruit of this handsome Egg Plant isjet-black, round in form, very solid. 10 c . pkt., 50c. oz., $\$ 1.50 \frac{1}{4} \mathrm{lb}$.

## German, Brunnenkresse.-French, Cresson de Fontaine.-

 Spanish, Berro.This is a well-known hardy perennial aqnatic plant growing abundantly along the margins of running streams, ditches and ponds, and sold in immensequantities in our markets in spring. Where it does not grow paturalls, it is easily introduced by planting along the margins of ponds and streams.

If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be
 added at the rate of $8 c$. per $l b$. CRESS, WATER. 10c. pkt.

## DANDELION.

German, Pardeblume.-French,
Pisse-en-lit.-Spanish, Amargon.
The Dandelion resembles Endive, and is sometimes cultivated for spring greens, or for blanching for salad. The roots when dried and roasted are often employed as a substitute for coffee. If by mail in quantities of $1 / 2$ lb. and upvard, postage must be added at the rate of 8 c. per $l b$. Dandelion, Common. 10c. pkt., 30 c . oz.
D- LARGE LEAVED. Double the size of the common Dandelion. (See cut.) 15c. pkt., 50c. oz.

## ENDIVE.

German, Endivien.-French, Chicorec.-Spanish, Endivia. Endive is one of the best salads for fall and winter use. Sow for an early supply about the middle of April., As it is used mostly in the fall months, the main sowings are made in June and July. Plantone foot apart each way. When the plant has attained its full size, gather up the leaves and tie them by their tips in a conical form. This excludes the light and air from the inner leaves, and in the course of from three to six weels becomes blanched. If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of $8 c$. per $l b$.
GREEN CURLED. Not only most useful as a salad, but is highly ornamental from its delicately cut and colored leaves. It is much used for garnishing. 5 c . pkt., $15 \mathrm{c} .0 \mathrm{z}, 40 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.50 \mathrm{lb}$. FRENCH MOSS CURLED. From the density of its foliage this variety is heavier than the Green Curled, but it is equally agreeable as a salad, and its appearance, either green or blanched, is particularly handsome. 5e. pkt., 20e. oz., $60 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.00 \mathrm{lb}$. White Curled. Leaves pale green; should be used when young. $5 \mathrm{c} . \mathrm{pkt},{ }^{20 \mathrm{c} .}$ oz., $50 \mathrm{c} .14 \mathrm{lb} ., \$ 1.75 \mathrm{lb}$. (See cut.)
BROAD LEAVED BATAVIAN. (Escarolle.) Chiefly used in soups and stews. 5 c. pkt., 20 c . oz., $50 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.75 \mathrm{lb}$.

## IALE, or BORECOLE.

## German, Blätter-Kohl.-French, Chou Vert.-Spanish, Breton.

Sow from the middle of April to the heginning of Mar in prepared beds: transplant in June and treat in the same manner as for Cabbage. Of all the cabbage tribe this is the most tender and delicate sand would be much more extensively grown than it is if its excellent qualities were generally known. The varieties are all extremely hardy, and are best when touched by frost.
If by mail in quantities of $1 \frac{1}{2} 2 b$. and upward, postage must be added at the rate of 8 c . per 1 lb . DWARF GREEN CURLED SCOTCH. A dwarf variety, rarely exceeding 18 inches in height, but spreading out under good cultivation to 3 feet in diameter. The leaves are beautifully curled and of a bright green. It will stand out where the temperature does not fall below zero. 5 c. pkt., $15 \mathrm{c} . \mathrm{oz} ., 35 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 1.00 \mathrm{lb}$.
SIBERIAN. This variety is extensively grown as winter greens; sown in September. $5 \mathrm{c} . \mathrm{pkt} ., 10 \mathrm{c}$. oz., $20 \mathrm{c}, 1 / 4 \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{~b}$.
Brown German Curled or Purple. Is the variety most esteemed by the Germans. It is very hardy and is often seen in the gardens of New York as late as January. 5c. pkt., 15 c . oz., 40 c . $1 / 4 \mathrm{lb}$., $\$ 1.50 \mathrm{lb}$.

German, Senf.-French, Moutarde.-Spanish, Mostazce.

A pungent salad, sometimes used with Cress. Sow thickly in rows and cut when about two inches high ; for use during winter it may be sown at intervals in boxes.

If by mail in quantities of 1/2 lb. and upward, postage must be added at the rate of $8 c$. per lb.
WHITE LONDON. Best for salads. 5c. oz., 15c. 1/4 lb., 40c. 1b.
Brown or Black. More pungent in flavor than the white. 5c. oz., 15c. $1 / 4 \mathrm{lb} ., 40 \mathrm{c} . \mathrm{lb}$.
New Chinese. Leaves twice the size of the ordinary white Mustard; stems more succulent, of deeper green; flavor pleasantly sweet and pungent. 10 c . oz., 30c. $1 / 4 \mathrm{lb} ., \$ 1.00 \mathrm{lb}$.

## MARTYNIA.

The seed pods are used to a considerable extent for pickling when gathered green and tender. Sow in the open ground in May.

If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of $8 c$. per $l b$.
Proboscidea. 10c. pkt., 30c. oz., $\$ 1.00 \frac{1}{4} \mathrm{lb} ., \$ 3.00 \mathrm{lb}$.
MUSHROOM SPAWN.
We issue a pamphiet of instructions for Mushroom culture, which will be sent free with all orders for Spawn; to all others on receipt of 10 cents. The Spawn we offer is specially made for us three or four times each season, and is always fresh and in for us three or four times each season,
proper condition for planting. (See cul.)
English. 15c. 1b., $\$ 1.00$ for 8 lbs ; by mail, 25 c .1 lb . French. In boxes of 2 lbs., 75 c .; if by mail, 95 c .

## NASTURTIUM, OP INDIAN CRESS.

The seeds, while young and succulent, are pickled and used as capers. The plants are also highly ornamental ; the tall variety makes an excellent screen or covering for unsightly places in the garden.

If by mail in quartities of $1 / 2 l b$. and upward, postage must be added at the rate of $8 \mathrm{c} . \mathrm{per} l \mathrm{lb}$. Tall. 5c. pkt., 15 c. oz., $35 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb} . \mid$ Dwarf. 5c. pkt., 15c. oz., 40c. $1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$.

## OKRA, Or GUMBO.

German, Essbarer.-French, Gombo.-Spanish, Quibombo.
This vegetable is extensively grown in the Southern States. Its long pods when young are used in soups, stews, etc. It grows freely, bearizg abundantly in any garden oil. It is sown at the usual time of all tender vegetables, in drills two ivches deep, setting the plants two to three feet apart.

If by mail in quantities of 1'2 $l$ b. and upward, postage must be added at the rate of $8 c$. per $l b$. WHITE VELVET. The pods are round and smooth, and are much larger than those of any other Okra, are never prickly to the touch and are produced in the greatest abundance. (See cut.) 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 90 \mathrm{c} .1 \mathrm{lb}$.
Dwarf Prolific. A very early variety, with long, green, slender pods. Very dwarf and productive. $5 \mathrm{c} . \mathrm{pkt}$., 10 c . oz., 25 c . $1 / 4 \mathrm{lb} ., 75 \mathrm{c} .1 \mathrm{~b}$.
Improved Dwarf Green. Early and productive. 5c. pkt., 10c. oz. $20 \mathrm{c} .1 / 4 \mathrm{lb}$., 60c. 1b. Long Green. Long ribbed pods. 5c. pkt., 10 c. oz., $20 \mathrm{c} .1 / 4 \mathrm{lb} ., 60 \mathrm{c} . \mathrm{lb}$.

## KOHL RABI.

German, Kohlrabi.-French, Chou-rabe.-Spanish, Calde Nabo. A vegetable intermediate between the Cabbage and the Turnip. Cultivation same as Turnip. See page 54. If by mail in quantities of $1 / 2 l b$. and upward, postage must be added at the rate of $8 c$. per $l b$. EARLY SHORT LEAVED WHITE VIENNA. A variety of fine quality for forcing. 10c. pkt., 40 c. oz., $\$ 1.251 / 4 \mathrm{lb} ., \$ 4.00 \mathrm{lb}$.
EARLY WHITE VIENNA. Is greenish white outside, flesh white and tender. Should be used when the root is three or four inches in diameter. (See cut.) 5c. pkt., 25 c. oz., $75 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$.
EARLY PURPLE VIENNA. Almost identical with the preceding, except in color. 5c. pkt., 20c. oz., $60 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$.

## LEEK.

## German, Lauch.-French, Poireau.-Spanish, Puerro.

The Leek is very hardy and easily cultivated; it succeeds best in a light but well-enriched soil. Sow as early in spring as practicable, in drills one inch deep and one foot apart. When six or eight inches high they may be transplanted in rows ten inches apart each way, as deep as possible, that the neck, being covered, may be blanched.

If by mail in quantities of $1 / 2 l b$. and upward, postage must be added at the rate of $8 c$. per $l b$.
PERPETUAL. A most distinct and valuable variety, which produces continuously a number of stalks from one plant the first season from seed. The stalks are not as heavy as those of the ordinary leek, but for this reason are more desirable for cutting up for use in soups or other ways in which leek is used. The flavor is identical with that of the other varieties of leek, and it is likely to prove entirely hardy. 10 c. pkt., $50 \mathrm{c} . \mathrm{oz}$.

LARGE AMERICAN FLAG. This is by far the best variety. It grows to a good size and is wonderfully uniform. This is preferred by our most critical market gardeners in the vicinity of New York, and we can recommend it to all. (See cut.) $5 \mathrm{c} . \mathrm{pkt} ., 25 \mathrm{c}$. oz., 75 c . $1 / 4 \mathrm{lb}$., $\$ 2.25 \mathrm{lb}$.
Musselburgh. (Scotch Champion.) Grows to a large size. $5 \mathrm{c} . \mathrm{pkt}$. $25 \mathrm{c} . \mathrm{oz} ., 75 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 2.50 \mathrm{lb}$.
Large Rouen. A large and excellent variety. 10c. pkt., 25c. oz., $75 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$.

## PETER HENDERSON \& CO., NEW YORK.-VEGETABLE SEEDS.

## LETTUCE

HEAD OR CABBAGE TARTETIES.

Ger., Lattich.-Fr., Lailue.-Span., Lechuga. 1 oz. for 3,000 plants.

For main early crop seed may be sown in the open ground in the middle of September, and transplanted to cold frames as soon as large enough to handle beng wintered orer the same as early Cabbage. In dry, well-sheltered spots by covering with leaves or litter late in the season Lettuce plants may be saved over the winter without glass covering in southern parts of the country without difficulty. The plants for setting out in spring are also sown in cold frames in February, and in hot-beds in March, and by careful covering up at night make fine plants by April. But for ordinary private use in the summer months, the aimplest way is to sow it thinly in rows one foot apart and thin out the plants so that whey will stand one foot apart. This is easier than transplanting the plants, sind if sown erery two or three weeks from middle of April to middle of August, Lettuce may be had in perfection the whole season

If by mail in quantities of $1 / 27 b$. and upward, postage must be added at the rate of $8 c$. per $l b$.
HENDERSON'S NEW YORK. Is of unusual size and solidity of head, with but little tendency to run to seed. We have had it time and again eighteen inches in diameter, and weighing nearly four pounds, with heads almost as solid as an Early Summer Cabbage, which in general form it somewhat resembles. The variety blanches itself naturally, is crisp, tender and of excellent flavor, and alwass free from bitterness. The outside color is distinct. It is not a forcing variety, but
it is certainly one of the best varieties for summer use ever introduced. (See cut.) 5c. plst., 15c. oz., 40c. $1 / 4 \mathrm{lb}$. $\$ 1.40 \mathrm{lb}$.

BIG BOSTON. (See Nocelties, page 15.) 10c. pkt., 35 ci. oz., $\$ 1.00$ DRUMHEAD OR MALTA. Heads very large, crisp, tender and of good flavor; one of the best summer rarieties. 5e. pkt., 10e.

BLACK SEEDED BUTTER. Similar to Tennis Ball, but larger. Used extensively as au outdoor variety. 5c. pkt., 15c. oz., 40c. $1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$.
YELLOW SEEDED BUTTER. This withstands summer heat well, and remains in head long before running to seed. It is a very distinct sort, making a large dense yellow head, of a very handsome appearance, very crisp and tender, and excellent in flavor. 5c. plet., 15c. oz., 40c. $1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$.
HANSON. We can recommend this as one of the very best. Outer leaves bright green, with prominentlight-colored veins; inner leaves white, and usually curved and twisted at the base. Extensively grown by market gardeners and truckers as it is always sure to make large handsome heads of excellent quality. 5 e . pkt $15 \mathrm{c} .0 \mathrm{z}, 40 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.20 \mathrm{lb}$.
SALAMANDER. One of the twst for summer use, forming
anul-sizal compact heads. Culor, light green outside and white mside. Its great merit, howerer, is that it will remain longer in leanl, and stand a greater amount of heat without hurning or running to seed than any other variety. These desirable qualities have been thoroughly proven in our trial grounds, and we recommend it to all, especially in the Southen States, where it is invaluatle. 5 c. pkt., $15 \mathrm{c} .0 \mathrm{z} ., 40 \mathrm{c} .1 / 4 \mathrm{~h} ., \$ 1.25 \mathrm{lb}$.

SUNSET." A head Lettuce of splendid quality, with characteristics that commend it to all. It forms large, solid heads of a rich golden yellow, a shade of color hitherto unknown in this class of Lettuce. 5c. pkt., 15c. oz., 40c. lb., $\$ 1.25 \mathrm{lb}$.
HARDY GREEN WINTER. One of the best winter varieties, very hardy, and forms a solid head. 5 c. plit., 15 c. oz., $40 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$.
GOLDEN QUEEN. A rery desirable small, early variety, of a most pleasing golden yellow color, that shade which is alwass most desirable in a Lettuce. It is one of the most deceptive varieties we have ever seen, as at first glance it seems to be a veritable miniature Lettuce; but it forms all solid heads with little or no waste, so that there is really more to it than in many Lettuces double the size. It is rery crisp, tender and juicy. (See cut.) 10c. pkt., 25c. oz., $75 \mathrm{c} .1 / \mathrm{lb}$., $\$ 2.40 \mathrm{lb}$
BOSTON MARKET. This variety can be planted so close and is so well adapted for the purpose that it is now more generally used for forcing in greenhouses and hot-beds than any other. It grows very compact and forms fair-sized heads, slightly tinged with red on the edge of the leares. It is also one of the best early varieties for outdoor use. 5 c. nkt., 15c. oz., $40 \mathrm{c} .1 / 4 \mathrm{lb} . ; \$ 1.20 \mathrm{lb}$.

TENNIS BALL BLACK SEEDED. A favorite forcing variety, forming a hard head. It makes but few outer leaves, and for this reason cau be planted quite closely under glass--from six to seven inches apart. It is the variety so largely used in hot-beds, forcing pits and in greenhouses. pkt., $15 \mathrm{c} . \quad$ oz., 40 c. $1 / 4 \mathrm{lb}$., $\$ 1.25 \mathrm{lb}$.

We can also supply the following varieties of Lettuce, which are too weh known to need description, at the uniform price of 5 c. pkt., 15 c. oz., $40 \mathrm{c} .1 / 4 \mathrm{lb} . .51 .25 \mathrm{lb}$. :
Brown Dutch, Large White Summer Cabbage, Large India, Defiance, Summer, Deacon,

Early Prize Head, Bozton Curled,
Oak Leaved.

## COS, ROMAINE,

 CELERY LETTUCE.PARIS WHITE COS. The Cos Lettuce differs entirely in shape from the other varieties, the head being elongated and of conical form, eight or nine inches in height, and five or inches in diameter. The outer coloring of this variety is yellowish green. To be hadinperfection it requires to be tied up to insure its blanching. $5 \mathrm{c} . \mathrm{pkt} ., 15 \mathrm{c}$. oz., 40 c. $1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$. "TRIANON."Thisis the favorite class of Lettuces in Europe, and this rariety is

BLACK SEEDED SMPSON LETTUCE. the very finest of its class; already they are becoming more popular here. The long, narrow leaves, which form solid heads, almost like a Wakefield Cabbage, bleach and quickly become snowy white. They excel all other Lettuces in quality, having a taste and crispness unequaled. The leaves when bleached are stiff like Celery stalks and can be eaten in the same manner. (See cut.) Price, 10c. per pkt., 25c. per oz., 75c. per $1 / 416 ., \$ 2.50$ per lb.

## LETTUCE-Curled Varieties.

EARLY CURLED SIMPSON. Forms a close, compact mass of curly leaves of a yellowish green. It matures quicker than varieties that form firm heads, which gives it its great desideratumearliness. It is the kind that is planted in cold frames almost exclusively, and it is also largely grown as an early open-air variety between a Cabbage crop. 5c. pkt., 10c. oz., 30c. 1/4 lb,, $\$ 1.00 \mathrm{lb}$.

BLACK SEEDED SIMPSON. Forms a large, thin and exceedingly tender leaf, and for such who desire a large, loose head this is the best variety, either for forcing or sowing out-of-doors, though on account of its large size it is, under some circumstances, not so profitable for forcing as a strictly forcing kind. The leaves are a delicate golden yellow, and it stands the summer heat splendidly. (Sce cut.) 5c. pkt., 15 c . oz., $40 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$.

New Winter Musk Melon, "Pincapple。"
This represents a class of Musk Melons that are likely to prove of much value. The color of the flesh is delicate lemon-yellow, and the outer skin is dark green marked with yellow. The quality is delicious, having a rich spicy flavor that is not possessed by any other fruit. All of this class of Melons have much thicker and finer flesh than ordinary musk melons, hence their long-keeping qualities. They rarely ripen on the vine, so the melons must be picked off in the fall and put in some cool place, where, however, there is no danger of freezing, until they are wanted. It is usually necessary to place them in a warm ronm for three or four days before using, so as to ripen them up thoroughly. Handled in this way they can be had for use all winter. (See cut.) 10c. per pkt., 12 pkts. for $\$ 1.00$.

$$
\text { German, Melone.-French, Melon.-Spanish, Melon. } 1 \text { oz. for } 60 \text { hills; } 2 \text { to } 3 \text { lbs. in hills for an acre. }
$$

Melons thrive best in a moderately enriched light soil; the hills should be from three to six feet apart each way, according to the richness of the soil. If soil is poor or sandy, plant at four feet. Previous to planting, incorporate well with the soil in each hill a couple of shorelfuls of thoroughly rotted manure; plant twelve or fifteen seeds in each hill early in Mar, for latitnde of New York; shoots as the growth becomes too luxuriant, and if the fruit sets too numerously thin out when young which will increase the size of those remaining and cause them to ripen quicker. Melons may also be forced under glass, like Cucumbers, but itis not often done in this country, for the reason that they can be grown and shipped so easily from the Southern States.

If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of 8 cts . per lb .

THE NEWPORT. One of the largest market gardeners in the vicinity of New York has for years grown a Musk Melon that in general appearance did not differ from the Hackensack except that it was a little smaller. All that he could raise of this variety has been taken at high prices by the most select hotels in New Tork, Newport and Boston. The Newport melon while small is very deep-fleshed and of a dark green color. The Newport stands in the same relation to the green-fleshed melons that the "Banquet" does to the red-fleshed, in every respect the best. 10 c. pkt., 30 c. oz., $\$ 1.001 / 4 \mathrm{lb} ., \$ 3.00 \mathrm{lb}$.
EMERALD GEM. This rariety is of rich, delicious flaror and fine quality. Distinct, rery early and prolific ; skin ribbed, yet smonth, and of a deep encrald green, with a few lighter-colored stripes. The flosh is thick, of a suffused salmon color. Specially recommended to those who wish a very high-flarored fruit. (See cut.) Price, 5 c . plet., 10c. oz., 25 c .14 lb ., 80 c . 1 b .
NEW EARLY HACKENSACK. We were the first to distribute generally throughout the country the now famous Hackensack. This New Early is a selection or improvement almost equal in size to the Hackensack, and at least ten days earlier. Several years' thorough trial has prowen it to be the best as well as the parliest of all the netted melons. The melons weigh from four to six pounds cach, and are of delicious flavor. (See cul.) PERFECTED DELMONICO. (See Novelties, page 15.) 15c. pkt., MONTREAL MARKET. Excellent varicty of the largest size; we have had them weighing over 20 lbs . In shape almost round, flattoned at cends, deeply ribleed; skin green and netted. Flesh pkt., $10 \mathrm{c} .0 \mathrm{oz} ., 25 \mathrm{c}$. $1 \frac{1}{1 \mathrm{lb} ., 75 \mathrm{c} .1 \mathrm{~b} .}$
BACKENSACK. It attains a large size, is round in shape and flattened at tho ends; skin green and thickly netted; the flesh also is green, and rich and sugary in flavor. It is wonderfully nroductive; very popular with market gardeners. 5c. pkt., 10 c .

SKILLMAN'S NETTED. Form, roundish oval; flesh deep green, sweet and richly perfumed; an early and delicious variety. 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb}$., 75c. 1b.
Netted Gem. One of the earliest, best and most prolific small melons. Globe-shaped, uniform in size, weighing from $11 / 4$ to $11 / 2$ lbs. each. Flesh light green and of very fine fiavor. (See cut.) $5 \mathrm{c} . \mathrm{pkt} ., 10 \mathrm{c} .0 \mathrm{z} ., 30 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.00 \mathrm{lb}$.
Improved Christiana. A very early variety of peculiar flavor, relished br many people. Its chief merit is its extreme earliness. Flesh bright orange. 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 75 \mathrm{c} .1 \mathrm{lb}$.
Jenny Lind. A popular small early variety, flattened at each end, ribbed and closely netted. Flesh green and of excellent flavor. Largely gromn in the South for early shipment to the Northern markets. 5c. pkt., $10 \mathrm{c} .0 \mathrm{z} ., 25 \mathrm{c} .3 / 41 \mathrm{~b} ., 75 \mathrm{c} .1 \mathrm{~b}$.
Improved Nutmeg. Fruit nutmeg shape; skin deep green, finely netted; flesh greenish yellow, rich and sugary. 5c. plet., 10c. oz., $25 \mathrm{c} .1 / 4 \mathrm{lb}$., $75 \mathrm{c} . \mathrm{lb}$.
BALTIMORE, or ACME. A green-fleshed, productire and excellent shipping melon that can always be found in its season in the best hotels and restaurants in New York, Philadelphia and Baltimore. It is a green-fleshed variety of oblong form. (See cut.) 5c. pkt., 10c. oz., $25 \mathrm{c} .1 / 4 \mathrm{lb} ., 75 \mathrm{c} .1 \mathrm{~b}$.
MILLER'S CREAM, or PRINCESS. Most delicious. The flesh is a rich salmon color, very thick, sweet and rich ; rind very thin and finely netted. Vigorous grower. Very productive. 5c. pkt., 10c. oz., $25 \mathrm{c} .1 / 4 \mathrm{lb} ., 75 \mathrm{c} . \mathrm{lb}$.
Large Fellow Cantaloupe. Flesh reddish orange, sweet, and of good flavor; early and productive. 5c. pkt., 10c. oz., $25 \mathrm{c} .1 / 4 \mathrm{lb}$., $75 \mathrm{c} . \mathrm{lb}$.
BANQUET. See preceding page, 39. 10c. plt., 30c. oz., $\$ 1.00$ 141 b ., $\$ 3.00 \mathrm{lb}$.
PINEAPPLE, WINTER. See preceding page, 39. 10c. pkt., 12 pkts. for $\$ 1.00$.

## MELON, WHTER.

German, Wasser-Melone.-French, Melon d'Eau.-Spanish, Sandia. 1 oz. for 30 hills; 4 to 5 lbs, in hills for an acre.
Watermelons require a rich though rather sandy soil for best development, and thrive best in warm latitudes, growing best in the Southern or South-western States, although in warm, sandy soils in this latitude fine crops are often obtained. Cultivate exactly as for Musk Melons, except that the hills should be just double the distance apart, namely, eight and ten feet.

If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of 8 cts . per lb .

COLE'S EARLY. (See Novelties page 15.) 15c. pkt., 8 pkts. for $\$ 1.00$.
THE JONES. We are indebted to Mr. Philip S. Jones, of Georgia, for this splendid melon. The color of the skin is solid green, and the flesh is a very bright red, particularly sweet, juiey and melting. It grows to a large size, frequently attaining the weight of eighty pounds. In shape it resembles Kolb's Gem, and like that variety is one of the best shipping sorts. 5c. pkt., 10c. oz., 30c. $1 / 4 \mathrm{lb} ., \$ 1.00 \mathrm{lb}$.
FIORIDA FAVORITE. One of the largest and best in cultivation. Being several days earlier than Kolb's Gem, it will succeed in a latitude far north of that popular variety. It attains an enormous size; the flesh is a beautiful clear crimson, extending close up to the rind, which is hard, thin, and beautifully mottled light and dark green. The shape is oblong, the flavor is sweet and melting, making it one of the best in cultivation. (See cut.) 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 70 \mathrm{c} . \mathrm{lb}$.
EENDERSON'S GREEN AND GOLD. The largest early variety, very productive and of delicious flavor. Rind very thin, being only from $3 / 8$ to $1 / 2$ inch in thickness. Independent of the delicious flavor, its rich golden color will make it most desirable as an ornament for the table, especially if its golden slices are arranged in contrast with the crimson of the older sorts. (See cut.) 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 70 \mathrm{c} .1 \mathrm{lb}$.
HUNGARIAN HONEY. This superb variety ripens early. The flesh is a very brilliant red color and of a very rich honey flavor; color of skin, medium dark green; uniformly of medium size. 5c. pkt., $10 \mathrm{c} .0 \mathrm{z} ., 30 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.00 \mathrm{lb}$.
Colorado Preserving. The preserving qualities of this distinct variety are of the very best; weight, 15 to 40 lbs. each. 5c. pkt., 10c. Oz., 25c. $1 / 4 \mathrm{lb} ., 70 \mathrm{c}$. lb.
ICECREAM (White Seeded). This is one of the best for growing in the latitude of N. Y. In shape it is almost round; the skin is light green, slightly mottled; flesh bright scarlet, and
very solid. Medium size, and its delicious flavor leaves nothing to be desired. 5c. pkt., 10c.oz., 20c. $1 / 4 \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{~b}$.
JORDAN'S GRAY MONARCH. This distinct melon is the largest of all. The skin is a mottled gray; shape long; flesh bright crimson and of sweet, delicious flavor. It is also a fine shipper. 5 c. pkt., 10 c. oz., 25c. $1 / 4 \mathrm{lb} ., 70 \mathrm{c} . \mathrm{lb}$.
KOLB'S GEM. Largely grown, particularly in the South, for shipment to Northern markets. As a shipping melon it has hardly an equal. The fruit is nearly round; rind dark green, somewhat marbled with lighter shades. Weight, 25 to 50 lbs . (See cut.) 5c. pkt., 10c. oz., 20c. 1/4 lb., 60c. lb.
MOUNTAIN SWEET. Fruit oblong, dark green; rind thin; flesh red, solid and sweet. 5c. pkt., 10c. oz., 25c. 1/41b., 70c. 1b. RUBY GOLD. A new seedling from Henderson's Green and Gold. This splendid new melon is a hybrid seedling of the famous "Green and Gold" Watermelon, which was introduced by us in 1888. Its beauty and quality are unexcelled. The "Ruby Gold" averages 40 to 50 lbs. in weight, and is one of the juiciest and finest flavored Watermelons ever raised. 5c. pkt., 10 c. oz., $30 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.00 \mathrm{lb}$.
DIXIE. A new variety said to have the excellent shipping quali ties of Kolb's Gem, to which must be added fine flavor and productiveness. 5c. pkt., 15c. oz., 40c. $1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$.
SEMINOLE. In shape, this is oblong, slightly tapering at the ends. One of the claims of the grower, which we have proved by testing, is that it is solid, ripening clear up to the rind. The flavor is excellent; in a word, it is one of the best. 5c. pkt., $10 \mathrm{c} . \mathrm{oz} ., 25 \mathrm{c} .1 / 4 \mathrm{lb} ., 70 \mathrm{c} .1 \mathrm{~b}$.
THE VOLGA. It is perfectly round in shape, averaging about 15 lbs. in weight. The skin is light green in color, slightly mottled, thin and very hard. It will succeed as far North as Montreal. The color of the flesh is bright red and is of a delicious melting flavor. (See cut.) 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., \mathrm{s}$ cious m

We can also supply the following standard varieties, which are too well known to need description, at the uniform price of 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 60 \mathrm{c} . \mathrm{lb}$. :

## Onion Seed. <br> German, Zuiebel.-French, Oignon -Spanish, Cebolla. <br> The Onion thrives best in a rather deep

 rich, loamy soil, and, unlike most vegeta bles, succeeds well when cultivated on the same ground for successive rears. The best culture requires that the ground should be deeply trenched and manured the previous autumn, and laid up in ridges during the winter to pulverize. As earls in the spring as the ground is in working order, commence operations by leveling the ground with a rake, and tread it firmly sow thinly in drills about a quarter of an inch deep, and one foot apart; cover with fine soil, and press down Whe back of spade or a light roller, then the young plants are strong enough, thin gradually so that they stand three or four inches apart. Keep the surface of the ground open and free from weeds by frequent hoeing, taking care not to stir the soll too deeply, or to collect it about the growing bulbs.If by mail in quantities of $1 / 27$. and upward, postage must be added at the rate of $8 c$. per $l b$.
1 oz. for 100 feet of drill; 5 or 6 lbs. in drills for an acre.

SOUTHPORT YELLOW GLOBE. Same shape as White Globe; color Jellow. An excellent keeper. Our stock of this is perhaps the finest in the country. (See cut.) 5c. plt., 25c. oz., $75 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.60 \mathrm{lb}$.
LARGERED GLOBE. With the exception, perhaps, of some of the white varieties, there is no onion that realizes such large prices as this, its beautiful glove shape and rich purplish crimson color making it extromely desirable. The Large Red Giolve is a grond keeper and of excollent quality. (Sce cut.) 5 c. pkt., 20c. oz., 70c. 1/4 lb., \&2. 25 lb
Extra Early Flat Red. A light ed Onion, good keeper, $\mathrm{oz}, 60 \mathrm{c} .1 / 4 \mathrm{ll}, \mathrm{S} 2.00 \mathrm{il}$.

SOUTHPORT WHITE GLOBE. Handsome globular Onion, of mild flaror; good keeper. One of the best. (Seecut.) 5c. pkt., 35c. oz., \$1.25. $1 / 4 \mathrm{lb} ., \$ 4.00 \mathrm{lb}$.
ROUND YELLOW DAN. VERS. An early variety, good keeper and excellent market sort. Good size; has a thin. 5ellow skin. 5c. plzt., 20c. oz.g. $70 \mathrm{c} .1 / 4 \mathrm{lb},, \$ 2.25 \mathrm{lb}$.

## YELLOW GLOBE DANVERS.

This is the standard variety everywhere, its uniform shape and bright yellow color and finequality commending it to all. Fellow Globe Danvers is an excellent keeper and is one of themost desirable sorts for eitherthe professional or amateur gardener. (See cut.) 5̄c. pkt.s $25 \mathrm{c} .0 \mathrm{z}, 75 \mathrm{c} .1 / 4 \mathrm{lb},, \$ 2.50 \mathrm{lb}$.

WETHERSFIELD LARGE RED.
A favorite sort for general crop. A large yielder and a good keeper. (See cut.) 5c. pkt., 20c. oz., 60c. $1 / 4$ ib., $\$ 2.00 \mathrm{lb}$.
YELLOW DUTCH. A flat, Jellow Onion; a good vielder, but not so desiralile as other yellow sorts on account of its color and shape. It is one of the heaviest croppers. らe. pkt., 20c. 0\%., 60c. 1/4 1b., $\$ 2.00$ lb. VER SKIN. One of the leading
solts of white flat Onion. A most. rxcellent kerper and good rielder.
Largely grown for pickling

> The vegetable and flower seeds that I purclased of you last spring had rather a hard struggle owing to the unfavoralle aeason and the ravages of the cut worms, but they came out in a most satiefactory
manuer, and I never raised as fine vegelamanuer, aud I never raised as fine vegetables or flowers as I did this sear. I was par-
ticnlarly pleased with the Eclipse Beet, New Fiork Letture and Southport Onions -Gus Norton, Union City, Md.

Dur Prices this Season are lower than ever. Read what we say on this subject on pages 1 and 2.

## ONION SEED-Continued.

## SPANISH AND ITALIAN VARIETIES.

NEW MAMMOTH POMPEII. (Red Garganus.) Is a very fine Italian variety. It has produced Onions weighing 4 to 5 lbs . each. The skin is a delicate red, the flesh is close grained and nearly white. Is of a very mild flavor, and in sections where Onions can be sown during autumn, this variety, if transplanted in April, will attain a larger size than any variety we know of. 5c. pkt., 20c. oz., 60c. $1 / 4 \mathrm{lb} ., \$ 2.25 \mathrm{lb}$.
QUEEN. This is a very early Onion; small, flat, white and mild flavored. 5c. pkt., 20c. oz., $60 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.00 \mathrm{lb}$.
NEAPOLITAN MARZAJOLA. An early white, flat Onion of fine flavor. 5c. pkt., 20c. oz., 60c. $1 / 4 \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$.
GIANT ROCCA. Very large growing globe-shaped variety, of a reddish brown color. Flavor mild and sweet. 5c. pkt., 20c. oz., $60 \mathrm{c} . \frac{1}{4} \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$. $1 / 4 \mathrm{lb}$., $\$ 1.75 \mathrm{lb}$.
GIANT WHITE GARGANUS. (Silver King.) Single Onions of this variety, grown from seed, the first season have weighed as much as 3 lbs. It matures early, is a white-skinned and white-fleshed variety, in shape somewhat flat, and of an exceedingly mild and delicate Havor. 10c. pkt., 25c. oz., $75 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$.
PRIZE TAKER. This is the large, beautiful Onion that is seen every fall offered for sale at the fruitstores in New York and other large cities. They are a rich straw culor and of enormous size, averaging 12 to 14 inches in circumference. Although of such great size, it is very hard and an excellent keeper. The flavor is mild and delicate, making the Prize Taker a favorite variety for slicing for salads. (See cut.) Price, 10c. per pkt., 30c. per oz., \$1.00 per $1 / 4 \mathrm{lb}$., $\$ 3.50$ per 1 lb .
 variety of vigorous habit, producing large, showy onions of fine quality. This is not a good keeping variety, but for bunching for sale or using in the green state, it cannot be surpassed. (See cut.) 5c. pkt., $25 \mathrm{c} . \mathrm{oz} ., 60 \mathrm{c}$. 1/4 lb., \$2.00 lb.
ADRIATIC BARLETTA.
A very early, small, pure white variety, having a very delicate silver skin, flesh firm and mild in flaver. Its great merit is its extreme earliness. For pickling purposes it is unexcelled. Price, 10c. pkt., 25 c. oz., $75 \mathrm{c} .1 / \mathrm{s}$ , $\$ 2.50 \mathrm{lb}$.

## Bermuda Varieties.

These are very early varieties, and are grown very largely by the Bermuda growers and those of our own Southern States.
We again have pleasure in offering new crop seed of the true
Bermuda Onion, the seed of which it is often difficult to obtain.

Pale Red. 5c. pkt., $20 \mathrm{c} . \mathrm{oz}, 70 \mathrm{c}, 1 / 4 \mathrm{lb}, \$ 2.25 \mathrm{lb}$.
White. 5c. pkt., $20 \mathrm{c} .07 ., 70 \mathrm{c} .1 / 4 \mathrm{lb}, \$ 2.00 \mathrm{lb}$.
Red Onion sets, $35 \mathrm{c} . \mathrm{qt} ., \$ 2.50 \mathrm{pk}$. White, $35 \mathrm{c} . \mathrm{qt} ., \$ 2.50 \mathrm{pk}$. Yellow, 35 c . qt., $\$ 2.50$ pk. Potato Onions, 35 c . qt., $\$ 2.50 \mathrm{pk}$. Top, or Button Onions, 30 c . qt., $\$ 2.00 \mathrm{pk}$.
Shallots. 40 c . qt.
Garlic Sets. 40 c . lb.
WHITE MOLTIPLIER. An Onion of pure white silvery color, and very hardy. White Onion seed is usually high priced, hence the advantage of a white "Multiplying" Onion of this kind. Very useful for pickling. The New White Multiplier Onion is enormously productive, and its handsome appearance will make it very profitable to grow. (See cut.) Price of sets, 30 c. per pt., 50c. per qt., $\$ 3.00$ per NEWW. WHITE TOP ONION-
(Crop failed.)

## PARSNIP.

German, Pastinake-French, Panais.-Spanish, Pastinaca. 1 oz . per 200 feet of drill; 5 to 6 lbs . in drills for an acre.
Sow as early in spring as the weather will admit, in drills fifteen inches apart, covering half an inch deep. When well up thin out to tive or sis inches apart in the rows. Cnlike Carrots, they are improved by frost, and it is usual to lake up in fall a certain quantity for winter use, leaving the rest in the ground till spring, to be dug as required. If by mail in quantities of $1 / 27 b$. and upward, nostage must be added at the rate of 8 c. per $7 b$. HENDERSON'S HOLLOW CROWNED. We beliere this is the finest stock of Parsnip that can be procured. The roots run of uniform size, and are smooth. The growing taste for this delicious regetable will make this improved strain particularly desirable. (See cut.) 5c. pkt., 10c. oz., 25c. 1/4 lb., 65c. lb.
Iong Smooth. A fine flavored variety. 5c. pkt., 10 c. oz., $20 \mathrm{c}, 1 / 4 \mathrm{lb} ., 55 \mathrm{c} . \mathrm{lb}$.
Early Round. An early variety, but of small size. 5c. pkt., 15c. oz., 25c. 1/4 lb., 75 c .1 b .

## $\sim$ PARSLEY.

German, Petersilie.-French, Persil.-Spanish, Pereyiv. 1 oz. for 150 feet of drill.

Parsley succeeds best in rich, mellow soil. As the seeds germinate very slowly, three os fotre peok. elapsing sometimes before it makes its appearance, it should be sown early in spring, previously soaking the seed for a few hours in tepid waler. Sow thickly in rows a foot apart, and half an inch deep. For winter use protect in a frame or light cellar, or a few plants may be placed in pots or boxes and kept in the house for convenient use during the winter.
If by mail in quantities of $1 \underline{2} l$ l. and upward, postage must be added at the rate of 8 c . per $l \mathrm{l}$. CHAMPION MOSS CURLED. A very select stock, beautifully crimped and curled. 5 c . pkt., 10 c . oz., $30 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 1.00 \mathrm{lb}$.
Fern-Leaved.
Fern-Leaved. A very beautiful variety; very valuable for table decoration. 5c. pkt., 15c. oz., $30 \mathrm{c} . \frac{1}{4} \mathrm{lb}$., $\$ 1.00 \mathrm{lb}$.
Plain. The leares of this sort are plain; it is hardier than the curled variety. 5c. pkt.,
 kind; the roots used for flavoring soups. 5e. pkt.,

HENDERSON'S EMERALD. Distinct in appearance from any of the other varieties, being of a lighter and more brilliant shade of green. The plant is of dwarf habit, with leaves finely cut and very curly. To growers for the market as well as for private gardens we cominend this sort. (See EXTRA DOUBLE CURLED. A fine dwarf variety, beautifully curled; excellent for garnishing. 5 c. pkt., 10 c. oz., $25 \mathrm{c} .1 / 4 \mathrm{lb}$.,

hendergon's rambaid pabsiery.

Our Prices this Season are lower than ever. Read what we say on this subject on pages 1 and 2.

## PEAS-Extra Early.

German, Erbse.-French, Pois.-Spanish, Guizante.
1 qt. for 75 feet of drill. 2 to 3 bushels in drills for an acre. If sent by mail, $15 c$. qt. extra. Our trial of Peas is probably the most extensive on this side of the Atlantic, and it enables us to discard inferior sorts, and to offer in the following list only the best varieties. Peas come earliest to maturity in light, rich soil. For general crop, a deep loam or a soil strongly inclining to clay is best. For early crops general crops a good dressing should be applied, and for the dwarf growing kinds the soil can hardly be too cich. When grown as a marketcrop, pas are never staked and are sown in single rows two or threo inches deep, and from two to three feet apart, according to variety or strength of the soil. When grown in small deep, and for quanties stakedup by brush, or, what is better, trained on the new garden trellis which is offered on page 153 of varieties staked up by brush, or, what is better, trained on the new garden trellis which is offered on page 153 of this catalogue. For an early crop sow in February, March or April, according to latitude, as soon as whe ground can be worked, and make repeated sowings every two weeks for succession. After the first of June,
sowing should be discontinued until the middle of August, when a good crop may sometimes be secured by sowing an extra early sort for fall use

## Dwarf Extra Early Peas.

Those marked thus * are Wrinkled Varieties.

* CHELSEA. It grows about 15 inches in height and is of compact, short-jointed habit, thus requiring no brushing or staking. The pods are remarkably handsome, being gracefully curved and much longer than any other early dwarf kind. They are well filled, each containing eight to ten good-sized peas of exquisite quality, which, when cooked, are rich, sugary and of marrow-like flavor. The peas are white wrinkled in the dry state. (See cut.) $15 \mathrm{c} .1 / 2 \mathrm{pt} ., 25 \mathrm{c} . \mathrm{pt} ., 40 \mathrm{c} . \mathrm{qt} ., \$ 2.75 \mathrm{pk}$.
BLUE BEAUTY. Its distinctive feature is its unusually regular habit of growth. Of a uniform height of $11 /$ feet, so smooth and level in its growth that a row of it resembles a well-kept hedge. It is a blue, round pea, and is nearly as early as the American Wonder. Pods of medium size, borne in the greatest profusion, and are well filled for so early a Pea. In quality and flavor Blue Beauty cannot be surpassed. $10 \mathrm{c} .1 / 2 \mathrm{pt}$., 20 c . pt., 30c. qt., $\$ 1.50$ peck., $\$ 5.00$ bushel.
Tom Thumb. Remarkably dwarf and early, of excellent quality, and yields abundantly Height, 1 foot. $10 \mathrm{c} .1 / 2$ pt., 20 c . pt., 30 c . qt., $\$ 1.75$ peck, $\$ 6.00$ bushel.
* AMERICAN WONDER. Better suited to the private than the market garden. It is very early. The peas are wrinkled, and its distinctiveness consists in its extreme dwarf growth. Of the finest quality. Height, 12 inches. $10 \mathrm{c} .1 / 2 \mathrm{pt}$., $20 \mathrm{c} . \mathrm{pt} ., 30 \mathrm{c} . \mathrm{qt}$., $\$ 2.00$ peck, $\$ 7.00$ bushel.
* PREMIUM GEM. A very fine dwarf Pea of the Little Gem type, on which it is a great improvement. Height, 15 inches. 10 c. $1 / 2$ pt., 20 c. pt., 30 c. qt., $\$ 1.75$ peck, $\$ 6.00$ bushel.

* LITTLE GEM (McLIEAN'S). A green wrinkled variety which comes into use a few days later than the First of All or Improved Daniel O'Rourke. 18 inches high, very prolific, and of excellent flavor. $10 \mathrm{c} .1 / 2 \mathrm{pt} ., 15 \mathrm{c} . \mathrm{pt} ., 25 \mathrm{c} . \mathrm{qt} ., \$ 1.50$ peck, $\$ 5.50$ bushel.

## Extra Early Peas of Medium Height.

IMPROVED DANIEL O'ROURKE. A favorite extra early variety. Height, 3 ft. $10 \mathrm{c} .1 / 2 \mathrm{pt}$., $15 \mathrm{c} . \mathrm{pt}$., $25 \mathrm{c} . \mathrm{qt}$., $\$ 1.15$ peck, $\$ 4.00$ bushel.

* LAXTON'S ALPHA. The earliest of all the medium height wrinkled Peas, of fine quality and very prolific; pods large and well filled. Height, 3 feet. $10 \mathrm{c} .1 / 2 \mathrm{pt}$., 20c. pt., 30 e . qt., $\$ 1.75$ peck, $\$ 6.00$ bushel.
* THE ADMIRAL. Heaviest cropping early Pea extant. This wrinkled variety grows to a height of from 3 , to 4 feet. The pods are about the size of our First of All, are borne in great profusion from top to bottom of the vine and are well packed with large peas of very sweet flavor. This is a very desirable and distinct variety, and should find a place in every garden, whether for market or private use. It is also a variety that is eminently suited for canning. 10c. $1 / 2$ pt., 20c. pt., 30 c . qt., $\$ 2.00$ peck, $\$ 7.00$ bush.
ALASKA. The earliest blue Pea. The dark green color of the pods makes it extremely desirable as it can be carried long distances without losing color, which quality, combined with its earliness and uniformity of ripening, makes it a most desirable Pea for market gardeners. Height, 2 feet. $10 \mathrm{c} .1 / 2$ pt., $15 \mathrm{c} . \mathrm{pt}$.,

EXTRA EABLE PEA, GENDRBGON'S FIRGT OF ALL. HENDERSON'S FIRST OF HENDERSON'S FIRST OF AIL. The bestextraearly Pea ever offered. This variety is unequaled for excellence, yield, size of pod and regularity of growth. Height, $21 / 2$ feet, or fully six inches dwarfei than the Improved Daniel0'Rourke, First and Best, or Philadelphia Extra Early, and produces pods of good size, which are well filled with round, smooth peas of splendid flavor. It is a prodigious bearer, and ripens up so evenly as not to require more than two pickings to clear off the crop, and in this last feature and in its extreme earliness consists its great value to marketgardeners and truckers. At the same time we know of no other variety that is more popular than Henderson's First of All in private gardens. This variety is sent out only in sealed packages and bags. (See cut.) $10 \mathrm{c} .1 / 2 \mathrm{pt}, 15 \mathrm{c} . \mathrm{pt}^{2}, 25 \mathrm{c}$. qt., $\$ 1.25$ peck, $\$ 4.50$ bushel.

## 417 PETER HENDERSON \& CO., NEW YORK.-VEGETABLE SEEDS.

DWARF, SECOND EARLY PEAS.<br>\section*{Those marked thus * are wrinkled varieties.} *HORSFORD'S MARKET GARDEN, A grand wrinkled rariety, coming in between Little Gem and Adrancer. The vines are two feet high, very regular in growth. It is a prolifie bearer, and has fielded more per acre than any other American variety. The pods, although of medium size, are numerous, and arc literally packed with peas of a delicious sweet flavor. (See cut.) 10c. $1 / 2$ p.., 15 c . pt., 25 c . qt., $\$ 1.50$ peck, $\$ 5.00$ bush.

ABUNDANCE. A second early rariety, attaining a height of 3 feet. Pods 3 to
 excellent quality. This sariety is remarkable for branching directy from the ronts. 10e. $\frac{1}{2}$ pt., 15 c . pt., 25 c. qt., $\$ 1.50$ peck, $\$ 5.00$ bush.

## PETIT POIS,

The Gentine Small French Pea. We have had frequent calls from customers for the real French Peas, such as they have eaten in Paris and other Continental cities. This we have succeeded in getting, and now offer the genuine "French Petit Pois." The pods are long and slim and contain 8 to 10 small peas of tender, delicate quality. The vines are vigorous and branching, attaining a height of from three to four feet. This rariety is medium early, and extremely prolific. (See cut.) $15 \mathrm{c} .1 / 2 \mathrm{pt} ., 25 \mathrm{e} . \mathrm{pt}_{\mathrm{o}}$, 40c. qt.

## SECOND EARLY PEAS OF MEDIUM HEIGHT.

Those marked thus * are wrinkled varieties.
*MCLEAN'S ADVANCER. A second early variety, attaining a height of $21 \frac{1}{2}$ feet, a great faworite with growers in this neighborhood, among whom it is often known ans the Dwarf Champion. It is a green wrinkled variety of fine flavor. (See cut.) 10 c . 1/2 pt., 15 c . pt. 25 c. qt., $\$ 1.40$ ph., $\$ 1.50$ bush.
FILLBASKET. This variety is one of the best second early Peas in cultivation; a heayy cropper; of excellent flavor; height, $31 / 2$ feet. $10 \mathrm{c} .1 / 2 \mathrm{pt},. 20 \mathrm{c} . \mathrm{pt} ., 30 \mathrm{c} . \mathrm{qt}$. , \$1.75 peck, sici(10 bush.

* THE HEROINE. This is the grandest pea on the entire list, and is now offered at a price that places it within the reach of all. It should be in every garden. Read what We say about it, page 13. (See culored plute, page 12 .) $15 \mathrm{c} .1 / 2 \mathrm{pt}$., $2 \overline{\mathrm{je}} \mathrm{c}$ pt., $40 \mathrm{c} . \mathrm{qt} ., \$ 2.75$ *SHROPSEIRE HERO. This valuable, new, second early wrinkled Pea is a decided improvement on the Old Yorkshire Hero. It is a robust grower, about 3 feet high, producing long, handsome and well-filled pods in abundance. Flavor exquisite. We recommend it highly. 10c. ${ }^{1} \frac{1}{2}$ pt., 20c. pt., 30 c . qt., $\$ 1.75$ peck, $\$ 6.00$ bush.

## EDIBLE PODDED OR SUGAR PEAS.

MELTING SUGAR. (Elible pods.) It grows to the height of five feet, bears a [hom-ion of large, broad pods, which are generally found in pairs, and which are so snap with ut any string. It should be used in much the same way Bran. The pods when cooked are very sweet and tender. 20 c . 1,2 pt., 40 c . NEW VERY DW ARF SUGAR PEA. (Edible pods.) It is unusually dwarf, being very fimilar in halbit to the well-known American Wonder Pea. The pods are beautifully ermpma, are of unusual size for such a small-growing sort, and are of exquisite, $15 \mathrm{c} . \mathrm{plt} ., 40 \mathrm{c} .16 \mathrm{pt}$. $, 75 \mathrm{c}, \mathrm{pt} ., \$ 1,25 \mathrm{qt}$.

## PEAS, LATE OR MAIN CROP.

## dwarf late or main crop peas.

## Those marked thus * are Wrinkled Varieties.

*STRATAGEM. By many this variety is considered the best of the recently introduced English Peas. It is a dwarf, wrinkled, blue marrow, a very heavy cropper, and produces large, remarkably well-filled pods of excellent flavor. Height, 2 feet. 10c. 12 pt., 20c. pt., 35c. qt. $\$ 2.00$ peck, $\$ 7.00$ bush.
*EVER-BEARING. A continuous bearing variety, which gives it especial value for late summer and autumn use. Height, 3 feet, foliage large. Pods 3 to 4 inches long, producing 6 to 8 large wrinkled peas, half an inch and over in diameter; quality unsurpassed. It should be sown considerably thinner than other kinds, else the vines will become too crowded. 10c. $1 / 2$ pt., 15 c. pt., 25 c . qt., $\$ 1.50$ peck, $\$ 5.00$ bushel.
PRIDE OF THE MARKET. Is a strong growing Pea, 2 feet high, wonderfully productive. The pods are also of large size and handsome appearance and the peas are of splendid quality. $10 \mathrm{c} .1 / 2 \mathrm{pt}$., $20 \mathrm{c} . \mathrm{pt}$., 30 c. qt., $\$ 1.75$ peck, $\$ 6.00$ bushel.

## LATE OR MAIN CROP PEAS OF MEDIUM HEIGHT.

*JUNO. (See Novelties, page 16.) 15e. $1 / 2$ pt., 30 c . pt., 50 c. qt.
GLADIATOR. The plant is very robust and vigorous, stem branched, growing about $31 / 2$ feet in beight, exceedingly productive, bearing in pairs an abundance of long, curved handsome pods, which are very closely filled with medium-sized peas of excellent quality. A First Class Certificate was conferred on this variety by the Royal Horticultural Society of England, which is evidence enough of its great excel lence. Price, $15 \mathrm{c} .1 / 2 \mathrm{pt}$., 25 c . pt., 40 c . qt., $\$ 2.75$ peck.
EVOLUTION. A main crop variety of fine flavor, growing about 3 feet in height; pods and foliage rich dark green; very hardy and prolific. The pods are very large, scimeter-shaped and packed close with goodsized peas of delicious, melting quality. This variety can be depended on for a main crop or late sort, giving large pickings of peas after all others are done. Price, $15 \mathrm{c} .1 / 2 \mathrm{pt} ., 25 \mathrm{c} . \mathrm{pt} ., 40 \mathrm{c} . \mathrm{qt} ., \$ 2.75$ peck.

TALL LATE OK MAIN CROP PEAS.

## Those marked thus * are Wrinkled Varieties.

*CHAMPION OF ENGLAND. This is yet, by general consent, acknowledged to be the best of the late tall varieties. The pods and peas are of the largest size and excellent quality. Height, 5 ft . $10 \mathrm{c} .1 / 2 \mathrm{pt}$., $15 \mathrm{c} . \mathrm{pt} ., 20 \mathrm{c} . \mathrm{qt}$., $\$ 1.25$ peck, $\$ 4.00$ bush.
*TELEPHONE. A tall, wrinkled marrow, enormously productive, and of the best quality. It is a strong grower, averaging 18 pods to the stalk. The pods are of the largest size, and contain from 6 to 7 large peas. A desirable sort for the family garden. Height, $41 / 2$ feet. (See cut.) 10c. $1 / 2$ pt., $15 \mathrm{c} . \mathrm{pt} ., 25 \mathrm{c} . \mathrm{qt}^{2}, \$ 1.50$ peck, $\$ 5.00$ bush.
'SANDER'S MARROW. A tall, very late and immense cropping variety. The pods are produced in pairs, and are well filled with fine, large wrinkled peas, the largest that we have ever seen; the quality is sweet and delicious. It has the desirable peculiarity of retaining its deep green color when dished for the table. Height, 5 feet. (See cut.) 10 c. $1 / 2$ pt., 20c. pt., 35 c. qt., $\$ 2.00$ peck, $\$ 7.00$ bush.
*AMERICAN CHAMPION. The number of testimonials we received favorable to the American Champion Pea only confirms the high opinion we had formed of it in our trials before offering it for sale. It is one of the largest of all Peas, enormously productive, and its flavor and quality closely approach that of the well-known Champion of England. The pods are produced in pairs and are well filled. Each pod contains from nine to twelve large, fine peas. It is a tall-growing sort, of branching habit; it should be sown thinly. Height, $41 / 2$ feet. $10 \mathrm{c} .1 / 2$ pt., 20c. pt., 35 c . qt., $\$ 2.50$ peck, $\$ 8.00$ bush.
BLACK-EYED MARROWEAT. An old-time favorite; large handsome pods; enormous cropper. Height, $51 / 2$ feet. 10c. $1 / 2 \mathrm{pt}$., 15 c . pt., 20c. qt., $\$ 1.00$ peck, $\$ 3.00$ bush.
WHITE MARROWFAT. Similar to above but a little finer quality. Height, $51 / 2$ feet. 10c. $1 / 2$ pt., 15c. pt., 20c. qt., $\$ 1.00$ peck, $\$ 3.00$ bush.

## POTATOES FOR SEED.

In drills 3 feei apart; 12 to 14 bushels to the acre. 1 peck will plant about 125 hills.
The Potato, like all robust-growing vegetables, can be grown with varying success on soils of all kinds, and in all conditions of fertility, but the soil best suited to it is a sandy loam. In all heavy soils it is more subject to disease, and the flaror also is much inferior. In breaking up good pasture land the decaying sod answers sufficiently well for the first Jear in lieu of manure. Manure is applied either in rows or hills, or broadcast over the hills and plowed in-the latter in most cases being preferable. If the soil is good, but little mannre is required. In highly enriched soil the plants are more liable to disease than when grown in soil that is naturally good. The best fertilizers are those of a dry or absorbent nature, as plaster, lime, superphosphate of lime and bone dust. For wet soils these are particularly beneficial, as they not only promotegrowth but prevent disease. Plant as early in spriag as the gronnd can be had in fair working order, in hills or ridges about three feet apart, covering in light warm soils abnut four inches deep, but in cold, wet situations two and one-half or three inches will be sufficient.

Our Potatoes are all specially raised for seed purposes and are "Northern Grown." Prices subject to variation. Te deliver all potatoes into the hands of transportation companies safely packed; after that our responsibility ceases. Purchusers must take all risks from freezing or heating. In comparing our prices on Potatoes, remember we make no charge for barrels or cartage, but detiver F. O. B., N. Y., at prices quoted.
IEDICMEARLY 「ARIETIES. SNOWDROP. Te do not recommend it for planting for market use, but, where quality and not quantity is desired, we believe the Snowdrop to be unequaled. 70 c. peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bbl}$.

## EARLY VARIETIES.

QUEJN. A grand potato of recent introduction, closely resembling Beauty of Hebron in appearance, color, size and shape. but is much earlier and a heavier yielder. We strongly recommend it. (See cut.) 75c. peck, $\$ 2.50$ bush., $\$ 5.00 \mathrm{bbl}$.
ROCHESTER ROSE. Of recent years, the Early Rose has not done well in some sections. The Rochester Rose, which we now offer, is a seedling of the above, and is an improvement in every respect. It will average larger in size, is equally early, and is a much heavier yielder. It possesses the same excellent cooking qualities as the parent variety. 70 c . peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bbl}$.
HENDERSON'S EARLY PURITAN. Awarded the medal of excellence at the American Institute Fair in 1888. 75c. peck, $\$ 2.50$ bush., $\$ 3.00 \mathrm{bbl}$.
VANGUARD. The earliest variety. The skin is the same color as the Early Rose, indented with few and shallow eyes; flesh white and mealy. 70 c . peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bhl}$.
EARLY ROSE. The leading variety for earliness, quality and productiveness. 70c. peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bbl}$.
EARLY SUNRISE. Very early and productive. 70c. peck,
EARLY MAINE. Claimed to be an earlier and a better cropper than the Early Rose, and smoother and more regular in shape.

BEAUTY OF HEBRON. One of the best early sorts; productive and of excellent flavor; a good keeper; pure white skin and flesh. Foc. peck, $\$ 2.25$ bush., 84.50 bh,
Clarke's No. 1. Earlier than the Early Rose and very proPEARL OF SAVOY. Is certainly very early and productive. hong and of large size; the flosh pearly white mind mealy. $70 \mathrm{c} \cdot$ peck, $\$ 2.25$ busho, $\$ 4.50 \mathrm{bbl}$.
THORBURN. A very desiral,le early variety; very productive, Hwhron." Which it somowh It is a seedling from "Beauty of CHAS. DOWNING. Oval, oblong form and pure white color. One of the carlifat sorts, of splendid quality. Enormously productive. Foce preck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bh}$.
sluooth variety, of exal few and shallow excellent quaily, white skin and flesh, with RURAL BLUSH. An excellent variety having a beautiful blush skin. It is of first-rate quality and cooks through dry and evenly. A very heavy yielder. 70c. peck, $\$ 2.25$ bush., $\$ 4.50$ bbl.

## MAIV CROP VARTETIES.

RESTAURANT. If you wish to raise a big crop of large, handsome potatoes, this is the sort to plant. It is of large size, is an enormous yielder, and, for a main crop variety, cannot be excelled. 75 c . peck, $\$ 2.50$ bush., $\$ 5.00 \mathrm{bbl}$.
LATE PURITAN. The Early Puritan Potato, which we introduced, has probably attained a wider distribution and greater popularity on both continents than any new variety since the Early Rose. In the Late Puritan we have a potato which is identical with the Early Puritan in appearance, color and quality, but far more productive. 75 c . peck, $\$ 2.50$ bush., $\$ 5.00 \mathrm{bbl}$.
MONROE SEEDLING. A fine late variety, resembling Superior; and an excellent keeper. 70c. peck, $\$ 2.25$ bush., $\$ 4.50$ lbll.
SUPERIOR. A seedling from White Star. A very fine, late, white-skinned, kidney-shaped variety; a heavy cropper and a good keeper. 70 c . peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bbl}$.
PRIDE OF THE WEST. A flattish-round, red variety; very large; eyes deep but few. The quality is unequaled; medium late; unusually strong grower, and considered to be the heaviest cropper in America. 75 c . peck, $\$ 2.25$ bush., $\$ 4.75$ bbl.
BILL NXE. A valuable new white kidney variety. It is rery smooth and handsome, eyes unusually shallow. 75 c . peck, $\$ 2.25$ hush., $\$ 4.75 \mathrm{bbl}$.
EMPIRE STATE. A main crop variety, wonderfully productive. The skin is white and smooth, flesh pure white, of fine flavor, and cooks very evenly. 70c. peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bbl}$.
ST. PATRICK. Handsome, smooth and regular; oblong in shape, with very fow and shallow eyes. It is a large yielder and of the first quality. 70 c. peck, $\$ 2.25$ bush., $\$ 4.50$ bbl.
MORNING STAR. A late sort, of better quality than most if the heavy croppers. 70 c . peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bbl}$.
WHITE ELEPHANT. Late, large, good quality and enormously productive. 70 c . peck, $\$ 2.25$ bush., $\$ 4.50 \mathrm{bbl}$.
WHITE STAR. Large cropper; cooking qualities of the best ; a good keeper. 70 c. peck, $\$ 2.25$ buch., $\$ 4.50$ bbl.
ities of potatoes on ipplication.

## Pumpkin.

German, Kurbis.-French, Courge.-Spanish, Calabaza.
Pumptins are now principally cultivated Lor agricultural purposes. They ere ustally planted in fields of Corn or Potatoes, but may be profitably raised in fields by themselves. Sow first of May in hills 8 feet apart.
If by mail in quantities of $1 / 2 \mathrm{tb}$. and upward, postage must be added at the rate of 8 c . per lb.
CALHOUN. We gave this variety a very thorough distribution last year, and wherever heard from, it gave the highest satisfaction, every one speaking of its superior quality. The outside color is a creamy brown; the inside flesh is a deep salmon yellow; the flesh is wonderfully thick and finegrained, and the seed cavity very small. It cooks very yellow and makes pies of a high rich color and of the finest quality. This variety is entirely fixed in its character, every specimen being uni-
formly of the shape shown in the engraving. Any one using the Calhoun Pumpkin once will never use any other variety, so superior is it in quality. (See cut.) 10c. pkt., 25 c . oz., $60 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$.
JONATHAN. A large bottle-shaped variety, with a crook neck; of most attractive appearance. It is very prolific, and the flesh is fine, clear and sweet, making it valuable for pies and other table uses. Its hard shell makes it an excellent keeper. 5 c . pkt., 15c. oz., 30c. $1 / 4 \mathrm{lb}$., $\$ 1.00 \mathrm{lb}$.
LARGE CHEESE. A well-known variety, its fine flesh and rich color making it valuable for pies and table use, while its productiveness renders it useful for stock feeding. Where only one variety is needed the Cbeese should always be planted. 5 c. pkt., $10 \mathrm{c} .0 \mathrm{z} ., 25 \mathrm{c}, 1 / 4 \mathrm{lb}$., 60 c .1 b .

JUIIBO. This is the variety to be grown where "the biggest pumpkin" is wanted. We have seen specimens weighing 250 pounds. The color of skin is a deep yellow, the flesh being of a lighter shade. Notwithstanding its enormous size it is delicious in quality and generally desirable. 10c. pkt., 25c. oz., $50 \mathrm{c} .1 / 4 \mathrm{lb}$, $\$ 1.50 \mathrm{lb}$.
Large Tours, or Mammoth. Grows to an immense size, often weighing over $100 \mathrm{lbs} .5 \mathrm{c} . \mathrm{pkt} ., 10 \mathrm{c} . \mathrm{oz} ., 25 \mathrm{c} .1 / 4 \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{lb}$.
We can also supply the following standard varieties of Pumpkin, which are too well known to need deseription, at the uniform price of 5 c. pkt., $10 \mathrm{c} .0 \mathrm{z} ., 20 \mathrm{c}, 1 / 4 \mathrm{lb} ., 50 \mathrm{c}, 1 \mathrm{~b}$.

Nantucket, Connecticut Fiela,
Sugar.

## 勺力 $\quad$ RHUBARB.

German, Rhubarber.-French, Rhubarbe.-Spanish, Ruibarbo Bastardo,
Sow in April in drilis a foot apart, thinning out to about the same distance apart in the rows when a few inches high. In fall, or the following spring, transplant into deep, rich soil about three feet apart each way. If propagated by dividing the roots, it may be done either in fall or spring, planting at the same distance apart as given above. The large roots of Rhubarb are easily forced if taken up and packed closely together under the stage of a greenhouse or wa
eary for the development of the stalk.
If by mail in quantities of $1 / \mathrm{lb}$, and upward, postage must be added at the rate of $8 c$. per $l b$.

Victoria. Very large; later than the Linnæus. 5c. pkt., 20c. oz., 60 c. $1 / 4 \mathrm{lb} ., \$ 1.75 \mathrm{lb}$.
Linnæus. Early and tender. 5c. pkt., 20c. oz., 60c. $1 / 4$ lb., $\$ 1.75 \mathrm{lb}$.

## RADISH.

WINTEB RADISEES,

## RADISH-Early and Summer Varieties.

FRENCH BREAKFAST. A variety of quick growth, mild and tender, and one of the best for forcing. Oral form, scarlet tipped with white. (See cut.) 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb}, 60 \mathrm{c} .1 \mathrm{l}$.
RED ROCKET. A small, bright scarlet, olive-shaped rariety. Radishes are best when grown quickly; this rariety matures outdoors in 22 days from time of sowing, and is altrays mild and delicious in flayor. Having small tops, it can be grown very closely and is invaluable for forcing. 5c. pkt., $10 \mathrm{c} .0 \mathrm{oz}, 25 \mathrm{c}, 1 / 4 \mathrm{lb} ., 75 \mathrm{c} .1 \mathrm{~b}$.
OLIVE-SHAPED SCARLET. (See cut.) 5c. plet., 10c. oz., $20 \mathrm{c} .1 / 4 \mathrm{lb} ., 50 \mathrm{c}, \mathrm{lb}$. OLIVE-SHAPED WHITE. (See cut.) 5c. pkt., 10 c . oz., $20 \mathrm{c} .1 / 41 \mathrm{l}$., 60c. 1 b .

## Early Round or Turnip-shaped Radishes.

EARLY SCARLET TURNIP. For first and successive sowing in the open ground, we can strongly recommend this old favorite. The root is of medium size, bright scarlet in color, and in quality is certainly unsurpassed, being alwars mild and pleasant in flavor. $5 \mathrm{c} . \mathrm{pkt}$., 10c. oz., 20c. $1 / 4 \mathrm{lb}$., 50 c .1 b .

WHITE TIPPED EARLY SCARIET TURNIP No radish looks better on the table than this. It is bright searlet in color, gradually fading off to pure white at the base, and is tender, mild in flavor and early. (See cut.) 5c. pkt., 10c. oz., 20c. $1 / 41 \mathrm{~b} ., 60 \mathrm{c} .1 \mathrm{l}$.
EARLY WHITE TURNIP. (See cut.) 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 50 \mathrm{c}$. lb

## EARLY ROUND DARK RED. Medium in size, rich

 dark red in color, the root is clean and smooth, and the top is small. There is no radish in cultiration that remains fit for use for so long a time. Our trials have always proved it to be the last early variety to get pithy. (See cut.) 5c. pkt., 10c. oz., 20c. $1_{4}^{1} \mathrm{lb} ., 50 \mathrm{c} . \mathrm{lb}$.EARLY SCARLET GLOBE. A new variety of distinct shape and brilliant color, short-leaved; flesh very crisp and white; an excellent variety for forcing. 10c. pkt. $20 \mathrm{c} .0 \mathrm{z} ., 40 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 1.00 \mathrm{lb}$.
RED FORCING. The tops are exceedingly small and short, rendering it most useful for forcing. The tops are smaller than those of any other radish; in all other respects, however, it is identical with our Early Round Dark Red. 5c. pkt., 15c. oz., 30c. $1 / 4 \mathrm{lb}$., 75 c c. 1b RAPID FORCING. This grand variety resembles the White Tipped Scarlet Turnip Radish, but is much earlicr, coming to maturity in 22 days from the time of sowing, and having very small tops, and will prove to be the Radish for forcing purposes. Being very handsome and of fine quality, it is equally desirable for the garden. 5e. pkt., 15c. oz., $40 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 1.25 \mathrm{lb}$.
YELLOW SUMMER TURNIP. Grows to a large size; excellent to stand the heat and drought of summer. (See cut.) 5c. plet., 10c. oz., 2Uc. $141 \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{~b}$.

## Long Early and Summer Radishes.

LONG SCARLET SHORT TOP. This variety is largely grown, as its shape (when tied up in flat bunches) is best suited to ship. Its average length is about 9 inches. (See cut.) BRE. pkit., 10c. SCARLET 20 c . 1 b BRIGHTEST SCARLET. It is entirely distinct, being a vivid scarlet color tipped with Mris-wite. (See cut.) 15c. pkt., 40c. oz
CELESTIAL. It is ready for use when 21 or 3 inches long and continues until nearly 6 inches long, making it almost an all-seasons Radish. The flesh is firm, solid and pure white, skin creamy white, and is very woodire in appearance. 5c. pkt., 15c. oz., 40c. $1 / 4 \mathrm{lb}$, , $\$ 1.25 \mathrm{lb}$ OOD EARLY FRAME. A good variety for forcing. 5c. pkto, 10c. oz, $20 \mathrm{c}, 1 / 4 \mathrm{lb}$, 50 c . 1 lb . LONG WHITE VIENNA (Lady Finger). Beautiful in shape; skin and flesh are pure snow-white; crisp WHITE STRASBURG. It is of a tapering shape, skin and flesh both white. It is an excellent summer variety, being tender, crisp and of fine flavor, and a quick grower. 5 c. pkt., $10 \mathrm{c} .0 \mathrm{oz}, 20 \mathrm{c} .1 / 4 \mathrm{lb} ., 60 \mathrm{c} . \mathrm{lb}$. BECKERT'S CHARTIER. The color at top is crimen, ruming into pink at midde and from thence downward is pure, waxy white. It will attain a very large size before it becomes unfit for use. (See cut.) 5c. pkt., 10c. 0z., 20c. $1 / 4 \mathrm{lb}$., 60 c . 1 b . GIANT WHITE STUTTGART. Quick growing, and therefore very early, Of the largest size, and both flesh and skin are pure White; quality flne, firm and brittle; never gets pithy. 5 c. pkt., 10 c . oz., $20 \mathrm{c} .1 / 4 \mathrm{lb}$. 60 c . 1 b .

FOR WINTER RADISHES, SEE PREVIOUS PAGE (NO. 49.)

## SQUASH.

German, Kurbiss.-French, Courge.-Spanish, Calabasa Tomtanera.
Bush sorts, 1 oz . for 50 hills. Bush varieties, 5 to 6 lbs., and running varieties, 3 to 4 lbs . in hills for an If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of 8 cts . per 16 .

## SUMMER SQUASH.

LONG ISLAND WHITE BUSH. (See Novelties, page 16.) 15c. pkt., 2 pkts. for $25 \mathrm{c} ., 10 \mathrm{pkts}$. for $\$ 1.00$.
PINEAPPLE. An old iavorite sort of fine quality. (See cut.) 5c. pkt., 10c. oz., 25c. 1/ lb. 75 c . 1 b .
MAMMOTH BUSH SUMMER CROOKNECK. The erookneck class of squashes surpasses in quality any of the summer varieties, and in the Mamмoth we have the delicious buttery flavor of the original sort, but of just double the size. (See cut.) $10 \mathrm{e} . \mathrm{pkt}, 35 \mathrm{c}$, oz., $\$ 1.00 \frac{1}{4} \mathrm{lb} ., \$ 3.00 \mathrm{lb}$.
GOLDEN CUSTARD BUSH. A valuable new variety, which exceeds in size any of the scalloped sorts, frequently attaining a diameter of 2 feet. The color is a dark,

## $\Rightarrow$ WINTER SQUASH.炵

HENDERSON'S DELICATA. (See Novelties and Colored Plate, pages 20 and 21.) 15c. pkt., 2 pkts. for 25 c ., 10 pkts. for $\$ 1.00$. MARBIEHEAD. An excellent variety resembling the Hubbard. The flesh is rather lighter in color than that variety, while its combination of sweetness, dryness and delicious flavor is remarkable. (See cut.) 5c. pkt., 10c. oz., 25̃c. $1 / 4 \mathrm{lb} ., 75 \mathrm{c} .1 \mathrm{lb}$.
MAMMOTH CHILI. The largest of all Squashes; rather flat at both ends. Specimens have been known to attain the weight of 280 lbs . Its size makes it valuable for stock feeding, while its rich, fine-flavored flesh ensures its value for all other purposes. (See cut.) 10c. pkt., 20c. Oz., 40c. $1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$
HUBBARD. More largely grown as a late sort than any other. It is of large size, often weighing from nine to ten pounds. Color bluish green, occasionally marked with brownish orange or yellow. Flesh fine grained, dry and of excellent flavor. It can be had in use from September to May. (See cut.) 5c. pkt, 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 75 \mathrm{c} . \mathrm{lb}$.
FORDHOOK. The flesh is dry and sweet, and one of the best in quality. Placed in a cool, dry room, it keeps in perfect enndition throughout the winter and spring until late in June, when Summer Squashes are ready. (See cut.) 5c. pkt., 15c. oz., $40 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 1.25 \mathrm{lb}$.
ESSEX HYBRID. Distinct in appearance, of a short cylindrical shape, having on the blossom end a small cap-shaped enlargement. The flesh is dry, sweet and thick, and of a bright orange color, while its keeping qualities are admirable. Those desiring a "dry" Squash should grow Essex Hybrid. (See cut.) 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb}$, 75 c .1 b .
BOSTON MARROW. This variety may be termed second early, coming in about ten days after the Bush and Crookneck sorts. The skin, which is of a yellowish shade, is very thin, the flesh dry and finegrained, and of unsurpassed flavor.
pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{~b}$.
BAY STATE. Extremely solid, of heary weight, fine and dry flesh, of sweet flavor. of a beautiful bright golden yellow, very handsome; shell extremely hard and flinty; an excellent keeper. 5c. pkt., 10c. oz., 25 c . $1 / 4 \mathrm{lb} ., 80 \mathrm{c} .1 \mathrm{lb}$.
EARLY PROLIFIC MARROW. Fruits are shaped somewhat like Boston Marrow, but it is much earlier and of a beautiful orange color, suffused with light yellow. The rind is very hard, but thin, and the flesh is deep, fine-grained, and of delicious quality. 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 80 \mathrm{c} .1 \mathrm{~b}$.
WINTER CROOKNECK. A variety largely grown in some of the Eastern States. Flesh close-grained, sweet and fine-flavored. 5c. pkt., 10c. 0z., 25c. $1 / 4 \mathrm{lb} ., 75 \mathrm{c} .1 \mathrm{lb}$.

German, Spinat.-French, Epinard.-Spanish, Espinaca.
1 oz. for 100 ft. of drill. 10 to 12 lbs. in drills for an acre.
This is a very important crop in our market gardens, and is one of the most easily managed of all vegetables, requiring but little culture, and may be had fit for use the entire season. The main crop is sown in September. It is sometimes covered up in exposed places with straw or salt hay during winter, which prevents it from being cut with the frost; but in sheltered fields there is no necessity for covering. For summer use it may be sown at intervals of two or three weeks. from April to August. Spinach is best developed and most tender and saccalent when grown in rich soil.
If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be added at the rate of 8 c . per 1 lb . HENDERSON'S NORFOLK SAVOY LEAVED. In appearance the leaf is wrinkled in the same way peculiar to the Savoy Cabbage. Hence the name. It should not, however, be sown in spring in the latitude of New York, as it is almost certain to run to seed if then sown. (See cut.) 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb},. 40 \mathrm{c} .1 \mathrm{~b}$
THICK LEAVED. One of the best market sorts. It produces a large, thick, strong green leaf, somewhat crumpled, and possesses the valuable quality of standing a long time before running to seed. (See cut.) 5c. pkt., 10c. oz., 15c.

LONG STANDING. Except in the characteristic of standing a long time before running to seed, this variety in all other respects closely approaches the wellknown Round Leaf. (See cut.) 5c. pkt., 10c. oz., $15 \mathrm{c} .1 / 4 \mathrm{lb} ., 35 \mathrm{c} .1 \mathrm{~b}$.
ROUND LEAVED. Generally cultivated for winter use, being very hardy, standing our severest winters with little injury. NEW ZEALAND. Produces leares in great abundance throughout the summer; should be raised in heat and transplanted three feet apart each way into light rich soil. 5c. pkt., 10c. oz., 30c. $1 / 4$
工ARGEROUND LEAVED VIROFLAY.

PRICKLY. Although usually sown in the winter, but gives less bulk per acre than plet. 10c. oz., 15 s .

## SCORZONERA,

OR BLACK OYSTER PLANT
$\qquad$ siry. Which it nearly resembles; it is not, however, so gencralls esteemed. Sow in drills eiphteen inches apart, and thin out to nine inches from phant to plant. postage must be added at the rate of 8 c . per $l \mathrm{lb}$. (See cul.) 10c. pkt., 25 c. oz., $75 \mathrm{c} .1 / 4 \mathrm{lb}$. $\$ 2.501 \mathrm{~b}$.

## SHILIFY, OI OYSTEE PLAKIT.

## German, Bocksbart.-French, Salsifis.-

Spanish, Ostra Vegetal.
The Oyster Plant succeeds best in light, well enriched mellow soil, which, yrevious to sowing the seeds, should be stirred to a fepth of eighteen inches Sow early in spring in drills Afteen inches apart; cover the seeds with fine soil an inch and a balf in depth, and when the plants aro strong enough thin out to If inches apart.
If by mail in quantities of $1 / 2 \mathrm{lb}$. and upward, postage must be adaed at the rate of 8 c . per lb . WHITE FRENCH. 5c. pkt., 10c. oz. $30 \mathrm{c} .1 / 4 \mathrm{lb}, \$ 1.00 \mathrm{lb}$.
MAMMOTH SANDWICH ISLAND. A new and improred type, producing roots of nearly double the size and weight of the old variety, and of equally good quality. It has been extensively grown for the markets of many of the large cities, entirely superseding the old sort. (See cut.) 10c. pkt., 20c. oz., 40c. $1 / 4 \mathrm{lb}$., $\$ 1.50 \mathrm{lt}$.

## SEA-KALE.

German, Seekohl Meerkohl.-French, Crambe Maritime.-Spanish, Breton de Mar.
Cultivated for its blanched sloots, which are cooked as Asparagus. A supply may be had all winter by planting the roots closely in a warm cellar before frost. Sow one inch deep, in drills two feet apart, thin out to six inches, and the next spring plant in hills three feet apart. As this vegetable is only used, when blanched, like Celery, the plants must be excluded from the light by covering up with leaves or litter.
(See cut.) 10c. pkt., 30c. oz., $\$ 1.001 / 4 \mathrm{lb}$., $\$ 3.50 \mathrm{lb}$.

For Sea-Kale Roots, see page 55.

## SORREL.

BROAD LEAVED. Used for Salads. 5c. pkt., 15 c. oz., $40 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 1.25 \mathrm{lb}$.

## TOBACCO SEED.

If by mail in quantities of $1 \leqslant 2$. and upward, postage must be added at the rate of $8 c$. per $l b$. PRIMUS. The earliest sort of all; succeeds well in Canada, and is specially adapted for planting far north. 10c. pkt., $30 \mathrm{c} .0 \mathrm{z} ., \$ 1.00 \frac{1}{4} \mathrm{lb}$.
CONNECTICUT SEED LEAF. 10c pkt., 30e. Oz. \$1.00 $1 /$ lb.
IMPORTED HAVANA. 10e. pkt., 30c. ZIMMERS SPANISH. The earliest and best American-Spanish, and a favorite cigar variety, increasing in demand and culture every jear. 10c. pkt., 30c. oz., $\$ 1.00 \frac{1}{4} \mathrm{lb}$.
We can also supply the following standard varieties, which are too well known to need description, at 10 c . plit., 30c. oz., $\$ 1.00$ 1/4 lb.
Sterling,
Granville County
Yellow
Tuckahoe,
Gold Leaf,
Hester,
Yellow Oronoko,

## Hyco,

Yellow Pryor,
White Stem,

## Florida,

Virginia,
Kentucky,
Maryland.

## - TOMATO.

## German, Liebesapfel.-French, Tomate.-Spanish, Tomate.

Sow in a hot-bed, greenhouse, or window in a sitting room, where night temperature is not less than 60 degrees, about the first week in March, in drills five inches apart and half an inch deep. When the plants are about two inches high they should be set out in bozes three inches deep, four or five inches apart, in same temperature, or re moved into small pots, allowing a single plant to a pot. They are sometimes trans planted a second time into larger pots, by which process the plants are rendered more sturdy and branching. About the middle of May, in this latitude, the plants may be set in the open ground. They are planted for early crops on light, sandy soil at a dis tance of three feet apart, in hills in which a good shovelful of rotted manure has been mixed. On heavy soils, which are not suited for an early crop, they should be planted four feet apart.

PONDEROSA (No. 400). (See description and colored plate, pages 19, 20 and 21.) 10c. per pht., 75 c . per oz., $\$ 2.50$ per $1 / 4 \mathrm{lb}$.
TABLE QUEEN. As large as the Mikado, but perfectly smooth and round. For slicing it is the Tomato "Par excellence" as it is wonderfully solid and contains comparatively few seeds. The color is a rich crimson, and of a most agreeable flavor (See cut.) Price, 10c. plt., 40 c . oz., $\$ 1.501 / 4 \mathrm{lb} ., \$ 5.00 \mathrm{lb}$.
DWARF CHAMPION. Most distinct and valuable. Dwarf, stiff habit, scarcely needing any support. It is very early and wonderfully prolific. Color same as Acme. Is perfectly round and smooth, of medium size. 5c. pkt., $25 \mathrm{c} .0 \mathrm{zz}, 75 \mathrm{c} .1 / 4 \mathrm{lb} ., 52.50 \mathrm{lb}$.
ESSEX HYBRID. This is an old farorite possessing many good qualities. It follows close after Early Ruby, and is the first of its type to ripen. Fruit is of medium size, very solid, and in color is purplish pink. 5c. pkt., 20c. oz., 60c. $1 / \mathrm{ll}$ b., $\$ 2.00 \mathrm{lb}$.
BEAUTY. Handsome, medium-sized and smooth ; a good yielder, continuing late in the season. It ripens with the Acme and Perfection. It is a good shipper on account of its solidity. Price, 5 c. pkt., 20c. oz., 60 c. $1 / 4 \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$.
THE MIKADO. Notwithstanding that it produces very large fruit, it is at the same time one of the very earliest to ripen. The Tomatoes are produced in immense clusters, are perfectly solid, generally smooth, buti sometimes irregular. The color is purplish red. Foliage distinct from any other variety. (See cut.) $5 \mathrm{c} . \mathrm{pkt} ., 25 \mathrm{c} .0 \mathrm{z} ., 75 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.50 \mathrm{lb}$.
PEACH. Very distinct; fruit of uniform size, resembling a peach in shape, size, bloom and color, which is a deep orange rose. 10c. pkt., 25c. oz., 80 c. $1 / 4 \mathrm{lb}$., $\$ 3.00 \mathrm{lb}$.

EARLY RUBY." The great value of this variety lies in the fact that it is by far the earliest of all the largersized Tomatoes which combine good form, rich crimson color and solidity, and it is certain to prove the leading market variety. (See cut.) Price, 10c. pkt., $35 \mathrm{c} .0 \mathrm{oz} .{ }^{2} \$ 1.25 \mathrm{1} 1 \mathrm{1b} ., \$ 4.00 \mathrm{lb}$.

TROPHY, EXTRA SELECTED. Saved only from specimens of perfect form. 10 c. pkt., 30 c . oz., $\$ 1.0014 \mathrm{lb}, \$ 3.00 \mathrm{lb}$.
FAVORITE. Large and most perfect shape. Ripens evenly and early, and holds its size to the end of the season. It is very prolific, has ferv seeds, solid flesh. and bears shipping long distances. Price, 5 c. pkt., 20c. oz., 60c. $1 / 4 \mathrm{lb}$., $\$ 2.00 \mathrm{lb}$.
PERFECTION. The fruit is almost round, ripens clear up to the stem, is solid and rich in flavor. The skin is both thin and tough, making it a good shipper, while its clear, bright scarlet color makes it most attractive. $5 \mathrm{c} . \mathrm{pkt}^{2}, 20 \mathrm{c} .0 \mathrm{z} ., 60 \mathrm{c} .1 / 4 \mathrm{lb} ., \mathrm{S}^{2} .20 \mathrm{lb}$. ACME. Early, of mediura size, perfectly smooth, very solid and a great bearer. Color crimson, with a pinkish tinge. 5c. pkt., $20 \mathrm{c} .0 \mathrm{z} ., 60 \mathrm{c} .1 / 4 \mathrm{lb} ., \$ 2.00 \mathrm{lb}$.
THE SHAH. A sport from the "Mikado," with which it is identical, except in color, which is a dark, waxy yellow. Price, 10c. pkt., 30 c . oz., $\$ 1.00 \frac{1}{4} \mathrm{lb}$., $\$ 3.00 \mathrm{lb}$
GOLDEN SUNRISE. It has all the good qualities of the best red varieties and is of a beautiful golden-yellow color, making it invaluable for slicing and mixing with red varieties for table use. (See cut.) 5c. pkt., 25 c. oz. $75 \mathrm{c} .1 / 4 \mathrm{lb},, \$ 2.75 \mathrm{lb}$.
We can also supply the following standard varieties of Tomatoes, which are too well known to need description, at the uniform price of 5 c. pkt., $20 \mathrm{c} . \mathrm{oz}$., $70 \mathrm{c} .1 / 4 \mathrm{lb}$., $\$ 2.50 \mathrm{lb} .:$

## Paragon, <br> Red Cherry (See cut), <br> The Trophy

Strawberry, or Winter Cherry,
The Lorillard,
Pear-shaped Red (See cut),

Yellow Plum, Ignotum.

German, Steckriube.-French, Navet.-Spanish, Nabo Coman. 1 oz. for 150 feet of drill; 1 to 2 lbs. in drills for an acre.
Turnips do best in highly enriched, light, sandy or gravelly soils; commence sowing the earliest varieties in April in drills from twelve to fifteen inches apart, and thin out early to six or nine inches in the rows. For a succession sow at intervals of a fortnight until the last week in July, from which time until the end of August nowings may be made for the fall and main crop. Turnips may be preserved until spring by cutting off the tops about one inch from the bulb, and storing in a cellar or cool shed during winter, covering the roots with dry sand; they should be harvested before severe frost sets in, for though comparatively hardy, few of the varieties will survive the winters of the Northern States in the open ground.

If by mail in quantities of $1 / 2 l b$. and upward, postage must be added at the rate of $8 c$. per $l b$.

RED TOP STRAP LEAF. Rapid grower and of mild flavor, the most popular variety for early use, either for the table or for stock. 5 c. pkt., 10 c . oz., $15 \mathrm{c} .1 / 4 \mathrm{~b} ., 40 \mathrm{c} .1 \mathrm{~b}$.
EXTRA EARLY MILAN. This variety is by long odds the earliest in cultivation. In shape it is quite flat, the bulb being usually 31,2 inches in diameter and 1 inch deep, with a small tap root; the leaves start clear away from the crown, two most desirable features. The leares are very small and entire or strapleaved, growing very compact, which makes it valuable for close plantiug and foreing in frames. The color is bright reddish purple above ground and clear white underneath, making it most. attractive in appearance. (See cut.) 5c. plit., 10 c . oz., $2 \overline{\mathrm{c}} \mathrm{c}, 1 / 4$ lb., 80c. 1b.
Early White strap Leaf. Differs from the red only in color. 5c. pkt., $10 \mathrm{c} . \mathrm{oz} ., 15 \mathrm{c} .1 / 4 \mathrm{lb} ., 40 \mathrm{c} .1 \mathrm{~b}$.
Early Snowball. A modium-sized, round, pure white varinty of excellent flavor. For early sowing this is one of the best, being crisp, teader and sweet; maturing in six werks from time of sotving. (See cut.) 5c.pkt., 10c. Oz., $25 \mathrm{c} .1 / 4 \mathrm{lb}, 75 \mathrm{c}, 1 \mathrm{~b}$.
LONG WHITE or COW HORN. Matures very quickly; roots shaped like a Carrot, about half of which are formed above ground; flesh white, fine grained and sweet, and of excellent quality for table use. 5c. plit., 10 c. oz., $20 \mathrm{c} .1 / 4 \mathrm{lb} ., 50 \mathrm{c} . \mathrm{lb}$.
WHITE EGG. Its shape is nearly oval or egg; flesh very firm and fine grained, thin and perfectly smooth skin, and both flesh and skin are of snowy whiteness. Its flavor is of the verybest, mild and sweet. 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 50 \mathrm{c} .1 \mathrm{~b}$.

PURPLE TOP WHITEGLOBE. An early variety, globe-shaped ; heavy cropper; in other respects similar to the Red Top StrapLeaf. A handsome-looking bulb, and is rapidly taking the lead of all other varieties of early. Turnip for market garden purposes. 5 c. pkt., $10 \mathrm{c} . \mathrm{oz} ., 20 \mathrm{c} .1 / 4 \mathrm{lb} ., 50 \mathrm{c} . \mathrm{lb}$.
Early Flat Dutch. An excellent garden variets resembling White Strap Leaf, the best variety for spring sowing. 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 45 \mathrm{c} .1 \mathrm{~b}$.
GOLDEN BALL or ORANGE JELLY. This is the mostdistinct yellow turnip we know. The flesh is of very fine texture, making it one of the best table varieties. Its beautiful color and fine flesh have earned for it the synonym of "Orange Jelly," which well describes its appearance when ready for the table. The bulb is of medium size, with small tap roots, and is parly in maturing. (See cut.) 5c. pkt., 10c. oz., 20c. 1/4 lb., 5uc."lb.
YELLOW STONE. One of the best and most popular yellow fleshed varieties for table use; it is equally good for feeding stock. 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{lb}$.
YELLOW GLOBE. One of the best varieties for general crop; flesh rery firm and sweet, and keeps well until late in spring; grows to a large size, and is excellent both for stock and table use. 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 50 \mathrm{c} . \mathrm{lb}$.
Purple Top Yellow Aberdeen. Very hardy and productive, good keeper, globe-shaped and fine quality. 5c. pkt., 10c. oz. 20c. $1 / 4 \mathrm{lb} ., 50 \mathrm{c} .1 \mathrm{lb}$.

RU'TA HAGA, RUSSIAN, OR SNEDISH TURNTP. See descriptions, page 58.

Iong Island Improved. 5c. pkt., 10c. oz., 25c. $1 / 4 \mathrm{lb} ., 60 \mathrm{c}, 1 \mathrm{~b}$. Large White French. 5c. pkt., 10c.oz., 20c. $1 / 4 \mathrm{lb} ., 50 \mathrm{c} .1 \mathrm{~b}$. Our Prices this Season are lower than ever.

Improved American. 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 50 \mathrm{c} . \mathrm{lb}$.
Laing's Improved. 5c. pkt., 10c. oz., 20c. $1 / 4 \mathrm{lb} ., 50 \mathrm{c} .1 \mathrm{~b}$.
Read what we say on this subject on pages 1 and 2.

## 

As we issue a very full and complete Catalogue of Farm Seeds, we only give here a simple list and prices of the more important articles in this department. For full description of varieties, etc., see HENDERSON'S AMERICAN FARMERS' MANUAL, which will be sent free on application.

Country Gentleman sars: "Below the taller grasses was a thick mat of finer kinds, and the close, rich turf hid every particle
American Agriculturist sars: "Such mixtures are far superior to Timothy, or 'Timothy and Clover,' or any one grass, costing but a little more, hastiug' unth longer, and giving frequently more than double the yield.

Farm and Fome says: "The enormous rield of nearly four and one-half tons of good hay per acre should convince any one that more har and better pasture can be grown with mixtures than with Timothy and Clover alone, as under the very same conditions the latter yielded less than a ton and a half per acre.

HENTERSON'S SPECMAE GRASG DMETURE FOT PERMANENT PASTERE, CONSISTING of the fullwing varur. Orchard Grass, Meadow Foxtail, Sheep's Fescue, Rhode Island or Creeping Bent, Hard Fescue, Sweet Scented Vernal Trm. I'mmuml. Meadow Fescue, English Rye Grass, Italian Rye Grass, Red Top, ets., at reommended in our

On ordinary fertile soil 3 bushels of this mixture is sufficient to seed an acre, but where the land is poor a larger quantity will be necessary. Taking one soil mith another a fair arerage would be 3 bushels to the acre.
tended for either Mowing Lands or Pasture (but which on account of its greater weight should be sown separately), it is mixed Clovers, comprising White, Mammoth Perennial or Cow Grass, Alsike, Trefoil, ete, but this must be in this latitude if sown in the Fall.
The quantity needed ( 10 lbs.) of MIXED CLOVERS to sow an acre we will sell for $\$ 2.00$. Henderson's Special Grass Mixture for Hay and Permanent Pasture for Light Soils.

## CEREALS

## OATS.

Henderson's Clydesdale. A variety of White Oats weighing 50 lbs. to the bushel; very early and productive. We offer these Oats for sale at the weight of 50 lbs . per bushel, exactly as grown for us, so that those purchasing will actually receive for every bushel over one and one-half bushels according to the American standard. $\$ 1.00$ per peck, $\$ 2.50$ per bushel, 3 bushels for $\$ 7.00,10$ bushels and upward, $\$ 2.25$ per loushel
Hopetoun. A potato Oat (white) of great value, averaging 44 lbs. to the bushel. 75c. per peck, $\$ 2.10$ per bushel.
Black Tartarian. Early, productive and long-strawed; the oats will weigh 40 lbs . to the bushel. 50 c . per peck., $\$ 1.50$ per bushel.
Probsteier, Very productive and heavy. \$1.00 per bushel (32 lbs.)

## SPRING WMEAT.

Saskatchewan Fife. The best No, 1. Hard Amber extant. Unequaled for earliness, yield and vigor. \$2.25 per bushel.
Wellman Fife. An improvement on the well-known and favorite Saskatchewan. Is enormously productive, outyielding all other Spring Wheats. $\$ 1.00$ per peck, $\$ 3.00$ per bushel.

## WINTER WMEA'T.

Fultz. (Bald.) A first-class milling wheat. $\$ 2.00$ per bushel.
Jones' Winter ${ }^{2}$ Fife. (Novelty, 1889.) (Bald.) $\$ 3.50$ per bushel. Early Red Clawson. (Bald.) $\$ 2.25$ per bushel.
American Bronze. (Bald.) Especially adapted to sandy and poor soil. $\$ 3.00$ per bushel.

Fulcaster. (Bearded.) $\$ 2.00$ per bushel.
Jones' Squarehead White. (Bald.) 22.25 per bushel.
Rochester Red. (Bald.) \$2.25 per bushel.
Golden Cross. (Bearded.) $\$ 2.00$ per bushel.
Hybrid Mediterranean. (Bearded.) $\$ 2.00$ per bushel.

## RYE.

Excelsior Winter. A variety from Vermont that yields from 40 to 50 bushels per acre. $\$ 2.00$ per bushel; 10 bushel lots, $\$ 1.75$.
Winter. $\$ 1.35$ per bushel; 10 bushel lots, $\$ 1.25$.
Thousandfold. $\$ 1.60$ per bushel; 10 bushel lots, $\$ 1.50$ per bushel. Spring. $\$ 2.25$ per bushel.

New Japanese. 20c. per lb., $\$ 1.40$ per bushel; 10 bushels and upward, $\$ 1.30$ per bushel.
Common. \$1.25 per bushel.
13ARLET.
Vermont Champion. Two-rowed, early, hardy and prolific. 60c. per peck, $\$ 2.00$ per bushel.
Two-Rowed Duck Bill. 50 c . per peck, $\$ 1.75$ per bushel. Is carly
Manshury. One of the very best six-rowed Barleys grown. Is carly in ripening and plump, has strong upright straw and yiplds from 50 to 70 bushels per acre. The heads are very long and contain from 75 to 100 great plump heavy kernels. Prof. Henry, of Wisconsin Agricultural College, in his report says: "The Manshury heads the list in productiveness." 75 c . per peck, $\$ 2.50$ per bushel.

## Leading Varieties of Field Corn.

All at the uniform price of 15 c . qt., 60c. peck, $\$ 2.00$ bushel ; 10 bushel lots, $\$ 1.75$ per bushel. Add 15c. per quart extra if to be sent by mail.

## DENT VARIETIES.

Early Butler. The earliest yellow dent rariety known.
Hickory King. Largest grains of any white Corn. Early Mastodon. Early, with very large ears. Golden Beauty. Surpasses all in size and appearance. Queen of the Prairie. In this latitude it has matured a crop in less than ninety days.
Leaming. Ears of good size, cob small, with large grain. Early, Mammoth White Surprise. Specially adapted to sections from Pennsylvania south.
Farmers' Favorite. Ripens very early and succeeds far North.
Chester County Mammoth. One of the largest varieties.

Golden Dew Drop, Reliable for Northern planting as it grows quickly and matures early.
King Philip. Very early. Usually matures three months after planting.
Compton's Early. Yellow variety. Very early and prolific
White Elint. Handsome ears, large and well filled. A good sort. Large Yellow Flint. Very productive and of good quality.

## FODDER CORN.

Southern Horsetooth. \$1.25 per bushel.
Sweet Fodder. $\$ 2.00$ per bushel.

# Root Crops for Farm Stock． 

MANGEL WLRZEL．
Sow 6 to 8 lbs．per acre．

HENDERSON＇S COLOSSAL LONG RED．Roots of the larg－ est size and blood－red color．Quality exceedingly nutritions， and the variety is most distinct and valuable． $15 \mathrm{c} .1 / 4 \mathrm{lb} ., 35 \mathrm{c}$ ． lb ．in lots of 10 lbs ．and upward，30c． 1 b ．
YELLOW OVOID．This sort is intermediate between the Long and Globe varieties．Nutritious and valuable． $15 \mathrm{c}, 1 / 4 \mathrm{lb}, 40 \mathrm{c}$ ． lb ．；in lots of 10 lbs ．and upward， 35 c .1 lb ．
RED GLOBE．Similar to the Fellow Globe，differing only in color． $10 \mathrm{c} .1 / 4 \mathrm{lb}$ ．，30c．lb．；in lots of 10 lbs ．and upward， 25 c ． per lb．
GOLDEN TANKARD．Flesh bright golden jellow，and in this respect differs from all other varieties，which cut white． $15 \mathrm{c} .1 / 4$ $\mathrm{lb} ., 40 \mathrm{c} . \mathrm{lb}$ ．；in lots of 10 lbs ．and upward， 35 c ． lb ．

LONG YELLOW．Differs from the Long Red only in color．15c． HENDERSON＇S CHAMPION YELLOW GLOBE．Smooth， globe－shaped roots，of large size and excellent quality，are the distinctive features of this variety． $15 \mathrm{c} .1 / 4 \mathrm{lb} ., 35 \mathrm{c} . \mathrm{lb} . ;$ in lots of 10 lbs ．and upward，30c．lb．
Leng Red．10c． $1 / 4 \mathrm{lb}, 30 \mathrm{c} .1 \mathrm{~b}$. ；in lots of 10 lbs ，and upward，
HENDERSON＇S GIANT INTERMEDIATE．Very profitable to grow．An improvement on Yellow Ovoid．15c． $1 / 4 \mathrm{lb} ., 40 \mathrm{c} . \mathrm{lb}$ ； in lots of 10 lbs and upward，35c．lb．
YELLOW GLOBE．10c． $1 / 4 \mathrm{lb} ., 30 \mathrm{c} . \mathrm{lb}$ ．；in lots of 10 lbs ．and upward，25c．1b．

## TURNIP．

## Ruta Baga，Russian or Swedish．

Sow 3 lbs．per acre．
IMPROVED AMERICAN Purple－ Top）．Tery hards and productive； flesh yellow，solid，sweet；good for stock or table use． 5 c. pkt．．10c．oz．， $20 \mathrm{c} .1 / \mathrm{lb} ., 50 \mathrm{c} .1 \mathrm{lb} ., 10 \mathrm{lbs} . \$ 4.50$.
LARGE WHITEFRENCH．A superior variety for table or stock；flesh firm， white，solid and rich．5c．pkt．，10c． oz．， $20 \mathrm{c}, 1 / 4 \mathrm{lb}, 50 \mathrm{c}$ ． $1 \mathrm{~b},, 10 \mathrm{lbs}$ ．$\$ 4.50$
LONG ISLAND IMPROVED PUR PLE－TOP．This is undoubtedly the finest variety of purple－top Ruta Baga， and is purely of American origin．It is twice the size of ordinary American stocks．（See cut．）5c．pkt．，10c．oz．， $25 \mathrm{c} .1 / \mathrm{lb} ., 60 \mathrm{c} .1 \mathrm{lb}$
LAING＇S IMPROVED PURPLE－ TOP．An excellent garden variety． 5 c. pkt．， 10 c ．oz．， $20 \mathrm{c} .1 / 41 \mathrm{~b}$ ．，50c．1b．

## SUGAR BEET．

PETER HENDERSON \& CO., NEW YORK.-FLOWER SEED NOVELTIES.

## New "Guillaud" Pinks.

The only strain of Pinks blooming the first season that contains yellow. This new race originated with M. Guillaud, a celebrated French specialist, and, sess all of the profuse and early blooming qualities of the annual Dianthys pos"Guillaud" Pinks bloom profusely in the summer and autumn from spring sown seed; the flowers are very large, of perfect shape, very fragrant and last a longer time, either cut or on the plants, than D. Margaritæ. The seeds which we offer in mixture contain a magnificent variety of colors and shades, and, making this strain still more valuable, they contain flowers of clear rellow and others with Colors, price, per are equally adapted for open ground and pot culture. Mixed

## New Double Yellow PhIox,

An exquisite introduction of annual garden phloxes. The plants of this variety are very bushy and branching. attaining a height of 15 to 18 inches, and bear in great freedom large umbels of double flowers of a charming yellow. Price, per

New Single Marigold, "Little Brownie."
tropeolum, "prince bismarce

## Little Midget" Roses.

A very meritorious novelty. These little roses belong to the Polsanthas or Japanese many-flowered section. The roses are only about an inch across, usually very double, but occasionally semi-double and seldom single; they are borne in many-flowered clusters and contain all the tints of cultivated roses. What is most remarkable, these "Little Midget" roses grow only 10 inches high and commence blooming in a few weeks after the seed is sown. At first the flowers are isolated, but they group themselves as the plant advances and continue year after year to bloom in uninterrupted profusion from May until frost. Price, per packet, 25 c .

## Lobelia, "Gold Leaf."

A new bedding variety of the Erinus Compacta type, with golden yellow foliage and brilliant blue flowers. The plants form compact little monnds of gold 4 to 6 inches high, bearing in exhaustless continuity myriads of deep blue finwerc, forming a contrast of striking beauty. For
carpet bedding masses and borders ther will be unique and effective. Blooms the first season from seed. Price, per packet, 25 c .

A charming single-flowering pigmy Marigold, forming compact little bushes only to 6 inches high, producing a fiue effect when grown in masses and unrivaled for borders. It is remarkable for blossoming extremely early and in prodigious abundance, commencing in June from spring-sown seed, blooming more and more as the drought is marvelone of the flowers and the great resistance of the plant to fowers are perfected. The latter are vividly colored felloge disappears, yet the with a graver, with a large spot of brown velvet. (See cut.) Price, per polved as

## New Tom Thumb Dahlias.

The new single Dahlias form little compact bushy plants only about 12 inches high by 24 inches across. They bloon in great abundance the first season from spring-sown seed, producing flowers through margined, ringed, etc., etc. The colors rauge through rellows, white, scar-
let, maroon, pink, etc. (See
cut.) Price, per packet of The Orchid Salpi= glossis,

## A grand new color in this

 splendid class of garden annuals. The large flowers, 3 to 4 inches across. are of rich velvety purple, exquiaitely veined and feathered vith yellow or gold-an ef

## PETER HENDERSON \& CO., NEW YORK.-FLOWER SEED NOVELTIES. 61

## Begonia, Vernon.

## A grand novelty. The color of the flowers is a waxy blood-scarlet, and being borne

 in immense quantities make an exceedingly brilliant effect. The foliage is also reold the leaves begin to turn red on the margins and gradually the whole eaf and stem are suffusedSeed sown in spring will produce blooming plants eariy fusion antil killed by frost, and is of unparaleled proforion ontil krowing in pots for frost, and is of scarcely less value New Tom Thumb Hasturtium, "Brililinnt:"

Although the varieties of Tom Thumb Nasturtiums are very numerous, jet they are such unequaled favorites that any new color or improved variety is always welcome. For garden beds in the summer, Nasturtiums will never be sur passed, for they can always be depended upon to give splendld bloom for a long season. This new variety, Brilliant, is the handsomest scarlet-a rich glistening shadethat is well set off by the very dark foliage of this variety. Price, per packet, 25c.

## Duarf Yellow Ageratum.

This new variety is of a delicate chamois yellow, harmo nizing well with the other colors, blue and white, which heretofore were the representative colors of this dwarf annaal, so popular for ribbon planting and garden beds. The plants are compact and quickly from seed the first season and continue to flower abundantly until frost. Price, per packet, 25 c .

## Four frand New Aalsans.

there whan more attractive than others in our trial grounds the past sea on, they were the four Balsams mentioned below. All have extra double flowers of magnificent size, filling the long branches so completely from top to bottom that the foliage is almon magnincen of sight, each plant forming a gorgeous candelabra-formed bouquet. (See cut.)

TAA MALMAISON. Magnificent, Iarge double blush pink flowers the exact fac-simile in color of the famous Malmaison rose and with a satiny sheen in the sunlight as if sprinkled with diamond dust. (See cul.) Price, per packet, 25c.

BIOODSTONF. The grandest scarlet balsam we ever saw ; rich dark blood-scarlet, large, double and full. Price, per packet, 25 c.

SPFCKIED BEAUTF. A charming variety; big double flowers of snow-white, speckled with minute drops of fire red. Price, per packet, 25 c

# Henderson's Curled and Crested Zinnias. 

SHOWN ON THE PLATE OPPOSITE.

N NEIV' ODD AND SUPERB.

Petals Twisted, Curled and Crested into Fantastic Contortions and Graceful Forms. Magnificent Variety of Colors.

THESE unique and charming Zinnias originated in our trial grounds four years ago, where we houl an endless number of varieties and strains from growers in Europe and Anmrica growing side by side. Among these humpreds of plants a sport appeared beariug flowers the petals of which wert curiously twisted and gracefully curled. From this, hy perserering selection and careful culture, we have worked up this strain of doulhe-flowring, curled and crested Zinnias, which eclipses in beantr, berond all question, any form-large, round, full and double, the petals being twisted and curled and crested into the most fantastic contortions and graceful forms, rendering them entirely free from the stiffness which was heretofore the characteristic of this family. Nature, it seems, least among thot watisfied wroducing something new, odd and superbin form, but tried to outdo herself on this, her new protégé, for not the compact, symmetrical hahit of the plants. In going Crested Zinnias is the remarkable range of colors, lavish profusion of bloom and rellow, orange, old gold and russert; then we had many intermediate shades and derp rose; in tellows: crean, arg and grand white, deep

The individual plants form compact bushes about two foet high by tro feet through, and bear, well abore the foliage, fromes. 300 flowers ench h, artual count. It cau be readily imasined what a glorious effect our field of them made-so exceedingly odd and bean tiful that the attention of the most casual ohserver was aroused to the curiosity point. They certainly did not look like Zinnias, nor like Marifolds. nor like anything that our visitors or ourselves ever saw before. We have many times been amused by the guesses advanced. and donot think we exaggerate when we state that we answered the question "What are ther ?" at least a thousand times. The ease of culture, indifference to special soils or treatment, their early, prolific and long-continued bloom, excellent habit, magnififlowers and exquisite colors will render Henderson's Curled and Crested Zinnias a popular garden favorite wherever tried. Price of mixed colors, 25 cts. per pkt., 3 pkts. for 60 cts., 6 pkts. for $\$ 1.00$.

## ־NEW CYCLOPS PINKS. <br> (ILLUSTRATED BELOW.)

## REVELATIONS OF BEAUTY-HARDY-EVERBLOOMING-FRAGRANT

This magnificent new strain of Pinks produces an entirely new series of colors of endless varietr and unapproachable beauty, the flowers having an added value because of their clove-like perfume. The ind are borne in wonare round and very large, fulysix inches in flats from May until frost with exquisite combinations of colors, the predominating shades being delicate rose, tlesh pink, copper culor, sulmon, dregs of wine red, white, od-rd, crimson, etc., the beauty of each flower
making a strikingly beautiful contrast. The plants grow 12 to 16 incles high, are of sturas and sigorousiation elicited during one season, they conseeds are sown reasomabiom with undiminished splendor for several jears. When a number of plants are massed tinue to dourish an are also

a zajority of the plants produce double and semi-double fiowerk.

# The Flagship of our Floral Squadron in $1893 \bigcirc$ IS $A$ Grand New White Sweet Pea, 

 * * "Emily Henderson."(See the Illustration, from a Photograph, on the opposite page.)

我GLORIOUSLY beautiful acquisition has been obtained in this New White Sweet Pea that has not only excited the enthusiasm of ourselves, but of other experts to whom last season we gave a few seeds for trial. The "Emily Henderson" not only surpasses in every way all other varieties of Sweet Peas, but it is the unanimous opinion of all who have seen it that it is the most valuable addition made to our list of Flower Seeds in twenty years.

THIS NEW SWEET PEA, "EMILY HENDERSON," originated as a sport in a field of that splendid variety, "Blanche Ferry." a pink and white flowered sort, exceedingly popular with both amateurs and florists. Every meritorious quality which has given "Blanche Ferry" its distinctive value has been reproduced in the younger variety. More than that-in "Emily Henderson" are to be found qualities that place it far above any other Sweet Pea of which we have any knowledge.

Its color is as pure as the driven snow; all other socalled whites have either a green or dull yellow keel. Hold a single blossom of the "Emily Henderson" up to the light and the daintiest flush is barely perceptible, a delicate suggestion of the pink blood of the parent variety, and only just enough to show its pedigree and give to the flowers the lustrous tone and texture of satin. We have had several improvements in late years in white Sweet Peas, but until this beauty burst upon our gaze none were free from the green or yellow taint.

The fowers are large, equaling in size those of "Boreatton," the acknowledged giant of the Eckfords; they are of great substance, and, in form, perfection; broad and round and without the slightest tendency to reflex or curl, so common in large flowers of the Eckford type.

Its prodigal abundance of bloom is phenomenal; where other varieties produce two flowers on a stem the "Emily Henderson" bears never less than three and nearly as often four, and it is not unusual to find stems bearing five or six flowers each, and occasionally we have found them with seven. The stems are stiff and long and so boldly support the flowers that they seem to look one squarely in the face. The strong stems give the variety an added value for cutting.

To test the possibilities of this variety, and to see how many flowers a plant would produce, we planted the past season a single seed entirely apart from all others, giving the plant good culture and cutting off the sprays as they came in bloom from time to time. At the end of the summer we had cut the almost incredible quantity of $\mathbf{1 , 0 3 5}$ sprays of bloom-not individual flowers, but sprays-from one plant.

In Earliness of Bloom the "Emily Henderson" outrivals all competitors by nearly two weeks, and it also holds longer-a veritable "cut-and-come-again" to the end of summer.
The Fragrance is most delicious and poweriul and distinct from any other variety. The perfume-laden air from our field of three acres was truly enchanting, and on dull mornings and evenings could be scented half a mile away.

The plants are robust, very branchy and of compact habit, about four feet high, and if not supported and not planted too closely they form bushy plants averaging only three feet high and are so completely covered with flowers that a field of them looks as if it had been visited by a heavy snow-storm.

For Florists" Forcing under glass the "Emily Henderson" Sweet Pea is bound to outstrip all others on account of its color, earliness, profusion, short, stocky growth, and the immense size of its long-stemmed flowers.

25 cts. per packet; 3 packets for 60 cts.; 6 packets for $\$ 1.00$, free by mail.
On every packet of the aoove will be printed a full and complete essay on the cultivation of Sweet Peas. tellinis plainly the most recent and approved methods of growing this fashionable flower to the highest perfection.

## DELAUX'S PERFECTED <br> Earif Fiowering Chiganilimunc

Perennial Chrysanthemums, the glors of autumn, are so well known, and so universally popular, that it would be
superfoous to expatiate upon their merits here. We will therefore confine ourselves to the merits of this remarkable new class, which were raised by a celebrated South of France specialist, who, by persevering selection and skillfill hybridizing, obtained a series of 200 varieties of early flowering
Chrysanthemums that in his latitnde bloom continually from June until frost. The seed which we offer has been gathered from the complete collection of Mr. Delaux, and will produce an endless variety of magnificent flowers of superb colors, Japanese type differing will come double, and mostly of the dwarf and branching habit, and in consequence more abundant blooming. While we in the North cannot expect the Delanx Chrysanthemums to bloom as early as in the sunns South of France, set they will precede the regular Chinese and Japanese Chrysanthemums by several weeks, especially If the seed be started in the house early in the spring and the
plants removed to the open ground. To have Chrysanthemums bloom in the open ground weeks before frost is a horticultural revolution that will be highly appreciated by all
lovers of this glorious flower. The Horticultural Press unanimously recommend this new race, and predict for them a brilliant future. (See cut.) Price, per packet, 25 cts .

## LORENZ'S NEWEST FRINGED Ducule fnual Cligenllienuns.

A new collection, by far surpassing all other strains of this popular garden annual, on account of their extra doubleness
and perfection of form. The petals lie, scale-like, one upon and perfection of form. The petals lie, scale-like, one upon the other, and are exquisitely fringed. The colors are also much more beautiful and diversified, including numberless hues of rose, fiery scarlet, blood-red, purple, yellow, white,
etc., the dark brilliant colors predominating; and, besides, many of the flowers are beautifully penciled. For effective summer flower beds these new Chrysanthemums are unequaled, of quick, easy growth, forming bushy plants 12 to 15 inches higlr, which commence blooming within a few weeks after the seed is sown. Price, per packet, 25 cts .

(Centrosema Grandiffora.)
A hardy perennial vine of exquisite beauty. The plants grow 7 to 8 feet in a season, and the first season from seed will produce graceful clusters of 6 to 8 inverted pea-shaped fowers, $11 / 2$ to $21 / 2$ inches season from seed will produce gracenul clusters of 6 to 8 inverted pea-shaped fowers, $1 / 2$ to $2, / 2$ re; the across, ranging in color from rosy violet to reddish purple, feathered with white tbrongh the centre; the
backs of the flowers are pure white, and also the buds, making a strikingly beautiful contrast. Price, per packet, 25 cts .

## New Double Sulphur Calendula.

A new and very attractive light lemon-rellow colored Pot Marigold of the large-flowering, doable typeIt formse d warf bushy plant, about one foot high, and bloome continuously and abundantis until frost, from seed sown in the spring. For showy garden beds it is unrivaled. Price, per packet, 25 cts.

## New Pansy, "Kaiser Frederick."

An exceedingly fine new variety from Germany, producing extra large flowers of perfect form. The ground color is of a deep, rich purple, with an outward margin of jellow and scarlet. A vers unique

## Heliotrope-Lemoine's Giant Hybrid.

These are grand improvements. In our trials of the past season, seed sorn in April produced luxuriant. healthy, bushy plants, 18 inches to 2 feet higb, by July, and ther bloomed abundantly until cut down by frost. The clisters of bloom were immense ; many meassured 66 inclies across and were deliciously
fragrant. Colors: lavender, white, purple, etc. Price, per packet, 25 cts.

## Fringed Coleus.

There are beantiful. They originated with a skillful hybridizer in France, who sent us a few seeds for trial carly last apring. We started the seeds in the greenhouse, and put the plants in the open ground in May, and never had so fine a plot of Colens. The plants are unusually thrifty growers, producing graceful effect. The colors, Loos are especiaily fine, embracing combinations of markings entirely and. graceful effect. The colors, too, are especiaily fine, embracing combinations of markings entirely new.

AMERICAN FIAGG. (Double Pcony Flowered. A robust grower; flowers extra large, sery double,
pure white, each petal being margined with bright red. Exquisite. (Seecut.) Price per pkit., 15 c . , each petal being margined with bright red. Exquisite. (See cut.) Price per pit., 15 c . NANKEEN YBL工LOW. (Double Pceony Flowered.) Large globular flowers, perfectly per plet., 25 c
BLACK KNIGHT. (Double Preony Flowered.) Exceedingly rich black maroon. Splendid large double flowers. Price per plt., 15 c
"BLOOD-RED MIKADO." This is a grand variety of carnation-flowered poppy; the plants attain a height of 3 feet and bear densely double flowers of immense size, fully 9 inches around and of a deep and brilliant blood-red color the petals are deeply fringed and laciniated in the style of the original Mikado Poppy, which is illustrated on page 79. The plants begin blooming within a few weoks after the seed is sown, are of easy culture and unequaled in effect for garden decoration. Price per pkt., 25

## New Double Scarlet Iceland Poppy.

The single-flowered Iceland Poppies have long been great favorites for garden decoration, forming low, bushy plants, which throw up in rapid snccession, throughout the summer, numbers of flower stems 10 to 12 inches high, each surmounted with large, elegant, crushed satin-like flowers, which for cut-
ting purposes are unsurpassed. This new variety bears extremely double ting purposes are unsurpassed. This new variety bears extremely double
orange scarlet flowers. Although Iceland Poppies are hardy perennials, yet they will bloom freely the first season if the seed is sown reasonably early. Price per pht., 25 c .

## New Rose=colored Single Iceland Poppy.

This charming class, described $n n$ page 79, is here enriched with an exquisite new rose-colored variety. Price per pit., 25 c . per pkt., 25c.

## 

 A splendid decorative annual for the garden. It is of very easy culture, attaining a height of six feet and a breadth of four to five feet; well furfeet and abreadre gorgeously colored leaves of a nished with large gorgeously colored leaves of a blood-red color, borderecut.) Price per pkt., 25 c .

## Splendid New Petunibs.

"DIADEM." An exquisite variety either for garden decoration or for pot culture. It is wongarden decoration or for pot culture. It is wonderfully prolific of bloom; the flowers, about $21 / 2$
inches across, almost hide the plant from view for months; the colors, white and bright carmine, form a pronounced star of admirable effect. The plants form symmetrical oval bushes about 12 plants form symmetrical oval bushes about 12 and, abundant in bloom the same season from seed sown in the spring, which will make this a highly popular novelty. Price per pkt, 25 c . "WHITE THROATED GIANT." Immense single fowers of an unusually rich violet-colored
crimson with large deep throats of a pure white which run off into veins and netting. Strikingly effective. Price per pkt., 25c.

## NEW <br> 

A new strain of 10 -week stocks of great beauty which are entirely distinct from all other stocks. Each plant forms a perfect pyramidal bouquet, the main flower stem rising a few inches above the side branches, all of which bear large spikes of rer double flowers. We offer the following separate colors

GRAND WHIPE. Snow-white. Price per RED' DOME. Dark blood-red. Price per pkt., 25 c . PINK OF PRRFRCTION. A beautiful rose pink. Price per pkt., 25 c .
mancorns.

## White Column Stook.

A grand novelty of high perfection. The plant is of Iuxuriant growth, attaining in the open ground a height of 3 feet, and producing only a single long and sturdy faultlessly formed double flowers of the purest possible white. Itis particularly beantiful when grown in large groups in the garden. (See cut.) Price per plkt., 25c.

## Pigmy Queen 10 Week Stoeks.

A valuable new introduction. The plants grow not over 9 inches high, of compact branching habit, producing numerous umbels of large, double, rich dark bloodpot culture. Price per pkt., 2 b.

MAMMOTE WHITE COLUAN STOCE

## EEEDS <br> (D)

BeddingVarieties then ind first Season

TEF varieties catalogued under the above heading, while not all strictly If annuals, Jet will all bloom, or, if foliage plants, attain perfection, the same season, provided that the seeds are sown reasonably early in the spring. This class of plants is highly appreciated as they save the expense and trouble of carrying plants over wintex for the summer garden, and because they come quickly to perfection from seed and make effective beds and brilliant masses of color scarcely equaled by any other class of plants.

## ABRONIA.

Charming trailing annuals sin height, 9 to 18 inches; flower ing freely in large Verbena-like eed well in the garden border, in beds, rock-work or baskets Arenaria. Waxy lemon yellow Umbellata. Rosy pink.

## ADONIS.

Fery ornamental annuals of easy cultivation, for flowergarden and borders; flowering freely; foliage graceful and feathery; height, about 1 foot. Antumnalis (Pheasant's Ere) Intense blo Atumnalis. (Pheasant's Eye.) Intense biood Vernalis. (Perennial)

## Large Flowering.

Giants of Califormia A Californian strain of incomparable beauty, size and luxuriance. Most of the flowers are exquisitely ruffed or fringed on the edges, and are of enormous dimensions ( 4 to 5 inches across), but their great merits lie in the tremendous varieties of colors, markings, veinings, blotchings and stripings, in the most grotesque and beautiful combinations; some with charming deep throats of yellow, white, black, green or maroon, ranning off into intricate veins. Some of the colors are rich and gorgeous and others of lovely delicate shades. (Seecut.) Price, for mixed varieties, Pkt. 35 Large Single Fringed, Mixed. Flowers average 4 to 5 inches across, of inmumerable shades, colors and markings; all be autifully fringed.......... 25

Petunia, Ring of Emerald. Form a dense globular bush, only 111 to 12 in . high, and 14 to 15 inches across. with large, perfectly formed flowers of a rich crimson, edged with a
Petunia, Pink Mound. Compact little bushes, not over a foot high; flowers of a brilliant rose pink color with a white throat produced in remarkable abundance so as to fairly hide
the plant. A veritable "Mound of Pink." (See cut.)...... 15

## LILIES. (Add for postage 3c. per bulb.)

Exquisite and free-blooming a native of the mountaina of gouthern Mexico. Its coral-like, bell-shaped flowers are borne in graceful umbels of 12 to 20 , on stems 1 to 2 feet high, and open in succession during fully two months of summer and autumn. As a bulb frequently throws up from 6 to 10 spikes in succession, the abundance of its charming flowers can be imagined. Color, bright vermilion scarlet, marked with rosy white on the inner surface, the beauty of the coloring being intensified by the bright purple of the anthers. For an effective display, at least 12 to 25 or more bulbs should be grown in groups in a sunny bed, planted about 6 inches apart.
Price, 8c, each, 60 c. per doz., $\$ 4.00$ per 100 , free by mail.

## 

Dioscorea batatas
Beautiful summer climber; glussy foliage and fragrant flowers stem dies down in winter, but the rout is hardy. Large selected

This magnificent variety produces flowers of the greatest beauty. Usually, two flower stalls of dark purplish color are sent up at the same time, each bearing a large umbel composed of a dozen or more enormous lily-like flowers of wondrons beanty and fragrance. The petals are broad and. pure white, with a deep reddish purple stripe through the centre. The variety is so beautiful that it invariably elicits general admiration. (See cul.) 1 lb. bulbs, $\$ 1.00$ each, postage 10c. per bulb extra; 220. bulbs, $\$ 1.50$ each. poslage 20c. per buto extra.
Cooperia Drummondi. (Evening Star Flower.) Blooms from May to September; the flowers are star-shaped, with long tubes, pure white and fragrant (See cul.) 10c. each 75 c . per doz., $\$ 5.00$ per 100, free by mail.

montbretia rosea.

## SUMMER-FLOWERING BULBS.-Continued.

MADEIRA VINE.
Theold favorite "Climbing Mignonette," Thick, glossy leaves, and long, hanging stems of feathery, fragrant white flowers. 5c. each, 50 cts. per doz., free by mail.

## MONTBRETIA CROCOSMIFLORA.

This is one of the most fioriferous and showy of autumn flowering plants, and destined to great popularity. When properly grown-i, e., a dozen or more bulbs planted 6 inches apart in a group in a sunny position and allowed to remain undisturbed for several years, protecting with a few inches of manure in winter-they will form magnificent clumps from 2 to 3 feet across, producing, in great numbers, graceful spikes 8 to 12 inches long, each spike bearing from 18 to 30 exceedingly showy star-shaped flowers, about $11 / 2$ inches across, of a gay orange suffused with red. They flower freely the first season, but clumps of two or three years' standing are required to bring out the great merits. Price, 6 c . each, 50 c . per doz. $\$ 4.00$ per 100 , free by mail. each, $\$ 1.00$ per doz., free by mail. (See cut.) 10 c .

## MEXICAN STAR OR FROST FLOWER.

$\Delta$ beautiful Mexican summer-blooming bulb. A group of them is always in flower after the midale of summer and very attractive. Flowers, star-shaped, 2 inches across, clear waxy white, of great substance, enlivened by a frost-like sparkle; the fragrance is delightful. Place a stalk in water and the flowers will all open; we have seen 11 stalks shoot up successively from one bulb. The bulbs flower profusely and with great certainty. Height, 12 to 18 inches. For an effective display, groups of 12 to 25 or more should be planted about six inches apart in a sunny bed. (See cut.) Price, 8c. each, 60 c. per dozo, $\$ 4.00$ per 100, free by mail.

## ZEPHYRANTHES.

Zephyr Flowers" and "Flowers of the West Wind," among our most beautifut dwarf bulbous plants, very effective for planting out in masses in May, flowering with great profusion during the summer. They are also most suitable for pot culture; 6 to 12 bulbs clustered in a 6 -inch potin the autumn will give a fine display of bloom during the winter in the window garden or conservatory. 1 foot high
We Atamasco. White, suffirsed with flesh color ; hardy. which have stood the colds of several winters. $\overline{\mathrm{c}} \mathrm{c}$, each, 50 c . per doz., $\$ 2.50$ per 100 , free by mail.
-Rosea. Large flowers, 3 to 4 inches across, of the most exquisite rose pink. Price, 10 c . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100, free by mail

## ORHNGE FLOWERED TUBEROSE.

Deliciously fragrant star-like flower, $1 / 2$ inches across, pearly white, borne on stems 3 to 4 feet high;

DOOBLE PEART TTBEROSE.

## TICRIDIAS.

(Peacock or Shell Flower.) Extremely handsome summer fowering bulbs, growing about 2 feet high, producing large, spotted; they flower very freely throughout thesummer. (Seecut) throughoutthesummer. (Neecul. low, largered spots. 5c. esch low, large red spots. 6c, each 30c. per doz., \$2.50 per 100. Large bright crimson, centre Large bright crimson, centre mottled with yellow. 5c, each, 50 c . per doz., $\$ 3.00$ per 100 . -Grandiflora Alba. Pearly White, with s yellow cup gorgeously spotted with crimsom.
Price, 10 c . esch, $\$ 1.00$ per doz Price, 10 c . each, $\$ 1,00$ per doz.

## HYACINTHUS CANDICANS.

(Giant Summer Hyacinth.) Luxuriant, free-growing, sum-mer-flowering plant, spreading 2 to 3 feet, throwing up great, tall spikes, 4 to 5 feet in height, each bearing 20 to 30 large white bell-shaped flowers of easiest culture and splendid for groups. If planted in the centre of beds of scarlet Gladiolus, such as Brenchleyensis, the effect is magnificent. (See cut.) 10c. each, $\$ 1.00$ per doz, $\$ 6.00$ per 100. Postage, 3c. per bulb extra. Seed, per packet, 10 c .

## DOUBLE PERRL TUBEROSE.

This pure white, perfectly double, delightfully fran grant flower, invaluable for bouquets, is too well known to need any description. It delights in a strong, rich, deep, well-drained, warm soil; manure, heat and water are essential to its perfect development. This variety, which we introduced and named, grows only twenty-four inches, about half the height of the old double sort, and the flowers are nearly twice the size (often two inches in diameter), and imbricated like a camellia; deliciously fragrant. (See cut.) Extra aize bulbs, 5 c . each, 50 c . per doz." $\$ 3.50$ per 100, (If wanted
by mail, add for postage 10 c. per doz, extra.) (

## TUBEROSE, "SILYER LEAF."

This beautiful variety deserves to be largely grown, as it is always showy and effective even when not in bloom, the foliage being distinctly striped, white and green. Each bulb frequently throws up two or more gpikes, 3 to 4 feet high, each bearing from 25 to 40 pure gikes, 3 to 4 feet high, each bearing from 25 to 40 pure White, waxy fowers, much like an orange flower or They flower weveral weeksearlier enchanting perfume. They flower several weels earlier than double tuberoses, and the bulbs bloom year after year. Price, 10c. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100. (If wanted by mail, adaz for postage 10c. per doz. extra.)

## LEMOIIES NEW ARITT GLhalous.

GLIDIOLES HYBRIDE'S NANCELANLS.
Gorgeous Colors and Marvelous Marhings. Enormous Filowers the Size of Tea Plates.
This new race of extraordinarily beautiful Gladiolus represents the grandest achievements in the perfection of this genus since its introduction. It is a cross between Saundersii and Lemoinei, and has not only retained the long-lasting properties and the beautiful spots of the latter, but its flowers have reached Enosmous dimpingions, far surpassing any others, and much resembling Orchids of the brightest hues and most curious designs.
Alice Wilson. Enormons well-opened flowers ( 6 inches across) of perfect shape, ground color, white suffused with rosy crimson and flaked carmine; the lower petals are most distinctly blotched with purple-crimson. $\$ 1.75$ each.
Charles Baltet. Color purplish-wine-red marbled with chestnut-red. Throat white, with a white band in the centre of the sepals, A vigoroms grower, producing immense flowers well opened and beautifully shaped. \$1.50 each.
President Carnot. A marvelouely beautiful flower of enormous size ( $73 / \frac{1}{2}$ inches across). The principal color is a satiny cherry-red, suffused with darker shades. The lower petals have a scarlet blotch surrounded by numerous blood-red drops on a straw-colored ground, extending to fine little spots in the midst of a scarlet border. (Seecut.) \$1.00 each.
Ferdinand Bergman. Long, erect stalk, bearing as many as 12 flowers open at the same time; salmon shade of orange, lengthened spots of deep brown. $\$ 1.00$ each.
The set of 4 Giant Gladiolus, 1 bulb each, $\$ 4.50$, free by mail.

## New 'SSow=White" Gladiolus.

 This is the best White Gladiolus. The flowers are elegantly formed, and are of preat substance. The spikes are setsolidly and perfectly with the fowors from bottom to top. The entire flower is a perfect paper-white, with a slight cream shade on lowerlialf of the lower petal. A suggention only of purple is sometimes seen petal, when the flowers are allowed to develop in the field. If the spikes are cut when tively snow-white. It is a good strong grower, in many cases producing thres spikes from one bulb. To get the largest flowers and spikas, cut off all but one spike. The the best white Gladiolus introduced, and also three years before a First-Class Merit. (Sec cut.) Price, free by mail, $2 \overline{0}$ cts. each, $\$ 2.50$ per doz.

## GLADIOLUS IN COLLECTIONS (free by Mail.)

12 choice named varieties.
Special Bet of 12 Beally Grand Gladiolus.
Collection of 50 Jamed Farieties, page 99
Collection of 4 Lemolne's Giants.
or, Full set of the above 6 Famed Collections.

## HENDERSON'S SPECIAL SET OF 12

## "Really Grand Gladiolus."

Magpificent new varieties of Gladjolus are produced by the art of hybridizing, but whfortuuately the slowness of working up a stock of any special sort preventa them from being offered at a low price for several years. A stroll through our many acres of varieties, containing these new sorts, revesled some of which we could supply a few hundred bulbs, the varieties being of such rare beauty that we concluded to select a set that we offer at the moderate prices quoted below.
Abricote. A very charming and novel color, soft, satiny, coppery pink, as lustrous in the sunlight as if burnished. Flowers of great size, with large round petals. A robust grower. 50 cts . each, $\$ 5.00$ per doz.
Ali. Splendid, tall and compact spike, with numerous and perfectly arranged flowers of quite a pecnliar and remarkable color; the ground of the upper petals is of a very pale creamy rose, striped and penciled cherry-red, one (or more fre quently two) of the lower petals is yellow with a rose sheen and finally rayed or striped purplish red.
Aurore. A very bright and lovely variety. Flowers of largest size, bright salmonrose, striped orange, carmine and lilac, with beautiful blotch of cherry-rose streaked with lilac.
Baroness Burdett Coutts. Delicate lilac tinged with rose, flamed rosy purple Spike very long, flowers unusually large. A decided acquisition.
De Lesseps. Superb large flowers of rosy white suffised with pink, flaming into red carmine-lake at the edges. Sirong, upright grower; fine spike
Duchess of Edinburgh. One of the grandest Gladiolus grown. Great, atrong spikes of immense flowers, deep lilac pink, with the sheen of satin.
Fred. Donglass. The finest dark-colored Gladiolus grown. Flowers unusually large, of a rich velvety claret-maroon, beautifully marked and shaded.
Grand Rouge. A magnificent variety. Splendid, strong spike of enormous flowers; bright scarlet, with violet blotches.
Mr. Baines. A splendid grower. Tall spikes of inmense flowers of burnished orange-red. One of the most striking in our fields.
Mlle. Maries Mies. Exquisite delicaterose, flamed with carmine, with blotches of rosy purple on pure white ground. Flowers of unusually large size, forming a dease spike.
Mme. Auber. A tall, well-flled spike of extra large and besutifully shaped flowers, silvery lilac-rose, dappled with crimson-rose toward the edges; blotches cresmy white. 50 cts , each, $\$ 5.00$ per doz.
Sunshine. The best yellow ever produced. Strong, upright grower, with enormous spikes of large flowers of much substance ; color pure, rich yellow.
PRICE FOR ANT OF TEE ABOVE, NOT SPECIALLY MENTIONED, 25 CTS.
EACE, \$2.50 PER DOZ., OR FEF FUII SFI OF 12
FOR \$2.75, FREE BT MAIT.
GLADIOLUS BRED.-This will produce floworing bulbs in 2 to 3 yeara time, Gandavensis Brbrieties.
Gandavensis Hybrids. Mixed varieties.
Per packet, 10 cta. Lemoinel Hybride. Mixed varieties...

## Choice Named Gladiolus.

Varieties which flower first are marked $\mathbf{A}$; those which flower somewhat later, $\mathbf{B}$; still later, $\mathbf{C}$; the latest, $\mathbf{D}$. Piice for any of the Glaololus on this page, free by mail, 10 cts , each, $\$ 1.00$ per dozen; or the set of 50 varieties for $\$ 4.00$.

\{State if wanted by mall: Express [and Company): Freight [and Route]: Steamer [and Line).

SPECIAL NOTICE. We earnestly advise customers to order their plants sent by express, as we can send larger plants and they arrive in better condition than when sent by mail ; in fact, large plants such as "first size" roses, palms, etc., cannot be sent by mail. To encourage express shipments we make no charge for packing, and generally add enough plants, gratis, of our own selection,
to cover express charges. Plants will be sent free by mail when so ordered, but they wrill neceserily bin to cover express charges. Plants will be sent free by mail when so ordered, but they will necessarily be smaller.

All Seeds by the packet, ounce, and 1-4 lb . are mailed free; but postage must be added, at the rate of 8 cts . per lb ., for quantities of $1-2 \mathrm{lb}$. and upward of one variety; to Peas and Beans add at the rate of 15 cts . per quart, and to Corn, 10 cta. per quart.

## Yē Olde=Fashioned Garden (ollection of Harde Plants.

aN the above illustration we show, as far as the limited space will allow, an old-fashioned garden. There has been a growing demand of late for hardy plants, particularly for the old and well-known favorites so lovingly remembered in connection with the old home. It is not for this reason alone we offer this collection; it is mainly because the plants themselves possess merit in advance of many of the aspirants for favor which are annually trumpeted forth as marvels, but sink into merited obscurity in a short time. But of such plants as the old sweet-scented Cabbage Rose, Clove Pink, Bleeding Heart, Sweet Violet and the others offered in the Old-Fashioned Garden Collection, it may be said they are ever young in the people's hearts. In the collection offered below we have grouped together what, in our opinion, are the most likely to give satisfaction. They are selected with a view to beauty in the open ground, and availability for cutting for vases of flowers, bouquets, etc. To make this collection popular we have made the price very low, quality of plants considered.

## OLD HARDY CABBAGE ROSE.

Familiar to all. Its great sweet-scented flowers are magnificent. No collection complete without it. Price, 60c. each. Large bushes

## HARDY CLOVE PINKS.

Low-growing and most desirable for borders; excellent for bouquets, etc.; very sweet scented. Price, large clumps, 30c. each; small plants, 15 c . each, $\$ 1.50$ per doz.

## HARDY PHLOXES.

Most desirable plants, blooming in late summer and fall. Our collection contains the very best varieties: white, pink, red, striped, etc., etc. Price, 15 c. each, $\$ 1.50$ per doz.

## RED HOT POKER PLANT (TRITOMA).

This is shown on the extreme left of the picture above. Its stately heads of flame-colored flowers are gorgeous in the extreme. Invaluable in any collection. Price, 30c. each, $\$ 3.00$ per doz. Strong plants.

## YUCCA FILAMENTOSA (ADAM'S NEEDLE).

This is shown on the extreme right of the picture, and is in sharp contrast to the above. The great sprays of white flowers are a conspicuous and pleasing object in any landscape. Price, 30 c . each, $\$ 3.00$ per doz. Strong plants.

## WHITE DAY LILY (FUNKIA).

For grace and beauty this is without a rival. Its broad green leaves, above which rise the clusters of pure white fragrant flowers, are always a grateful sight. No plant in the collection outrivals this. Price, 35 c. each, $\$ 3.50$ per doz. Strong plants.

## BLEEDING HEART (DIELYTRA).

One of Nature's most exquisite productions, and worthy of a better name. The graceful, luxuriant foliage and beautifully arched racemes of brilliant flowers have made it the favorite it is; unsurpassed, we believe, by any other hardy flower. Strong plants, 20 c . each, $\$ 2.00$ per doz.

## HARDY CHRYSANTHEMUM.

The old-fashioned variety which was such a general favorite years ago. Blooming in the fall, after all other flowers are gone, they are particularly welcome. 10c. each, $\$ 1.00$ per doz.

## HARDY DOUBLE ENGLISH VIOLET.

Wherever hardy plants are used there should be the Violet. Its deep purple fragrant flowers are always eagerly sought. Strong clumps, 50c. each; young plants, 30 c . each, s3.00 per doz.

## HOLLYHOCKS.

These stately queens of the garden are shown on the right of the picture. No garden of old-fashioned flowers is complete without them. Assorted colors, 20 c . each, $\$ 2.00$ per doz.

## IRIS (FLEUR DE LIS).

The rainbow hues of these grand flowers rival the finest orchids. Deemed worthy by the kings of France to be placed on the royal banner. We offer the improved Japanese varieties, which far surpass the older kinds. Assorted colors. Large plants, 30c. each, $\$ 3.00$ per doz.

## HOP VINE

As no garden is complete without a rine, and as none is more fitting than the Hop Vine in an old-fashioned garden, we include it in this collection. Price, strong roots, 20c. each, $\$ 2.00$ per doz.

SPECIAL OFFER. -The above collection of old-fashioned plants, if bought separately, would cost $\$ 3.15$. We offer the entire collection of twelve plants for $\$ 2.50$.

AMONG the most important decorative and flowering plants none are more necessary than Hardy Vines. The collection we offer below contains, we believe, the best climbing plants for the permanent effects known at present time. Particular attention is called to the "Boston" or "Japan Iry" as being. perhaps the grandest vine for foliage effects it is possible to obtain. All the plants offered are of a good size and should gire entire satisfaction.

## BIGNONIA RADICANS. (Trumpet Creeper.)

A most rapid grower; flowers in large bumches, of a rich orange scarlet. Invaluable for covering out-buildings, old trees, etc. Trained to a post and cut back, it will assume a weeping form and is highly ornamental in that way. 25 cts . each, $\$ 2.23$ per dozen.

## CELASTRUS SCANDENS. (Bitter Sweat.)

A well-kown, handsome climbing plant. In the fall its foliage assumes a gorgeous coloring. It bears large elusters of bright searlet berries, which remain on the vine a long time. Strong plants, 40 ets. each.

## HARDY PEA. (Lathyrus.)

One of the grandest hardy climbers we have. The blooms are magnificent, formed in great clusters of large waxy flowers. Color brilliant rose. Strong plants, 35 cts each.

## HONEYSUCKLES. (Lonicera.)

Lonicera Belgica (Monthly Fragrant or Dutch Honeysuckie). The grawdest of all homeysuckles and always scarce. Ever-blooming and very fragramt. Flowers bright red with yellow and buff markings at the ends of the tubes. 50 cts. each, $\$ 4.50$ per doz. Lonicera (Japan Honeysuckles). Yellow, white, pink, and golden leaved. Fine plants, 30 cts. each, $\$ 3.00$ per doz.

## IVY (English).

Invaluable from its quality of remaining evergreen all the year. It is largely used for covering graves in cemeteries. Price, large plants, 50 cts. each; smaller plants, 25 cts. each, $\$ 2.25$ per doz.
Variegated English Ivy. We also offer a variegated variety which is very ornamental. Price, the same as the above.

## UASMINUM OFFICINALIS.

Hardy White Jessamine. Very sweet scented and highly desirable. Strong plants, 50 cts. each, $\$ 1.50$ per doz.

## MOONFLOWER (Hardy). <br> (Ipomea Pandurata.)

A very useful climber. Large white flowers with pink and pur* ple throat. For fuller description, see page 139. Price, 20 cts. each, $\$ 2.00$ per doz.

## MATRIMONY VINE. Chinese. (Lycium Chinense.)

A beautiful berry-bearing vine, full of scarlet fruit in the fall. Large plants, 50 cts. each, $\$ 4.50$ per doz. ; smaller plants, 25 cts. each, $\$ 2.25$ per doz. See also page 127

## PERIPLOCA GRAECA. (Silk Vine.)

A rapid growing beautiful climber. It is particularly desirable for the sea-shore as it stands the salt air better perhaps than any other. Rich glossy foliage, purplish brown flowers in clusters. Price, 35 cts. each, $\$ 3.50$ per doz.

## WISTARIAS (Chinese).

Wistaria sinensis, White. Flowers borne in long, drooping clusters, as in the blue variety; pure white in color, making a most striking and elegant contrast. 50 cts. each.
Wistaria Sinensis, Blue. Flowers in drooping clusters like a bunch of grapes; soft lavender blue ; fragrant. 35 cts. each.
SPECIAL OFFER.-The entire collection of 19 kinds named and described on this page (all largest plants) for $\$ 5.00$. Hardy Climbing Roses and Clematis will be found on pages 104 and 109.

EMPRESS AUGUSTA VICTOHIA
NEW TEA ROSE,

## Empress Augusta Victoria. <br> This grand Rose is of German origin and was issued as "Kais.

 erin Augusta Victoria." We have taken the liberty to translate the German "Kaiserin" into Empress as being more appropriate for an English-speaking people. Of the Rose itself we can say, after a year's trial, that it can be fairly considered one of the greatest acquisitions of recent years. It is a true "Tpa Rose," soft pearly white, remarkably fragrant, a strong, healthy grower, with bold beautiful foliage. The habit is free; the beautiful, perfectly shaped flowers are borne in profusion on long graceful stems, so that it will be invaluable for cut flowers. So free is it that, in our grounds, every shoot was invariably crowned with a magnificent flower. Professional florists have been quick to perceive the great value of this peerless variety, and it is now more eagerly sought after than almost any Rose on the market. It is not hardy in our northern latitudes, but may be kept from year to year in the manner described in our essay on the "Garden Culture of the Rose," which is given free to all our customers upon application.1st size, $\$ 2.00$ each; 2 d size, $\$ 1.00$ each; 3d size, 50 cts . each, $\$ 4.50$ per doz.

## NEW CLITBING ROSE,

## Mme. Adelina Viviand Morel.

A new French variety of vigorous climbing habit. The coloring of the flowers is wonderfully charming, a blending of rich apricot, light pink, bright canary and pale yellow. These shades are markedly distinct in some flowers, while in others they run into each other so that the color effects are almost as varied as the Roses on the plant. It is not hardy in the Northern States, but is invaluable for indeors.

Price, 1 st size (large plants), $\$ 1.00$ each.
3 d " 50 c . each, 44.50 per doz.
Note.-We cannot supply an interme diate size.

## "Duchess of Albany" <br> This grand tariety is a "sport" from

 "La France." and inherits all the grand qualities which have made its parent the farorite it is. The color is a deep, rich rise. It may be kept in the open ground all winter if covered with straw or leaves, or it may be potted, and will bloom all winter in a sunny window or greenhouse. (See cut.)Price, 1 st size, 50 c . each ; $\$ 4.50$ per doz $\begin{array}{lllll}2 \mathrm{~d} & \text { " } & 30 \mathrm{c} . & \text { " } & 3.00 \\ 3 \mathrm{~d} & \text { " } & 1 \mathrm{cc} . & \text { " } & 1.50\end{array}$

## Climbing

Climbing "La France."

It is dnubtful if, since the introduction of "Gen. Jacqueminot" and "La France," there has been offered such a sterling novelty in Roses as the Climbing La France. The two varieties mentioned are conceded to be without peers in their class, but the Climbing La France towers so far above all climbing Roses for the open ground that comparison is out of the question. Hitherto the hardy climbing Roses have been almost totally devoid of perfume, and none of them have that form and substance deemed requisite in a high-class Rose. With the adrent of Climbing La France, these objections vanish, for it excels even its parent (La France) in size and quality of flower, it retains the charming peach-pink color and the exquisite fragrance which have made "La France"the favorite it is. This peerless acquisition had its origin as a "sport" from "La France" and has been under trial at our grounds for the past four years, so that its character is undoubtedly fixed. As an evidence of its robust habit we cite the fact that small plants set out June 15th, 1892, had attained a growth of fifteen feet by October 15th, a growth unsurpassed by any climbing Rose in our grounds. The Climbing La France is equally as hardy as its parent and so may be safely planted in the open ground even in our northern latitudes. We feel a pardonable pride in being able to offer in this our Columbian year an American Rose which is worthy of a place in every American garden.
Price. 1 st size (large plants), $\$ 2.00$ each.

## "Clinbing Perle des Jardins."

This is a "sport" from "Parle des Jardins," that fine variety which furrinhed the "Sunset" Po-e introduced by us a few ycars ago. In this new ant we have all the good qualities which male its parent famons, viz, deep yellow dowers fanitiar to every lover of chope Roses. When to these excepient traits we add that the neणV "Climbing Perle" is a most rampant raming Rose some idna of its great value may be had. For the South it Rone in the conservatory it will be invaluable. Even the smalle-t size will plants this season. (See cut.)
Prite, larwe stork plant-, 81.00 each.

## "Climbing Niphetos."

ort from the dwarf "Niphetos." It is a true climbing variety, having The -amo pure white, lons-pointed hods as its parent, and is destined to

Dr. Grill. Coppery yellow, with a fawn rose eflex, back of the petals shaded delicate rose; an entirely new color. Large, well-formed flowers. Ernest Metz. A remarkably beautiful variety, The color is tender rose, changing toward the centre to vivid cherry, with a distinct border around each petal.
GRACE DARLING. One of the most elegant Ruses it has ever been our pleasure to behold. stcong, vigorous grower; color, a porcelain rose, elegantly shaded with crimson. The colors stand out separate and distinct, making a vivid contrast.
Lady Castlereagh. An exquisite Tea Rose, with very large flowers, full and beautifully formed; pale rose, shaded with fine sulphur yellow

Mirs. James Wilson. A grand Rose, especially fine for bedding; deep cream color, the edge of the petals touched with soft blush.
Madame Joseph Schwartz. A beautiful Rose; extra large, globular flowers, delicately perfumed and very full; pure white, elegantly tinted and shaded with pale yellow and rose.
Princess Sagan. This variety is a very strong, vigorous grower, producing buds of the brightest searlet crimson; the flowers are medium-sized, semidouble and fragrant.
Price, 1st size, 50 c . each ; set of $7, \$ 3.00$

| ‘ | 2 d | ". | 30 c. | "، | " |

| ، | 3 d | 1.50 |  |  |  |

## "Madame Hoste."

This is a true "Tea" variety of deli cious fragrance and splendid form. It occasionally assumes a creamy white shade with a clear amber centre, but in either shade it is undoubtedly a very handsome Rose, and owing to its strong, thrifty habit is never out of bloom. Whether wanted for summer or winter flowers this excellent variety cannot be surpassed. (See cut.)
Price, 1st size, 50 c . each, $\$ 4.50$ per doz.; 2d size, 30c. each, $\$ 3.00$ per doz.; 3 d size, 10 c . each, $\$ 1.00$ per doz.

## ${ }^{6}$ HDSE DASML.

One of the most distinct Roses, perhaps, we have seen in years, and in our opinion pre-pminently adapted to outdoor bedding in our country. It possesses all the desired qualities for that purpose. It is ever-blooming, strong thrifty growth, large glossy green foliage, large fine flowers, which have the requisite substance to withstand our hot, dry summers. The color is exquisite, a blush white, usually overlaid with rosy peach shadings; this rich, unique coloring is one of its marked characteristics, and stamps it with a distinctire charm. The outer petals are grandly recurved, forming an excellent contrast to the Camellia-like inner petals. For smoothness, richness and finish, this Rose is without a rival. It originated in England, and received numerous medals and certificates at the various exhibitions there; besides, it has received the highest encomiums from the press there, and our experience confirms what has been said of it. (See cut.)

Price, 1st size (large plants), $\$ 1.00$ each.

[^5]madame hoste.

## PERLE DES JARDINS.

No Rose of its color ever cultivated for cut flowers up to the present time is now so valuable as this. Tens of thousands of it, corering many acres in glass, are now grown in the vicinity of New York for winter flowering; it is equally valuable for summer, as it flowers continuously. Its color is a rich shade of yellow, large size and perfect form, Tea fragrance, a healthy, free grower, and unequaled in profusion of bloom, either in the greenhouse in winter or in the open ground in summer. (See cut.)

## "PAPA GONTIER."

This is one of the most fashionable of our winterflowering Roses, but is equally useful for summer bedding. Color, a glowing carmine crimson.

## "NIPHETOS."

The White Rose par excellence--large pointed buds-very free-flowering. Particularly valuable for winter foreing.

## "MALMAISON."

This grand old variety, when used as a bedding Rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Exquisitely fragrant.

1 st size, 50 c. each; $\$ 3.00$ per doz. 2d size, 40 c . each; $\$ 4.00$ per doz. 3d size, 15c. each; $\$ 1.50$ per doz.
"THEE BRIDE."
Every lover of fine Roses should have a plant of this peerless variety, as it fills a place in Everblooming Roses hitherto wanting. "The Bride" is a pure white Rose of large size and most perfect form. The buds are pointed and the ends of the petals are slightly curved back, giving it a most chaste and elegant appearance. Thisvariety has the most deliciousTea fragrance, and is a stronggrowing, free-blooming Rose, either for summer or winter flowering.

## AMERICAN BEAUTY.

In "American Beauty" we have a hardy Rose of the largest size, having the ever-blooming qualities of the Tea Rose with the delicious odor of the Damask or Moss Rose, consequently equally valuable for winter or summer flowering. The flowers of this grand Rose are so eagerly sought that they have sold in the New York market for $\$ 100$ per 100 around the holidays for years, still holding this extraordinary price. When sold at retail, single buds bring $\$ 1.50$ to $\$ 2.00$ each at Christmas. In color it is a deep brilliant pink, shaded toward the centre with rich carmine crimson. 1st size, $\$ 1.00$ each; $\$ 9.00$ per doz. 2d size, 6uc. each; $\$ 6.00$ per doz. 3d size, 30c. each; $\$ 3.00$ per doz.

## WABAN.

This Rose is a "sport" from Catherine Mermet, and identical with that variety in every characteristic excepting color, which is a rich, deep, bright pink. It is of great value either for flowers in the garden or for forcing in the greenhouse during winter.

1 st size, 50c. each ;
$\$ 4.50$ per doz.
2d size, 30 c . each; $\$ 3.00$ per doz. 3d size, 10c. each; $\$ 1.00$ per doz.

## ${ }^{6}$ MME.

## DE WATTEVILLE."

A grand Rose for either summer or winter blooming. Color, beautiful shell pink, deepening to bright rose at the edge of the petals, the body of the flower being creamy white. This combination of colors suggests the name of "The Tulip Rose," by which title it is. known all over Europe.

1st size, 50 c.; 2 d size, 30 c .; 3 d size, 10 c . $\$ 4.50$, $\$ 3.00$ and $\$ 1.00$ per doz.

## HERMOSA.

This grand pink bedding Rose is most prolifie in bluoming, and is almost entirely hardy, many plants of it having lived out for years in the New York cemeteries.
1st size, $50 \mathrm{c} . ; 2 \mathrm{~d}$ size, 30 c . ; 3d size, 10 c . $\$ 4.50, \$ 3.00 \mathrm{and}$ $\$ 1.00$ per doz.

## IGRIPPINA.

Second only to the above ill hardiness and profusion of bloom. Color, rich shade of crimson.
1st size, 50c.; 2d size, 30c.; 3d size, 10c. \$4.50, $\$ 3.00$ and 81.00 per doz.

## LA FRANCE.

For full description and cut, see page 111.
1 st size (extra fine), 75 c . each, $\$ 7.50$ per doz. ; 2 d size, 30 c . each, $\$ 3.00$ per doz. ; 3d size, 10c. each, $\$ 1.00$ per doz.

## GEN. JICQUEMINOT.

For full description and cut, see page 111.
Extra size, 75 c . each, $\$ 7.50$ per doz. ; 1 st size, 50 c. each, $\$ 4.50$ per doz.; 2 d size, 30 c . each, $\$ 3.00$ per doz.; 3 d size, 15 c . each, $\$ 1.50$ per doz.
Don't fail to take adrantuge of the above low offer.

Our Prices this Season are lower than ever.
Read what we say on this subject on pages 1 and 2.

# a General - Collection • of Ever-Blooming • Roses. 

REVISED 1893

Although we do not offer as long a list of varieties of Roses as some, yet our stock in quality, condition and extent is unequaled, and we contend that our customers are safer in selecting from nur list of choice tested varieties than if we offered a long list, which would of necessity contain many inferior sorts. The varinties in heary type we specially recommend. See prices at end of list.

Ada Cook. Beautiful light pink; very prettj
Andre Schwartz. Dark crimson.
Anna Olivier. Creamy blush, shaded with carmine American Banner. Striped crimson and white
Alba Rosea. White, tinged rose color, shaded blush
A. Christophle. Apricot, shaded with soft rosy crimson.

Aline Sisley. Violet red, brightened with crimson maroon
Appoline. Dark pink; full and fragrant.
Beau Carmine. Light rose color.
Bougere. Beautiful dark pink; sweet fragrance
Bella. Pure white; superior for summer flowering.
Bianqui. White, shaded flesh color.
BON SILENE. This splendid old variety is equally valuable for summer or winter blooming; average size and exquisite Tea scent; color, brilliant carmine.
Bourbon Queen. Clear satiny rose, shaded white.
Blanche Nabonnand. Creamy white, tinged yellow and rose.
CATMERINE MERMET. One of the most fashionable Roses for cut flowers; color, clear rosy pink; very large pointed buds; full, double and fragrant.
Compte Bobinsky. Rich carmine; full.
C. Koch. Light flesh color; very double.

Canary Beautiful light yellow; profuse bloomer.
CHAS. ROVOLLI. One of our favorite varieties; color, a beautiful carmine, changing to silvery rose; base of petals clear yellow.
Chas. de Legrady. Carmine red, edge of petals silvery white.
Chat. des Bergeries. Pale canary yellow.
Clement Nabonnand. Outer petals rosy lilac, inner ones golden yellow; free flowering and fragrant.
Comtesse Riza du Parc. Bright coppery rose, shaded crimson.
Comtesse de Frigneuse. Bright canary yellow.
CORNELIA COOK. Perhaps the finest white Rose ; flowers very large and double; pure white, with light lemon colored centre.
DEVONIENSIS. No collection is complete without this superb variety; very full; a creamy white with pink centre.
Douglas. A true Bengal Rose; dark rich crimson in color ; buds of good shape; very free flowering.
Dr. Reymont. Deep crimson; very free blooming.
Duchesse de Brabant. Soft rosy flesh tint; flowers globular.
Ella May. Deep orange buff, shaded apricot.
Etoile de Lyon. Golden yellow.
Exadelphe. Beautiful yellow; large and full.
Fairy Rose. Flowers carmine, the size of a dime.
Flavien Budilon. Delicate rose.
Gen. de Tartas. Brilliant carmine; shaded violet purple.
Geo. Peabody. Glowing crimson, changing to a scarlet shade.
Goubalt. Bright rose color, tinted buff ; Tea fragrance.
ISABELLA SPRUN'T. Light canary yellow; largely used for winter blooming; buds medium size and good shape; very fragrant.
Jules Finger. Bright rosy scarlet, shaded with crimson.
La Nuancee. Fine salmon rose, tinged copper color.
La Phœnix. Red, shaded crimson; free bloomer.
La Sylphide. Beautiful cream color, shaded rose.
La Tulip. White, tinged rosy lilac; large and fragrant.
Letty Coles. Soft rosy pink, intense crimson in the centre.
Leveson Gower. Beautiful rosy salmon.
Louis Philippe. Dark rich crimson.
Luciole. Clear cherry red, rich golden yellow centre.
Marie Sisley. A superb rose; full and double; of true Tea odor; exquisitely shaded with bright rose on a pale yellow ground.
Marie de Bau. Rich blush color, full and double.
Marie Ducher. Rich transparent salmon, with deeper colored centre; full, double and sweet.
MARIE GUILLOT. Pure white; a fine bedding Rose
Mme. A. Imbert. Color, rosy buff with peach colored shadings.
Mme. Ched-Guinoisseau. Dark golden yellow.
Mme. Cusin. Shell pink, shaded cream.
Mme. Remond. Sulphur yellow, margined red.
Mme. Honore Defresne. Clear golden yellow.
Mme. A. Etienne. Rosy claret, shading to pale rose.
Mme. A. Nabonnand. Light salmon, shaded rose.
Mlle. C. Perreau. Bright silvery pink, shading to rosy carmine.
Mme. Barthelemy Levet. Bright canary colored flower's.

Mme. Bravy. Rich cream color with pinkish centre.
Mme. Camille. Delicate rosy tlesh color, changing to salmon
Mme. Caroline Kuster. Beautiful light yellow, tinged with pink.
Mme. Dennis. White, with yellowish centre.
Mme. Devacourt. Bright canary yellow; deliciously perfumed.
Mme. de Narbonne. Bright pink; profuse, full and fragrant.

## 12 Best yer blouing lescs for Summer Tovers

## THE TWELYE FINE EXER-BLOOMINGG ROSES

Named below we believe are the best possible selection to be obtained in that number. Eren the smallest size of these will bloom abundantly this season.
malmaison. A splendid Rose, everblooming, and of the richest shade of blush. It is nearly as hardy as the Hybrid Perpetual Roses, some immense bushes having stood out in winter in the New York cemeteries for many years.
AGRIPPINA. NoMonthly Rose surpasses this in profusion of bloom. The richest shade of crimson, blossuming the entire season.

PRRLE DES JARDINS. The best yellow Tea Rose. Large size, fine form, exquisite Tea fragrance, and ever-blooming. (See cut, page 106.)
HERMOSA. A clean healthy grower; color, bright pink. It is grown largely in the New York cemeteries for its hardiness and continuous blooming.
MARIE LAMBERT. A pure white Tea Rose; ever-blooming, of large size and delicious fragrance. One of the very best summer-blooming Tea Roses.
SOUVENIR DE WOOTTON. (See description and engraving on this page.) MRS. DEGRAW. Rich glossy pink.
MAD. HOSTE. Clear lemon yellow, shading to white. (See special description and engraving, page 105.)
NIPHETOS. ' Pure white, long pointed buds, one of the most beautiful Roses in our list.
CATHERINE MERMET. The most beautiful of the light pink Roses. Buds long and pointed, the ideal form in a Rose, full and double, deliciously fragrant.
BON SILENE. Brilliant carmine, a strong vigorous grower and very prolific in bloom; exquisite Tea fragrance.
SAFRANO. Color, bright buff, exquisitely fragrant. This is the ideal Tea Rose. Collection of 12 Best Ever-Blooming Roses, first size,
$\$ 4.50$; second size, $\$ 3.00$; third size, $\$ 1.00$.

## Catherine Mermet.

This charming Rose deserves and receives recognition from all Rose lovers. It is eagerly sought after in winter by the ultra-fashionable, and is perhaps the most admired of all the Tea Roses. The color is a delicate rosy pink unapproached by any other. The buds are large, long and pointed, of great substance and most delicious fragrance. For over twenty years it has reigned supreme in its class and color.
1 st size, 50 c. each, $\$ 4.50$ per doz. ; 2 d size, 30 c . each, $\$ 3.00$ per doz. ; 3 d size, 10 c. each, $\$ 1.00$ per doz.

## Meteor.

"Meteor" is a remarkably rich dark velvety crimson Rose; so dark, indeed, that under certain conditions it is blackish crimson. It is a constant and profuse bloomer, very vigorous and healthy in growth. No dark red Rose is more useful for summer cut flowers, as it is so double that it produces perfect flowers in the hottest weather. For winter flowers it is rapidly becoming the most valuable rariety on the market.
1st size, 50c.; 2d size, 30c.; 3d size, 15c. each. $\$ 4.50, \$ 3.00$ and $\$ 1.50$ per doz.

## Souvenir de Wootton.

This superb Rose, shown in the accompanying engraving, is unquestionably one of the finest varieties ever introduced for either summer or winter blooming. The color is a beautiful shade of crimson, deliciously fragrant, a constant and most prolific bloomer, every new shoot forming a flower-bud; it retains its color better than any Rose of its class, and is exceedingly vigorous in growth, rendering it one of the most satisfactory Roses for either the amateur or commercial florist to grow. We have tried this for hardiness in the open ground and find it will live out all winter in the latitude of New York City.
1 st size, 50 c . ; 2 d size, 30 c . ; 3d size, 10 c . $\$ 4.50$, $\$ 3.00$ and $\$ 1.00$ per doz.

## THE TWELVE BEST HARDY ROSES

Named below are unequaled in their class, combining the greatest variety of form, richness of color and freedom of bloom which it is possible to get in that number. The first and second sizes will bloom this year, and the third will make fine plants for next season's flowering.
American Beauty. Rich carmine crimson. (See description, page 106.)
Anna de Diesbach. Dark rich pink; immense size.
Paul Neyron. Probably the largest of all Roses; color, clear dark pink, shaded carmine. Form of flowers, bold and handsome; very fragrant.
Capt. Christy. Delicate flesh color, large, full and double, very profuse; blooms from the time it is planted until frost. (See cut, page 110.)
Gen. Jacqueminot. Color, rich dark crimson. (See description, page 111.)
Gloire de Margottin. Bright crimson, full and double; one of the grandest and most brilliant hardy Roses. (See page 110.)
Coquette des Blanches. One of the finest hardy white Roses. Flowers of medium size, produced in great masses.
La France. As yet unequaled in its color, a satiny shade of pink, shading to blush, of the most delicious fragrance; ever-blooming and very hardy.
Magna Charta. Bright dark pink, very large and fragrant.
Mrs. John Laing. An exquisite shade of shell-like pink, deliciously fragrant and wonderiully free-blooming.
Ulrich Bruner. Bright cherry red, shaded carmine.
Prince C. de Rohan. Large and full, perfect form and richest fragrance; dark crimson.
Collection of 12 Best Hardy Roses, first size, extra large, $\$ 7.50$; second size, $\$ 4.50$; third size, $\$ 2.00$.

Grand Roses for the South, where they are entirely hardy. They may be kept out doors in the North by laying them down and covering with leaves or litter.
Caroline Marniesse. Color white, and finely scented.
Claire Carnot. Orange yellow, with peachblossom centre.
Jas. Sprunt, or "Climbing Agrippina" deep cherry red.
Mme. Balbiano. Soft rosy blush; very. sweet.
Mme. Berrard. Dcep carmine; full and double.
1st size, 75 cts. each; $\$ 7.50$ per dozen. $2 d$ size, 50 cts. each; $\$ 4.50$ per dozen. $3 d$ size, 20 cts . each; $\$ 2.00$ per dozen. Set of 12 for $\$ 7.50, \$ 4.50$, or $\$ 2.00$, according to size.

## MARECHAL NIEL.

The immense size, dark golden yellow color of "Maréchal Niel" is familiar to all. Peerless in color, unexampled for size, perfect in form, after more than a quarter of a century it still remains the ideal climbing Tea Rose. The plants we offer at $\$ 1.50$ and upward are extra strong, having vines from 4 to 8 feet long, and will make fine blooming plants for the greenhouse or garden the same season they are planted.

25 c ., 50 c ., $\$ 1.50, \$ 2.00$ or $\$ 3.00$ each, according to size.

## GLOIRE DE DIJON.

Next to M. Niel this is the finest pillar Rose for the greenhouse. Very large, double rich creamy amber color. Hardy south of Washington. Prices and sizes same as M. Niel-see above.

## CLIMBING LA FRANCE.

The most valuable hardy climbing Rose as yet introduced. 1st size, $\$ 2.00$ each; 2d size, $\$ 1.00$ each ; 3d size, 50c. each. For full description and engraving, see page 104.

## HARDY CLIMBING ROSES

Are unsurpassed for adorning the piazza, fence or wall, for clambering over trees, or for training to a trellis. Fastened to the side of a house, they transform it into a bower of beauty; trained so as to creep around a window their flowers can be easily gathered and their fragrance will fill the house. The three grand varieties shown in the engraving are the best of their class, rapid growers, profuse bloomers and of fine contrasting colors. A grand effect can be obtained hy planting these fine varieties.
Baltimore Belle. A beautiful Rose, producing large clusters of double flowers ; blush white, changing to light rose and carmine. As these colors are to be seen on the plants at one time the effect is grand.
Gem of the Prairies. Large double flowers of a deep rosy carmine and very fragrant; equal to many of the Hybrid Perpetuals in size, form and fragrance.
Climbing Jules Margottin. A grand deep colored climbing Rose, unsurpassed for color, form and fraglance; a vigorous grower and profuse bloomer
Price, extra strong plants, 75 c . each.
Set of three varieties named above for 82.00.
$2 d$ size, 60 c . each; set of 3 for $\$ 1.50$.

## Assorted Hardy Climbing Roses.

Anna Maria. Large; rosy pink; a splendid variety:
Triumphant. Deep carmine, large and full ; strong vigorous grower.
Prairie Queen. Bright rosy red; a very rapid grower.
1 st size, 60 c . each ; set of 3 for $\$ 1.50$.

## THE DAMASK ROSE.

## Rosa Damascena.

This is the Rose so largely cultirated in the gardens of the East for the purpose of making Rose-water, Attar of Roses, etc. The flowers are large and very sweetly scented; the plants are vigorous in habit. To this species we owe many of our modern varieties of high order. We have been repeatedly asked for this Rose by our customers, and take pleasure now in offering it. Price, strong plants, $\$ 1.00$ each, $\$ 9.00$ per dozen.

The list offered below contains the very best hardy Roses known at the present time. Look over it very carefully.

Merveille de Lyon. Extra large, blush white.
Mme. Alfred Carriere. Pure white. One of the most reliable Roses for summer blooming.
Mme. Chas. Wood. Very free blooming, bright crimson.
Mme. Gabriel Luizet. Delicate silrery pink; beantiful shape.
MRS. JOHN LAING. Rich satiny pink, delicious fragrance.
Paul Neyron. Flowers five inches across; color, lovely dark pink.
Persian Yellow. Hardy Jellow Rose; best of its color. $\$ 1.00$ and 75 cts.
Prince Arthur. Deep, glowing crimson, very fine.
Prince Camille de Rohan. Dark crimson maroon, almost black.
Queen of Queens. Pink, with blush edges; large and full.
Suzanne M. Rodocannachi. Deep pink, wonderfully free blonming.
Ulich Bruner. Cherry red; a grand Rose, very free blooming.
White Baroness. A counterpart of Baroness Rothschild in everything, except color, which in this variety is pure thite.
Prices, except where noted:
Extra Selected Plants, 75c. each; \$7.50 per doz. Cullection of 35 grand Roses for $\$ 20.00$.
Second Grade of the abore, fine plants, 60c. each; $\$ 6.00$ per dozen. Set of 35 sorts for $\$ 15.00$. All plants for this season's blooming.

## "Gloire de Margottin."

This fine hardy Rose is distinguished alike for its vigorous healthy constitution, freedom of bloom and handsome foliage; but, beyond all it is decidedly the most brilliant hardy red Rose as yet introduced. So intense is the color that it might almost be termed a scarlet. Added to these qualities, it has flowers of the largest size and most exquisite fragrance. It will prove hardy everywhere.
Price, 1st size, 75 c. each, $\$ 7.50$ per doz. ; 2 d size. 50 c. each, $\$ 1.50$ per doz.; 3d size, 30c. each, $\$ 3.00$ per doz.
We offer, this season, a grand collection of the finest hards rarieties imported from the most celebrated growers of England and the Continent. They are extra large strong plants, growing in 5 and 6 inch pots, and cannot fail to please the most fastidious. These are all budded low on Mranetti stock and should be planted deen enough to cover the graft. They are all extra-strong well-ripened plants and will, under ordinary cultivation, produce magnificent flowers. The list contains the best varieties known at the present time.

Alfred Colomb. Carmine crimson. a grand Rose, should be in every rollection.
Anna Alexieff. Very pretty shade of rose, large, full and of goorl hab,it, fine for massing. A grand Rose for every purpose.
Anna de Diesbach (Gloire de Paris). Rich carmine.
Baron de Bonstetten. Blackish crimson with rivid red shadings.
Baroness Rothschild. An exquisite hade of satiny pink.
Boule de Neige. Pure white, strong grower and free bloomer.
CAPT. CHRISTY. Delicate flesh color, dompening in shade toward the nentre ; one of the most beautiful of Roses. The foliage is quite distinct. It is very free in flowering and, taken all in all, may be considered one of our best Roses. (See cat.)
Caroline D'Arden. Pure rose, a beautiful color.
Chas. Lefebure. Deep reddish crimson, lavge full flowers.
Countess of Oxford. Very profuse ; soft, rosy carmine.

Earl of Dufferin. Unquestionably the finest dark reddish crimson Rose in our list. In form and fragrance it is unsurpassed. One of the most prolific bloomers, flowering freely in the fall.
Eugene Verdier. Violet crimson, a superb rose.
Gen. Jacqueminot. Rich crimson. (See also page 111.)
Heinrich Schultheis. Dolicate pink. i.h rose color, very swert abd free blooming.
Jeanuie Dickson. Satin rose, long pointed buds, one of the leen.
Lady Helen Stewart. Brilliant searlet crimson, very distinct.
La France. Peach-hlossom pink.
Mabel Morrison. Pure white; large flowers.
Mad. Plantier. Pure white.
Magna Charta. Brilliant dark pink. suffused with carmine.
Marie Baumann. Crimson vermilion, suffused carmine.
Marquise de Castellaine. Carmine rose, very pretty.

## AUGUSTINE GUINOISSEAU ("White La France").

A "sport" from that fine hardy Rose, "La France," and similar to it in every respect, excepting color, which, in this new sort, is a unique shade of flesh white, hence its title of "White La France." On account of its great freedom of bloom, delicious fragrance and hardiness, it has become very popular. For cemeteries it is unequaled. Price, 1 st size, 75 c . each; 2 d size, 50 c . each, $\$ 4.50$ per doz.; 3 d size, 20 c . each, $\$ 2.00$ per doz.

## ROSA RUGOSA (Japan Rose).

It forms a sturdy bush 4 to 5 feet high, covered with large, dark green, glossy foliage, crowned with terminal clusters of ten to twenty flowers, three inches in diameter. Its large hundsome scarlet fruit is most showy during the auturn months. Excellent for cemeteries.
Rosa Rugosa Alba. The white flowered variety.
Rosa Rugosa Rubra. The red variety.
Price, 60 c . each, $\$ 6.00$ per doz., fine plants. Set of two Rugosa Roses for $\$ 1.00$. Rosa Rugosa, "Souvenir de Yeddo," foliage equal to the above, flowers semidouble, larger and finer. 50 c . each.

## "GEN. JACQUEMINOT."

Now known everywhere. The best, perhaps, of all Roses of the Hybrid Perpetua! class. Hundreds of thousands of feet of glass are exclusively devoted to this one variety. The buds, in midwinter, wholesale at from 25 cents to 50 cents apiece. Color, rich crimson; of fine shape and exquisite fragrance. This grand old variety holds its own against all new-comers, and is undoubtedly the finest hardy Rose of its color. (Seecut.)
Extra size, 75 c . each, $\$ 7.50$ per doz. ; 1st size, 50 c . each, $\$ 4.50$ per doz. ; 2 d size, 30 c . each, $\$ 3.00$ per doz. 3 d size, 15 c . each, $\$ 1.50$ per doz.

## "LA FRANCE。"

We cannot speak too highly of this superb Rose, which every year becomes more popular. Flowers large and beautiful, either in the bud form or when expanded ; peach-blossom color, shaded pink and silvery rose. It is very freeblooming, every shoot forming a beautiful flower. In addition to this, it is entirely hardy with a slight protection of leaves, and most deliciously fragrant, thus combining in a marked degree all the qualities of a perfect Rose.

1st size (extra fine), 75c. each, $\$ 7.50$ per doz.; 2d size, 30 c . each, $\$ 3.00$ per doz. ; 3d size, 10c. each, $\$ 1.00$ per doz.

## MRS. JOHN LAING.

This is, we beliere, the finest hardy Rose of its color ever offered. It is an exquisite shade of shell-like pink, deliciously fragrant, of the largest size, and, like the "Dinsmore," is entirely hardy and ever-blooming. No collection of Roses is complete if it does not contain Mrs. John Laing.

Price, 1st size, 75 c . each, $\$ 7.50$ per doz. ; 2d size, 50 c. each, $\$ 5.00$ per doz. ; 3 d size, 30 c . each, $\$ 3.00$ per doz.

## DWARF BEDDING ROSES.

## Polyantha or wultifiora class.

A class of Roses of much value for bectding purposes, as they form a mass of bloom. They are of dwarl habit, and are continuously in flower during the entire season. They bloom in numerous clusters of from 25 to 100 flowers in each cluster, the single flowers being about $1 / 6$ inches across. 'I'hese Polyantha Roses are hardy in this latitude with slight protection. They are particularly valuable for planting on the borders of beds of taller growing sorts, or on the edge of "foliage" beds, as they are constantly in bloom, and rarely attain more than 10 or 12 inches in height. They are also largely used for borders in cemetery plots, their neat and tastelul appearance commanding attention at first sight. Mignonette. Dark pink; grand Rose for cemeteries.
Paquerette. Pure white; hardy ; same as above, except color: Mme. Cecil Bruner. Delicate rose color; a pretty shade. Anna Marie Montravel. Beautiful white; fine form. Perle d'Or. Saffiron yellow, tinged copper color; profuse. Miniature. Light pink, changing to white. Golden Fairy. Golden color; dwarf habit.
Little Dot. Delicate flesh pink, changing to white.
George Pernet. This variety is some what in advance of the others in this class. Color, bright pink with coppery yellow at the base of the petals. 1st size, 50c. each, $\$ 4.50$ per doz. ; $2 d$ size, 10c. each, $\$ 1.00$ per doz.
Set of 9 Dwarf Bedding Roses, 1st size, 83.50 ; set of 9 Dwarf Bedding Roses, 2d size, 75c.

SPECIAL LOW OEFER.-15 Monthly or 10 Hardy Roses for $\$ 1.00$. This offer is math specially for the benefit of our customers who live far from express offices and usually get plants by mail. At this low rate the selection of varieties must be left entirely to us when the order is filled, and we cannot supply a schedule of sorts beforehand. Leaving the selection to us allows us to send very frequently new and scarce sorts which may be in a surplus with us. If wanted by express, buyer to pay charges, we can send larger and finer plants and will leave all the soil on the roots. If desired, will send 7 Monthly and 5 Hardy lioses for $\$ 1.00$.

## HARDY YELLIOW ROSE,

"PERSIAN YELLOW."
Dark golden yellow. The best variety of its color; entirely hardy. (See cut.) Fine large plants, $\$ 1.00$ each; " $2 d$ size, 7 The. each.

## TRUE ENGLISH SWEET BRIER.

Taluable for the refreshing fragrance of its leaves. Price, 30 cts. each, $\$ 3.00$ per duzen.

## EVER-BLCOOMING MOSS ROSES.

## Entirely hardy.

This class of Moss Roses is quite different from the regular Mosses, which only bloom ance. These varieties flower very freely in June, blooming again in the fall.
James Veitch. Deep crimson.
Little Gem. A veritable gem; dwarf, compact habit; flowers very heavily mossed; color, bright crimson.
Perpetual White. White, blooming in dusters. ise, pach ; set 3 for $\$ 2.00$.

## THE OLD CABBAGE ROSE.

iris take pleasure in offering fine plants of : true Red Provence Rose, better and more Monaldy known under its vernacular title of Cabluare Rose"; large fragrant fowers, nif parpectly hardy; an excellent Rose for Price, 60 cents each.

## HARDY ROSES. Colleretion.

A. K. Williams. Carmine red, changing to magenta.
Altred Colomb. Very large and globular; clear, bright cherry. Achille Gounod. Bright carmine full and doulle. Auguste Mie. Clear, bright pink large and finely cupped. Baronne Provost. Beautiful, bright rose, shaded crimson. Cardinal Patrizzi. Brilliant scarlet; grood halit.
Constantin Tretiakoff. Rosy crimson; large and sweet.
Dr. Lindley. Magnificent, dark crimson maroon; extra fine. Dr. Baillon. Dark purple, shaded crimson; sweet fragrance
Duchesse de Vallombrosa. Flesl color, shaded rose.
Duke of Edinburgh. Dark velvety crimson maroon; fair size; full, regular form; handsome and scented. Duke of Teck. Vivid scarlet crim-
Duplessis Morney.

HARDY MOSS ROSES. (GENERAL COLLECTION.)
Capt. Ingraham. Brilliant carmine. Comtesse de Murinais. Pure white. Crested Moss. Deep pink, crested, first size only.
English. The Red English Moss Rose. Henry Martin. Fine bright pink. Hortense Vernet. Rosy carmine. Luxembourg. Crimson scarlet.
White Bath. Pure white.
1 st size, 75 se each; 85.00 per set.

Mme. GEORGES BRUANT.
This new ever-blooming rose inherits the beautiful foliage and hardiness of the "Rugosa," with the flowering qualities of the Tea class. Color pure white, very fragrant, buds long and pointed. It is hardy everywhere, and is now very popular. Price, 1st size, 75 c . each, $\$ 7.50$ per doz.

## MADAME PLANTIER.

This grand old variety is second only to "Gen. Jacqueminot" in general useful-ne-s. As a cemetery Ruse it is still without a rival. The flowers are borne in the greatest profusion, and are of the purest white. Hardy as an oak and certain to Erow as grass, it is not to be wondered at that it still holds its own against all comers. Price, strong plants for this season's blooming, 50 oents each, $\$ 4.50$ per dozen.
crimson. Mrs. Reynolds. Color, bright carmine Mme. Masson. Bright silvery pink.
Mme. Marie Bianchi. White, crimson in centre. Mme. P. Laugier. Silvery pink; rich fragrance. Pæonia. Sweetly fragrant; color, clear bright red. Pres. Thiers. Flaming red; large sized flowers; full and globular.
Princesse do Mathilde. Deep blush: good form and substance ; double and perfumed.
Reine d'Angleterre. Fine bright rose.
Rev. H. Dombrain. Very dark crimson; free flowering and hardy.
Sir G. Wolseley. Bright red, shaded carmine.
Sydonie. Violet crimson
Triomphe d'Alencon. Dark crimson rose.
Triomphe de Reims. Light rose color.
Victor Verdier. Brilliant rosy carmine, edged purple; extra large.

Madame plantier. (The tinest white Rose for cemeteriea.)

ON THIS PAGE WE SHOW IN COLORS FOUR ROSES, EACH THE BEST TYPE OF THE CLASS TO WHICH IT BELONGS. WE ALSO SHOW IN COLORS ON the two succeeding pages other fine varieties, and GROUP ALL IN ONE LOW OFFER ON THE SECOND PAGE FROM THIS.

No. 1. Clothilde Soupert. A valuable Rose for all purposes, equally at home in the garden, green house or dwelling house. The coloring is unique. It is classed as a "Polyantha Hybrid," and is not entirely hardy, though it may be allowed to remain out doors in winter with protection. Price, Ist size, 50 cents each; 2 d size, 30 cents each; 3 d size, 15 cents each;

No. 2. Dinsmore. This grand dark red rose is entirely hardy and ever blooming, unquestionably the finest in its class or color. This Rose, since we first issued it, has been growing steadily in popularity. Price, first size, 75 cents each; 2 d size, 50 cents each; 3d size, 30 cents each.
No. 3. Moss ROSE-"Old Engl.ish." No collection of Roses is complete without :Moss Rose, and as the "Old English" is conceded to be the best type, we include it here. Price, Ist size, 75 cents each; 2d size, 50 cents each ; 3d size, 30 cents each.

No. 4. Madame Hoste, A lea Rose of the highest merit. Vigorous grower and free blooming; it may be taken up in the fall and had in bloom in the house during the winter. Not hardy without protection in northern States. Price, Ist size, 50 cents each; 2d size, 30 cents each; 3 d size, 15 cents each. Or, THE "SUNSIIINE" COLLECTION OF FOUR ROSES,

Price, Ist size, set of four for $\$ 2.00$

# THE COLORED PLATE ©PPOSITE shows <br> THREE .o. CHRYSANTHEMUMS 

(ABOUT TWO-THIRDS NATURAL SIZE)

## GOLDEN WEDDING, The Great Prize-winner.

## GOOD GRACIOUS, The Wonderful Pink Variety.

GETTYSBURGH, The Brilliant Crimson Sort. HESE grand varieties are the acme of perfection, combining wonderful size with remarkable vigor and splendid form. Each stands supreme in its color. It is difficult to imagine anything more perfect than these, and never have such sterling sorts been offered so low upon their first introduction, Golden Wedding alone being worth the price charged for the entire collection. This grand variety has been awarded the highest honors wherever exhibited. When first shown in Philadelphia, in the fall of 1891, it was given a siver medal; exhibited there the past season the judges unanimously pronounced it the finest yellow in existerce. At the exhibition in Madison Square Garden, New York, it was awarded the Silver Cup offered by"Garden and Forest" for the best vase of six flowers. It was awarded the Silver Cup offered by Mrs. W. Bayard Cutting for the best vase of fifty flowers, and it won First Prize in the special competition for the best vase of yellow. This is ( certainly a most wonderful record.

Good Gracious is also a medal-winner, having obtained that honor in Philadelphia in the fall of 1891. Gettysburgh, the grand crimson scarlet variety, is fit to rank with the above, not only on account of its size, but because of its brilliant color. For full detailed descriptions, see below.

## GOLDEN WEDDING.

This is the grand golden yellow variety shown in the Colored Plate. Nothing can exceed the richness of its color; it is unrivaled in this respect. It is a remarkably vigorous grower and has such strength of stem that it carries its great globular flowers erect, giving it a bold majestic appearance. The form of Golden. Wedding is unique; the outer petals droop downward in picturesque irregularity, the centre of the flower is built high, with broad petals irregularly overlaid, so that although the flowers are so large they are not heavy, solid-looking like many others. For this reason alone, it will, no doubt, supersede all other yellow varieties with the public. Price, 40 c . each, $\$ 4.50$ per doz. (Ready March 1st.)

## GETTYSBURGH.

This is the deep crimson variety shown on the Colored Plate, and excels in its color as Golden Wedding does in Jellow. It originated as a "sport" from "Omar" in our grounds, and has been on trial for two years. The Colored Plate does not do full justice to the deep rich crimson which in the flower itself is soft and velvety-like. The outer petals are broad and drooping, and have a lustrous sheen in the sunlight. The form is flat with drooping outer petals, which gives it a very graceful appearance. This is the popular form, and, combined with the splendid color, stamps Gettysburgh as a Chrysanthemum of rare merit. Price, 40c. each, $\$ 4.00$ per doz. (Ready March 1st.)

## GOOD GRACIOLS.

Another introduction from Japan, and so remarkable for size as to suggest its name; the first sight of it usually brings forth an exclamation of admiration. The color also is unique, being a delicate shade of peach pink throughout. The form is remarkable, the petals are incurverl and twisted, overlapping each other in irregular fashion and resembling talons. Of all the splendid varieties introduced from Japan this is perhaps the most remarkable for size, form and color, and stands alone in its unique beauty, there being nothing at all approaching it. Price, 40 c . each, $\$ 4.00$ per doz. (Ready March 1st.)

## September Flowering Chrysanthemums.

The illustration below shows an entirely new race of Japanese Chrysanthemums, invaluable on account of their early flowering. We are indebted to M. Delaux, of France, for this new departure, and it is doubtful if any more valuable acquisition has been secured in the long annals of successful hybridization. Out of over 100 sorts which we tested we have selected those named below as the most desirable; they embrace, as will be seen, the most desirable colors. Hitherto the great objection to Chrysanthemums in our Northern States was that the frost destroyed most of the flowers before coming to maturity, but now this difficulty is overcome, and this grand advance must surely give an impetus to Chrysanthemum culture hitherto unknown. Below we append a list of varieties, with descriptions.

Albert Thausson. Golden yellow, blazed and lined with deep crimson.

Mme. A. Thiebault de la Croure. Carmine purple, centre gold color.

Mme. E. Bellan, Ground color silcery white and light rose, centre deep cream color.
M. Lemaille. Color, dregs of wine, centre golden chamoisa new color.

Alfred de Montebello. Petals recurved, outlined in corkscrew; silvery white with tinge of rose, centre largely gold color.
R, du Mesnil de Montchau veau, Open tubular petals, beautiful violet and amaranth purple.
Mme. Leon Itasse. Brilliant yellow, blazed with brick red and light flame; reverse gold.
Mlle. Germaine Cassagneau, Lilac rose, shaded with white: centre gold color.
Baron Veillard. Brilliant yellow, each petal outlined in rosy crimson. Unique and splendid.
M. E. Vaucher. Beautiful rosy wine color, marked with glossy white, large orange centre.
De Agala. Rose color, flecked with white, centre golden yellow.
Mme, P. Jung. Canary yellow, irregularly blazed and lined with red; each petal outlined with carmine.

New September Flowering Chrysanthemums.

Camille Bernardin. Amaranth violet and brilliant carmine, lightened with white.
M. Maxime de la Rocheterie. This variety obtained a firstclass certificate in London. The outer petals recurved; flowers very large, disheveled and curled; brilliant orange with yellow centre, shaded rosy crimson.
Vice-President Hardy. Flower exceptionally large, brillant yellowish gold, bordered with rosy crimson violet.
Mme. Louis Lionnet. Silvery white, richly tinged with rose; centre old gold.
Charles Joly. Beautiful violet rose, centre gold.
M. Zephir Lionnet. Petals long, recurved and curled; color violet rose and purple, shaded silvery white; centre spiral.
Marquise de Montmort, Glossy rose and silvery white. Mme. Gastellier. Pure white, a large fluffy flower, double to the centre, one of the earliest to bloom, and one of the most showy varieties in the list.
Mons. Louis Lionnet. A beautiful shade of peach pink with silvery white centre, long drooping petals, full double flower; a very fine variety
Price for any of the above, 30 cts. each.

## SPECIAL OFFER.

Set of 21 new September Flowering Chrysanthemums for $\$ 5.00$.
Seeds of the above (mixed colors only), 25c. per pkt. (See page 66.)

## NEWER CHRYSANTHEMUMS.

The raricties named below we have selected after a complete trial as the best of last year's introductions.
G. W. Childs. One of the best varieties of last year's introductions; color deep velvety crimson. Large flat flower with drooping onter petals.
Eil Dorado. Clear golden yellow, vely dwarf and compact growth. An early flowering variety and very valuable for cut flowers. Harry May. Deep old gold, with occasional veins of red; petals rery broad and thick, spoon-shaped.
Miss Ada McVicker. A plant of strong habit, producing imcreamy white flowers with broad, thick, reflexed petals. A grand variety, and one of the best for all purposes.
Mr. Hicks Arnold. Large, full double flowers of an old gold color, lighting up wonderfully by artificial light.
Miss Annie Manda. Flower perfectly double, incurved, of the purest white. The petals are studded with a soft feathery growth like Mrs. Alpheus Hardy.
Mrs. E.D. Adams. Flower very large; petals of medium width, O. P. Bassett. A riand crimson variety, lighted up with scarlet, large solid flower; one of the very largest in its class.
Ros!yn. A superb, clear, Nermet rose pink, petals thick and heary, cup-shaped, solid to the centre, immense in size, having
been exhibited eleven inches across, habit the best, stems stiff and erect, foliage luxuriant, the best pink in commerce. Price for any of the foregoing, 35c. each; set of 9 for $\$ 3.00$.

## New Seedlings of 1892.

We offer below seedlings of our own raising, which were selected from among hundreds which we had on trial.
Autocrat. Deep Jellow, fine globular form, large flowers. A strong grower, with stiff stems. Early, and promises to be very valuable for cut flowers.
Grenadier. Deep brilliant red, reverse of petals old gold, large slobular flower with refloxed outer petals.
Mark Twain. Chrome yellow and cinnabar red, a striking comhination of colors.
Nankin. Sulphur yellow, shading to creamy white at the margin of the flower. The petals are long and silky. A unique and attractive variety.
Polo. A very curious variety, long petals with crooked ends, like a polo stick.
The Tiger. A grand incurved varicty, old gold and deep red.
Sun God. One of the largest varieties as yet offered. Flowers of the largest size, with broad, bold petals. Color deep yellow, slightly marked with rich bronze.
Price for any of the above, 50 c . each; set of seven sorts for $\$ 3.00$.

## American Seedlings

Introduced by us last year, and now offered at greatly reduced prices.
David Rose. Rosy claret, edged with silvery white, large hand some blooms. Awarded a certificate of merit at Philadelphia.
ELLA MAY. Primrose yellow, apricot centre, extra large and fine. Awarded a silver medal at Philadelphia. (See cut.)
Evening Glow. A strikingly beautiful variety, deep yellow in the centre, with rich bronze red shadings toward the ends of the petals, very like the rich coloring of a brilliant sunset.
Faultless. Deep golden yellow, extra large and full, quilled petals. In color and form it is unequaled; some of the flowers measured over eleven inches in diameter.
Goldfinch. In this variety we have a richness of color rarely seen, a deep, intense crimson on the upper surface of the petals-the reverse being a light bronze, making a pleasing contrast.
Indian Chief. In sharp contrast to the above is this variety; here the coloring is a vivid, strong crimson; the flower is equally large, but stronger and bolder, loosely incurved and decidedly Japanese in outline.
Julius Roehrs. A rich shade of violet rose, the reverse of the petals silvery pink; a unique and charming contrast. Flowers of the largest size and of the popular incurved type. Awarded a certificate of merit at Philadelphia.
Majesty. Deep, glowing red; in form it is similar to Cullingfordii, but larger and finer; the coloring is even more intense than that fine sort.
Mrs. E. Schuchardt. A charming variety, which, like all in this collection, is of the largest size. The coloring is exquisite; the centre of the flowers is creamy white, the euds of the petals tinted delicate rose, a pronounced improvement on this type.
Mrs. I. Forsterman. A magnificent extra large, snowy white variety of the Japanese incurved type. A superb grower and free bloomer.
Popularity. A delicate shade of flesh pink, of fine incurved form, large and handsome. The ends of the petals are cut so as to resemble a stag's antlers in outline.
Surprise. A unique shade of bronze red, bold, handsome flowers of the largest size and fine globular form. A variety which is sure to find numerous admirers.

## SPOTTED CHRYSANTHEMUM, "LEOPARD."

The ground color is a deep shade of carmine, irregularly splashed and spotted with pure white, entirely different from anything else. It is of full average size, graceful form, and has the great advantage of being one of the latest flowering kinds. 15c. each, $\$ 1.50$ per doz.

## The "Ostrich Plume" Section.

The title of "Ostrich Plume" was applied by us to the first of this new type of the Chrysanthemum (Mrs. Alpheus Hardy) to distinguish it for all time from those previously known, but more particularly to direct attention to the soft feathery growth with which the flowers are thickly studded, forming so striking a resemblance to an Ostrich Plume that this title was instantly suggested to us when we first saw it.
Mrs. Alpheus Hardy. Purest white and exceptionally large and well formed when properly grown. The blooms of this variety with which we took first prize at Madison Square Garden, New York, were a revelation.
Louis Boehmer. This is identical in its strange and beautiful formation with the above variety, but its color is an exquisite shade of silvery pink, with deep rose on the inside of the petals; it is of vigorous constitution, being one of the strongest growing varieties we hare, so that it is certain to produce perfect flowers under the most ordinary cultivation.
Patrick Barry. A pure yellow "Ostrich Plume" variety and fit to rank with the others in this section.
Miss Annie Manda. Pure white. For full description, see page 117.
Wm. Falconer. This grand variety is a "sport" from "Louis Boehmer," and it partakes of all the good qualities found in that excellent variety. The color is an exquisite shade of rosy blush, changing to a delicate flesh pink as the flowers advance in age. The delicacy of tinting is without a parallel in any class of flowers within our knowledge. The soft, feathery growth peculiar to the "Ostrich Plume" class is even more pronounced than in any of its predecessors, and in this variety it has an additioual charm. The flowers are of the largest size, and are borne on strong, vigorous stalks. The growth of the plant is all that could be desired. (See cut.)

Price, for any of the above, 25 c . each; set of five "Ostrich Plume" varieties for $\$ 1.00$.
 Price, 25 c. each; set of 12 for $\$ 2.50$.

"SPECIMEN" PLANT, CHRYSANTHEMUM, "IVORY," GROWN FOR EXMIBITION.

## EXIAI®ITION COILECTION.

This collection, as its name implies, is made up of such sorts as are generally grown for exhibition purposes, and embraces nearly every shade of color and variety of form known in the Chrysanthemum. We have remodeled this collection by the addition of some of the very best sorts extant, replacing some of the less attractive varieties, and have included in it our Newer Varieties of last Jear, offering them now at greatly reduced prices. This collection of Chrysanthemums as now offered will be sure to give satisfaction to purchasers.

Advance. A beautiful shade of rosy pink; flowers of the largest size and very double. A decided acquisition, and equally valuable for the exhibition table or cut flowers.
Bohemia. Deep rich red; large, splendid flower.
Bride of Roses. An exquisite shade of rosy pink, of perfect form. Cashmere. Base of petals light crimson, upper part rich amber ; a novel and distinct variety. See engraving heading our list of Chrysanthemums on page 117.
Chas. Pratt. Porcelain pink, with maroon markings.
Dawn. Delicate rosy blush; flowers of the largest size.
Domination. Large, splendid, white, fine fluffy flower.
Edwin Molyneux. Rich mahogany crimson; reverse of petals golden; broad petals, very large flower; a grand sort.
E. G. Hill Deep golden yellow, with bronze shadings.

Elaine. Snow-white; very early; splendid.
Etoile de Lyon. White, striped rose, purple or violet, the markings being variable.
Excellent. An exquisite shade of delicate shell-like pink, large, fine$1 y$ formed flowers, gracefully drooping and double to the centre. Grove P. Rawson. Deep buff, orange markings.
G. F. Moseman. One of the largest-flowered varictics, often meacuring nine inches across. Incurved petals, bright Indian red inside and buff on the outside.
Harry E. Widener. Large, "grand yellow; one of the finest for exhibition purposes.
IVORY. Pure white; a splendid free-flowering varicty. The above illustration gives a good idea of this grand sort. It is doubtful if any other Chrysanthemum unites in such marked degree the many excellent qualities of Ivory. Size, habit, color and growth are superb.
Jessica. Splendid, white, large flat flower; very early.
John Lane. Deep rosy pink. One of the best.

John Welch. Dark crimson maroon; loosely formed, graceful flower.
Lord Byron. Deep reddish crimson, tipped old gold.
Lillian B. Bird. Beautiful light pink; extra fine.
I. Canning. Clear white; large flat flower.

Mermaid. Large; soft pink; a grand exhibition variety.
M. R. Bahuant. Carmine rose, shaded cerise; a grand variety.

Miss Minnie Wanamaker. Large, clear white; very fine.
Miss Mary Wheeler. Large, perfectly formed flower; white.
Mlle. Marie Hoste. Creamy white, striped amaranth.
Mrs. Frank Thompson. A beautifully incurved variety of immense size, often measuring orer eight inches in diameterColor, bronzy carmine; reverse of petals creamy white.
Mrs. C. H. Wheeler. Old gold and crimson; decidedly Japanese.
Mrs. Humphreys. Pure white; a grand varipty.
Mrs. Bowen. This is a variety of rare beauty, in its charming contrast of old gold and reddish crimson.
Mrs. Chas. Dissell. Extra large flower, pink and white.
Mrs. Irving Clarke. Splendid, large, soft pink.
Mr. H. Waterer. Deep yellow, base of petals deep apricot.
Pietro-Diaz. Brilliant crimson; large double flowers; a gem.
Robert Bottomley. Large, pure white, irregularly twisted and incurved; splendid for exhibition purposes.
Rose Queen. Beautiful shade of carmine rose.
Rohallion. Clear yellow, large, finely formed flower.
Robert Cannell. A variety of great merit, awarded two certifi-
cates in England. Color, bronze red, under petals gold colored.
Sylphide. Chrome yellow, lightly marked with chestnut.
Violet Rose. A grand variety for every purpose. Form and habit superb; color, deep violet rose.
W. H. Lincoln. Bright yellow; large, splendid flower.

Price, 20c. each. Set of 42 Exhibition Varieties for $\$ 6.00$.

## Second Early Collection. october flowering.

Although all of the Chrysanthemums are early enough to perfect their flowers in the open ground south of Baltimore, yet in the vicinity of New York and further north many of the late kinds sometimes do not; hence we name this Early Collection, for the benefit, particularly, of residents of extreme Northern States.
Beaute des Jardins. Splendid deep purple.
Belle Paule. Soft white, tipped light rose.
Bouquet Nationale. Pure white, tinted lemon,
Chas. Delmas. Brick red, with fiery shading.
Comtesse de Careil. Bright orange and red shades; very early
Elaine. Pure snow-white; large and full.
Gladys Spaulding. Deep brassy yellow.
Gloriosum. Bright sulphur yellow.
Golden John Salter. Beautiful deep golden yellow.
Golden Lace. Pure yellow; finely cut petals.
Livadia. Pure white, anemone-flowered.
Lord Mayor. Deep rosy pink, shaded silvery white
M. Boyer. Lilac rose, shaded silvery white.
M. Hilliot. Deep buff, shaded orange.

Mrs. Brett. Twisted golden petals.
Mrs. Heale. Creamy white; exquisite form.
Mrs. John Laing. Orange, old gold and bronze.
Mr. Wm. Barr. Bright crimson, shading to golden yellow.
Norma. Blush white, tipped rose.
Penelope. Rosy pink; large and full.
P. Radaelli. White, canary yellow in centre ; a very early variety Precocite. Small, white, very early.
Scur Melaine. Pure white, fringed; fine habit.
Source d'Or. Intense yellow, shaded old gold.
Timbale d'Argent. Pure white, large Anemone flower.
Price, 15 cts . each; set of 25 early sorts for $\$ 3.00$.

## Special Low Offer, Fifteen Chrysanthemums for \$1.00.

For only $\$ 1.00$ we will send by mail 15 varieties of Chrysanthemums, but the selection must be left to us at the time the order is filled. We cannot supply a list beforehand, as we sometimes have a surplus of some new varieties we are enabled to include in these low offers, some of the choicest sorts. If sent by express (buyer to pay charges) we can usually send larger and stronger plants.

## GENERAL COLLECTION.

We have selected the varieties below named from among the hundreds we grow, as embracing the greatest variety of form and color to be found outside of those offered in the various groups and collections on the preceding pages.

## JAPANESE VARIETIES.

Pericles. Bright Indian red.
Prince Alfred. Deep pinkish carmine.
Princess Teck. Extralarge creamy white.
Refulgens. Rich purplish maroon.
Virgin Queen. Soft creamy white; incurved.
Nil Desperandum. Dark red and orange.
Hero of Stoke Newington. Rosy pink, shaded purple.
Saint Patrick. Bronzy red; very fine.
Mrs. Heale. Creamy white; exquisite form.

Price, 10 cts. each; set of 22 fine sorts for $\$ 2.00$.

## POMPON, OR BUTTON VARIETIES.

Montgolfier. Maroon, tipped rich golden yellow.
Model of Perfection. Bright pinkish lilac, shadiug to white.
Mrs. Aristee. Deep canary yellow; Anemone flowered.
Marie Aurat. Light pink, shaded rose.
Snowdrop. Pure white; flowers like miniature snow-balls.
White Bedder. Small, pure white; very early flowering.

Arbrede Noel. Deep orange, shaded red, tipped yellow; finely fringed. Black Douglas. Dark maroon red; striking in color; deeply toothed petals.
Bouquet. Rich carmine.
Canary Bird. Light canary yellow.
Cravaction. Deep pink, yellow centre.
Golden Bedder. Clear golden Jellow.
10 cts each. $\$ 1.00$ per set of 12 .

The full set of 185 kinds of Chrysanthemums, as named, for $\$ 25.00$. If bought separately, these collections would cost $\$ 30.00$.

## NAMED VARIETIES.

The varieties we offer below are magnificent for pot culture and equally grand for the garden

## Double Begonias.

Eclat. Bright orange scarlet.
Etna. Reddish scarlet, strong habit.
Goliath. Enormous flowers, rich shade of cerise-crimson.
Her Majesty. Beautiful pearly white, flowers
very large and double, of fine form.
Mrs. G. Paul. Creamy white, tinted blush.
Enchantress. Soft pink, centre yellow.
La France. Pretty shade of silvery pink.
Ellen Terry. Delicate salmon, full double.
Duchess of Albany. Soft terracotta and fawn, very distinct.
Mrs. Windsor. Creamy blush, edged pink. Safrano. Bright saffron, shaded amber. Narcisse. Clear yellow, form like a camellia Price, $\$ 1.00$ each, $\$ 9.00$ for set of 12 .

## Single Begonias.

Shirley Hibberd. Brilliant scarlet.
Glow-worm. Intense fiery crimson.
Magog. Dark scarlet, almost circular.
Total Eclipse. Rich velvety crimson.

ALL SELECTED BULBS.

These are now the most popular plants for beds of summer flowers, or as pot plants for the greenhouse, conservatory or sitting-room. Our bulbs are all sound, well matured and of good size. For a time it was generally supposed that these could not be grown in the open air with success, but extensive plantings of them in various sections of the country have demonstrated their adaptability for this purpose. Nothing can exceed the brilliancy of their colors, the delicacy of their tints, the richness of their waxy flowers, the gorgeousness of their effect in masses or their graceful appearance in bedsor borders. From the time the first blossom appears until all growth is stopped by frost they are never out of bloom, and such blooms, great waxy flowers from three to five inches across, borne in such profusion that the rich glossy green foliage is almost hidden under the wealth of blossoms. A bunch of these on the table in a room will remain perfect a long time and brighten it up as no other flowers will. There are inferior varieties of these grand flowers offered, but those we sell are the best the world can produce, and were selected from the celebrated growers of Europe; hence our customers may rely on getting the best from us, and be guarded against cheap offers of these which cannot be as good as our carefully selected strain. They should be planted about one foot apart each way, and on the approach of cold weather they should be taken up and the bulbs stored away in a warm place until the spring, when they may be started in pots before planting in the garden.

## Single Flowered Tuberoons Begonias in Separate Colorrs for Bedding.

(See figures 1, 2 and 4 in above engraving.)

Deep Crimson...25c. " 2.25 " Orange Salmon...25c. " 2.25 ALL COLORS MIXED. (Selected Bulbs.) 20e. each, $\$ 2.00$ per doz., 12.00 per 100.

## DOABLE TABEROUS BEGONIAS.

In separate colors, Scarlet, Rose, White, Yellow, 50 c. each, $\$ 4.50$ per doz.
ALL COLORS MIXED. 40c. each, $\$ 4.00$ per doz., $\$ 25.00$ per 100 .
We carry an immense stock of TCBEROCS BEGONTAS, and are prepared to estimate on large quantities for extensive planting.
The bulbs are selected to size as well as to variety, none less than three inches in circumterence being sent out: this insures
stronor vigorous growth and consequent mood results.

## 

## Neuser Varieties of French Cannas.

Our aim is to offer only the best and not confuse our customers with a long list. Hence we have selected the following:
Alphonse Bouvier. Rich velvety red; very large truss and flower; petals broad and wavy; the grandest deep red variety known. $\$ 1.00$ each.
Doyen J. Sisley. Dark chocolate-colored foliage; flowers orange-scarlet. 50 c . each, $\$ 4.50$ per doz.
Francoise Crozy. The color is a unique shade of apricot, bordered with bright yellow. 30c. each, $\$ 3.00$ per doz.
Horace Choisel. Deep rich magenta; strong, compact grower; a very fine variety. 30c. each, $\$ 3,00$ per doz.
Ingenieur Alphaud. Dark purplish foliage, deep carmine-red flowers; a very fine variety. 50 c. each, $\$ 4.50$ per doz.
M. Laforcade. Bright orange-scarlet flowers, coffee-colored foliage; dwarf, compact grower; very fine. 50 c . each, $\$ 4.50$ per doz.
Pres. Hardy. Deep orange, mottled with rich chrome yellow; a unique and pretty variety. 50 c . each, $\$ 4.50$ per doz.
Pres. Carnot. A majestic variety with dark chocolate foliage; flowers deep scarlet, large and beautifully rounded. 50c. each, $\$ 4.50$ per doz.
Star of 1891. A dwari-growing, very free-flowering variety, excellent for pot culture; bright orange-scarlet, sometimes edged with yellow. 30c. each, $\$ 3.00$ per doz.
Thomas S. Ware. This fine variety is the dwarfest of all Cannas and is literally loaded with dark orange-scarlet flowers, formed in large, compact heads. As a pot plant or for planting in front of taller varieties it is unsurpassed. 30c. each, $\$ 3.00$ per doz.
Trocadero. A grand sort in flower and foliage. The blooms are a deep crimson lake of the richest shade, and are borne in wonderful profusion. Twenty-seven separate heads of flowers were counted on a single plant in our grounds. 30 c . each, $\$ 3.00$ per doz.

SPECIAL OFFER:-Full collection of 13 Ever-blooming French Cannas named on this page for $\$ 5.00$. (If bought separately would cost $\$ 6.50$.) For older varieties, see page 133.

## Ever-Blooming French Cannas.

These are, without question, the finest plants we have for summer bedding; their rich tropical foliage and bright blossoms are indispensable for lawn decoration. They flower in the open ground during the entire season, and if grown in pots make grand plants for the conservatory or greenhouse. When not wanted for flowering in winter, they should be lifted after they are cut down by frost in fall, and stored away in a cellar, just like dahlias or potatoes, when they can be divided and planted again in May or June.

## "MADAIIE CROZY." (See Engraving.)

Undoubtedly the grandest of all varieties. The color is a brilliant vermilion scarlet, bordered with deep golden yellow; the flowers are borne in great clusters and in such profusion that they crown the plant with a blaze of glowing color. The foliage is vivid green, broad and massive; the habit of the plant is compact and vigorous, its natural height being rarely more than four feet, but the flowers form when it is scarcely a foot high, and continue coming on the plants until frost. We have a grand stock of this peerless variety and offer it very low, all strong plants. Price, 50c. each, $\$ 4.50$ per doz., $\$ 30.00$ per 100. Special rates for larger quantities.
"NELLIE BOWDEN," New Yellow Canna.
A fitting companion for the above in its sharp contrast of clear golden yellow. It is also fit to rank with it on account of its wonderful profusion of bloom. In a bed containing over 500 plants not one was without its mass of golden yellow flowers; the color is rich in the extreme, there being nothing at all approaching it in Cannas. In growth it is also the peer of any; the flower stems are strong and branching, holding the clusters of bloom erect and well above the foliage. A grand effect can be obtained by planting a large bed with "Mme. Crozy" in the centre and "Nellie Bowden" on the margin ; a mass of scarlet with a brilliant golden border. (S'ee cut.) Price, $\$ 1.00$ each, $\$ 9.00$ per doz., strong plants.

(Flowers one-third natural size.)

## NEW ALTERNANTHERA, Rosea Nana.

A new Alternanthera of great merit, which will be invaluable for planting with the rellow variety "Aurea Nana," on account of the similarity of growth and charming contrast of color.
"Rosea Nana" is of dense compact growth, so regular that it rarely requires clipping. In color it is entirely distinct from all others, being bright deep pink or rose. The young foliage takes on this color very early in the season and maintains it until destroyed by frost, presenting a strong and beautiful contrast with others of its class. 10c. each, $\$ 1.00$ per doz., \$6.00 per 100.

## NEW FRAGRANT BOUVARDIA.

"Purity." A new white Bourardia, possessing the invaluable addition of a delightful Jessamine-like odor. The flowers are borne in the greatest profusion and are clear, pearly white. The foliage is a bright, glossy green, more graceful than the ordinary Bouvardias, and serves as a splendid groundwork to show to the best advantage the large white clusters of bloom. This splendid addition should increase the popularity of this fine class of winter-blooming plants. Price, 50c. each, $\$ 4.50$ per doz.

## NEW YELLOW BEDIING COLEUS, "Mrs. D. I. Haight."

A grand yellow bedding Coleus raised by John Logan, Goshen, N. Y., who describes it as below. We have had it on trial for a year and can endorse all that has been said by him.
"This originated as a 'sport' from Coleus 'Paroquette' and is a fine golden yellow, never changing under the strongest sunshine, and never showing dark veining like other yellows. The foliage is equal to 'Golden Bedder,' but the habit of the plant is far superior to it. A bushy, eren grower, one plant just the same as its felloms, this is its greatest merit. A bed of it on the sunniest part of the lawn on dry soil, without any watering during the summer, has behaved splendidly, far surpassing any yellow Coleus I have, and all the leading sorts are here.,"
Price, 15 c . each, $\$ 1.50$ per doz., $\$ 8.00$ per 100 .

a singleflower of this demand that the cut

The above cut shows wonderful Carnation, few years has been the flower for the buttonquets, table decoration, Thousands are grown nually and are in such flowers frequently sell at dozen wholesale. It is measuring four inches , Visitors abroad have marreled much about this wonderful Carnation, and we have had numerous inquiries for plants from customers in every section of the country. To satisfy this demand we hare imported a fine lot of young plants for this season from the leading London grower. The fragrance of the "Malmaison" is exquisite, being the most delicious of all Carnations. Price, 50c, each, $\$ 4.50$ per doz.

## "DAYBREAK" CARNATION.

Too much cannot be said in praise of this grand Carnation. The color is exquisite, a charming shade of flesh pink. It was this delicate shade which suggested its name of "Dayhreak," because of the similarity to the first faint tinge of pink seen in the fastern sky at sunrise. "Daybreak" became so popular among flower lovers that the blooms readily sold for more than any other variety in the New York market the past season. The growth of the plant is vigorous and healthy and the flowers possess the Carnation fragrance in a marked degree. Price, 20c. each, $\$ 2.00$ per doz.

## NEW RED BEDDING COLEUS, <br> "Fire Crest."

The major portion of the foliage is a bright carmine crimson shade, the edge is slightly marked with golden yellow, which heightens the coloring; the centre of the leaves is blotched with deep bronze, the leaves are deeply toothed and have that graceful wavy appearance so desirable. The habit is close and compact, very short jointed, so that the leaves overlap each other and glve the effect of the entire plant being one mass of brilliant red ; es posed to the brightest sunlight this coloring is intensified. Price, 10 c . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 . which for the past most fashionable hole, corsage bouetc., in London. for that market anthe rate of $\$ 5.00$ per unequaled for size, across, and is a
The cut shows exact size of single flower.

## "Tom Thumb" Calla Lily.

## LITTLE GEM (E1liott's).

The great value of this over the common Calla Lily lies in its dwarf habit and freedom of bloom. The principal objection to the old variety is found in its rank growth, but in this improved sort that objection is overcome. It rarely exceeds 12 inches in height and blooms most abundantly. The flowers are not more than half the size of the common variety, and therefore can be used with telling effect in bouquets. It is in every way superior as a house plant to the larger growing variety. Price, strong blooming plants from pots, $50 c$. each, $\$ 4.50$ per doz. ; extra strong plants, 75 c , each. (See cut.)

## TRUE BLACK CALLA LILY.

Arum Sanctum. A rare species from the Holy Land. The flowers are about 14 inches long from tip to base, and about 4 inches broad at the widest part, gracefully curving to a small point. They have a strong violet-like odor, are a deep velvety purplish maroon-almost black-on the upper side, and mossgreen underneath. From the centre of the flower springs a spike ten inches long, of the most intense glossy black. Price, 50c. each for strong plants started in pots.

## YELLOW CALLA LILY.

Richardia Hastata. Every one is familiar with the well-known White Calla Lily. The fine variety we now offer is identical with this in every respect except the color, which is light yellow, with rich purple in throat of the flower, so that the great value of this grand novelty can be readily appreciated by all. Our stock is limited, so that such of our customers as want to procure this rare plant will do well to order early. Price, $\$ 1.00$ each.

## WHITE CALLA LILY.

Lily of the Nile. Pure white, large, splendid flower. 30c. each, $\$ 3.00$ per dozen.

## SPOTTED LEAF CALLA.

Richardia Alba Maculata. This plant is always or namental, even when not in flower, the dark green leaves being beautifully spotted with white; in other respects the plant is the same as the White Calla, but is of dwarf habit. Price, 30c. each, $\$ 3.00$ per doz.

Special Offer. - We will supply the set of five grand Calla Lilies offered above for $\$ 2.25$. If bought separately would cost $\$ 2.60$.

## "toxi thumb" calla lily, "little gem." (elliott's.

## CYCLATMEN PERSICUTMT.

Beautiful low-growing plants for pot culture. In the winter and spring a great profusion of exquisite flowers of rose, red, white, spotted are produced. Price, mixed colors only, 30c. each, $\$ 3.00$ per doz.

## CLIVIA (IMANTOPHYLLUM) PIINIATUM.

An exceedingly ornamental plant, for greenhouse or conservatory; it flowers during the spring and summer months, remaining in bloom for a long period. The flowers, about 2 inches long, are borne in clusters of from ten to twenty; color a fine red orange shading to buff. Price, $\$ 1.50$ each.

Our Prices this Season are lower than ever. Read what

CORONILLA GLAUCA.
A pretty yellow-flowering plant with pea-shaped foliage. Makes an excellent pot plant. 15c. each, $\$ 1.50$ per dozen.

## CINERARIA HYBRIDA.

Beautiful pot plants, producing great heads of brilliant flowers, purple, white, lavender, etc., etc. 15c. each, $\$ 1.50$ per doz.
C. Acanthifolia. A white leaved variety, very valuable for foliage beds. (Ready May 1st.) 10e. each, $\$ 1.00$ per dozen, $\$ 6.00$ per 100.

## New Dwarf Bedding Dahlias.

It is seldom that such a decided break occurs in a race of plants as in the Dahlia, an entirely nerv class of which is now offered in the "Tom Thumb" varieties illustrated. They will become most popular bedding plants, their dwarf habit and profusion of bloom, with brilliant colors, making them unrivaled for that purpose. Below we give the names and short descriptions of the varieties we offer. The natural height is only from 12 to 15 inches, and about 24 inches across the plant, forming a compact little bush.
Bootles. Rich velvety red.
Midget. Pure scarlet, very bright.
Miss Grace. Light orange, very attractive.
Pearl. Deep mauve, very distinct.
Price, 30c. each; set of 4 "Tom Thumb" Dahlias for $\$ 1.00$.

All single flowered and valuable on account of their gracefully cut foliage and prolific blooming. All the varieties have a distinct disc in the centre of the flower.

## "AMI BARILLET."

A new single Dahlia, bearing deep scarlet crimson flowers very rich in color. The great value of it is its deep purplish maroon graceful foliage; this renders it very attractive and makes it valuable for bedding as a contrast to lighter-leaved plants. As a border for a bed of French Cannas it is admirable. Price, 30c. each, $\$ 3.00$ per doz.
Contraste. Deep crimson, yellow centre, cut leared.
Deuil de Depute Thiers. Rich velvety maroon, deep yellow at base of petals, cut leaved.
Laciniata Purpurea. Rich purplish maroon, shaded crimson, yellow dise, cut leaved.
Lucien Chauve. Rich mauve with brownish shades, deep red ring at base of flower, cut leared.
Mme. Ed. Millaud. Magenta rose, large white centre, cut leared.
Mme. Coquet. Rich maroon, deep yellow centre, cut leaved. Price, 25 c. each. Set of seven for $\$ 1.50$.

## GRAND NEW DAHLIA,

## " MAID OF KENT."

One of the grandest Dahlias ever introduced. The above illustration represents the form, but it cannot show the grand and unique coloring of the flower. The ground color is a rich crimson, overlaid with intense cherry red; the tips of the petals are a pure snow White; the contrast is startling, yet pleasing, and commands admiration at first sight. Like all plants bearing parti-colored flowers this sometimes produces blooms differing from the above, and herein lies one of its charms, for frequently many different flowers may he seen on the same plant. Price, 50c. each, $\$ 4.50$ per doz.

## BEAUTY OF BRENTWOOD.

Another grand new variety of an entirely distinct color aroong Dahlias. It is difficult to describe, but may be classed as a purple magenta of a pronounced shade, very deep and rich. Price, 35c. each, $\$ 3.50$ per doz.

## MRS. J. DOUGLAS.

A distinct and beautiful variety; the color is a unique shade of pinkish salmon, different from any other. It belongs to the new cactus type of Dahlia, and is considered one of the best. Price, 35 c . each, $\$ 3.50$ per doz.

## NEW SPOTTED DOUBLE MORNING GLORY.

This fine addition to our list of climbing plants has been on trial in our grounds. for the past two years and has proved to be a sterling novelty. It flowers mostprofusely, and when in bloom is exceedingly attractive. The blooms are all beautifully fringed, which adds to its already distinct. appearance. The color is a pretty shade of blush white, spotted with rich purple. It is a rapid grower and is one of the best climbing plants for the garden or greenhouse we have ever offered. Price, 20c.each $\$ 2.00$ per doz.

## VARIEGATED CLIMBING

## NHSTURTIUM.

The adjoining illustration shows this new and beautiful plant, the small sketch on the left being accurately engraved from a photograph and shows its climbing habit. When we saw this in Paris two years agowe were struck with its beauty of flower and foliage, its great: value as a climbing plant and its usefulness as a drooping plant for baskets or vases. After repeated efforts we succeeded in importing it safely and now have a grand stock to offer. There is no plant with which we are acquainted, so prettily and distinctly marked as this, or one which holds its. variegation so well under all conditions. The foliage is green, irregularly marked with soft creamy white, the flowers are a bright orange scarlet, and the contrast between them is very striking. It is rarely that such a grand novelty is offered for sale, and a fine stock enables us to offer it at a popular price. 25 c , each, $\$ 2.25$ per doz.

## DOUBLE YELIOW NASTURTIUME

A climbing variety; double flowers of bright yellow. 15c. each, $\$ 1.50$ per doz.
DOUBEE CRIMSON NASTURTIUM.
Another climbing variety, bearing double flowers of a dark rich crimson color15 c . each, $\$ 1.50$ per doz. Set of three Nasturtiums for 50 c .

## PLUMEAGO COCCINEA.

A splendid flowering plant, bearing sprays of bright red flowers, very attractive and of great value as a pot plant for conservatory decoration. 25 e. each, $\$ 2.25$ CHIINESE MATRIMONY VINE
(HYCIUN CHINENSE)
Is a most vigorous hardy climbing plant when trained to an arbor, fastened to a fence, attached to a tree, to the side of a house, the pillars of a piazza or in any location where a hardy vigorous climber is desired. It sends out numerous side branches, so that it covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them; the contrast between the glossy, dark green foliage and shining scarlet fruit is extremely beautiful. It continues flowering and new berries are forming from late spring until frost. The berries ripen in early autumn and remain on the vine late into the winter. The number of our hardy vines which can be grown without danger from frost in our Northern States is limited, and none are more beautiful than this or as easy of culture. It will grow and thrive in any situation, either shade or bright sunlight, and will take root in any soil; in fact, nature has given it all the essentials for wide popularity. Valuable as it is for covering fences, etc., it is even more desirable for clambering over stone walls, bare rocks or unsightly banks, covering them quickly with bright green foliage, and later on rendering them objects of beauty with its wealth of scarlet berries and purple flowers.

Price, 1st size, extra strong 2 -year-old plants, 50 c. each, $\$ 4.50$ per dozen.

Young plants (which will bloom and fruit abundantly this year), 25 c . each, $\$ 2.25$ per dozen.

## NEW DOUBLE WHITE PETUNIA,

"White Squadron."

This splendid Petunia was raised from seed in 1891, and Was selected from among the thousands we grow as be-ing-the best. Owing to a limited stock we were unable to offer it last year, but this enabled us to give it another season's trial, and the result confirmed our first appraisement of its great value. Unlike most others previously offered, this variety is of strong constitution, and is covered with its splendid flowers the whole season long. It was this fine quality which suggested its name, every plant being crowned with a squadron of pure white flowers 'See cut.) Price, 30c. each, $\$ 3.00$ per doz.

## DOUBLE FRINGED PETUNIAS, In variety.

The varieties named below we selected from the vast numbers we grew the past season. They are all beautifully fringed and exhibit every shade and marking found in Double Petunias. Beatrice. Deep maroon, tipped clear white.
Berenice. Pearly white, blotched riolet; splendidly fringed. Constancy. Pure white, spotted rosy carmine at base of flower.
Columbia. Ground color riolet maroon, marked with white. Harlequin. Clear white, suffused pink; striped maroon and purple.
Juvenal. White, spotted deep pink.
Lord Chumley. Blush white, suffused pink; blotched deep Marvel. A very odd variety, some petals being purplish crimson, others clear whitc.
Orion. Creamy white, variegated rich maroon; finely fringed. Silver Moon. Pure white, decp purple markings.
Sirius. Rosy pink, variegated with white.
Tribune. Deep violct maroon, frequently tipped pure white.
Price, 20. each. Set of 13 sorts, including "White Squadron," for $\$ 2.50$.

Our Prices this Season are lower than ever. \{Read what we say on this sabject on

## New Double=Flowering Musk Plant.

One of the most pronounced "Novelties" in our catalogue this season. Every one is familiar with the common ""Musk Plant," hence this improved double-flowering variety will be doubly welcome. It grows most luxuriantly and is always covered with its bright yellow perfectly double flowers; the foliage is equally fragrant as the common variety. It makes a splendid pot plant for the window, or it can be used with telling effect in baskets or vases; it 3 zraceful drooping habit eminently fits it for either purpose.

Price, 20 c. each, $\$ 2.00$ per doz.

## NEW WHITE PINK, <br> "Her Majesty."

After repeated efforts we succeed in successfully importing this grand novelty from England, where it is held in the highest esteem by the best authorities. We quote herewith from the introducer's description :
"I have much pleasure in drawing attention to this charming novelty, which is unquestionably one of the finest of this century, and one that - ill hold its own as long as Pinks are cultivated. It is far ahead of anything yet seen, and all the old white varieties will sink into insignificance by the side of this great beauty. It has become one of the most 'popular of the day,' and is being grown by acres to supply the demand (Which must come) for cut flowers. It was freely exhibited in 1889, and was the great attraction at every exhibition, and the demand will be simply enormous."

It was awarded nine first-class certificates at various exhibitions in England, which is an unprecedented list of honors and the greatest number of certificates ever awarded for a plant of like character. (See cut.) Price, 50c. each, $\$ 4.50$ per doz.

## THE VARIEGATED LEAF MOONFLOWER.

This is one of the greatest acquisitions to our list of summer climbing plants introduced in years. The foliage is beautifully marked clear white and vivid green, the flowers are identical with the famous Moonflower, so that in beauty of flower and foliage it is without a rival. As it is not hardy, slips (or cuttings) should be taken from it in the fall and started in small pots, when they will make fine vines for climbing around the window in a sitting-room; trained to wires, strings or wooden trellis in the open ground it will make a most attractive appearance eren when out of bloom. Price, 20 c. each, 6 for $\$ 1.00$.

## PELARGONIUMS.

We offer a fine collection of these, from the best of the European growers. They embrace the most distinct colors and shades in cultivation. Price, 50 c. each; set of 12 for $\$ 5.00$.

## PASSIFLORA PRINCEPS.

(The True Scarlet Passion Flower.)
One of the grandest plants for the greenhouse or conservatory. When covered with its brilliant red flowers it is surpassingly beautiful. Price, large plants, 75 c. each. Smaller plants, 50 c. each.

## SCHUBERTIA GRANDIFLORA.

A very rare climbing plant of great beauty. It can be grown in the open ground in our Northern States in summer, but it is not hardy enough to stay out all winter. The flowers are pure white, large and fleshy, and are very fragrant. They are borne in great clusters in the greatest profusion. A plant in bloon will scent the air around it for a great distance, and is a conspicuous object on account of its great white blossoms. They are very like Stephanotis in appearance. The leaves and stems are covered with a soft down, which adds to its appearance. A plant growing against a fence on our grounds was the admiration of thousands. Price, 75c. each.

## VARIEGATED <br> RUBBER PLANTS.

This is unquestionably among the finest of decorative plants for every purpose. The foliage is as large as the plain green variety and is healthfully marked with creamy white and pea green on a dark, glossy green ground. It is equally hardy as the green variety. It is as yet somewhat scarce, but will be undoubtedly popular when better known. Price, fine plants, $\$ 3.00$ each.

## VIOLET, MARIE LOUISE.

The well-known double light purple variety. We offer strong, healthy plants, so that any amateur will have no difficulty in growing them. Thousands of this peerless variety are grown for the flowers alone to supply the cut-flower markets of the country during the winter season. Price, large plants, 30 c . each, $\$ 3.00$ per doz.; young plants, 15c. each, $\$ 1.50$ per doz.

## STEPHANOTIS FLORIBUNDA.

The Stephanotis is almost universally regarded as the embodiment of all that is chaste and beautiful in flowers. It twines as shown in the engraving, blooming in late winter; its clusters of pure white deliciously fragrant, jessamine-like flowers are eagerly sought by the most fastidious. Price, 75c. each.

## VARIEGATED OLEANDER.

Another very handsome plant for windor and conservatory. It is distinctly marked rich creamy white on a dark green ground. It flowers as well as the common sorts, and when in bloom the effect is charming. Even when not in flower its appearance is strikingly beautiful. Price, strong plants, $\$ 1.00$ each, $\$ 9.00$ per doz.

## XEROPHYLLUM ASPHODELOIDES.(Hardy.)

(The "Turkey's Beard.") An odd-looking plant with grass-like leaves, 15 inches long, which are evergreen. It grows in clumps from which rise from 1 to 5 flower stems 3 feet high, each bearing a compact head of showy white flowers. 15c. each, $\$ 1.50$ per doz.

## GIANT SIBERIAN PRIMROSES.

## (Primula Cortusoides Amœna.)

A new race of hardy Primroses: valuable for early Spring flowering. The colors range through various shades of pink, rose, lilac, blush, etc., and are borne in large umbels on stalks from 8 to 12 inches long; the individual flowers average $11 / 2$ inches across, and all have a large white centre. The foliage is very attractive, a soft, rich green, downy and deeply fringed, resembling a fine fern. They should receive the same culture as Pansies or English Daisies. Price, 25c. each, \$2.25 per doz.

## VIOLET, SWANLEY WHITE.

Similar to Marie Louise in every respect but color, which in this. variety is pure white. It is very double, deliciously fragrant and vigorous in growth; fully theequal in every way of Marie Louise, and a fitting companion for it. Price, young plants, 15 c . each, $\$ 1.50$ per doz.

## THE HARDY DOUBLE ENGLISH VIOLET.

This is a plant that needs no words of praise to introduce it to our customers. It speaks for itself. Here we have a Violet entirely hardy, perfectly double, a deep violet color and most deliciously fragrant. It surpasses the well-known "Marie Louise" Violet in richness of color, being many shades darker, and far excels it in its delightful odor; this is one of its greatest merits. It is entirely free from disease of any kind, will grow and bloom in any garden and in any situation. It is entirely hardy and can be left out in the open ground all winter. Nothing is more appropriate for cemetery plots than the Hardy Double English Violet. Thousands have been prevented hitherto from planting double violets because the varieties offered were not hardy, but now this difficulty is overcome. (See cut.) Price, 1st size, large flowering clumps, 50 c. each, $\$ 4.50$ per doz. Young plants for this season's blooming, 25c. each, 5 for $\$ 1.00,12$ for $\$ 2.00$.

# General (ollection of Plants, Foliage, Flowering and Ornamental. 

 deep green, marked with pure white. One of the very best "foliage" plants we have, almost indestructible; it lasts for years in the house and growsvery freely. EOc. to \$2.00 each.

## ACHITNENES.

Magnificent bulbous plants for the greenhouse or conservatory ; Alowers produced in the greatest profusion. The bulbs must be rept dormant in winter, and about January should be potted in light soil and leaf mold; this, with a little moisture and temperature of 60 to $70^{\circ}$, will start them into growth. Beginning about May they bloom continually the entire summer. Price, 30 cts. 2ach, $\$ 3.00$ per doz. (See cut.)

## ABUTILONS, ASSORTED.

"Chinese Bell Flower." Flowering shrubs growing from 2 to 6 feet in height; flowers pendulous, bell-shaped, blooming in abundance during the entire season; now much used for flowering in winter. We offer a collection of 12 sorts, embracing white, crimson, pink, rose, yellow, orange, variegated, etc. Also the double-flowered and trailing sorts. Price, 10 cts . each; set of 12 sorts, $\$ 1.00$.

## AGAPANTHUS UMBELLATUS.

This is a grand plant both for decoration outside and in the greenhouse. Foliage large and graceful, clusters of 20 to 30 bright blue dowers cromning each of the flower stalks. 35 cts. each, $\$ 3.50$ per doz.

## ASTERS.一READY TVAY 1ST.

Undoubtedly among the most valuable of summer-blooming plants, when planted in masses or when seattered through a mixed border. No class of plants, perhaps, gives such a variety
 of color, and none is more raluable for all the purposes of a garden flower. Price, 10 cts. each, $\$ 1.00$ per doz., 86.00 per 100 .

AGERATUM, Cope's Gem. best dwarf White Cap. Best dwarf white; splendid for cemetery decoration. Price, 10 cts. each, $\$ 1.00$ perdoz., $\$ 6.00$ per 100 .

## SWEET HLYSSUM.

One of our most useful plants for beds, borders, vases, baskets, etc. Fragrant and free blooming, it is always a welcome sight in the garden. 10 cts . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100.
"Double Tom Thumb." This variety has the same dwarf habit as the single, but its trusses are much longer and the florets double. The double flowers hold on so long that the plant is always in bloom. (See cut.) Price, 10 cts . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .
We can also furnish Single Tom Thumb, Colossus and Variegated Alyssum. Price, 10 cts . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

## HNTIRRHINUM.

Very showy flowering plants blooming all summer until frost; assorted colors. (Ready April 1st.) Price, 10 cts, each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

## AMARANTAUS. (Joseph's Coat.)

Gorgeous foliage plants, brilliant in their varied colors. (Ready May lst.) Price, 10 cts. each, $\$ 1.00$ per doz.

ANEMONE JAPONICA. (Hardy.)
Beautiful plants, with large beautiful flowers. The white variety is very attractive, the other is of a rich, rosy red, semi-double and somewhat dwarfer than the white. Both have clear golden yellow centres. Price, 20 cts. each, $\$ 2.00$ per doz.

## ASTILBE UAPONICA. (Hardy.)

The flowers are borne in large feathery panicles of white. Hardy herbaceous plant and undoubtedly one of the most valuable. Price, 15 cts. each, $\$ 1.50$ per doz.

## ASPARAGLS.

TENUISSIMUS. Very fine, filmy foliage. A handsome climbing plant for the window, and a very useful pot plant. Price, 15 cts. each, $\$ 1.50$ per doz.
PLUMOSUS NANUS. The leaves are a bright green, are gracefully arched, and are as finely woren as the finest silken mesh, surpassing Maiden-hair Ferns in grace, fineness of texture and richness of color. Price, strong plants, $\$ 1.00$ each.

## AMARYLLIS.

Vittata Hybrids. These are beautifully striped and blotched, and are deliciously fragrant. Price, $\$ 1.00$ each, \$9.00 per doz. Formosissima (Jacobœan Lily.) Dark scarlet, frecblooming. Splendid for potculture, and can be grownin water like Hya-
 in summer if kept dry during winter. Price, 50 c. each, $\$ 4.00$ per doz. Johnsonii. Strong, vigorous growth, bearing from 3 to 6 brilliant red flowers on each stem. Price, 50 cts. each, $\$ 4.50$ per doz.

## ALLAMANDA.

Splendid climber, large yellow flowers, invaluable for the greenhouse and to Southern States, where it is quite hardy. Fine plants, 50 cts. each. Price, 15 cts . each, $\$ 1.50$ per doz.

COCISCOMES.
READY MAY 1ST
Highly esteemed for bedding, large heads of crimson and yellow Price, 10 cts. each, $\$ 1.00$ per doz.

## BEGONIA, FIOWERING.

Plants adapting themselves to a variety of uses; are used for planting in the garden for summer decoration, or as pot plants for cut flowers in winter. They are largely used in the construction of bouquets, etc., by florists.
Rubra. Dark coral color; splendid. Scandens. A useful trailing variety. Metallica. Crimson and maroon foliage. Ingramii. Rose color. Hybrida .Multiflora. Rosy pink flowers.

Price, 15 cts. each, $\$ 1.50$ per doz.
Begonia, Rex. Valuable for the grand and raried markings of the leaves. Our collection is unexcelled. Price, 20 cts . each, $\$ 2.00$ per doz.

AQUILEGIA. (Hardy-)
The well-known "Columbine," growing 2 to 3 ft . in height, and producing very graceful pretty sprays of flowers of many hues. Price, 20 cts. each, $\$ 2.00$ per doz.

## ARMERIA

"Sea Pink." (Hardy.) A low growing plant forming a mound of deep green surmounted by pink flowers. Price, 20 cts . each, $\$ 2.00$ per doz.

## BEDDING PLANTS.

The below-named are all well-known tested varieties of the leading plants that are used for "carpet bedding," "massing," "ribbon line" planting or general bedding. We grow immense quantities of this class of stock,

Double Golden Marguerite.
The engraving gires a fair idea of this most beautiful plant. Nothing could be more showy, either as a pot plant or bedded out. It is a perfect mass of rich golden yellow flowers the whole year round, being equally useful in winter as in summer. (See cut.) Price, 20 cts. each, 4 for 75 cts., 12 for $\$ 2.00$.

## CHINESE AZALEAS.

Few plants reward the cultivator more liberally with wealth of bloom than these, and no collection of plants, however small, should be without them. We offer a grand collection-the best we could select in Eirope-comprising the most distinct and best varieties in cultivation, embracing all shades of crimson, white, pink, variegated and rose color. The plants are all shapely specimens, well "headed." (See cut.)

## CUPHEA. (Lady's Segar Plant.)

Very pretty low-growing plants; the flowers are tubular, hright scarlet with bluish white tips, hence its name. Price, 10 cts. each, $\$ 1.00$ per doz.

## FANCY COLEUS.

Our stock of Fancy Coleus is unsurpassed ; many of the finest varieties in cultivation originated with us, and we aim to keep only such varieties as will give satisfactory results. 12 distinct varieties. Price, 10 ets. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .
For varieties specially adapted to bedding in larger quantities, see Bedding Plants on this page above.

## CALCEOLARIA. (Ready May 1st.)

The most unique plants known in their marvelous combinations of color in the flowers.
Hybrids. Very elaborately colored. Price; 15 cts . each, $\$ 1.50$ per doz.

## COBEA SCANDENS

A rapid growing vine bearing large bell-shaped flowers, deep bue; will grow twenty feet and over in one seasun. Price, 20 cts. each, $\$ 2.00$ per doz.

## CROTONS. (Assorted.)

Gorgeously colored foliage plats, suitable for sub-tropical bedding, and now largely used for that purpose. We offer a fine eollection. Price, 50 cts . each, $\$ 4.50$ per doz.

Fancy Caladiums.
Large quantities of these are now used for summer and fall decoration. They are easily grown, thriving in pots or boxes in the house or shaded situations put-of-doors. The bulbs should be dried off in October and kept in a warm, dry place during the winter. They should be started into growth about May 1st. (See cut.) Price, 30 cts. each; set 12 finest rarieties for $\$ 3.00$.

## COCCOLOBA.

Curious flat stems, valuable for baskets or vases. Price, 10 ets. each, $\$ 1.00$ per doz. we are in a position to execute the largest orders in a prompt, satisfactory manner, and at the lowest rates. Parties desiring large quantities will do well to write us, and we will make special prices. Per 100 Alternanthera. Red.................. $\$ 6.00$ Yellow ............... 6.00 Ageratum. Lobelias. Best dwarf; blue .......... 4.00
Pansies. Finest mixed.................. 4.00
Petunias. Finest double............... 10.00
Salvias. "Scarlet Sage."................... 6.0

## Four Grand Carnations.

In the adjoining engraving we show four of the best varieties. Each one is a sharp contrast to the other, but this effect is not apparent in the cut.
No. 1. ORIENT. Rich crimson maroon, very free blooming, beautifully fringed.

No. 2. LOUISE PORSCE. Clear lemon yellow, very slightly penciled with red; a splendid grower and free bloomer.

No. 3. DAYBREAK. The color is an exquisite shade of flesh pink, entirely distinct from every other variety, and sure to charm the most fastidious.
No. 4. MRS FISHER. "White as the driven snow" and beautifully fringed, fragrant and free; in every respect a peerless variety.
Price, 20 c . each ; set of 'Four Grand Carnations for 75 c .

## CARNATIONS-in Variety.

The great improvement made in this grand race the past few jears has directed popular attention to them, until now they are perhaps exceeded by the Rose alone in the number annually grown for cut flowers. Our eollection contains only sorts of approved merit and our plants are in the finest possible condition.

American Flag. The best striped carnation as yet introduced.
Angelus. A new variety having exquisite rosy pink flowers, large, full and delightfully fragrant.
Buttercup. Although not new, jet conceded by experts to be the best yellow on the market.
Chester Pride. Pure white, delicately striped and penciled with scarlet, a splendid variety and very attractive.
Edelweiss. A new white variety, large, full and beautifully fringed.
Fred. Creighton. Beautiful pink a strong growing and very free flowering variety, one of the most valuable sorts we offer.
Fred. Dorner. A giant among carnations. The flowers are frequently over 3 inches across, color deep glowing red. Grace Wilder. The pink carnation par excellence. Thousands of this variety are grown for the New York market in
preference to other sorts of more recent introduction claimed to besuperior to it. Golden Triumpl. Among yellow carnations this is very highly esteemed.
Hector. A king amongst scarlets, large flowers, splendid habit.
Lizzie McGowan. One of the best white varieties we have, strong habit and very free blooming. Flowers of the largest size.
Louise Porsch. A splendid yellow variety rarely penciled with red.
Portia. Brilliantscarlet. In richness of color, profusion of bloom, vigor and growth, and every essential of a firstclass carnation, this variety stands unequaled.
Silver Spray. Pure white, fine substance, so that it is finely adapted for shipping. Price for any of the carnations offered, strong plants from pots, 15 e. each, $\$ 1.50$ per doz.

## SPECIAL LOW OFFER OF CARNATIONS.

For $\$ 1.00$ we will send free by mail Ten Fine Varieties, all named, our selection only. We are enabled to do this only when the selection is left to us. If wanted by express. buyer to pay charges, we can usually send larger and finer plants, and will leave all the soil on the roots.

TEN FINE CARNATIONS FOR \$1.00.

## HARDY GARDEN CARNATIONS.

Every color known in Carnations is represented-white, crimson, scarlet, orange, maroon, yellow, striped, speckled, etc.; but although all these colors and numerous shades not mentioned are to be found in them, yet having been grown from mixed seed we cannot supply any special color. Price, 15 c . each, $\$ 1.50$ per doz., $\$ 10.00$ per 100 . Strong healthy plants.

## CAIIPANULA. (Hardy.)

Well-known favorites growing about two feet high, bearing large saucershaped flowers. Price, 20c. each, $\$ 2.00$ per doz.

## CAMELLIA JAPONICA.

We offer splendid plants of the above, bushy, well-grown specimens full of buds; it is seldom that such fine plants of these are offered for sale. The varieties are the best that could be obtained from the most celebrated growers of Europe. They embrace Double White, Double Pink, Double Variegated and Double Ked. Price, 1 st size (in bud), $\$ 1.50$ each; set of four for $\$ 5.00-\mathrm{a}$ saving of $\$ 1.00$ by buying the set.

## CLEMATIS.

The Clematis is entirely hardy, blooming during the entire season, embracing great variety of color, of the most beautiful tints of blue, purple, lavender, scarlet, white, ete.; double and single-some of the flowers being six inches in diameter. They are all climbers, and, if trained carefully, attain a height of from five to fifteen feet in one season.

## Clematis Jackmanii.

The best known and most valued variety of this popular family. A perfect mass of bloom when in full flower. Color, dark, rich, royal purple. It is the variety shown in the engraving, which gives a fair idea of this superb Clematis.

1st size, $\$ 1.00$ each, $\$ 7.50$ per doz. 2 d " 75 " 6.00

## Large-Flowered French Cannas. STANDARD SORTS.

Dwarf-growing and unequaled for profusion of bloom. Our collection of standard sorts has been carefully selected and cannot be surpassed.
Antoine Crozy. Flowers deep crimson, light green foliage.
Admiral Courbet. Light yellow, speckled with orange scarlet.
Bertal. Deep salmon flowers, almost scarlet, deep green foliage.
Edouard Andre. Deep carmine flowers, chocolate foliage. Emile Leclerc. Golden yellow. mottled crimson.
Flamboyant. Flowers crimson lake, shaded orange. G. Couston. Light yellow, mottled orange. Gerard Audran. Rich vermilion, spotted yellow Geoffrey St. Hilliare. A grand variety, Large Or-chid-like flowers of a deep glowing orange shade; very large flower spike; foliage chocolate colored. Hippolyte Flandrin. One of the best sorts we offer. Color a rich deep salmon, very showy.
J. Cardioux. Flowers brilliant cardinal red.

Louis Chretien. Clear yellow, splashed with orange. Mme. Berrard. Bright orange scarlet, edges golden yellow.
Madame Just. The lower part of the petals is flame color, the upper part golden amber.
Mme. de Liabaud. A grand variety; deep carmine. Revol Massot. Carmine red, lower petals blotched yellow.
Tonkin. Golden yellow, lower petals flamed scarlet. Uirich Bruner. Flowers orange red, lower petals striped yellow.
Victor Hugo. Deep orange red flowers, foliage dark purplish crimson. A giand variety. 30 cts. each. Price, strong roots, 20 cts each, except where noted; or set of 19 sorts, as named above, for $\$ 3.00$. Our selection of sorts for massing at $\$ 10.00$ per 100 .

## GENERAL COLLECTION.

Ehemani. Entirely distinct from all other Cannas, its rich green, tropical foliage resembling the Musa or Banana. The erimson flowers are produced in masses on the summit of whip-like stalks, with 25 or 30 flowers on each. 15 c . each, $\$ 1.50$ per dozen.
Noutonii. A variety equal to the above in its rich, tropical appearance, but surpassing it in profusion of bloom and richness of color. Price, 15e. each, $\$ 1.50$ per dozen.
Flaccida. A dwarf variety with bright yellow, lily-like flowers, valuable for bedding. 15c. ea., $\$ 1.50$ per doz. Assorted. All the leading varieties, light and dark foliage, including Marechal Vaillainte, very dark foliage; Discolor Violacea, large, dark foliage marked bronze green; Brenningsii, foliage green and creamy white (also known as "Milky Way"); Compacta, deep green foliage; Zebrina Nana, dwari growing, dark foliage. 15c. each, $\$ 1.50$ pel dozen, $\$ 8.00$ per 100.

clematis henbyil.

## Clematis Henryii.

This variety is a much stronger grower than most of the other varieties, and is entirely hardy. Excellent for cemeteries, or wherever a hardy climber is desired. (See cut.)

$$
\text { Large, strong plants, } \$ 1.00 \text { each, } \$ 9.00 \text { per dozen. }
$$ 2d size. $.75 \quad$. 7.50

Crispa. Although a native of the Southern States, it is entirely hardy. Like all the other Clematis, it is a rapid climber and profuse bloomer. The flowers are bell-shaped, purplish blue, and emit a rich fragrance. Price, 30 cts. each, $\$ 3.00$ per dozen.
Coccinea. Bright scarlet has been a color hitherto unknown in Clematis, but in this sort we have that color which, when placed in contrast with the blue. purple and white kinds, has a most striking effect. It is equally hardy as the other well-known sorts. 30 cts . each, $\$ 3.00$ per dozen.
Flammula. "Fragrant Tirgin's Bover." This is an old and well-known species, entirely distinct from the above; flowers pure white, deliciously fragrant. The plants attain a height of twenty feet, and, when trained on trellis work and in full bloom, look like a mass of snow. The odor is perceptible at a distance of 200 yards. Hardy. 30 cts. each, $\$ 3.00$ per dozen.
Assorted. In addition to those mentioned above, we can supply double white, single blue, lilac, lavender and many intermediate shades, all strong plants. Price, $\$ 1.00$ each, $\$ 9.00$ per doz.

## CLERODENDRON BALFOURII.

The body of the flower is bright crimson enreloped in a creany white calyx. Price, 40 cts. each, $\$ 4.00$ per dozen.

## COREOPSIS LANCEOLATA. (Hardy.)

One of our finest hardy perennials; deep yellow flowers, splendid for summer bouquets; blooms all season from June until frost. Price, 25 cts each. $\$ 2.25$ per dozen.

## CACTUS DAHLIA, "BLACK PRINCE."

This is one of the finest "Cactus" Dablias ret sent out. The flowers are rich maroon, of relrety testure; the color is so intense as to be almost black. The size of the individual flowers is something marrelous, being about twice as large as the ordinary kinds. The strle of the flower is loose and free from that rigidity so objectionable in others; the florets are large, broad and rounded at the points. In habit the plantis dwarf, sturdr, and of branching habit; the blooms are held well above the foliage; taken all in all it may well be considered the finest acquisition of the rear. Price, 50 cts. each, groming plants from pots

## SPIENDID "CACTUS" DHHLIHS.

The title of "Cactus" was applied to the first of these "Juarezii" in recognition of the brilliant scarlet color and unique form of its flowers. Since its introduction this class has been wonderfully improved, and the collection we offer contains the finest rarieties of this splendid type.
A. W. Tait. Pure white, very double; the tips of the petals deeply toothed or fringed.
Cochineal. Richestcrimson scarlet, toned with a brownish shade. Glare of the Garden. Intense scarlet; very free flowering; a grand variety.
Lyndhurst. Dark, dazzling crimson scarlet; a showy and useful Mrs. Hawkins. Rich sulphur jellow, shading to light canary toward tips; a beautiful variety, one of the most interesting in this fine class
Wm. Pearce. Rich, sulphur jellow.
Price, 25 cts. each; set of six splendid Cactus Dahlias, $\$ 1.25$.
Please refer to page 125 for new "Tom Thumb" Dahlias.

## LARGE DOUBLE DAHLIAS.

(GENERAL COLLECTION.)
In this collection we offer the varieties which bear large globular flowers.
Boabdil. Large blood red. Mrs. Burgess. Purplish maroon. Dandy. White, speckled carmine. Flora. Bright magenta pink. Hector. Cherry red. La Phare. Brilliant scarlet. Martha. Orange tipped scarlet. Oriole. Rich golden yellow. Ovid. Rich royal purple. Topsy. Light yellow, tinted lilac. Ethel. Dark, lustrous carmine. Vesta. Pure white; very fine. Price, 15 cts. each; set 12 for $\$ 1.50$.

## DAHLIAS.

We will supply pot grown roots, except where noted, up to about April 15th; after that the plants sent out will be from pots in a growing state, We reserve the right to send either according to the state of our stock at the time the order is receired.

## 12 Best Double Dwarf Dahlias.

These differ from the Large varieties in being more dwarf in growth, with smaller flowers and added profusion of bloom.

Amorette. Deep crimson. Black Dwarf. Maroon. Ben Butler. Crimson maroon. Bredowillard. Golden yellow. Dr. Stein. Crimson and pink. Exquisite. Orange, scarlet edge. Golden Bedder. Golden rellow. Little Valentine. Rich scarlet. Mary. Scarlet. Laura. Magenta pink. German Boy. Salmon red. Snowflake. Pure white. Price, 15 c . each ; set $12, \$ 1.50$.

For newer varieties of Dahlias see page 126.

## Twelle Grand Docble $D_{\text {ablias. }}$

Camelliaflora. Pure white, very dwarf and free.
Emperor. Deep crimson, variegated with pure white. Electric. A dazzling crimson scarlet of the Cactus type Floral Beauty. Large perfectly shaped flowers of a rich salmon-pink shade.

SPECLAL OFFER.-The unrivaled collection of 55 Dahlias named above for \$7.00.

0UR Prices this Season are lower than ever. Read what we say on this subject on pages 1 and 2.

POMPONE DAHTNAE.

## Daisy," Snowflake."

In the engraving above we show this most useful plant. Growing only from six to eight inches in height and covered during the entire season with its large, pure white flowers, ats value as a border plant or for cemetery decoration can be easily appreciated. Price, 20 c . each, $\$ 2.00$ per dozen.

## ENGLISH DAISIES. (Bellis.)

Pretty, low-growing plants, bearing a wealth of pink, white and red blossoms; blooming in early spring, they are valuable for their contrast to Pansies and other spring flowers. 10c. each, $\$ 1.00$ per dozen.

## Double Pink Daisy, "Longfeliow."

Large double rose colored flowers, and a splendid companion to the two sorts described above. Price, 20c. ea., $\$ 2.00$ per doz

## YELLOW PARIS DAISY.

## (New Branching.)

A new, strong-growing and branching va riety of this very useful plant. It will be welcomed on account of its vigorous habit and golden-yellow flowers. May be had in \$loom all winter. Price, 25 c.ea., $\$ 2.25$ per doz.

## WHITE PARIS DAISY.

The true "Marguerite" of the Paris marzets; large, pure white flowers. 25c. each, \$2.25 per dozen.

## EUPHORBIA SPIENDENS

A curious plant with thick, fleshy, twining stems, which are covered with stout, sharp spines nearly an inch long. The foliage is bright green and the flowers are a beautiful coral pink, very pretty when in bloom. Price, 30c. each, $\$ 3.00$ per doz.

EUONYMUS RADICANS VAR.
A splendid half-hardy plant with bright glossy green leaves prettily marked with white; very useful for centres of vases, pots, etc., etc. 25 c . each, $\$ 2.25$ per dozen.

## ERYTHRINA HENDERSONII.

New Coral Plant. If set out in the open ground in spring, this plant blooms without intermission all summer. The flowers are large and brilliant, dark crimson in color, and fairly cover the plant when in full bloom. 150. each, $\$ 1.50$ per dozen.

Funkia Subgordama 凹ar. (Variegated Day Lily.) Hardy.
A very fine border plant, useful for edging 'borders of herbaceous plants. The leaves -are broad and wavy, dark green, heavily marked with creamy white. 25c. each, $\$ 2.25$ , per dozen.

## DIGITALIS (Foxglove).

(Hardy.)
Stately plants when in bloom, throwing up to a height of four or five feet great spikes of flowers. The colors are varied, ranging through white. purple, spotted, etc. 30c. each, $\$ 3.00$ per doz.

## Eranthemum Mar-

 GINATUM.A very pretty foliage plant, with deep green leaves heavily margined with spotless white. As a pot plant for decorative purposes it has many advantages, being of a strong, thrifty habit, and very ornamental in foliage. Price, 30c. each, $\$ 3.00$ per doz.

## EHLALIA GRASSES. (Hardy.)

These are attractive ornaments for the lawn or hardy border. The inflorescence is curled like an ostrich plume and makes a very pretty ornament in a vase when dried, lasting for years.
Gracillima. Foliage very narrow and of a beautiful green color, midrib silvery white.
Eulalia Zebrina (Zebra Grass). Unlike all other variegated plants, this has its striping or marking across the leaf instead of longitudinally. (See cut.)
Eulalia Japonica Var. Leaves striped white and green longitudinally. 1st size, 50 c . each, $\$ 4.50$ per doz.; 2 d size, 25 e . each, $\$ 2.25$ per doz.

FEVERFETV (DWarf)。
Little Gem. This variety, which we first sent out, is very dwarf, attaining a height only from 12 to 18 inches. The flowers are large, of perfect form, and of the purest "white. 15c. each, $\$ 1.50$ per dozen.

FORGET-ME-MOT. (Hardy.)
(Myosotis.)
Beautiful spring-blooming plants, bearing graceful sprays of rich blue flowers. Aside from its beauty, this plant is very interesting from its close connec. tion with romantic tradition. Price, 10c. each, $\$ 1.00$ per doz.

## $S M O R D E F R$. <br> (Nephrolepsis Exaltata.)

In well-grown specimens the fronds attain a ength of six or seven feet, but only one to three wide, and like plumes arching over in every direction, in a most graceful manner. This beautiful Fern is excellent for outside planting in shady borders. It is a very fine plant for hanging pots or baskets on the piazza in summer and conservatory or win. dow in winter. Our cut conveys but a very poor idea of its gracefulness and beauty. Price, 25 c . each, $\$ 2.25$ per dozen.

## HOUSE FERNS.

Our collection contains the choicest of the "Maidenhair" varieties and best basket and vase sorts. They are of the easiest culture, and nothing adds more grace and beauty to a home than a few handsome ferns. 30c. each; set of 12 sorts for $\$ 3.00$.

## CLIMBING FERN.

(Lygodium.)
A very pretty and useful species, rapid growing and rery easy of cultivation. 15e. each, $\$ 1.50$ per dozen.

## DAVALLIA BULLATA.

(Hare's-foot Fern.)
We offer this grand variety prepared in globe shape ready for hanging up. In a short time they develop leaves and make grand ornaments through the season, suspended on the piazza or in a window. Price, $\$ 1.00$ ea.

 GAILLARDIA GRANDIFLORA. (Hardy.)
The most showy perhaps of all our hardy herbaceous plants. The flowers are orange and crimson with dark brown disk in the centre; they are three inches acros's and are borne in lavish profusion all summer long. The natural height, including flower stems, is about two feet. 25 cts. each, $\$ 2.50$ per doz.

## Grevillea Robusta.

## "The Silk Oak."

A magnificent plant for decorative purposes, of rapid, easy growth, finely cut foliage, rivaling a rare Fern. The young growing leares are a light bronze color, the tips being covered with a soft down, closely resembling raw silk, hence the name of "Silk Oak." In its natice place it attains magnificent proportions and produces an abundance of bright orange-colored flowers. Price, fine plants, 50 cts . each; young plants, 25 cts . each, $\$ 2.25$ per doz.

## IXY (German).

Well known as "Parlor Ivy" and highly esteemed for its free, vigorous growth. Price, 10 cts. each, $\$ 1.00$ per doz. English Ivy. See page 102. Price, 2õc. and 50c. each.

## HEMEROCALLIS FLAVA. (Hardy.) (Fellow Day Lily.)

Bright yellow flowers borne in great profusion on long stems, very fragrant. One of the best known and most valuable of the species. Price, 20 cts. each, $\$ 2.00$ per doz.

## DOUBLE FUCHSIAS.

Mrs. E. G. Hill. Flowers very large and freely produced; corolla pure white and double; sepals dark red. A fine variety. (See cut.) Price, 20 cts. each.
Abbe Garnier. Lilac corolla; dark scarlet sepals.
Cervantes. Deep prune corolla; crimson sepals.
Elm City. Purple corolla; scarlet sepals.
Pres. Carnot. Deep maure corolla; crimson sepals.

## GAZANIA SPLENDENS.

A most useful plant for baskets or vases, of drooping habit with darge gellow flower's looming all summer. 15 cts. ea., $\$ 1.50$ per du.

## HIBISCUS CALIFORNICUS. (Half Hardy.)

Large pure white cup-shaped flowers, with deep carmine centre. It is a perennial, grows 4 to 6 feet high and is hardy south of Washington. Price, 20 cts. each, $\$ 2.00$ per doz.

GLECHOMA HEDERACEA VAR. (Hardy.)
Prettily marked with pure white on a bright green ground. It is hardy and of vigorous growth; the leaves have a refreshing fragrance similar to mint. It is one of our most useful plants for drooping from hanging baskets, vases, fancy pots, etc., etc. It is largely used in cemeteries to cover graves, as it is entirely hardy. Price, 15 cts . each, $\$ 1.50$ per doz.

## GENISTA RACEMOSUS.

This plant, although not new, has become very fashionable in New York. Few plants are more deserving of popular esteem. The flowers are pure golden yellow, and literally cover the plant when full grown. Price, 30 cts. each, $\$ 3.00$ per doz. Large plants, 75 cts each.

## New Hybrid Gloxinias.

The handsomest of our summer-blooming plants, the rich and varied coloring of the flowers being beautiful in the extreme, many of them beautifully speckled; flowers three inches long by twoinches in diameter; upright and pendulous; colors crimson, violet, rose, scarlet, white, etc. They attain the greatest perfection if grown in light, rich soil in a shady, well-rentilated frame. After they are done growing, they may be kept in a warm, dry cellar, of under the stage of a greenhouse. (See cut.) Price, mixed colors only, 30 cts. each, s:3.00 per doz.
Helianthus multififoris.

## (Hardy.)

Dark, golden yellow color; grows from 3 to 5 ft. in height; never fails to flower the first season of planting. cts. each, 5 for $\$ 1.00$.
Helianthus Maximilianii. A large growing, very free-flowering species, remaining in bloom till late autumn. Valuable for cut flowers. Price, 25 ets. each, $\$ 2.25$ per doz.

## rarieties for $\$ 2.25$.

## GERANIUMS.

two inches across, color rich crimson scarlet.
Champion. Carmine crimson.
Ernst Burgman. Intense scarlet
Marguerite Lyer. Pure snow white
Blazing Star. As indicated in the name, this is a brilliant scarlet.
Mlle. Straub. Very fine salmon-colored blossoms, large truss.
Coquetterie. Bright cherry pink, a rery pretty and attractive color.
Souvenir de Mirande. The upper petals are crystal white margined with rosy carmine. The lower are a deep coral color with a bloteh of pure white in the centre.
Price, 15c. each; set of 19 new single varieties for $\$ 2.50$.

## HYBRID GERANIUM.

P. Crozy." The foliage shows the blending of two races, having the form of the Ivy and the substance and size of the Zonales. The flowers are brilliant scarlet, borne in the greatest profusion, the trusses measuring six inches across and the individual florets two inches. Price, 20c. each, s2.00 per doz.

## STANDARD SORTS <br> DOUBLE GERANIUMS.

BRUANTI. This grand variety is shown in the adjoining engraving. Deep scarlet and wonderfully free in flowering, it is, perhaps, the best type of the double Geranium. (See cut.)
Beaute Poitevine. Very large semi-double flowers borne in immense trusses, brilliant salmon.
Catulle Mendes. Florets very large, purplish rose; upper petals marked with white.
Gerome. Immense sized trusses; flowers double, clark violet rose of a beautiful tint.
Double Gen. Grant. Brilliant scarlet,
Golden Dawn. Brilliant orange searlet: Gustave Wideman. Rich deep salmon.
Gioire de France. Bright salmon.
Naomi. Dark pink; fine bedder.
White Swan. Pure white; a grand variety.
Pres. Dutailly. Very dark amaranth, bordered with maroon; upper petals marked with purple.
Le Cid. This magnificent variety is brilliant crimson red; undoubtedly the finest of its color.
Centaure. Brilliant rose; enormous truss.
Md. Dupont. Rosette-formed flowers, deep scarlet.

President Carnot. Semi-double florets; color, brilliant deep scarlet
La Favorite. Pure white
Grand Chancellor. Deep crimson.
Price, 10 c. each ; set of 17 standard sorts for $\$ 1.50$.

## STANDARD SORTS

## SINGLE GERANIUMS.

Queen of the Belgians. Pure white.

La Printemps. Clear salmon rose.
Eden Marchii. Beautiful salmon pink. Price, 20c. each; set of 11 for $\$ 2.00$.
L'Elegante. Single flowers, leaves prettily marked with white. A very useful sort. Price, 15 c. each, $\$ 1.50$ per doz.

## JESSAMINE.

Invaluable on account of "their sweetly fragrant flowers.
Cape (Gardenia). Double white, the most valuable of all Jessamines. Price, 50 cts. each, $\$ 4.50$ per doz. (large plants).
Grandiflorum (Star Jessamine). Pure white, single flowers. Price, 15 cts . each, $\$ 1.50$ per doz.
Revolutum. Bright yellow. Price, 15 cts. each, $\$ 1.50$ per doz.
IMPATIENS. (Sultan's Ba/sam.) Very pretty plants for summer, producing flowers in wonderful profusion.
I. Sultana. Rosy scarlet, very brilliant. Price, 15 cts. each, $\$ 1.50$ per doz.
I. Sultana Var. Similar to above, with variegated leaves. Price, 25 cts. each, $\$ 2.25$ per doz.
I. Lucy. Light mauve colored flowers. Price, 15 cts. each, $\$ 1.50$ per doz.

## HELIOTROPES-in Variety.

Indispensable for bouquets and vases of flowers; their rich tints of lavender, blue and purple, and exquisite vanilla perfume are familiar to all. Price, 10c. each, $\$ 1.00$ per doz.

## HIBISCUS (CHINESE).

These are largely used in the public grounds at Washington and other places for bedding purposes, and of late years have attracted a great deal of attention; they are almost continually in bloom. Price, 20 c . each; set of 12 sorts for $\$ 2.00$.

## HYDRANGEAS.

The most useful and ornamental flowering plants perhaps in our list. Wherr grown in large pots or tubs for the lawn the effect of their great heads of flowers is striking. They are hardy with protection of leaves or litter in the open ground, and if grown in pots, they can be kept in a cool cellar until spring. In soils containing iron some of the varieties assume charming shades of blue.
Paniculata Grandiflora. The shrub Hydrangea. See page 143. Price, 15c., 25c., 50 c . or $\$ 1.00$ each, according to size.
Japonica. Rosy lilac flowers, changing to light blue. Price, 20c. and 75c. each. Otaksa. Rosy carmine flowers. It has the rare quality of blooming when very small, plants 6 inches high being frequently corered with flowers. Price, 25 c. and 50 c ., according to size.
Thos. Hogg. A pure white rariety, perfectly hardy, and is one of the finest plants for cemeteries. Price, 20c. each.
Hortensia. The old favorite variety; pink flowers, changing to blue in soils containing iron. Price, 20 c . and 40 c . each.
Rosea. Equal to Thos. Hogg in freedom of growth and flowering qualities. Flowers large and are a rich rosy red. Price, 50c. each.
White Fringed Hydrangea. The flowers are of the purest white, fringed, having a crimson spot in the centre. Plants attain a diameter and height of from 3 to 4 feet. Price, 20c. and 50 c. each, according to size.
Double Pink Hydrangea. The flowers are double and similar in appearance to a. Polyantha Rose, and when in bioom is covered with its rosy red double blossoms. This is one of the most distinct and useful plants ever introduced, and should be in every collection. Equally hardy as the other sorts. Price, 30 c. and 50 c. each.
SPECIAL OFEER.-Set of 8 fine Hrdrangeas, in small plants, $\$ 1.50$; large plants, \$3.00.

## LILY OF THE VALLEY.

Flowering pips, 5 cts. each, 50 cts. per doz. ; large clumps, 50 cts. each, $\$ 4.50$ per doz.

## Double Hollyhocks.

Hollyhocks are among the finest permanent garden plants, as being entirely hardy in most places and free growing, they make a great display with little or no care. Our collection contains all the colors named, but as they are grown from seed an occasional departure from these shades may be expected. For the same reason a small percentage may be single or semi-double. We offer them in the following shades, which are the leading colors grown: Double white, double yellow, blush, double pink, double crimson and double scarlet.

Price for the above varieties, 20 c , each, $\$ 2.00$ per doz. ; all colors mixed, $\$ 1.50$ per doz.

## SILYER AND BRONZE GERHNIUMS.

These Geraniums make beautiful pot plants; should be planted out in partial shade. Price, 20c. each, $\$ 2.00$ per doz.

LILY of THE VALlet.

HARDY MOON FLOWER.

## THE MOON FLOWER.

## - LANTMNAS. :

We have few continuous blooming plants that afford a greater variety of colors than the Lantana. Twelve distinct varieties. Colors, orange, crimson, yellow, lilac, rose, white, etc. 10 c . each, $\$ 1.00$ per dozen; set of 12 for $\$ 1.00$.

## BLUE DAWN FLOWER.

## (Ipomœa Learii.)

This makes a splendid companion to plant with the white
"Moon Flower." The flowers are the most intense violet blue with reddish purple rays, and are six inches across. There is nothing of its color that exceeds in richness the flowers of Ipomoa Learii. (See cut.) 15c. each, $\$ 1.50$ per dozen.

## HARDY MOON FLOWER.

## Ipomœa Pandurata. This splendid hardy climbing plant will grow rapidly

 covering up a great amount of space in one season, and will live in the ground over winter in our Northern latitude. The foliage is large and handsome, giving a dense shade. The flowers are truly magnificent, measuring from 31/2 to 6 inches across, pure white, shading to pink and purple in the throat. Un- aproncad Learir. like the tender Moon Flower, this species opens its flowers during the day-(blue dawn flower.) time and remains open all day, which makes it doubly valuable. Strong Northern grown roots. (See cut.) Price, 20c. each, $\$ 2.00$ per doz.
## Ipomea (or Calonyction) Grandiflora.

If planted out in rich ground about May 15th, in a situation where it has full exposure to the sun, this plant will attain a height of 40 feet by October 15th, blooming abundantly the entire season. It is called "Moon Flower" from its rare peculiarity of blooming best at night, although it also expands its flowers in dull days; the flowers are of pure white, from 5 to 6 inches in diameter, emitting a rich Jessamine-like odor at night. 15 c . each, $\$ 1.50$ per doz.

## MANETTIA VINE.

Manettia Bicolor, A very pretty, rapid-growing twining plant, producing tubular flowers from one to two inches in length, the plant being literally covered with them the entire season. The coloring of these flowers is gorgeous in the extreme, being a flame color tipped with bright yellow. Given strings or wires to cling to, it will attain to a height of from 6 to 10 feet in one season. Price, 15 c . each, $\$ 1.50$ per dozen.

## OTAHEITE ORANGE,

A dwarf orange, which bears a profusion of fragrant flowers and edible fruit. One of the most effective plants for the house. Those we offer are large, strong plants, which will flower and bear fruit the coming season. Price, $\$ 1.00$ each.

## IOBEETAS.

Invaluable plants for vases or baskets; also very largely used for beds and borders. Bright blue flowers.
Trailing Varieties, for baskets. 10c. each, $\$ 1.00$ per doz.
Compacta. Dwarf; bright blue. 10e. each, $\$ 1.00$ per dozen,
$\$ 4.00$ per 100 .

## LEMON VERBENA.

A universal farorite, and invaluable for its fragrant leaves so grateful when mixed with bouquets. They will retain their fragrance for years when dried. Strong plants, 15c. each, $\$ 1.50$ per dozen.

## PASSIFLORAS. (Passion Flower.)

John Spalding. White flowers, foliage prettily marked with bright golden yellow. Pfordtii, deep purple.
Constance Elliott. Beautiful variety; flowers 3 to 4 inches in diameter and pure ivory white; deliciously fragrant.
Cerulea. Similar to the preceding, but a beautiful blue. (See cut.) 15c. each, $\$ 1.50$ per doz.

## PRIMULA CHINENSIS.

These are easily grown and flower incessantly throughout the winter and spring-all shades of crimson, pink, white and variegated -single flowers measuring 5 inches in circumference. 1st size, 25 c , each, $\$ 2.25$ per dozen; 20 size, 15 c . each, $\$ 1.50$ per dozen.

## MAHERNIA ODORATA.

Bright yellow, bell-shaped flowers, exquisitely fragrant; raluable on account of its climbing habit, and pretty flowers. 10c. each, $\$ 1.00$ per dozen.
mesembryanthemum, Variegated.
(Variegated Ice Plant.)
One of the most useful plants in our list for rockeries, beds, baskets or vases. Low-growing, green foliage, marked with creamy white; crimson flowers. 10c. each, $\$ 1.00$ per dozen, $\$ 6.00$ per 100 .

NASTURTIUMS. (Ready May 1st.)
Very useful plants for baskets or vases; the dwarf varieties are excellent for borders. Climbing, assorted colors. 10e. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 . Dwarf, assorted colors, 10 c . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

## PILOGYNE SUAVIS.

A rapid-growing vine of graceful appearance; glossy green leaves, splendid for either outdoors or in the house. Flowers yellowish white and very fragrant. 15 c . each, $\$ 1.50$ per dozen.

PAGGIFLORA CTRULEA.

# Decorative Plants, Palms, Paddanás, Etc. 

There are no plants more attractive than those offered on this page, and none which yield more pleasure to the cultivator for the amount of care bestowed. Our Palms are grown specially for house culture, and are particularly hardy and thrifty, because grown in a comparatively low temperature.

## Areca Lutescens.

This majestic Palm is without a peer for strength and elegance combined. Its dark glossy green leaves are gracefully curved on slender stems, and the entire foliage is gracefully disposed. The trunk and stems are a golden yellow, irregularly spotted with bronzy green, giving it a peculiar charm. Price, specimen plants, $\$ 5.00$ each; strong plants, 21/2 feet high, $\$ 3.00$ each; strong plants, $11 / 2$ feet high, $\$ 1.00$ each; 12 to 15 in . high, 50 ets. each; small plants, 30 cts. each.

## Pandanus Veitchii.

This is a grand decorative plant. Its beautiful form, with vivid green and creamy white variegation, added to its vigorous growth, makes it indispensable in every collection. (See cut.) Price, \$1.00, $\$ 2.00, \$ 3.00$ and $\$ 5.00$ each, according to size.

## Pandanus Utilis.

For majesty of form and gracefully arranged foliage this is without a peer. As an ornament for the window its glossy dark green serrated foliage renders it unusually attractive, while as a vase plant or single specimen in greenhouse or conservatory it cannot be surpassed.
Price, 1 st size, 2 ft . high, $\$ 3.00$ each; 2d size, 15 to 18 inches high, $\$ 1.00$ each; 3 d size, 10 to 12 inches high, 50c. each; small plants, 30c. each.
Seaforthia Elegans. Invaluable on account of its rapid growth and gracefully arched foliage. Price, plants from 5 -inch pots, 20 to 24 inches high, $\$ 1.50$; plants from 3 -inch pots, 30 c . each. Ptychosperma Alexandræ. The leaves are pinnate and beautifully arched; of a pretty pink when young, but green when mature; tall, slender trunk. Price, fine plants from 6-inch pots, $\$ 1.50$ each; young plants, 30c. each.

## Latania Borbonica.

This is the typical Palm, and is more largely used than any other. Its strong, healthy habit commends it to all, and gives it a fitness for window and room culture not possessed in the same degree perhaps by any other. (See cut.) Price, $\$ 5.00, \$ 3.00, \$ 2.00, \$ 1.00,50$ c. or 25 c . each, according to size.

## Rubber Plants.

 We have a splendid stock of this useful and ornamental plant, which will flourish under the most adverse conditions. Price $\$ 1.00$ each, 12 to 15 inches high. 18 to 24 inches high, $\$ 2.00$ each. Fine plants, 3 ft . high, well colored. \$3.00 each.

LATANTA bORBONICA.

## SPECIAL OFFER OF YOUNG PALIS.

Young Palms are easily grown into splendid specimens, one rear's growth increasing their value fourfold and frequently far more. As an inducement to our customers to enter this pleasant and proftable field, we make the following low offer: 1 Areca, 30 c . 1 Kentia, $35 \mathrm{c} . ; 1$ Cocos, $35 \mathrm{c} . ; 1$ Latania, 25 c ; 1 Seaforthia, 30 c ; 1 Dracena Indivisa, 25 c . Total value, $\$ 1.80$. This collection of five Palms and one Dracena we offer free by mail for $\$ 1.00$. If wanted by express, buyer to pay charges, we can send larger plants and leave all the soil on the roots.

## $\%$ PANSIES. *

Henderson's Superb Strain.
Grown from selected seed and offered as unequaled for size, form and color. Pansies are now largely used for bedding purposes, vases, etc., and these grand varieties will greatly increase their popularity. Price, 10 c . each, 75 c . per dozen, $\$ 5.00$ per 100 .
PHLOX DRUMMONDII. (Ready May 1st.)
One of the most popular of our summer-blooming plants, and very extensively used for beds of flowers, for vases and hanging baskets. They flower incessantly, and are truly marvelous in their varied colors. 10c. each, $\$ 1.00$ per dozen, $\$ 6.00$ per 100 . (See cut.)

> PHLOX AMIENA. (Hardy.)

Unsurpassed for spring flowers, the foliage being hidden under a profusion of bright pink flowers. 20 c . each, $\$ 2.00$ per dozen.

## PHLOX SUBULATA. (Handy.)

## ("Moss Pinks.")

A low-growing species, clinging closely to the ground and forming a carpet of bright green, literally covered in spring with flowers. Excellent for planting on high, dry knolls. We offer pink and white. 20c. each, $\$ 2.00$ per dozen, $\$ 12.00$ per 100 .

## HERBACEOUS PHLOXES. (Hardy.)

Most valuable hardy plants for partially shaded borders or shrubbery; there are numerous varieties. Those offered will be found to comprise all the desir able shades. 15c. each, $\$ 1.50$ per set.

## HERBACEOUS PAEONIAS. (Hardy.)

Magnificent hardy plants, almost rivaling the Rose in brilliancy of color and perfection of bloom. They thrive in almost any soil or situation, and when planted in large clumps on the lawn make a magnificent display of flower and foliage. Some of the varieties are very fragrant. They are perfectly hardy, require little or no care, and produce larger and finer blooms when well established. We offer red, white, rose and crimson. Price, 40c. each, for strong flowering roots.

## TREE PAEONIAS. (Hardy.)

These differ from the above in manner of growth -the former coming from the ground each season, while these form grand shrtbs, growing 3 to 5 feet high. Price, $\$ 2.00$ each, strong flowering plants.

PHALARIS ARUNDINAGEA VAR. (Handy.)
Better known, perhaps, as "Gardener's Garters." A striped grass, green and white; indispensable in \$ardy borders. 15 c . each, $\$ 1.50$ per dozen.

## POLEMONIUM CERULEUM. (HARDY.)

Commonly known as "Jacob's Ladder," from its beautifully cleft foliage. The flowers are bright blue, and borne in great profusion. It grows only about a foot high and is invaluable as a border plant. 20c. each, $\$ 2.00$ per dozen.

## PRIMROSE, ICE KING. (Hardy.)

It forms a dense tuft about 6 inches high ; the foliage is a light green and fringed. White flowers from 4 to 6 inches across Price, 15c. each, $\$ 1.50$ per dozen.

## SUMMER PINKS. (Ready May 1st.)

Dianthus, or Summer Garden Pinks, assorted colors, double and single. They make splendid plants for the garden. Price, 10c. each, $\$ 1.00$ per dozen, $\$ 6.00$ per 100 .

## PLUITBAGO LARPENTAE. (Hardy.)

A plant of dense, spreading habit; blue flowers in greatest profusion; valuable for cutting. 20e. each, $\$ 2.00$ per dozen.

PLATYCODON GRHNDIFLORUM. (Hardy.)
Large bell flower; attains a height of 2 to 3 feet, and covered with star-shaped flowers 3 inches across. Color, indigo-blue to
 pure white and all intermediate shades. Should be included in all collections. 15e. each, $\$ 1.50$ per dozen.

## TRADESCANTIA MULTICOLOR

A trailing plant of great beauty, and largely used for covering walls in greenhouses or for growing along the edges of the benches. The foliage is variegated-green, purple, carmine, white and crimson. One of the most valuable plants in our list. 15c. each, $\$ 1.50$ per dozen. (See cut.) We also offer two other sorts at 10 c . each, $\$ 1.00$ per dozen.

## Seedlino Petunias.

## henderson's selected strain.

In the whole range of what are known as "bedding plants" there is not one that can be said to excel in genuine usefulness the Petunia. They are of the easiest culture, growing in any soil that will maintain plant life, and producing the most showy flowers in the greatest profusion. The variety of uses they can be put to is extraordinarybaskets, vases, beds, borders-in any and every situation they find a congenial home. The "double" does not al ways produce double flowers, but a fair percentage will, and such as are single usually excel in size and color. We offer plants grown from seed of our own saving, which has been hybridized by hand, using only the most perfect flowers, thus ensuring a choice strain of the most beautiful kinds, a large percentage being beautifully fringed. Double Petunias (from seed), 15c. each, $\$ 1.50$ per dozen, $\$ 10.00$ per 100. Single Petunias (from seed), 10 c . each, $\$ 1.00$ per dozen, $\$ 6.00$ per 100. (See also page 128.)
rradesoantia.

NEW DWARF GALVLa, "WM. BEDMAN."
New Dwarf Scarlet Salvia,
This forms a compact bush completely covered with rich scarlet flowers. The engraving was made from a photograph of a plant in the open ground, which by actual measurement was only fifteen inches high and two feet across. It will be of the greatest value as a market plant for florists. Price, 15 c. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100.

## SALVIAS: (Assorted.)

Bethelii. Large bright green foliage, rosy carmine flowers.
Marmorata Nana. Dwarf, flowers striped scarlet and white.
Mrs. Stevens. Deep purplish maroon, a unique shade.

Patens. Deep blue, the finest color imaginable.
Splendens. (Scarlet Sage.) Intense scarlet, of great value for large beds. Price, $\$ 6.00$ per 100 .
Splendens Alba. Similar to above, but pure white. Price, 10c. each, for any of the above, $\$ 1.00$ per doz. ; set of 6 Salyias for 50 c .

## Rudbeckia Speciosa. (Hardy.)

Commonly called Cone Flower. It grows to a height of two to three feet and is covered through the season with showy heads of bright yellow flowers having a black disk in the centre. Price, 20 c . each, $\$ 2.00$ per doz.

## STEVIA SERRATA NANA.

A plant largely grown for cut flowers in winter. It bears loose sprays of white flowers, very attractive in bouquets, and for table decoration. Price, 10c. each, $\$ 1.00$ per doz. Serrata Variegata. Identical with the above, but beautifully variegated with white. It is of great value as a "bedding " plant to contrast with darker foliage. Price, 10c. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100.

## SWEET WILLIAM. (Hardy.)

old favorites in the garden, deliciously fragrant and wonderfully rich in color. Price, 15c. each, $\$ 1.50$ per doz.

## SEDUMS. (Stone Crop.)

Valuable for rock work or as a "carpet" for "foliage" plants in low growing masses.
Carneum Variegata. Variegated green and white. Acre. Bright green. Price, 10c. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

## Solanum Jasminoides Grandiflorum.

A climbing plant, but can be grown in bush form. Flowers star shaped, and borne in clusters often a foot across, pure white with a violet tinge on back of petals, and on the buds. Strong plants, 15 c . each, $\$ 1.50$ per doz.

## SMILAX VINES.

Familiar to every one. Easily grown if trained to strings or stakes. Price, 10 c. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

## Mammoth Verbenas.

Verbenas are now and have for years been one of our leading specialties. We carefully selected and improved our stock of the Mammoth Verbenas since we introduced them. Many kinds in richness of color and large white centre resemble Auriculas. (See cut.) B. of Oxford. Deep pink.

Miss Arthur. Intense scarlet. Antonio. Deep blue.
Willie Desmond. Fine scarlet, white
Marion. Reddish carmine.
Hourii. Brilliant pink.
Iona. Deep pink.
【INCT
Negro. Dark maroon.
Emma. Soft carmine.
Crystal. Pure white.
Climax. Glowing scarlet.
Gazelle. Rich purple.
Sapphire, Magenta.
Charm. White and crimson.
Price, 10c. each; set of 14 for $\$ 1.25$..
M MAJOR VARIEGATA.
One of the most useful drooping plants for baskets and vases, rery distinctly marked with creamy white on a green ground. 15e. each, $\$ 1.50$ per doz. Vinca Elegans. Similar to above, but plain green. 15c. each, $\$ 1.50$ per doz. Vinca Minor Alba. (Creeping Myrtle.) Very hardy, will grow in shade, and splendid for cemeteries. Large clumps, 50c. each.
Vinca Minor Cerulea. Similar to the above, but the flowers are blue. Largeclumps, 50c. each.

## SHRUBBY VINCA.

Handsome bushy plants, producing freely round single flowers $1 \frac{1}{2}$ inches across, suitable for pot culture and sunny flower beds. Price, 15 c . each, $\$ 1.50$ per doz.

## ZINNIAS. (Ready May 1st.)

For gorgeous summer and autumn display there is nothing that can equal in effectiveness the improved dwarl, compact growing, large-flowering Zinnias; growing only 2 feet high and bearing flowers of immense size, periectly double, showing no centre, and as perfect in form as Dablias. Price, 10c. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

## THYME. Gold and Silver.

Drooping habit and valuable for the edges of vases or baskets. The leaves are very fragrant. Price, 10 c. each, $\$ 1.00$ per doz.

vereenas.

# Hardy Shrubs, Rhododendrons, Hedge Plants, Etc. 

Below we offer a grand collection of hardy flowering shrubs for lawn decoration. Planted either singly or in groups, the effect of these is always magnificent when in flower. The shrubs we offer are all well-grown, bushy specimens and are finely rooted, having been twice transplanted. With such fine plants to start with, failure is almost impossible if properly planted. We are prepared to quote special prices on larger quantities of any or all the varieties here offered.

Amygdalus. (Flowering Almonds.) We offer these grand shrubs
in two colors-red and white. The flowers are as double as a rose and are exceedingly pretty. Price, 50c.
Azaleas (Ghent). Crimson, pink, yellow, etc. Price, $\$ 1.50$ each.
Azalea Amœna. Small, double reddish purple flower. Price, 75 c . each.
Althea, Double White. Beautiful shrub; double flowers.
Althea, Double Pink. Similar to above, except color, which is pink.
Calycanthus Floridus. Strawberry-scented shrub.
Deutzia Crenata. Pure white, tinged rose color.
Deutzia Gracilis. Pure white throughout; low, compact habit.
Exochorda Grandiflora. Pure white flowers; a grand shrub.
Forsythia Viridissima, Yellow flowers; blooms very early.
Japan Snowball. (Viburnum Plicatum.) A beautiful species; foliage deeply corrugated. The balls of flowers are from 4 to 6 inches in diameter, of the purest white, and almost cover the plant when in bloom. Price, 50c. each, $\$ 4.50$ per doz.
Kerria Japonica. Slender, graceful growth ; double yellow flowers.
Iilac. The well-known purple flowering variety.
Lonicera Tartarica. (Bush Honeysuckle.) Pink flowers which contrast beautifully with the foliage. They are very fragrant and appear very early in the season; a beautiful shrub. 35e. each.

## Hydrangea Paniculata Gnandifora,

The flowers are formed in large white panicles, 9 inches long, which change to a deep pink at the base as the season advances. It grows five to seven feet high and wide, and, as the flowers slightly droop, few plants have the grace and beauty of this grand shrub. Used largely in cemeteries. (See cut.) Price, $15 \mathrm{c} ., 25 \mathrm{c} ., 50 \mathrm{c}$., or $\$ 1.00$ each, according to size; $\$ 1.50, \$ 2.25, \$ 4.50$ or $\$ 9.00$ per doz., according to size.

## CLETHRH ALNIFOLIA.

(Sweet Pepper Bush.)
A very desirable dense-growing shrub, with dark green foliage and showy upright spikes of creamy white, intensely fragrant flowers, continuing in bloom a long time. The season of bloom is later than most shrubs, which is a valuable feature. Price, 30c. each, $\$ 3.00$ per doz.

## Prunus Pisardi.

Purple-leaved Plum. Foliage, fruit and shoots of bright purplish red, retaining its color during the heat of summer better than any other purple-leaved tree or shrub. Entirely hardy. Planted with Golden Elder, its beautifully colored foliage presents a most magnificent contrast. Price, 2 to 3 ft., 25c. each, $\$ 2.50$ per doz., $\$ 15.00$ per 100.

## SAMBUCUS AUREA.

Golden-leaved Elder. The finest golden-leaved skrub and invaluable for producing strong effects in grouping. Foliage large and handsome, of the richest golden yellow, which it retains throughout the summer, being the most brilliant in color and succeeding best when planted in full exposure to the sun. Price, 2 to 3 f $\mathrm{t}_{0}$, 25 c . each, $\$ 2.50$ per doz., $\$ 15.00$ per 100 .

## RHODODENDRONS.

These are among the grandest of our hardy flowering shrubs and cannot be surpassed for lawn decoration. The flowers range through shades of rose, pink, crimson, white, etc., 9 to 12 inches in diameter. Price, plants with 8 to 12 buds, $\$ 2.00$ each; set of six distinct named sorts for $\$ 9.00$. Plants with 4 to 8 buds, $\$ 1.50$ each; set of 6 sorts for $\$ 7.50$. Young plants, 6 to 10 inches high, 50 c . each, $\$ 5.00$ per doz.

MAGNOLIAS. (Hardy varieties.) In this grand class of plants for lawn decoration we offer Conspicua, pure white; Soulangeana, creamy white and purple; Stellata, pure white, very sweet-scented; one of the finest ornamental trees in cultivation. All extra large trees, 4 to 5 feet high, at $\$ 3.00$ each.
Philadelphus Coronarius. The popular Syringa or Mock Orange. Ribes. (Flowering Currants.) Assorted colors; very fine.
Snowberry. (Symphoricarpus Racemosus.) Pretty pink flowers, white berries, lasting late in fall.
Spirea Van Houttenii. Flowers pure white, borne in greatest profusion, one of the best in its class.
Spirea Prunifolia. (Bridal Wreath.) Pure white double flowers in May and June completely covering the branches. Crimson foliage in autumn.
Spirea Callosa. (Superba.) Large clusters of pink flowers borne freely from June to October. A grand hardy shrub.
Spirea Callosa Alba. Similar to the above with white flowers.
Viburnum Opulus. (Snowball.) Large drooping white flowers. Weigelia Candida. Pure white flowers; blooms in fall.
Weigelia Rosea. Rich rose-colored flowers.
All the shrubs on this page we can supply at 30 c . each, $\$ 3.00$ per
doz., except where noted.

From our extensive collection we have selected the
varieties offered as the best forgeneral use. The Straw-
berry plants we offer, being strong layered plants
which were transplanted into cold frames in the faid,
f planted out any time before May 5 th will, under
proper conditions, give quite a nice lot of fruib by
June 15th of the present jear. The plants here offered
are far superior to the untransplanted "layers" usu-
ally sold. We call particular attention to the PRICES

 competition when quality of stock is considered

The blossoms of all varieties are bi-sexual or perfect, except those marked with the letter. $\mathbf{P}$, which are destitute of stamens and are termed pistillate or imperfect. Pistillate varieties must have a row of a perfectflowered sort planted every 9 or 12 feet apart among them, or, better yet, $e$ very third or fourth plant in the now, to pollenize their blossoms. treated in this way they usually bear more fruit than the perfect-flowered varieties

## BUBACH No. 5 (P).

A superior variety in every respect, of large size and great productiveness. A prominent strawberry grower says: "he has tested every variety sent out in the last 20 years, and if all varieties were culled out but 10, he would place Bubach's No. 5 at the head of the list, on account of its large, bright, well-colored berries, its immense yield and fine flavor." Price, 30c. per doz., \$1.50 per 100 .

## SHUSTER'S GEM (P).

A magnificent fariety with an unusually strong and vigorous plant and bright, healthy foliage. Fruit large, globular shape, regular and uniform, maintaining a good size to the end, beautiful bright scarlet, excellent quality. It is only moderately firm, and hence is not especially adapted for distant shipment, but for the local market or for the home garden it is unexcelled. It does not need petting of any sort, and seems to adapt itself to almost any soil and location. It is a remarkable berry and combines all merits desirable in a Strawberry. Early to mid-season. 35c. per doz., $\$ 2.00$ per 100 .

SHARPLESS.
One of the most popular. Plant exceedingly vigorous, very productive. Fruit large crimson, firm and of good quality. A profitable variety for market and home. (See cut.) Price, 30c. pel doz., $\$ 1.50$ per 100 .

## GANDY.

This is the best and flnest late Strawberry yet introduced, and we find it to be the favorite late variety with fruit growers all over the country. By its use the season of stramberries is extended by nearly two weeks. The berries are of large, uniform size and shape, of bright crimson color, very handsome and showy, of superior quality, very firm, and ripen two weeks after Sharpless. For the home table it is invaluable, its fine quality, beauty and size rendering it a universal favorite. (See cut.) Price, 30 c . per doz., $\$ 1.50$ per 100 .

## BEDER WOOD. (Racster.)

A valuable sort either for home use or market. The fruit is medium, of good shape and color, firm, and of fine quality. It is productive, and we think all will be pleased with it. This, in our opinion, is the very best early variety ever introduced. It is not only very early, but immensely productive. For near market and home use this will be one of the most satisfactory $\$ 2.00$ per 100 .

## LOVETT

This fine variety ripens early but continues to near the close of the season, and, owing to its wonderful vigor of plant, it maintains a good size and good form to the end. From first to last, we have yet to see a Strawlerry produce so much fruit upon a given space. The berries are of the brightest crimson, excel in firmness any variety excent Wilson, which they equal, retain their bright colon and "stand up" longer than any other sort, and are of superb quality. In brief, it is an improvement upon both the Crescent and Wilson, from which two varieties it has undoubtedly descended, being much larger and more prolific than either. Its great merits are its early ripening, enormous yield, good size, bright color, and its firmness and good shipping qualities. The plant is perfection it self in habit and growth; the foliage is at all times hright and fresh, with not the slightest trace of rust to be found upon it. Price, 35 c . per doz., $\$ 2.00$ per 100 .

## Our Prices this Season are lower than ever.

Read what we say on this subject on pages 1 and 2.

## PARKER EARLE

A most wonderful producer, having fielded at the rate of 15,000 quarts per acre. Thorough trials prove its adaptability to all climates, outyielding all others in the South or North, producing prodigiously in either wet or dry seasons. This magnificent new berry originated in Texas and is named in honor of Mr. Parker Earle, the distinguished President of the American Horticultural Society. It produces wonderful crops on light soils and endures hot, dry weather better than most Strawberries. The plant is a robust grower, with perfect flowers, berries large, conical, regular and uniform, glossy crimson, flesh firm, reddish and in quality excellent. It is remarkably vigorous on all soils and under all conditions. Early to medium. (See cut.) Price, 40c. per doz., $\$ 2.00$ per 100.

## UESSIE.

This large, fine Strawberry has been tested over a large extent of country and has given universal satisfaction. The Wisconsin Horticultural Society, after examining the plants in fruit, unanimously adopted the following: "Resolved, That the show of the Jessie exceeds anything we have ever seen in size, productiveness and quality, and we believe it possesses more valuable qualities than any new variety now disseminated." Price, 30 c . per doz., $\$ 1.50$ per 100. (See cut.)

 cent. Quality pleasant sub-acid, very vigorous grower, with bright healthy foliage An early variety and one that we highly recommend. A decidedly valuable sort for the general grower. For healthy, vigorous growth and great productiveness it cannot be surpassed. . It is among the first to ripen and among the last to yield a good picking. (See cut.) 35 c . per doz., $\$ 2.00$ per 100.
JUCUNDA IMPROVED. One of the finest and most attractive of strawberries, excellent for the home garden and for markets where large, fancy fruit is in demand. It is really an improvement upon the old Jucunda, the berries closely resembling that old favorite and possessing all its good qualities, but the plant is as strong, vigorous and free from disease as the Wilson. It is, indeed, a grand varrety, and especially valuable for its large handsome fruit. Medium to late. (See cut.) 35c. per doz., $\$ 2.00$ per 100.
PARRY. For beauty, size, quality and productiveness, this variety is unsurpassed; the flavor is very fine, and the plants do well in most soils and locations. 30c. per doz., $\$ 1.50$ per 100 .

MICHEL'S EARLY. This is the only strawberry entitled to be called "early," being two weeks earlier than any other variety. It is a robust, strong grower, rooting deeply, and throwing large luxuriant foliage on long stems, with never a trace of rust or mildew. It yields bountifully, being as productive as the Crescent; berries medium to large, handsome regular form, color bright searlet. 30c. per doz., $\$ 1.50$ per 100 .

ERIE. The most popular of all the standard black. berries. The canes are of ironclad hardiness, of the strongest growth, free from rust, double blossom and all other diseases, and wonderfully productive, bending the robust canes to the ground with the weight of fruit. The berry is of the very largest size, exceeding the Wilson, Kittatinny or Lawton, of excellent quality, handsome and firm. Early. 60c. per doz., $\$ 4.00$ per 100 .

LAWTON. An old favorite, esteemed for its productiveness and large size. Delicious when fully ripe, but turns black in advance of ripening. Medium to late. Price, 50 c. per doz., $\$ 3.00$ per 100 .

WILSON JUNIOR. Takes the place of the old Wilson's Early; it possesses all its good qualities and is hardier and more productive, combining size, earliness and productiveness with the fine appearance and market properties of that variety. Tie fruit in all respects fullv equals that of its parent, Wilson's Early, which it has now completely superseded; holds its bright color and carries well to market. It proves entirely hardy in New Jersey, withstanding the winters here without injury, quite unprotected. Price, 50 e. per doz, $\$ 3.00$ per 100 .

## A few words about growing them.

Plant in rows four feet apart, and the plants three feet apart in the rows. So soon as the leaves turn yellow and begin to fall, remove all the old wood and cut back the young shoots a third of their length-cutting to the ground enough of these to admit air and light into the bush freely. When the currant worm appears, it can be exterminated by dissolving powdered white hellebore in the proportion of an ounce to a pail of water, and applied with a syringe upon the leaves. See our offer of insecticides on last pages. The 1-year plants can be sent by mail if 10c. per doz. additional is added. The 2 -year plants are too large for mailing.

FAY'S PROLIFIC. Has fully sustained the broad claims which were made for it by the disseminator upon its introduction; and it is decidedly the best red currant we have. It has been widely planted and has given general satisfaction. The bush is a strong grower, wonderfully prolific, and comes into bearing early. Fruit large, bright red, and of good flavor, and less acid than Cherry, which it is lapidly superseding. Those who want a profitable red currant and do not plant this variety are missing a valuable opportunity. 1-year, $\$ 1.25$ per doz., $\$ 7.00$ per 100; 2-year, $\$ 1.50$ per doz., $\$ 10,00$ per 100.

LARGE RED CHERRY. The most popular market sort, and uniformly the largest of all red currants except Fay's Prolific. Bunches large, berries very large, bright, sparkling crimson, beautiful, very acid.

How they are grown.
The Blackberries we offer are all strong Root Cutting plants which are vastly superior to the "sucker plants" so largely sold. The varieties offered are the very best on the market. For garden culture Blackberries should be planted in rows five feet apart with three feet between the plants in the rows. If wanted by mail, postage must be added at the rate of 10 c . per doz.
EARLY HARVEST. The earliest blackberry except Early King. The berries are not of the largest size, but very uniform and of a bright glossy blackness that renders them extremely enticing. For the South its value can scarcely be overestimated, and its early ripening brings it into market at a time when it has no competitors. Price, 50c. per doz., $\$ 3.00$ per 100 .

WHITE GRAPE. The largest and decidedly the best white variety, and one of the best of any for the home garden. Bunch large and long; berry large, handsome, translucent white, and of best quality, being less acid than others. Bush free grower and very productive. This is a splendid variety for table use by reason of its beauty and fine flavor, forming a lovely contrast to the red varieties. $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

BLACK NAPLES. A fine black currant and a general favorite. $\$ 1.00$ per doz., $\$ 6.00$ per 100 .

This fruit, so popular in Europe, is beginning to receive the attention in America that it well deserves. Plant in rows four feet apart and three feet between the plants in the rows. The culture is the same as the Currant, which please see.

## * INDUSTRY GO○SEBERRY. 炲

A Gooseberry possessing desirable qualities for table and market has long been a desidera. tum. The foreign varieties, wherever tried, have either mildewed more or less, or they have made an unsatisfactory growth. Hence a large, handsome sort of good quality has been mucb sought after. Although a foreign sort, it has done admirably for many seasons, being a vigorous grower and an immense yielder, and showing no signs of mildew. We confidently recommend it for the garden and market, being unequaled for size, flavor, productiveness and vigorous growth. Color, dark red. 25c. each, $\$ 2.50$ per doz., $\$ 15.00$ per 100.

## - DOWLNING GOOSEBERRY. *

The best of the American sorts and a vast improvement upon the Houghton, of which it is a seedling. Fruit large, pale green, and of excellent quality, both for cooking and table use. Bushes stocky, vigorous, hardy, very prolific, and nearly free from mildew, but densely clothed with large, sharp spines. We recommend this as the best for general planting. 1-year, 60 c . per doz., $\$ 4.00$ per 100 ; 2 -year, 75 c. per doz., $\$ 5.00$ per 100 .

We illustrated this in colors on the back cover of our catalogue in 1889. It still remains the best grape in its zolor for table use; in fact, too much cannot be said in praise of this as to quality and other properties. In color, form and size of both bunch and berry, it resembles Catawba, but ripens early-with the Delaware. Vine a free grower and productive. Price, 2 -year vines, 30 c. each, $\$ 3.00$ per doz.

## "EATON" GRAPE.

This promising new Grape is similar in foliage to Concord, and in growth, health, hardiness and quality is in every respeci its equal, while in size of bunch and berry it is much larger and more attractive in appearance. Leaf large, thick, leathery, covered on the under side with a thick brownish yellow down. Bunch large, sometimes twelve to twenty-five ounces, compact, double-shouldered; berries very large, many one inch in diameter, round, black, covered with heavy blue bloom; adheres firmly to the stem; skin thin but tough, pulp tender,

## DIRECTIONS FOR PKANTING.

Plant in rows six feet apart and eight feet apart in the row. Dig holes sufficiently large to amply accommodate the roots of the rine and use only fine surface soil in filling in, mixing with it a little ground bone. Cut back one-year vines to two eres, placing the lower one beneath the surface; cut back two-year vines to three or four eyes, putting two or three eses below the surface. Spread the roots out, after trimming them; place the stock of the vine at one side of the hole and fill up with fine soil, pressing down firmly with the feet. Set a stake by the side of the stock, to which the vine should be kept tied, which will be all the support needed for two years. Keep old wood trimmed off, growing fruit on new canes. Any manner of pruning that will admit the sun and air to the fruit will ensure a crop.

## MOORE'S "DIAMOND" GRAPE.

This is the product of a cross between that grand old variety, "Concord," and the highly esteemed "Iona," combining in one kind the two qualities most desired in a grape, viz., vigot and hardiness of vine with high quality of fruit. In vigor of growth, color and texture of foliage, with hardiness of vine, it is the equal of its parent, "Concord," While in quality the fruit is equal to many of our hothouse grapes. It is among the earliest and ripens from two to four weeks ahead of "Concord." Price, 2-sear-old vines, from original stock, 75 c . each; 1 -year-old vines, 50 e. each.
separating freely from the seeds and dissolving easily in the mouth. Very juicy; ripens with Concord or a little earlier. Price, 2 -year vines, 75 c . each; 1-year vines, 50 c . each.

## HARDY GRAPES IN VARIETY.

Agawam. (Rogers' No. 15.) Berries large, of bronze color; bunches of good size and form.
Brighton. One of the bestred grapes. (See cut and description above.)
Concord. One of the best old soris. Bunch and berries large; color black with a rich bloom.
Delaware. Red; bunches compact; berries small, sweet and of the most excellent flavor.
Duchess. Greenish white; splendid Guality.
Moore's Early. Resembling the Concura in style of growth and berry, ripening two weeks earlier. 40 c . each.
Martha. One of the best greenish white grapes; exquisite flavor. Niagara. A grand white grape; hardy, fine quality.
Salem. (Rogers' No. 22.) A splendid white grape, tenged with pink. Worden. Black; very juicy; large size; early.
Wilder. (Rogers' No. 4.) An excellent variety. Beries nsedium bunches large; color black. A good bearer.
Wyoming Red. A fine light red, medium size, splendid quelitr and wonderfully productive grape.
Price, very strong two-year-old plants, 30c. each, except mhers noted, $\$ 3.00$ per doz. Full set of 15 Hardy Grapes for $\$ 4.00$.

## FOREIGN GRAPE VINES. (For Glass-covered Graperies.)

MUSCAT OF ALEXANDRIA. Large grape of light golden color; the mest popular of the white kinds.
BLACK HAMBURG. Black. White Frontignan. White. Charlesworth Tokay. White. Royal Muscadine. White.

Lady Down's. Black. Cannon Hall Muscat. White

Splendid vines, $\$ 1.25$ each, $\$ 12.00$ Black. Erat vines of Black Hamburg, $\$ 5.00$ each.

Our Prices this Season are lower than ever. Read what we say on this subject on pages 1 and 2.

TIS favorite fruit is second only to the strawberry in importance. They do very well in a partially shaded place where they will receive one-half the sunlight. They may be planted in rows four feet apart with two feet between the plants in the row, or in hills four feet apart each way, setting three plants in a hill. In pruning, thin out the shoots in each hill to four or six; this is best done in the summer after the fruit is gathered, and at the same time cut out the old canes that have borne fruit so that the young shoots may develop and ripen their wood for the following season's crop.

## BuACK RASPBERRIES. "Caps."

## RED RASPBERRIES.

(If wanted by mail, add 10c. per doz.)
THOMPSON'S EARLY PROLIFIC. Probably the best early red raspberry for general cultivation that we now have. The plant is an excellent grower; canes erect, stout and hardy. Berries are medism to large in size, of a bright crimson color, very productive. It is the earliest red raspberry we have seen, coming into bearing just as the strawberry season is over. Price, 75 c . per doz., $\$ 5.00$ per 100 .
CUTHBERT. The leading market variety; proved of such general adaptability. Canes hardy and of strong rampant growth, with large healthy foliage, and exceedingly productive. Berries large, dark crimson, quite firm and of good flavor. Season late. Price, 50 c . per doz., $\$ 2.00$ per 100 .
MARLBORO. The largest of the early red raspberries, ripening a few days later than Hansell. The canes are hardy and fairly productive. Fruit exceedingly large, bright crimson, and of fair quality. Price, 50c. per doz., $\$ 2.00$ per 100 .
Hansell. Profitable on account of its earliness, bright color and firmness. Canes rather small, but hardy and productive; with tough, healthy foliage. Berries large, crimson, good quality and firm. Price, 50 c. per doz., $\$ 2.00$ per 100.

## YELrLOW RASPBERRIES.

Golden Queen. The most popular and best yellow Raspberry yet introduced. Of large size, great beauty, high quality, hardiness and productiveness. Fully equal to Cuthbert in size of fruit and vigor of growth. Price, 10c. each, 75c. per doz., $\$ 5.00$ per 100. (If wanted by mail, add 10 c. per doz.)

Plant about four feet apart each way, or in rows five feet apart with two feet between the plants in the rows. Thin out the wood which has borne fruit after the crop is off and pinch back the growing shoots when they are about four feet high, about eighteen inches long. The plants we offer are all transplanted, hence infinitely superior to those usually sold. (If wanted by mail, add 10 c. per doz.) LOVETT RASPBERRY. The Lovett Raspberry has the past season fully sustained, in a fruiting field of six acres, all that has been claimed for it; and, taken all in all, has proved itself to be by far the best black raspberry that has as yet been put upon the market. It is of ironclad hardiness, and is the strongest in growth of cane of any. In the home garden especially its sweet fine flavor and small seeds will make it welcome while its other prominent characteristics render it decidedly profitable for market growing. Price (transplanted plants), $\$ 1.25$ per doz., $\$ 8.00$ per 100 .
PROGRESS. (Pioneer.) Is a most profitable market sort, entirely hardy. Berries jet-black, very firm and of good quality. Price (transplanted plants), 50 c . per doz., $\$ 3.00$ per 100.
SOUHEGAN or TYLER. A very early blackcap and the leading early market sort. It ripens its entire crop in a very short period. Canes vigorous and hardy, with foliage healthy and free from rust; wonderfully productive. Fruit of good size, jetblack with but little bloom, firm and of sweet pleasant flavor. Price (transplanted plants), 50c. per doz., $\$ 3.00$ per 100.
GREGG. (Cap.) A popular market sort. Canes of strong vigorous growth and under good culture, productive. Berries very large, covered with heavy bloom, firm, meaty, and of fine flavor. It requires good strong soil to produce best results and responds liberally to generous treatment. It is not entirely hardy but suffers during unusually hardy winters. Transplanted, 50c. per doz., \$3.00 per 100.

## Cabbage and Cauliflower

That have been hardened off in cold frames and are ready to plant out at any time from March to end of April, of the following varieties:

If by mail, add 25c. to 100 price.
Cabbage. Henderson's Early Summer. Price, $\$ 1.00$ per 100, $\$ 9.00$ per 1,000.
——Succession. $\$ 1.00$ per 100, $\$ 9.00$ per 1,000.
Early Jersey Wakefield. $\$ 1.00$ per 100, $\$ 9.00$ per 1,000. (Ready Jan. 1st.) Cauliflower. Early Paris. $\$ 2.00$ per $100, \$ 15.00$ per 1,000. (Ready Jan. 1 st.) ——Henderson's Early Snowball. \$2.00 per 100, $\$ 15.00$ per 1,000 .
fow Field-grown plants of Cabbage and Cauliflower, ready May 15th, at half these rutes.

## Egg Plants (Pot Grown). (ready may 15 TH .)

N. Y. Improved. 10 c . each, $\$ 1.00$ per doz., \$6.00 per 100 .
Black Pekin. 10 c . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100.

## Pepper Plants (Pot Grown).

 (ready may 15the)Large Bell or Bull Nose. 10 c . each, $\$ 1.00$ per doz., $\$ 6.00$ per 100.
Sweet Mountain. 10c. each, $\$ 1.00$ per doz., $\$ 6.00$ per 100.

## Lettuce.

Boston Market, \$1.00 per 100, \$7.50 per 1,000.
Curled Simpson. $\$ 1.00$ per 100, $\$ 7.50$ per 1,000.

## Rhubarb Roots.

St. Martin's. A new English variety, now grown largely for the London market. It is not only immensely productive, but it is also one of the earliest, and, above all, it has a rich, spicy flavor, very similar to the gooseberry, when used for pies or tarts each, $\$ 3.00$ per doz.
Victoria. The standard variety. 20c. each, $\$ 2.00$ per doz.

## TOMATO PLANTS.

(ready may let.)
Early Ruby.
30 c . per doz., $\$ 2.50$ per 100 . Table Queen. 30 c. per doz., $\$ 2.50$ per 100. Perfection. 30c. per doz., $\$ 2.50$ per 100. Dwarf Champion. 30c. per doz., $\$ 2.50$ per 100.
Acme. 30c. per doz., $\$ 2.50$ per 100.

## Paragon. 30c. per doz., $\$ 2.50$ per 100 .

The Trophy (from headquarters seed). 30 c. per doz., $\$ 2.50$ per 100.
The Mikado. 30c. per doz,, $\$ 2.50$ per 100 . Ponderosa. 40 c . per doz., $\$ 4.00$ per 100

Our Prices this Season are lower than ever. Read what we say on this subject on pages 1 and 2.

WITH FORCE PUNTP ATTACHMENT.

Amaman Wam Bmen an Truat

WITH FAND-CART box.

WTTH SPRINELER ATTACHMENT.

The barrel is raised from the ground, carried to the place desired and instantly detached, all without handling. The weight being balanced over the axle, no lifting or down pressure is needed in transportstion. Other barrels for rarious purposes can be used as needed, extra trunnions being furnished, if desired, which can be readily attached to any barrel, thus increasing the value of the Truck. We have wheels of $1 \frac{1}{2}, 21 / 2$ and 4 inch tire, but always send Truck with wheels $13 / 2$ inch tire unless otherwise tpecifed. We also supply as extra attachments the following: A Box with trunnions and spring catch, making a very superior dumping Hand-cart. The Sprinkler is invaluable for watering lawns and sprinkling walks. Water is turned on and off by hand wheel and ball valve. Phe Force Pamp can be used for washing windows and carriages, spraying trees, watering plants and hot-beds. It is all brass, works very easily, and throws a stream 40 feet, and is well adapted for eprasing trees and shrubbery with insecticides. A Leaf Rack, very useful for removing leaves and litter. (Knocks down for shipment.)

"STANDARD" FLOWER POT,
4s adopted by The Society of American Florists at their Annual Meeting held in New Fork City, August 23d, 1888, and was awarded the only First-class Certificate of Merit, at their Annual Meeting held in Boston, Mass, August 20th, 1890.

As will be seen by the engraving, this Pot is stronger, less liable to break, and hence can be safely packed to carry to any distance better than the old style of Flower Pots.

Our "Standard" Flower Pots are used extensively in all the leading floral establishments in the United States.

 Send for our Special Planet Jr. Catalogue, fully describing and illustrating a large variety of Hand and Horse Power mplements.

## The Planet Jr. "Hill Dropping" Hand Seed Drill.

## Sows either in hills or in a continuous row.

This splendid new machine holds two quarts of seed and sows it with great regularity, whether full or nearly empty, at any depth from 1's to 2 inches deep. It will sow any kind of seed, whether as fine as Celery or as coarse as Beans, either in hills, $4,6,8$, or 12 inches apart, or in a continuous drill, and is easily changed in a moment from one to the other. It opens the drill, sows the seed, covers it, rolls it, and marks the next row, all at one operation. It sows equally well in any soil, on the level or on ridges; can be thrown in or out of gear instantly, so the discharge of seed can be stopped at the end of the row.

Sowing in hills uses much less seed, Baves much thinning out, and insures more vigorous plantsat even distances. Weight, 44 lbs . Low IVet Price, $\$ 10.00$.
(Manufacturer's price, $\$ 12.00$.) We have an extra attachment for sowing Onion Sed for (Manufacturer's price, $\$ 12.00$.) We have an extra
sets, distributing the seed 4 inches wide. Price, 50 c.

The Planet Jr. "Hill Dropping " Hand Seed Drill Combined with Fertilizer Attachment.
The seed-sowing arrangement of this drill is exactly the same as the one described above, with a fertilizer attachment in addition. The fertilizer hopper holds one peck; the machine will sow either seed or fertilizer alone, or both at one time, as desired; it will sow fertilizer either above or below the seed, and the quantity can be accurately gauged by dials-the discharge of either or both may be stopped or started instantly, separately or together. Weight, packed, 58 lbs. Our IVet Price, $\$ 15.00$. (Manufacturer's price, $\$ 18.00$.)

THE PLANET JR. HAND CULTIVATING AND HOEING TOOLS.

"Planet Jr." DOUBLE Wheel Hoe, Cultivator, Rake and Plow Combined. For Hand Power.
Saves labor in gardens. The tool is light and strong, can be used by man or boy, snd in much of the most tedious and particular work it does as much as six to ten men with the common hoe. You can hoe or plow to or from, cultivate, rake, etc., deep or shallow, safely when plantsare just coming through the ground, and until they are fifteen inches high, and all the time both sides at once or between the rows, at the speed of a moderate walk. The Rakes level and fine the ground for planting, gather stones and trash, cultivate plants when small, cover seeds, etc. The Hors cut close and clean, killing every thing they meet, leaving the ground level. The Courryator teeth mel low the soil deep or ow the soil deep or shallow. The Plows lay out deep furrows and cover them and hill-up or plow away, as desired. The Leaf GUards lift aside overhanging follage and leave them uninjured. They are de tachable. Our Net Price, 86.75 . Manu facturer's price, \$8.00. Weight, packed, 35 lbs

The "Planet Jr." SINGLE Wheel Hoe, Cultivator, Rake and Plow Combined. For Hand Power.
 Wheel Hoe excepting that it will not stradale the plantsas well when they are large, and in place of two plows this is furnished with one larger plow; the other sttachments are the same on both machines. The wheel can be at tached aT tached AT ONE SIDE OF THE FRAME to cultivate both sides of a row of small plants, spart can be perfectly hoed at apart can be perfectlo hoed a one passage. Our Net Price, \$5.00. (Manulacturers price, $\$ 6.00$.) Weight, packed, 26 lbs.

## HORSE BOOTS,

To prevent horse from sinking in damp or soft ground, $\$ 9.00$ per set of four.

HORSE BOOT.

OUB "LOW PRICED" LAWN YOWER.

## Incomparably the Superior of any Mower on the Market.

The sharp competition in Lawn Mowers for the past three years has so reduced prices that, in consequence, the quality of both material and workmanship has deteriorated to such an extent that our customers tell us that it is almost impossible to get a Mower that will cut satisfactorily for any length of time, and the many requests for a high-class Mower has induced us to manufacturean entirely new Lawn Mower, "The Henderson Perfect," and we claim for it-and guaraatee the claim-that it will prove the most durable of any side-wheel Mower ever manufactured, being made of best quality new iron, patent journal-boxes, and the knives of high-grade steel. It will keep sharp, cut well, and last three or four times as long as a cheap Mower. There are also many details of construction essentially different from any otber Mower, and which could not be afforded on low-priced machines, simply made to sell. For instance, the bottom knife-bar is stationary, making the frame perfectly rigid; the revolving cutter works in patent hangers, the cutter being adjusted to the stationary knife. A positive triple ratchet in each end is a grand improvement, giving great strength, and will last as long as the Mower. The gears do not move when the machine is pulled back, thereby saving much friction and wear, and a patent terrace mowing arrangement is a very effective and a valuable addition. The wheels are high ( 8 inches), enabling the Mower to cut high grass with ease. It is very light-running, noiseless, and leaves the surface of the lawn as smooth as velvet.
We reiterate, that "The Fenderson Perfect" has been made, regardless of expense, to be the best and most durable Lawn Mower ever gotten ap; and, although the price is necessarily a little higher than other Mowers, yet it will in the end prove much cheaper, aside from the annoying delays and expensive repairs experienced with cheap Mowers.

## 154 PETER HENDERSON \& CO., NEW YORK.-INSECTICIDE APPLIANCES.

NORTON'S PLANT DOSIER.

Henderson's portable hand FORCE PUMP.

OWDER

Norton's Plant Duster.
This is one of the best articles for dusting potatoes, vines, etc., with powder insecticides. A slight jolting movement distributes the dust in a fine cloud. It is made scientifically correct with a cylinder air-chamber projecting above the powder so that itnever clogs. Another point of merit is the projecting dust guard, which prevents the powder from escaping beyond the plant being treated. (See cut.) Price, $\$ 1.00$ each.
The "Stot" Insecticide Distriturter Is an oblong cylinder machine made of copper, divided by perforated divisions into cells, into which insecticides or manure is inserted. At each end of the machine hose is attached, one end connecting with the water
tap or garden pump, and the other to an ordinary hose nozzle, the water being forced through, and consequently, ing continuous in action, much time is saved, and on putting the composition in the celled divisions it is immediately ready for use. It can be used also with a Force Pump or Garden Engine. (See cut.) Prices, including filler and hose coupling, 2 cells, $\$ 9.00$; 3 cells, $\$ 10.00 ; 5$ cells, $\$ 12.00$. The insecticides best adapted for being applied in the Stott Distributer are applied inthe Saris Green Compound, Whate Oil Soap and Topacco Soap.

Henderson's Portable Hand Force Pump.
This is the bestand most durable portable hand pump in the market. Made of solid brass, very light and easily carried and works from any bucket or tab. Throws a Rtream 30 ft ., or a spray $20 \mathrm{ft}$. ; just the thing for throwing liquid insecticides on low trees, shrubs, plants, etc. (See cut.) Price, $\$ 5.00$.

## POWDER GUN.

For applying insect powders on pot plants, etc. (See cut.) Price, 2 oz. bize, 15 c . Postage, each extra.

## Eureka Fumigators.

For fumigating greenhouses with dampened tobacco stems; made of galvanized sheet iron, a damper regulates the draft ; no danger of fire; no ashes or litter. (See cut.) No. ${ }^{1}, 12$ in. high, $\$ 1.50 ;$ No. 2,16 in. high, \$1.85; No. 3, 20 in. high, $\$ 2.25$; No. 4, 24 in. high, $\$ 3.00$,

HYDRONETTE.
Throws a stream 30, or a spray 20 feet; handy and light: made of bolid brass; very durable. (See cut.) Price, complete, $\$ 5.00$.

Fied's "Perection" Spraying Outfit.
One hundred trees per hour can be sprayed with this pomp. It is fitted with ten feet of discharge hose and a graduating Spray three feet of return hose, so that, at every stroke of the pump, a small part of the liquid is redischarged into the barrel, which keeps the liquid well mixed. There is also a tight cap furnished to close up opening "B" when desired. The pump has 3 -inch cylinder and is furnished with iron suction cylucr, and as pipe, with a fine strainer at bottom ready t) Price of ontfit, complete (notinclud ut.) Price of outit, complete (notinciuding bare, with Rod, $\$ 9.00$; with Brass Cylinder, Plunger and Rod, \$10.00.
Bamboo Extension Rod. 8 feet long, with
$\$ 6.00$.
The Improved Knapsack Sprayer.
This valuable arrangement, invented by the U. S. Agricultural Department, is used for applying Bordeaux mixtures and other fluid remedies in a mist-like spray, for the treatment of grapes and other vegetation, for the prevention and cure of mildew, black-rot and kindred diseases. The machine is made entirely of copwill not corrode or rust it. The air chamber keeps up a pressure, so a continuous discharge is given No grape-grower con afford to be wiape-grower can ave) (See next page for fungicide cut.) (See next page for fungricides
ready for mixing.) Price, $\$ 12.00$. WOODASON'S VAPORIZING BELLOWS. This throws a spray as fine as mist, rendering the use of strong solutions perfectiy the fluids into every crevice, without using half the quantity required by syringe or sprinkler. (See cuf.) Price, large size, $\$ 2.00$. Small size (for house use), $\$ 1.25$.

Woodason's Double Cone Powder Bellows. This bellows is the best article ever in vented for destroying insects in the Conservatory, Garden, Orchard or Field; it will kill every bug upon one acre of potatoes, under the leaves as good as on top, in an hour; it will blow powder into fruit trees. This Bellows can be held in any direction without wasting powder, as it regulates its own supply, and it does notclog up. Price, $\$ 2.75$.
Woodason's Single Cone Powder Bellows. Price, large size, \$1.75. Small size, for conservatory and house use, $\$ 1.00$.

FLORENCE VAPORIZER.
For spraying fluids on house and garden plants. Price, 60 c . each, or by mail, 75 c .

"perfection" spraytig outpit.

enapbace sprater.

WOODABON'S BELLOWS, FOB POWDER AND FLULD.

EIDRONETTE.

## REMEDIES FOR INSECTS.

## ANT DESTROYER.

A non-poisonous powder which will destroy or drive away black ants from lawns, trees, plants, houses or other affected locality. Price, $3 / 4 \mathrm{lb}$. can, 60 c ., or by mail, 60c.

## Dust liberally near haunts.

## CARBOLIC SOAP.

For freeing animals from insects and washing the bark of trees and plants for scale, lice, etc. Price, 4 oz . pkg., 10c., or by mail, 14 c .
Dissolve 2 oz, to a gallon of water and apply with brush, sponge or spray.

## CARBOIIZED SOAP.

For peach, apple and other tree borers, also for wash For peach, apple and other tree borers, also for wash gallon cans, (makes 12 gallons paint,) $\$ 1.00$ per can.

## COLI'S IIQUID INSECTICIDE.

A combination of alcohol and other chemicals, for mealy bug, red spider, scale and aphis; we use it extensively in our greenhouses; it needs no further preparation and is one of the most convenient and effectual for ladies to use on house plants. Price, $3 / 2$ pint tin, 50 c ., by mail, 65 c .

Apply, undiluted, with a vaporizer.

## FIR TREE OIL.

The most popular and probably for "all round "purposes the best insecticide in the market for greenhouse Fand house plants; it frees plants of nearly all insects to which they are subject, and for the following it has no superior: Mealy bug. scale, red spider, aphis, (black and green, thrip, blight, worms and slugs, and is also a valuable remedy for animal parasites and insects. Price, $1 / 2$ pint tin, 40 c .; pint. 75 c . ; qt., $\$ 1.40 ; 1 / 2 \mathrm{gal}$., \$2.50; gal., $\$ 4.25$; if by mail, add 25 c . per pint.
Dilute $1 / 2$ pint to about 10 gallons of soft or rain water, (for tender plants or young growth make weaker.) Spray on with vaporizer, syringe or bellows.

## HELTHBORE, POWDㅍRD WHITE.

For the destruction of slugs, worms, caterpillars, etc. Less poisonous than Paris Green and London Purple and safer to use when fruits or vegetables are nearly ripe. Price, 25 c. per 1b. ; or by mail, 40 c .
Dry Application. Drest on dry, or mix 1 tb. with 4 lbs. of powdered lime or flour, dust on with powder duster or bellows or gun.

In Solution. Dissolve 1 oz, to 3 gallons of water; apply with syringe, pump or vaporizer.

## KEROSENE EMULSION.

For plantlice of any kind, cabbage worm, scale insects on apple, pear, orange, lemon and other trees. 5 galon buckets, (make 70 gallons wash,) $\$ 1.25$ per bucket.

## LONDON PURPLE.

Very poisonous and equally as efficacious as Paris Green and more soluble in water. Price, 25 c . $1 \mathrm{~b} . ; 10 \mathrm{lb}$. lots and over at 20 c . per lb. If by mail, add 15c. per $l b$. for postage.

## Use in the same way as Paris Green.

## PARIS GREEN.

A poisonous, insoluble powder, indispensable on the farm or garden-for preventing the ravages of potato bugs, codlin moth, worms, caterpillars, slugs and bugs. Price, 25 c . per 1 lb . ; 10 lbs and over at 23 c . per 1 lb . If by marl, add 15c. per lb. for postage.

Dry Application. Mix with plaster, flour, or other dilutant-one part to 101-apply with duster, bellows or gun. In Solution. Mix 1 lb, to 200 or 300 gallons of water. Apply with pump, syringe or vaporizer.

Bait. For cut worms, mix 1 oz. with 8 ozs. of syrup; mix thoroughly with fresh chopped grass or leaves.

## PERSIAN POWDER or BUTACH.

Henderson's Superior Grade.
Cheap adulterated grades are worthless. A most effective non-poisonous impalpable powder-so fine that it penetrates the innermost crevices-for worms, flies, aphis, and almost all kinds of insects-it is very effectualsuffocating them by filling up the breathing pores. Price, 40 c . ; 10 lb . and over, at 35 c . 1b. If by mail, add 15c. per lb. for postage.

Dry. Blow on with a bellows or gun.
Solution. Dissolve 1 oz. to 3 gallons of water, and apply with syringe or pump.

QUASSAITE.
Thisis a Concentrated Fluid Extract Quassia, held in suspension by Whale Oil Soap-adopted and officially recommended by the State Horticultaral Board of Washington, as a cheap and reliable non-poisonous insecticide for hop lice, aphis and all scale insects; nothing better for rose bushes and house plants. Quart cans, ( 50 gallons wash,) $\$ 1.00$ per can; 1 gallon cans, ( 100 gallons wash,) $\$ 1.50$ per can ; 2 gallon cans (200 gallons wash,) $\$ 2.50$ per can.

## SLUG SEOT.

A non-poisonous powder and a very popular insecti-cide-it requires no further mixing or preparationeasily applied and not injurious or dangerous to animals, the person applying it or fruits and vegetables treated. Very effectual in destroying potato bugs and otc. (By green and black fly, slugs, worms, caterpillars, etc. (by express or fright ony.) Price, per barrel of 235 ages, $25 \mathrm{c} . ;$ in tin cannister, with perforated top for agplying, 25 c . each; by mail, 35 c . Apply woth duster, bellows or gun ficient for an acre.

## THRIP JUICE,

A concentrated extract, arseniated, destructive for mealy bug, scale, thrips, bark lice, codlin moth, can-er-worm, elm leaf worm, beetles, caterpillars etc Price, $1 / 2$ pint can, $30 \mathrm{c} . ; 1 \mathrm{pt} ., 50 \mathrm{c} . ; 1 \mathrm{qt} ., 75 \mathrm{c} . ; 1 \mathrm{gal}$. 2.00 , 5 gal. keg, $\$ 7.00$.

Mix $3 / 2$ pint to 25 gallons of water and spray on with syringe, vaporizer or pump.

## TOBACCO DUST, FINE.

For green and black aphis, fleas, beetles, etc. Splendid fertilizer and preventive for insects in the ground and around root. Price, 10 c . per lb.; 5 lbs., 35 c .; 10 lbs. 65 c. ; $\$ 3.00$ per barrel; per ton, $\$ 2 \overline{0} .00$; if by mail, add 15c. per lb. for postage

For insects on plants, apply with powder duster or bellows.
For worms or grubs in the soil, apply liberally to the surface and rake in, or strew thickly in the drills before planting.

## TOBACCO EXTRACT.

A powerful extract of tobacco combined with sulphur for destroying plant lice, red spider, and insects of all kinds. Price, $1 / 2 \mathrm{pt} ., 30 \mathrm{c}$. ; pt., 50 c . ; qt., 75 c. ; gal., $\$ 2.00$. Dilute 1 part to 10 or more of water and apply with syringe, vaporizer or pump.
For insects at the root, dilute as above, and apply with watering-pot sufficient to reach the roots.

## TOBACCO STEMS.

Indispensable for fumigating greenhouses and con-servatories-for the destruction of green and black aphis and other insects. Price, 50 'b. bale, $\$ 1.00$; 100 lb., $\$ 1.75$; per ton, $\$ 20.00$.
Dampen thoroughly a few hours before using, place about a half pound over a handful of shavings in a fumigator. and light.

## TOBACCO SOAP

Effective for green and black aphis, turnip fleas, slugs, bark lice, etc. Price, 35c. per 1b. ; or by mail, боc. Dissolve 2 ozs, in a gallon of water and apply with pump, syringe or vaporizer.

## WEAIE OIL SOAP.

Makes an excellent wash for trees and plants where insects and eggs affect the bark, and for smearing on the trunks of trees to prevent worms from crawling up. Price, 15 c . per 1 bb ; 2 lb ., $25 \mathrm{c} . ; 5 \mathrm{lb}$., 50 c . ; 25 lb . and Price, 15c. per lb, it by mail, add 15c. per lb. for postage. For insects on plants, dissolve ia $\mathrm{\imath b}$, to a gallon of wator: apply with syringe or spraying pump.

For bark insects, elc., dilute with water to consistency of thick paint, and apply with brush.

REMEDIES FOR FUNGUS, such as Mildew, Rust, Black Rot, Etc.

## AMMONIACALSOLUTION OFCARBONATE

 OF COPPER (COPPERDINE).A famous remedy for fungoid diseases of plants, particularly for grapes, curing downy and powdery mildew, black rot, scab. etc. Price, 1 gallon cans, $\$ 1.50$. By express or freight only.
Dilute 1 pint to 10 or 12 gallons of water; apply with Knapsack sprayer or bellows vaporizer.

## GRAPE DUST, (HAMMOND'S.)

A non-poisonous powder for the remedy and control of maildew and rot on grapes, gooseberries, roses, etc. Price, 5 lb . pkg., 35 c .; 100 lb . keg , $\$ 5.00$. By express or freight only.

Apply with bellows or powder gun.

## BORDEAUX MIXTURE.

A valuable and indispensable fungicide for grape growers-thereby insuring larger crops aud finer grapes, and preventing failure. A sure cure and preventive for black rot, mildew and rust, also of great value for other plants suffering with kindred diseases. Price, 20 lb . plgs., $\$ 1.00$. By express or freight only.
Dissolve 10 lbs. io 25 gallons of voaler, and apply with Knapsack sprayer or vaporizer.

SULPHUR, FLOWERS OF.
For the prevention and destruction of mildew on roses and other plants. Price, 10c. per lb. ; $10 \mathrm{lbs} ., 60 \mathrm{c}$.
lbs. and over, at 5c. per lb. ; if by mail, add 15 c . per lb. Apply with bellows or gun.

SULPHO-STEATITE POWDER.
For lettuce mildew, powdery and downy mildew of the grape, rose mildew and other fungus diseases affectng plants under glass. Used as a dust. 25 pound

## HENDERSON'S MILDEW MIXTURE.

A fluid prepared by ourselves and largely used in our greenhouses and nurseries for cure and prevention f mildew on plants. Price, 1 pt. tin, 50 c ; ; or by mail, 75 c .

## BONE FERTILIZERS.

These are the true phosphatic manures, containing forty to fifty per cent. phosphate of lime and nitrogen equal to about four per cent. of ammonia. They decompose slowly in the soil and therefore form excellent permanent improvement, being less likely than almost any other kind of manure to waste in rainy feasons, particularly on sandy soils. There is no danger of burning the plants, whether applied as top dressing or directly to the roots. Excellent for top dressing lawns and grass land, for garden and field crops We can also recommend them highly for florists' purposes, for rose beds, mixing with potting soil, etc.

Quantity required. For permanent pasture and mowing lands, $\overline{2}$ to 1 ton per acre. For trees and vines, 2 to 4 quarts each. For top dressing, 1,000 to 1,500 Tbs. per acre. For field and garden crops, $3 / 41$ to 1 ton broudcasted and harroved in. For rose beds, pot plants, etc.,s 1 part to about 50 of soiv.

Bone Meal, Flour or Dust. This is ground very Ground Bone. This is moderately fine and particu- Pure Crushed or Coarse Bone. This is largely fine, decomposes more rapidly in the soil than the coarser grades, and is therefore more quickly beneficial. Price, 1 lb . package, 10 co ., (by maž, 15 c . per lb . extra.) 51 b . package, 30c. ; 101 lb . package, 50 c .; 25 lb bag, $\$ 1.26 ; 50 \mathrm{Ib}$. bag, $\$ 2.00 ; 100 \mathrm{lb}$. bag, $\$ 3.50 ; 200 \mathrm{lb}$. bag or barrel, $\$ 6.00$; per ton of $2,000 \mathrm{lbs}$., $\$ 45.00$.

Ground Bone. This is moderately fine and particuparticles are immediately beneficial, the coarse keepparticles are immediately beneficial, the coarse
Price, per 100 lb . bag, $\$ 3.00 ; 200 \mathrm{lb}$. bag, $\$ 5.00$; per ton of $2,000 \mathrm{lbs}$., $\$ 42.00$. nent for pasture lands, being rather slow but perma nent in action, and it is also indispensable in the prep aration of grape vine borders-for fruit trees, small Price, per 100 lb bag $\$ 3.00 \cdot 200 \mathrm{lb}$ bag $\$ 5.50$ Price, per 100 lb . $\$ 3.00 ; 200 \mathrm{lb}, \mathrm{bag}, \$ 5.50$; per ton of $2,000 \mathrm{lbs} ., \$ 45,00$.

## Henderson's Permanent Pasture Manure.

Especially intended for use on pasture or mowing Quantity required. 1,000 to 2,000 Tbss. per acre. Price, per bbl, or bag of 200 los ., $\$ 6.00$, or per ton of $2,000 \mathrm{lbs}$., $\$ 50.00$,

## BONE SUPERPHOSPHATE.

Benefits the crops more quickly than with any other form of bone, and on account of its readily available properties promotes early maturity, and it is invaluable for most crops, affording constant nourishment during their entire season's growth. In case of rotation of crop it is nearly as valuable for the last as for the first. Quantity required. For garden and field crops, 500 , to 600 lbs. per acre; for garden crops it is best drilled in at seed-sowing time. For top-dressing grass, 600 2bs. per acre.
Price, per bag of $200 \mathrm{lbs} ., \$ 5.00$; per ton of 2,000
ibs., $\$ 0.00$.

## Pure Pulverized Sheep Manure.

A pure natural manure, and most nutritious for plants. Its effect is immediate and lasting. Excellent for mixing with the soil for greenhouse plants (one part manure and six parts soil). Strewn over and dug into the vegetable garden, or placed directly in drills or It matis, promotes a rapid, steady growth until maturity. pound to five gallons of water can be used daily, if pound to five gallons of water can be used daily, if $1 / 4$ ton, 5 bags, $\$ 15.00$; per ton, $20 \mathrm{bags}, \$ 45.00$. ## BOWKER'S FOOD FOR FLOWERS.

An exoellent fertilizer for house plants. Easily applied by dissolving in water. Clean to handle, without odor, produces rich green growth and profusion of flowers. packages, enough for twenty plants one jear, $25 \mathrm{c} .$, or
Dy mail, 40 c .

## ROTTED BONE MANURE.

This is one of the best fertilizers for its price that has ever come under our notice. Mr. Wm. Crozier, who frops called our attention to it, states that used on farm crops for mangels, potatoes, turnips, fodder corn, etc. tried. At the low price at which it is sold, it will be seen that it makes an exceedingly cheap fertilizer. One seen that it makes an exceedingly cheap fertilizer. One
reason why it is sold so low is that it is not ground up as fine as most of the fertilizers that are offered in the market.
Quantity required. It should be broadcasted on and harrowed in at the rate of $1,500 \mathrm{lb}$. per acre.
We offer it in two grades, as follows: Plain, $\$ 22.00$ per ton (of 2,000 lbs.); Decomposed with Potash, $\$ 24.00$ per ton (of $2,000 \mathrm{lbs}$.)

## ASHES.

## Canada Unleached Hard Wood.

These contsin all of the fertilizing elements except nitrogen. The carbonate of lime in these ashes is worth five times as much as stone lime, being much more soluble and easily assimilated by plants. Ashes correct sourness in the soil, rendering sandy soils more capable of retaining fertilizers and making clay soils less stiff and more easily worked. They drive sway insects, and are indispensable for all crops requiring potash. They are very beneficial for garden and ineld crops, and are of high value for cabbages, potatoes, beans, grass lands and lawns.
Quantity required. Ashes should be applied in considerable quantities, 1 to 2 tons per acre, as one heavy application will help much more than the same quantity would, applied in fractions.
Price, per bbl. of about $200 \mathrm{lbs} ., \$ 3.00$; per ton of 2,000 lbs., $\$ 24.00$.

## LAND PLASTER, OR GYPSUT1.

It is an excellent addition to land requiring lime and sulphates, particularly for such crops as turnips, not so much due to its Falue as a plant food, as to its
absorbing and fixing ammonis and rendering soluble the inert plant foods of the soil so that the growing crops can take them up.
Quantity required. Broadcasted and harrowea:
Price, $\$ 2.00$ per barrel of about 280 lbs .; in 10 -bar. rel lots, at $\$ 1.75$.

## BLOOD AND BONE.

Manufactured of pare blood and bone. This fertilizes is a very concentrated source of nitrogen yielding ammonis, etc., by gradual decomposition, snd, in consequence, is superior for prolonged resulis; it is of exceptional value for garden crops, for mangels, turnips and other root crops, and also for corn, grain and grasses, for fruit-trees, small fruits, grape vines, and in fact all kinds of vegetation and all soils, but especially 80 on light soils.
Quantity required. When applied broadcast and harrowed in, from $1 / 2$ to 1 ton per acre shoulw be used. For garden crops it can be applied in the drill, 300 to 500 lbs . per acre.
Price, per barrel of about $200 \mathrm{lbs} ., \$ 5.00$; per tow of $2,000 \mathrm{lbs} ., \$ 45,00$.

## NITRATE OF SODA.

This is valuable solely for the nitrogen it containe, equal to twenty per cent, of ammonis. It is chiefly a stimulant; it is used in addition to other fertilizers. It crops fully plant food of the soil more assimilable. It is valuable for grain, fodder corn, sugar beets, potatoes, grasses, peas, beans, clover, etc., and is generally an effectus) remedy for clover sick land.
Quantity required. Being eatremely soluble it should not be applied until the plants are above ground, when 100 to 150 pounds per acre, mixed with wood ashes or land plaster, for convenience in applying, is generally used.

Price, per 51 b . package, 30 c ; 10 Ib . package, 50c. ; 300 lb . bag $\$ 9.00$ (Prices for $\$ 2.00 ; 100 \mathrm{lb}$. bag, $\$ 3.70$ cation.)

## HENDERSON'S LAWN ENRICHER.

MENTM
A fertilizer which we have found to be never-failing in inducing a rapid and rich green growth to the lawn. It meets the wants of hundreds who desire a clean, portable and convenient lawn dressing.

Quantity required. $A 10$-lb. package is sufficient to go over an area of 300 square feet, or for forming a nero lavom, from 1,000 to $1,500 \mathrm{Tbs}$. per acre, or a smaller quantity for renovating an old one. Prices, $5-\mathrm{lb}$. package, 30 c .; 10-1b. package, 50 c .; $25-\mathrm{lb}$. package, $\$ 1.25 ; 50-\mathrm{lb}$. bag, $\$ 2.00 ; 100-\mathrm{lb}$. bag, $\$ 3.75$; per ton of $2,000 \mathrm{lbs} ., \$ 60.00$.

## WE ALSO SUPPLY ALL OF THE MAPES CELEBRATED FERTILIZERS.

1 F. O. B. Cars or Boats, N. Y.-and will mail new descriptive pamphlet and price list to all applicants.

# THE "HENDERSON" LAWY GRHSS SEED. 

# and for removating old lawns, bad spots, etc., it is without a rival. 

Full printed instructions of "How to Make a Lawn" in each package.
 HAT the "Henderson" Lawn Grass Seed is the finest mixture ever offered, the immense quantity we annually sell is the best proof we can offer. It is the best lawn seed for our American climate, and is composed of various grasses that grow and flourish during different months of the year, so that a rich, deep green, velvety lawn is constantly maintained. The Henderson Lawn Seed is the result of several years' careful experimenting, and as we now offer it the mixture is unequaled. It may not also be generally known that it is, relatively speaking, the cheapest seed offered, Lecause while the lawn grass mixtures of other seedsmen will not average over 14 lbs , to the bushel, the Henderson Lawn Seed will weigh from 20 to 21 lbs. per measured buskel. The quantity required for making new lawns is 5 bushels per acre, or for renovating old lawns 1 to 2 bushels, For a plot $15 \times 20$, or 300 square feet, 1 quart is required for new or 1 pint for renovation. Price, 25c. per quart, $\$ 1.50$ per peck, $\$ 5.00$ per bush. (If by mail, add at the rate of $5 c$. per quart for postage).

## TESTHIONTALS.

The Lavn Grass which I bought of you in April gave entire satisfaction, although it had no opportenity to do its best on my place, where the soil is a stiff adobe, in some places noi a joot deep, overlying a bed of gravel. Water runs through it as through a sieve. Before planting my own lawn, I had the year be-

TERRACE SOD MIXTURE. A special misture of grasses best suited for sowing on terraces, railroad embankments and side hills. Grasses that produce strong, spreading roots, thus preventing heavy rains from washing them out, that will withstand drought and exposure, thrive on shallow soils, and at the same time produce a rich velvety green turf throughout the season. Price, 35c. per quart, $\$ 2.00$ per peck, $\$ 7.00$ per bushel. If by mail, add at the rate of 5 c . per quart for postage.

## SUNNY SOUTH" LAWN GRASS. Is

 specially prepared for the South or for very dry sections, and contains all the best grasses that are by nature adapted for hot dry situations. Price, $\$ 7.00$ per bushel, $\$ 2.00$ per peck, 35c. per quart (If by mail, add at the rate of $5 c$. per quart for postage.) SHADY NOOK" MIXTURE is a combination of fine dwarfgrowing evergreen grasses, thriving in the shade under trees, etc. Price, 35 c . per quart, $\$ 2.00$ per peck, $\$ 7.00$ per bushel. (If by mail, add at the rate of 5c. per quart for postage.)
## The "Henderson" Lian Einrigher,

A Clean, Portable and Convenient Lawn Dressing for New or Old Lawns, which we highly recommend.
